The National Lum & Abner® Society Tape Library

WELCOME to the National Lum & Abner Society's Tape Library! While a large number of the *Lum and Abner* radio broadcasts were never recorded... primarily during the 1931-34 and 1936-39 periods... this catalog contains every episode that is known to exist on tape or transcription disc. The dates have been determined by constant referral to the original scripts.

At this time, our shows are available as cassettes only, not reel-to-reel. Seeming gaps in the numbering system of the tapes exist in the event that more shows are discovered to fill in those gaps.

This is how the NLAS Tape Library operates: beside each tape number is a specification of the length of the cassette. (We use only 60- or 90-minute cassettes.) Select the tapes you wish; then, for each one, send a blank cassette of that same length, along with \$3.00 each, to the NLAS Executive Secretary:

**Tim Hollis
#81 Sharon Boulevard
Dora, AL 35062**

We must ask that you limit your orders to five tapes at one time (at \$3.00 each, or \$15 total). Also, the tapes must be completely blank! Our tape duplicator does not erase as it copies, so if there is anything recorded on the tapes you send, our recordings will be dubbed on TOP of it. **ALSO, because of the volume of orders we process, it would be very helpful if you remove the plastic wrappers that most commercially-sold cassettes come wrapped in!**

A HINT: When buying blank cassettes to send, please try to choose good quality tapes. Do not pick the local discount store's 3-for-\$1.00 deal. The plain white cassettes available in bulk quantities from most electronics stores are fine.

The NLAS has attempted to ascertain that the shows in its Library are of the best sound quality possible. However, due to the age and varying sources for the recordings, some sound problems have cropped up from time to time. When these difficulties occur, they have been duly noted beside the date of that particular episode.

Until the dubbing process from the original 16-inch transcription discs was begun, very few *Lum and Abner* episodes survived with their opening and closing commercials intact. That is changing rapidly; refer to the particular section of the catalog to determine whether commercials are included or not.

Happy listening, and **WONDERFUL WORLD!!**

(The following episodes are dubbed from original Horlick's Malted Milk discs. Except where noted, all contain their original opening and closing commercials. Dates given are for the original network broadcast; however, these discs were recorded for some sort of "bicycling" or syndication to individual radio stations on the Pacific Coast. Because they are made from inferior materials, a certain amount of scratchiness and surface noise will be noticeable.)
