FOREWORD

THIS, the sixteenth edition of RADIO ANNUAL is a volume dedicated to the accomplishments of the broadcasting industry—the dramatic story of your success in widening the field of communications.

A GAIN this year, as in the past, we have had the whole hearted support of all segments of the industry in compiling an up-to-the-minute factual record of the achievements of the radio broadcasting during the past year.

THE story of radio's progress in 1953 is a vibrant one, for never before have broadcasters put their shoulders to the wheel with greater zeal in selling the effectiveness of radio as an advertising medium.

TO all of you we express our appreciation of your support in making this edition the most comprehensive reference volume in the history of the broadcasting industry.

JACK ALICOATE
Editor in Chief

Let ~~George~~ do it!

(Passing the buck makes \$en\$e when you let an expert do it.)

Let Audio-Video do it!

If you're looking for service and know-how...
If you're talking about recording on disk or magnetic tape ...

Now-duplicate on Tape!

The new money and time-saving method of duplicating transcribed programs on the only high quality duplicating equipment in the U.S.A.

Let us prove it!

SARRATM

SHOOT TO SELL...

Sarra's team of video and audio specialists are advertising men first. They work together to create TV commercials which dramatize product appeal through story boards that are planned and executed with verve and imagination, interpreted through ingenious live action, stop motion and animation.

Technical skill and the unvarying excellence of Sarra's *Vide-o-riginal* prints, made in Sarra's own laboratories, assure the same clear, brilliant home screen reproduction every time.

When you give Sarra your assignment you can be *sure* that the camera is always focused on the main target . . . *sales*.

You call the shots . . . let Sarra make them!

THE GREATEST SHOW ON EARTH

AM, TV, FM ALL ON MARCH

Interest Rekindled In FM As Each Medium Gains

By **PAUL A. WALKER, Chairman**
Federal Communications Commission

AS FAR AS broadcasting is concerned, 1953 should see a continued expansion of TV primarily, with more small day-time AM stations squeezing into the standard broadcast band, and prospect of rekindled interest in the hardly scratched possibilities for FM.

The rocketing attention to TV, which had its impetus in the removal of the freeze last year, has since been augmented by many new station grants, the first transcontinental inaugural telecast and other popularizing events. Figures vary from week to week, but the post-freeze TV grants are now more than twice the number of the previously existing TV stations. Every state will soon have one or more TV authorizations, and new non-commercial educational TV facilities should grow proportionately.

Many day-time AM stations of modest power continue to wedge into the congested AM spectrum, with the result that more than 2,500 AM stations now hold authorizations, and several hundred applications for new AM facilities are pending.

Also, new interest is being evinced in FM. Though many FM construction permits have been surrendered since 1948, the number of licensed FM stations has shown a net increase each subsequent year. At the present time, more than 700 FM stations are authorized, of which number more than 100 are non-commercial educational outlets attracted largely by opportunity for economical low-power operation.

But the actual number of programming stations is not the only thing the broadcaster should be interested in. Radio authorizations on the books of the Commission now, for the first time, exceed the 1,000,000 mark. Many of these affect the broadcaster directly or indirectly.

For example, more than 1,500 authorizations are for operation of auxiliary broadcast services, such as remote pick-up, studio-transmitter links, and experimental and developmental facilities.

Then there are nearly 700,000 authorizations for radio operators of different classes to operate broadcast and other radio stations. Non-broadcast radio station authorizations now exceed 225,000. They cover many more portable and mobile transmitters. And the 115,000 amateur radio operators constitute a training ground for future manpower requirements of the radio industry.

In addition, the common carrier regulation is of vital concern to the broadcaster, because it is a factor in what he pays for program relay, whether it be by microwave or coaxial cable or ordinary telephone lines.

CHALLENGE -- AND SUCCESS

A Tribute To Success Of '52; Challenge Of '53

By HAROLD E. FELLOWS, President
National Association of Radio and Television Broadcasters

THE broadcast media appear destined for their most successful year in 1953. This prediction derives from careful study of economic trends, and from conferences with broadcasters in markets of every size throughout the nation—realistic, shirtsleeve sessions wherein the industry's positive and negative factors were discussed frankly and fully. On these bases, I foresee greater listening and viewing, keener competition for audiences and markets, increased revenues—and more responsibilities and problems—in the year ahead.

Broadcasting thrived in 1952. Radio's net time sales of more than 464 million dollars (after discounts and commissions), according to recent industry estimates, set a record for the medium, reaffirming its claim as the most economical mass advertising method yet devised. Its coverage was also greater than ever before. With 110 million receivers in circulation, all but two per cent of the public had access to radio.

