NOVEMBER 1978

This month we're featuring C B S Standard Output tape at a special low price. This tape, made by the Columbia Magnetics division of the Columbia Broadcasting System, is very similar to the well known Ampex 641. In fact, many of our customers who had regularly used the Ampex have switched to the C B S. The C B S has been selling very well lately, so we made a larger than usual purchase and have decided to offer it at a special price for this month only. At our regular prices it's a good value. But at these special prices it's unbeatable!

A SPECIAL ANNOUNCEMENT CONCERNING DELUXE PACKAGES:

Besides the addition of a poly bag and choice of boxes as announced last month, we now include self-adhesive labels and an index sheet.

We buy AMPEX 400 series, 600 series, and C B S Standard tape in large pancakes and wind them onto reels at our own facility. STANDARD means the tape is supplied wound on a standard reel, and packaged in a plain white box. Our DELUXE package features the tape on a heavy duty reel, which better protects the tape from dust and handling. It is placed in a clear poly bag before being packaged in your choice of a white, black, brown, or blue box. Self-adhesive labels and an index sheet are included.
