

A PERSONAL NOTE: The death of band leader Guy Lombardo, less than a month after the passing of Bing Crosby, makes it a double loss for the nation--and the world--in the field of entertainment. Both Guy and Bing were strong influences in the world of music primarily, and the measure of their enormous talents lay in the enduring quality of their performances: both had celebrated a half century in show business this year...As fate would have it, the passing of both Guy and Bing has taken from us the two men who had become popular symbols for the celebration of Christmas and New Year's. Bing's association with the song, "White Christmas," is now an established tradition for evoking sentimental feelings for family and home at the time of holiday. And Guy had become equally a tradition for ushering in the New Year. "Mr. New Year's Eve" was an appropriate label.

We have lost both Guy and Bing, but they have left us a legacy that will live long beyond them. This year, it may be difficult not to experience a tinge of sorrow when we hear both "White Christmas" and "Auld Lang Syne" during the coming holidays. But let us rejoice, at the same time, that we have known two men who have brought good and lasting things to our lives. (New Haven Register; Nov 8, 1977.)