Despite the three-year construction "freeze," finally lifted in mid-April, 1952, the net sale of time by television stations and networks totalled nearly 289 million dollars for the year.

A billion dollars' worth of business for the two media in 1953 does not appear too wild an estimate.

Income, however, is by no means the sole criteria of broadcasting's worth. Radio and television in 1952 cooperatively staged one of the most successful campaigns ever launched; and through it they sold an intangible—"good citizenship" to the hilt. Participating wholeheartedly in the nationwide "Register and Vote" campaign staged by the National Association of Radio and Television Broadcasters in conjunction with the American Heritage Foundation, radio and television solicited—and delivered—a record vote of more than 60 million ballots in the Presidential election, a drive which enlisted the co-operation of all networks as well as 3,090 local and TV stations.

The lifting of the TV "freeze"—probably the most significant single industry development in 1952—instituted a boom which appears likely to continue for sev-

eral years. In January, 1952, there were only 107 operative TV stations and 15 million receivers in circulation. By the end of the year the number of stations had risen to 129, due to spirited bidding for allocations as the public demanded complete national coverage, with 20 million sets in circulation.

Barring any cut-backs necessitated by increased defense production, it isn't unreasonable to believe that another one hundred stations will be on the air by the end of this year, or that the sets-in-circulation will soar to nearly 30 million. Before discounting this as a fantastic prediction, recall if you will, that the majority of past television estimates have proven to be models of conservatism!

While NARTB studies and surveys point to a successful year for radio and television, it must be added that they also indicate problems ahead for both.

There are unmistakable signs of upward trends in operating costs for AM, FM and TV. Although a five-to-ten per cent increase in total retail trade is expected, wage increases and rising equipment and servicing costs also loom, and intelligent operating economies must be practiced in order to buoy per-station income. Standardizations of equipment and techniques are constantly being developed as an aid to economical operation, and management is striving for greater efficiency of personnel, as well.

A tendency toward a "buyers" market in most consumer goods indicates the probability of expanded advertising budgets, and broadcasters will compete intelligently and aggressively for an equitable proportion of this additional income. The likelihood that the excess profits tax will be terminated or relaxed by June 30 also augurs well for the profits picture.

The labor situation is another area of concern. Union membership drives seem to be accelerating; and with the increasing interest evidenced in fringe benefits and profit-sharing programs by these groups, it is not likely that many union contracts will be renewed automatically or without change. Congress indicates an inclina-

(Continued on Page 775)

JACK BENNY

TV LEADING INDUSTRY RISE

Radio Figures Also Soaring To Record Heights

By FRANK BURKE,
Editor, Radio Television Daily

RADIO and television business was good in 1952 and if predictions are accurate it will be even better during 1953. This optimistic outlook is not the dream of a soothsayer. It's predicated on facts and figures during the past year and projections for the year ahead.

Television is on the threshold of tremendous expansion as new markets open up and the demand for telecasting equipment and receivers exceed the output of production lines. The wise ones say that the industry will produce around 6,500,000 sets during 1955 with a total retail value of around \$2 billion. Other millions will be spent for transmitters, studio equipment and camera-chains as more stations go on the air.

The radio picture, too, looks promising. Today, according to BAB figures, there are 112,000,000 radio sets in operation in U. S. homes. In addition, 27 million car radios are in daily use. Production schedules of leading manufacturers continue to be high for all models of radio receivers with table and car radios leading in popularity.

Turning from the manufacturing picture to the business of broadcasting, it is estimated that the radio net time sales for 1952 was over 465 million dollars as compared to 451 million in 1951. Spot sales and region networks showed the greatest increase in time sales with the volume of network sales reported to be down as compared to 1951.

An all-time high of \$17,462,216 in television billings for December brought total network TV gross charges to \$180,794,780 for 1952, according to Publishers' Information Bureau's monthly report. The past year's total compares with \$127,989,713 in 1951, \$40,778,885 in 1950 and \$12,294,513 in 1949.

The programming pattern in radio has been interesting. News, as always, has been an easy sale and music programs have been next in popularity. However, recorded dramatic and mystery shows with good merchandising tie-ups have been increasing in popularity.

In television, variety programs, quiz,

forums and news rate high in the estimation of the viewers. The filmed programs are increasing in number; and this year will see an even greater percentage of the programming on films. This is especially true in secondary markets where limited program budgets make it necessary to by-pass live talent shows and present movies, short subjects and kines to the viewers.

Trade organizations continue to become more active, with the National Association of Radio and Television Broadcasters under President Harold E. Fellows doing a good job for the radio and TV broadcasters. Two other organizations which have made great contributions to the broadcasters the past year are Broadcast Music, Inc., and Broadcast Advertising Bureau. BMI and BAB, which conducted successful sales and programming clinics last year, plan to pool their efforts this year and will jointly sponsor radio clinics under auspices of state associations this summer. These meetings, timed not to conflict with NARTB district meetings, hold promise of engendering even more enthusiasm in radio sales for the year 1953. It is significant to note that radio and television time sales on the local level increased immeasurably the past year and will probably continue to rise during 1953.

