A 99th Message To All Friends And Customers from Radio Yesteryear... We Interrupt This Catalogue For An Important News Bulletin!

Dear Friends:

The big news in this 5th catalogue devoted to "The Best Of Old Time Radio" tapes is that we now have 1461 different tapes in this series of audio cassettes. Even though "The Best Of Old Time Radio" is just one of the many series of cassettes we offer, it's the most popular and even better, the least expensive!

For those poor souls who don't have all these tapes, in fact, who don't have any of them (shame!), let me briefly tell you about one of my favorite products. "The Best Of Old Time Radio" are audio cassettes that I've personally selected as being typical of all that was fun about listening to the radio. Perhaps they weren't always the most famous series on the air, but they are all great radio. I listen to and enjoy every show before I issue it, and I think you'll like them too!

In addition to being a great product, I can offer them at a great price! They sell for as little as \$3.20 each. CAUTION: Because of an increase in the cost of materials and

labor, there will be a small rise in the price of "The Best Of Old Time Radio" effective soon, I urge you to order now! At this low price, they even come in our "Customized Collector's Cases" at no extra charge (see the order form for details).

I have an even better product up my gartered sleeve! I mean our "Custom Service" which is our original product from 28 years ago. We now have 57,500 radio shows in our computerized catalogue. We have added an average of 6 shows a day, every day, for the past 10 years and are still at it! These radio programs are in the finest collection, in the best audio condition in the world. So while "The Best Of Old Time Radio" tapes are **my** choice, the "Custom Service" and our free "Research Reports" are **your** choice! If you're looking for great radio at a great price, you've got the catalogue for them right in your hand. If you're willing to pay for **exactly** the program or person you want to hear, look below to learn how to get 3 free "Research Reports."

Thanks for listening...until next time!

Three FREE
"Short Form"
reports

from this
catalogue!

What's a *Research Report*? It's a list of the radio shows that we have in our archives **OR** it's a list of the shows on which a particular performer appears. We call them "show reports" or "people reports" for short. A few listings are sent for research purposes only and are not for sale by Radio Yesteryear. We CANNOT research programs by date, or by the titles of songs,

or any other way. Just "name of program" or "name of person."

List below the research reports (either "show reports" or "people reports") you'd like and the type of report you'd like for each. Be sure to include the correct amount, **three Type #2 or Type #4 reports are free with any order from this catalogue!**

1. _____ Type # _____ (see below for choices)
2. _____ Type # _____ (see below for choices)
3. _____ Type # _____ (see below for choices)

Our computer database is "on-line," allowing us to search through the tens of thousands of programs and personalities in our archives much more effectively. We offer four types of reports:

Type #2: Program Listings Short Form. These are listings of the availability of a program by its title. It shows the catalogue number, the broadcast date, program number (when known), story title (if applicable), audio condition and duration. *Type #2 reports are available for \$1.00 each.*

Type #3: Program Listings Long Form. These are expanded descriptions of each program, showing the source, plot description, cast members and all other information known. *These reports are available for \$2.00 each.*

Type #4: People Listings Short Form. These are listings of the availability of a person (or a group) such as actors, writers, announcers, musicians, orchestras, etc. It shows the catalogue number, broadcast date, name of program, audio condition and duration. *These reports are available for \$1.00 each.*

Type #5: People Listings Long Form. These are expanded descriptions similar to Type #3 above, but researched for performers, writers, announcers, etc. *These reports are available for \$2.00 each.*

Of course, we do not have every radio show that ever broadcast, nor examples of every actor or musician that performed before a microphone. Therefore, please be prepared for some reports to come back marked "None Available." Mail to Radio Yesteryear, Box C, Sandy Hook, CT 06482

P.S. I personally recommend type #3 and type #5 reports. They're MUCH more helpful! (But they're not free!) - M.R.