Other associations also having made valued contributions to the industry the past year include the Radio Television Manufacturers Association and Better Business Bureau. Both took an active part in establishing ethical practices in the sales and servicing of television sets during the past year.

The varied activities of industry organizations have without question done much to sustain interest in commercial radio and to aid in the expanding television broadcasting field. They have worked hand in hand with networks and stations in keeping communications to the fore as advertising media. That they have succeeded is indicated from the business outlook for 1953.

TV SURGE HIGHLIGHTED '52

Video-Equipped Homes Increased 40% In Year

By BRIG. GEN. DAVID SARNOFF, Chairman of the Board,
Radio Corporation of America

TELEVISION greatly extended its service area and enlarged its stature as one of America's major industries in 1952. Television-equipped homes increased from 15 million in 1951 to nearly 21 million at the end of 1952—a gain of 40 per cent.

New opportunities for continued expansion of television and all phases of electronics took definite shape this year in the development of the latest marvel of science, the transistor. This tiny device, which performs many of the functions of electron tubes, has reached a stage of development that demonstrates the profound influence it will have on the future of electronics and communications. Its further development will greatly broaden the base of the electronics art, enabling it to expand into many new fields of science, commerce and industry.

The two most significant steps in television progress during the past year were: the licensing of new stations permitted by lifting of the TV station "freeze," and the opening of UHF (ultra-high frequencies) for television broadcasting.

Today forty-seven per cent of American families have television sets, and more than sixty-five per cent of the population is within range of one or more TV stations. At mid-December, 117 TV stations were on the air. Construction permits had been granted to 135 others, many of which plan to be in operation during 1953.

As a result, new markets will open as television broadcasting service spreads. An indication of what may be expected is found in the plans of the RCA Service Company to open thirty-four additional service branches in 1953. In the international field, RCA has supplied equipment for fifteen television stations in Canada, Brazil, Cuba, Hawaii, Dominican Republic, Mexico, Venezuela and Italy.

Further progress has been made during the year with the RCA compatible color television system and its tricolor tube.

During 1952 RCA and NBC engineers have been field testing color television standards evolved by the National Television System Committee, which is com-

prised of experienced engineers of the industry. When the field tests have been completed and the information evaluated and applied, the Federal Communications Commission will be petitioned to review the subject of color television and to set standards which will permit commercial broadcasting of compatible color. The field tests have also produced further evidence of the practicability and desirability of a compatible system for service

to the public, that is, a system which permits owners of existing television sets to receive color programs in black and white without any change whatever in their sets.

Television's great impact on American life was brought into sharp focus during the national political campaign. It played a vital role in presenting the candidates to the people and in getting out the vote. Historians as well as politicians will be busy for some time to come evaluating the full extent of the influence of television in politics, and evolving strategy for its most effective use in future campaigns.

Throughout 1952 the older arts, including radio, the press and motion pictures, felt the added touch of television. Each medium has stimulated the other to further improvement and greater service. For example, the motion picture series "Victory at Sea," produced for television by the National Broadcasting Company in cooperation with the United States Navy, has brought into the homes of the nation documentary proof of the defeats and triumphs of World War II and the heroism of our fighting men at sea, on land and in the air.

The live-talent telecasts of "Opera in English," originated and developed by the NBC, have provided a new dimension and significance to this field of entertainment and education. Among the "Operas in English" have been "Amahl and The Night Visitors," "Billy Budd," and "Trouble in Tahiti."

As further evidence of the creative efforts of the NBC in program pioneering, Robert E. Sherwood, noted dramatist, has been engaged to write nine original plays for television, the first of which is sched-

RED BUTTONS

PRODUCTION NOW AT PEAK

RTMA Expects \$4,000,000,000 Total In 1953

By JAMES D. SECREST, Executive Vice-President
Radio-Television Manufacturers Association

THE radio-TV-electronics industry achieved a new production peak in 1952 and looks forward to bettering that record in 1953 in the manufacture of both civilian and military equipment.

An estimated 6,096,279 TV sets and 9,711,236 radios were produced in 1952 with a combined value at the factory level of about \$1.3 billion. Seven million of the radios were home sets and portables; the remainder were auto sets. Deliveries of electronic equipment and parts to the Armed Services in 1952 were valued at \$2.5 billion, while sales of transmitting and communications equipment and replacement parts accounted for another \$250 million or more.

Thus the combined dollar volume achieved by the industry in 1952 exceeded \$4 billion. At its World War II peak, the industry's military production rate was at the annual rate of \$3.5 billion, and its highest peacetime volume was \$1.9 billion in 1950.

The 1952 record of industrial production was made possible by substantial expansions in plant facilities since the outbreak of the Korean War and the early adoption of conservation techniques which greatly reduced the industry's consumption of scarce metals in the manufacture of radio and TV sets.

Termination of the "freeze" on new TV station construction in mid-1952 marked a turning point in the post-war history of commercial television. It made possible a nation-wide TV service and the opening of TV markets in virtually every city and town of the United States during the next few years.

Resumption of the issuance of TV construction permits by the Federal Communications Commission had an immediate effect on the dormant transmitter industry and gave receiver manufacturers some sales stimulus during the second half of 1952 and a greater psychological "lift" in anticipating 1953 business. The growing popularity of a second TV receiver in the home also stimulated sales in established markets.

With the renewal of TV station licensing, Ultra High Frequency (UHF) television got its first try-out and quickly

proved its ability to provide service equal to that of the VHF stations in primary viewing areas and with less susceptibility to man-made interference.

Set manufacturers began immediately to make available UHF converters, tuners, and other reception facilities and to redesign a portion of their receivers for dual TV reception of both VHF or UHF stations.

Substantial progress was made by the industry in developing a system of color telecasting which can be received in monochrome on most present TV sets. The National Television System Committee, under the direction of Dr. W. R. G. Baker, Director of the RTMA Engineering Department, worked out the new color signals and prepared for field tests of the proposed system in 1953.

Further tests of equipment and approval by the Federal Communications Commission will be necessary before this color television can become a commercial reality.

Under pressure of fulfilling both military and civilian requirements, the electronics industry greatly expanded its plant facilities in 1952. Likewise, factory employment rose about 20 percent and, according to the U. S. Employment Service, exceeded 400,000 for the first time since World War II.

Despite material shortages, the industry by means of high production and conservation held prices well below ceilings established by the Office of Price Stabilization. Screen sizes of television receivers continued to increase and other improvements were added. Consequently, values reached a new high.

The outlook for the electronics industry in 1953 is very encouraging. While estimates vary, it seems likely that from 75 to 100 new TV stations will go on the air this year. Many of these will be in virgin markets. Others will make television more desirable in areas where TV programs have been limited to one or two stations. All will add to the potential TV audience.

Manufacturers expect to produce and sell not less than 6,500,000 TV sets and more than 10 million radios in 1953. At the same time they will meet all military requirements.

Projects Now Carried Out On A National Scale

By **DORIS CORWITH, President**
American Women In Radio and Television

THE strength of any organization is based on the soundness and integrity of its objectives, the loyalty and contributions of its members, and its value to society. As AWRT comes to the close of its second year, an accounting to the industry is a welcome privilege.

The 1952 AWRT Convention in Detroit, under the chairmanship of Edythe Fern Melrose, of WXYZ and WXYZ-TV, brought 300 members together from all parts of the U. S. for three days of business meetings, panel discussions, formal speeches and gala entertainment. New officers elected to serve until April 1954 were Doris Corwith, NBC, president; Dorothy Fuller, WBET, eastern vice president; Alice Friberg, WCYB, southern vice president; Elizabeth E. Marshall, WBEZ, central vice president; Mollie Morse, KFMB, western vice president; Jane Dalton, WSPA, secretary-treasurer. These officers, together with five directors, whose terms expire in 1953, form the AWRT board of directors. To them is given the administrative responsibility for our organization.

We closed our organizing Convention in New York City in April 1951 with 358 members. At the end of 1951, we had 621 on our membership rolls. December 1952 found 655 active and 106 associate members of AWRT, a total of 761. These women represent all phases of our industry.

Membership includes subscription to our monthly publication, NEWS AND VIEWS. It contains articles of interest to our members, chapter news, personal items, and keeps us abreast of developments affecting the broadcasting and television industries.

Local chapters of AWRT are growing and flourishing. Among the most active are those in New York City, Washington, St. Louis, Chicago, Detroit, Atlanta, Los Angeles, and San Diego. State meetings have been held in New York, Connecticut, Pennsylvania, Michigan, Illinois, and Georgia. Regional groups in New England and The Heart of America have regular get-togethers on a large scale, and invariably well attended.

AWRT established in 1952 an Informa-

tion Services Committee which answers inquiries of all kinds. The New York City Chapter has instituted a Contact Service Committee which will assist all our members in making contacts when they visit New York.

Projects have been carried out on a national scale this year under the general theme, "Women Are First-Class Citizens." We cooperated in the observance of United Nations Day, through the industry committee under the chairmanship of Harold Fellows, president of NARTB.

Our members have been strongly urged to use every possible means to get out the vote. More recently we have asked them to interest themselves in the needs of our public schools: more and better teachers, more and better buildings and equipment, and closer relationship between the school authorities and the public. Some of our chapters are engaged in local projects. For instance, the New England Chapter is working with the Massachusetts State Division of Child Guardianship to encourage wider acceptance of the Foster Home Plan, with the slogan, "Give a Child a Home." In New York State, the chairman and her co-workers set up a booth for women broadcasters at the New York State Fair, which attracted wide and favorable attention.

Plans are now moving forward for the 1953 Convention in Atlanta, Georgia, April 30-May 3. Edythe Meserand, of New York City, AWRT's first president, serves as director, and Marguerite Ewing Schott and Hazel Marsden, both of Atlanta, as co-chairmen. All activities will take place at the Atlanta Biltmore Hotel. At this Convention, five directors will be elected, the constitution and by-laws will be revised, work sessions and panels of distinguished representatives of the industry will be presented. A post-Convention tour of Miami and Havana has been planned through the fine cooperation of the officials of the Florida resort and the colorful capital of Cuba.

The officers, directors and members of AWRT are proud to be an active part of the great radio and television industry. We look forward to 1953 as a year of challenge and growth.

MANUFACTURING MARK SET

Federal Demand A Factor In Record Production

By FRANK M. FOLSOM, President,
Radio Corporation of America

THE radio-television industry, operating throughout 1952 under the impetus of ever-growing demands from both the Government and the general public, achieved new all-time records in production, merchandising, and servicing of electronic equipment.

As the year closed, the annual "going rate" of the industry was estimated at \$5 billion. Present analyses of market potentials indicate a continuing upward trend in 1953, with the industry rate approaching \$6 billion during the latter part of the year.

Equipped with the greatest production capacity in its history, the radio-television industry is successfully meeting the dual requirements of manufacturing for the national defense and the domestic market. In RCA, this is largely due to the outstanding teamwork of employees and the splendid cooperation of suppliers.

While defense production formed the bulk of the industry's output in 1952, television continued to be the major factor in the civilian field. The 6,000,000 television receivers produced during the year added more than \$1 billion to the industry's gross income.

America's overwhelming acceptance of television as one of our most powerful mediums of entertainment, culture, and news is shown by the fact that, in the last six years, the public's investment in TV receivers alone amounts to more than \$9 billion. This represents an unparalleled achievement. It involved the manufacture and distribution of approximately 23,000,000 television sets, of which nearly 21,000,000 are in use today.

In 1953, it is expected that between 150 and 200 new UHF (ultra-high frequency) and VHF (very-high frequency) stations will go on the air. Approximately 5,000,000 additional families will thereby be brought into television's range of service for the first time. On the basis of this expectation, plus the replacement market, it is believed the industry will distribute approximately 6,250,000 new television sets during the next year.

Along with television's growth, the pub-

lic's interest in radio broadcasting continues firm. The industry distributed more than 9,000,000 radio sets in 1952, and expects to produce a similar number in the coming year.

As one of the principal manufacturers in the industry, RCA Victor produced as many radio and television home instruments in 1952 as Government allocations of materials permitted. The greatest demand in the television field was for 21-inch receivers.

The public's desire for larger screen sizes is growing, and this trend probably will result in substantial sales of 27-inch receivers by the end of 1953. In radio, the trend is to small sizes with high performance. Miniaturization of component parts and tubes is enabling us to meet this demand in radio.

In the field of defense production, RCA made an outstanding record throughout the year.

With the increasing interest in larger screen sizes for television receivers, the replacement market is rapidly developing as an important factor in television merchandising. At the same time, there is a growing number of television families with two or more receivers in their homes.

Throughout 1953, the expansion of television service will focus greater attention than ever before on UHF. While the number of VHF stations will continue to increase, many communities will be served by both VHF and UHF.

The rapidly expanding UHF television market is a direct outgrowth of RCA's experimental "proving ground," at Bridgeport, Conn., where the practical problems of UHF were solved and virtually the entire industry tested its receiver designs. Largely as a result of these experiments, the "freeze" on television broadcast station construction was broken in 1952, and the broadcasting industry hailed the highly successful inauguration of the first post-freeze VHF station in Denver, Colo., and the first commercial UHF station in Portland, Ore. The contributions of RCA and RCA Victor engineers in bringing television to these new markets included

TV—AND CANADA POLITICS

Citizen Protests Bring Easing Of Gov't Edicts

By T. J. ALLARD, General Manager,
Canadian Association of Broadcasters

TELEVISION became a hot political issue in Canada during 1952 and remains so in 1953. Developments forced the Government to modify its previous policy of a complete monopoly of television in Canada by the government-owned Canadian Broadcasting Corporation. The modification, however, has gone only half way, and the struggle for development of the new medium in Canada continues.

The Government found its original policy of permitting only its broadcasting agency, The Canadian Broadcasting Corporation, to enter television, under fire from its own party. A meeting of the National Liberal Federation in Ottawa in the fall of 1952 passed a resolution demanding that the Government immediately permit the development of television by independent, or non-government capital. The National Liberal Federation is the parent body of the Liberal Party which at present holds the reins of government in Canada. The Federation's resolution reflected grass roots sentiment throughout the country, particularly in the four Western Provinces and the four Atlantic Provinces. These parts of the country had no television at all, not even that provided by the Government's monopoly, and the chorus of protest had grown to a roar.

In the two central Canadian provinces the CBC provided limited television services with one station in Toronto and one in Montreal. Each of these operates approximately four hours per evening, the Montreal station in both English and French. Manufacturers are dissatisfied with the slow rate of television receiver sales in Montreal where the CBC service aroused no great enthusiasm. In Toronto, consistent surveys showed an average of 80% of viewers consistently tuned to U. S. television stations which come into the Ontario metropolis.

The Canadian Association of Broadcasters, representing the non-Government stations of Canada, took every step in its power to point out to the Government the great dangers of a state television monopoly and the fact that private capital was

ready to provide service in many Canadian cities at no cost to the public treasury. Those facts were also consistently placed before the public which saw no reason why Canada should not permit those who wanted to risk their capital in bringing television to Canadians, to do so.

As a result of rising public indignation, the Government decided to modify its policy. As matters now stand the CBC monopoly will be broken in any area where CBC does not have or immediately contemplate a television station. CBC already has stations in Toronto and Montreal and has announced its intention of proceeding quickly with telecasting stations in Ottawa, Quebec City, Halifax, Winnipeg, Vancouver, and perhaps London and Windsor. It will, thus, still continue its monopoly in all of Canada's major cities. However, private capital will be permitted in other areas and there are about half a dozen of these where television might be economically feasible.

The present modification of policy has not come anywhere near satisfying public opinion and it seems likely that the government policy will be further modified, especially if this turns out to be an election year, to permit entry by private capital into television, even in the larger areas so far exclusively reserved for the CBC. Some potential applicants are reluctant to enter a serious application in view of the fact that the regulations under which private television stations will operate have not yet been announced. There is fear in the minds of some potential applicants that these might be so stringent as to make profitable or merely break-even operation impossible.

A great deal of interest is being taken in the possibilities of various forms of wired television, particularly in the ranks of the movie industry in Canada.

Meantime, every legitimate step will be taken by the Canadian Association of Broadcasters to permit Canadians to have television service on a competitive basis which would mean supplementing Canadian Broadcasting Corporation stations with independent service at no cost to the public treasury.

TRIBUTE TO SOUTHERN CAL.

SCBA Exalts Area, Giving Facts And Figures

By **NORMAN NELSON**, Managing Director,
Southern California Broadcasters Association

BEFORE getting into subject of Southern California radio, let's take a moment for definition of "Southern California." A simple definition would be the geographical one: eleven southern-most counties of the state. Tulare county to north, Mexican border to south.

To one who is not acquainted with Southern California, it is hard to imagine this large area as a single mass market. Those who have watched the area develop recognize how, with each year, this becomes more true. California in its growth spreads out, not up. Communities that were separated by orange groves just a few years ago are now connected by industrial and residential areas. Geographical description is too simple, however. Pages could be written to describe this mass market of 6,442,000 people.

Such description would necessarily contain such expressions as: (1) A population greater than Chicago, Detroit, and St. Louis combined. (2) Increase in population since 1940 has been 63.7 per cent while U. S. has had an 18 per cent increase. (3) 1951 total effective buying power of \$11,100,121,000 represents a 275 per cent increase since 1940. (4) Retail sales for 1951 were \$7,113,881,000, larger than total retail sales of Chicago, Cleveland and Milwaukee combined. (5) Retail sales per capita of \$1104 compared to U. S. average of \$976.00. (6) Effective buying power per capita is \$1723, compared to U. S. average of \$1423. These are just a few of the things that would have to be said about this mass market and its people who earn more and spend more.

Now, what about radio for 1953? Based on facts of what has actually happened to radio since the advent of television, radio in Southern California during 1953 will reach more people than ever before. Since the pre-television year of 1946, the number of radio homes has increased 33.6 per cent. Today, there are 2,096,600 radio-equipped homes in the area. Naturally, the first thought that comes to mind is: "The homes are there, but are the radios turned on?"

Let's look at some indisputable facts and determine what size audience radio really has. In 1946, Nielsen shows that 4.65

hours per day per home were spent listening to radio. In January, 1953, Nielsen shows that only 3.44 hours per day were spent listening. That's a drop of 26 per cent in listening per home. That's a big loss—we don't like it, but it's true.

The average person is thinking about the radio picture today stops right there—and that is where he makes his big mistake. Radio's audience in Southern California continues to be as big

as it has ever been, for the simple, but logical reason that while each home is listening 26 per cent less, there are 33.6 per cent more homes listening. A little less listening per unit—but many more units. Which would you rather have; three quarters or ten dimes?

Bear in mind that the audience which has been discussed so far does not include any out-of-home listening. California, because of its very nature, has higher percentage of out-of-home listening than anywhere else in the country.

It used to be that a great many advertisers were writing off nighttime radio in television homes. Let's examine the facts. According to Pulse of Los Angeles, radio listening from 12 noon to 12 midnight in TV homes has consistently increased since 1950. Average quarter-hour TV homes using radio in 1950 was 14.3 per cent. Even then, nighttime radio was pretty healthy in TV homes. But today 18 per cent of all television homes had radio on during the average nighttime quarter-hour. That's an increase of 22.4 per cent since 1950.

Let's compare radio's 11.8 per cent rate increase for a 33 per cent increase in radio homes, with what has happened to newspapers during same period: today, there are five metropolitan newspapers in Los Angeles with total circulation of one per cent less than the total circulation of four papers that existed in 1946. The advertiser must pay 50 per cent more than he did in 1946 to reach 99 per cent as large an audience.

When the housewife does her marketing today, she compares price of one product against another and prices of one store with those of another store. When you buy advertising, compare one medium with another, and if you do, you'll look twice at radio, and buy.

GET IT DONE VOLUNTARILY

The Basic Idea Behind The Advertising Council

By HOWARD J. MORGENS, V.P. in Charge of Advertising,
The Procter & Gamble Company

THE Advertising Council is based on a simple and fundamental idea. It is based on the idea that—if you can inform the American people and constantly remind them of the many vital tasks which must be accomplished in the public interest—the people themselves will take the necessary action voluntarily. Through the Advertising Council, business in general and the advertising industry in particular, have succeeded in using the great force of advertising to get things done the voluntary way.

There is, after all, one concept or one fact that is of tremendous importance in the world today. It is the very difficult and disturbing fact that a great many people today believe that the way to get things done is to turn more and more to state direction and control instead of relying on the voluntary action of free citizens.

On a global scale, of course, this fact splits the world into two ideological camps. The world today is in effect half slave and half free—a condition which Lincoln said could not long endure. The communists see the individual wholly as a creature of the state subject to its complete direction. We believe in the dignity and in the free action of individuals.

The basic fact, in other words, is that there are two ways of accomplishing things. One is the voluntary way and the other is the way of compulsion. The reason that business supports the Advertising Council so enthusiastically is that it actually gets things done the voluntary way. And each time the voluntary way works, America moves another step away from state direction and compulsion and all its dangers to our political and economic liberties.

Let me give you a few examples of the kind of thing I am referring to—examples of the Advertising Council at work.

When World War II was only a few months old, bills were introduced into Congress making savings compulsory as a wartime measure. These bills were never enacted into law because seven successful war loans made them unnecessary. The Treasury Department has given large credit for these successes to the Advertising Council campaigns.

A bill to draft nurses was not needed because the Advertising Council's recruitment campaign resulted in a tremendous increase in the voluntary enrollment of nurses. We didn't need "work or fight" laws. Women were recruited from their homes by the millions to "man" the war plants. "Rosie, the Riveter" was more than a song; it was part of a huge "manpower" advertising campaign.

At the war's end, the Advertising Council was not demobilized like so many other war-born agencies, because it was felt that this powerful mechanism for informing and persuading the masses of people in this country would be needed to help solve the country's new problems in the voluntary way. Here are examples of the Council's post-war work:

On September 10, 1951, the Advertising Council began a campaign to step up donations of blood. Stockpiles were almost exhausted and donations were running at about 12,000 pints a week. In the first week of the campaign, donations almost doubled. In 12 weeks, all of the blood was being donated that could then be processed—approximately 75,000 pints a week. This program still is functioning well.

When the country faced a critical shortage of steel scrap, the steel industry and the government asked the Council to conduct a campaign urging factories to turn in their old idle metal. Such a volume of scrap flowed to the scrap yards that soon the crisis was over.

Donations of space and time are matched by donations of professional advertising service. Virtually every large advertising agency in the country has served without charge in helping to prepare the advertisements used in one or more campaigns.

Looking at the past and present successes, it is readily apparent that the Advertising Council will certainly continue to be effective in helping to solve critical national problems the way we Americans can and should solve such problems—the voluntary way without danger to our freedom and without loss of our individual initiative.

LOCAL AND SPOT RADIO UP

Figures Tell The Story Of Continued Popularity

By **FREDERIC W. ZIV, President.**
Frederic W. Ziv Company

ONLY a short time ago, radio was being stabbed in the back and tossed aside. At the very least, even if it survived, it was going to be reduced to a slightly foolish and impotent older brother of television, with its big electronic muscles.

Well, let me give you a few statistics: The current Nielsen Coverage Service, covering all 3,072 U. S. counties, shows that Americans are listening to 70,175,670 radio sets, that 98% of all U. S. homes have radios, that radio homes total 43,940,460, that there are 3.5 persons in every radio home, and that 25 million families throughout the nation own car radios.

Did you know that radio time sales in 1952 reached \$464 million, (bigger than ever before) \$7,896,000 bigger than 1951, that local sales were up 7.1%, spot sales were up 4.1% and network was down 13.1%?

Equally interesting is the report that more money was spent for radio than on television in last Fall's Presidential campaign! \$3,111,000 for radio and \$2,951,000 for television.

In other words, when the chips were down, radio came through like a champion. Because radio ate so high on the hog for many years without much of an effort, many people assumed that radio had forgotten how to use merchandising, exploitation, advertising, promotion and showmanship, and that, naturally, with TV booming, the industry would cave in and that radio sets would carry nothing but news, time signals and the daily weather reports.

Well, it didn't happen. Radio didn't cave in. Radio fought back for the attention of the American public, for its rightful share of the advertiser's dollar, and for its space in the journals of the land. Radio used imagination and showmanship.

I am really proud to say that the Ziv Co. radio business is bigger than ever and that our production, advertising and promotion budgets have been increased for 1953. We are confident that this will be our greatest radio year.

There is still nothing wrong with radio that showmanship won't cure. When Matt Cvetic threw a bombshell into Congress-

sional hearings as a Communist spy for the F.B.I. for seven years, we were fortunate enough to be able to arrange for his story to be told to the American people in the form of a dramatized radio series, "I Was a Communist For the F.B.I." That program is sold on over 600 stations.

There was also showmanship and a sense of news values when our people signed Tyrone Power to play the part of a U. S. Senator in "Freedom, U. S. A." People have never been more interested than they are now in what is happening in Washington, and not only did this program also sell extremely well, but we were the proud recipients of scores of letters from leading U. S. Senators, lauding us for producing a radio program that told exciting stories and at the same time performed a public service by educating listeners in the workings of Congress.

Senator Taft wrote:

"The American people are greatly interested in the work of our Congress as is testified by the thousands of visitors from every state who annually watch from the Senate and House galleries. I believe that a radio program of the type of 'Freedom, U. S. A.' can do much to interest more people in the workings of Congress. This is a good goal for it will help to bring about a better understanding of a most important branch of the government of our Republic."

Our latest presentation was a switch in showmanship. We tied in that musical Rock of Gibraltar, Guy Lombardo, with a giveaway of Gruen watches based on identification of his "mystery medley," and the program at this writing is heard on nearly 200 stations—this, despite the fact that we have been selling it for only two or three weeks.

In addition to getting \$2,500 worth of Gruen watches free to give to listeners who identify Lombardo's mystery medley, sponsors of the Guy Lombardo-Gruen program may obtain tune clue booklets to help listeners identify the mystery tunes, also newspaper ad mats, announcements, posters, streamers, shelf-talkers, bottle hangers, table tents, and publicity, exploitation and promotion manuals, and other material.

This is what I mean by backing up showmanship with merchandising. And this is what still makes radio the advertiser's best buy.

C.A.B. SERVICE DIVERSIFIED

Opposition To Government Controls Productive

By D. MALCOLM NEILL, Chairman of the Board
Canadian Association of Broadcasters

THE Canadian Association of Broadcasters had an extremely active year in 1952. Its membership increased to 117 stations and 37 associates. Action was required from the Association on a wide variety of problems, and many of these met with successful results.

During the year the Canadian Broadcasting Corporation announced a new set of controls for broadcasting in Canada. Included amongst these was a provision that fixed percentages of programming material were to be of "original Canadian production." This is the first time in the history of broadcasting in the world that any such limitation has been proposed.

As the result of vigorous representations by CAB, the proposals have been withdrawn for re-drafting and CBC has promised consultation.

CAB has always emphasized the fact that Canadian radio broadcasting stations should be free to operate under the law like other publishers of the Dominion.

Equally vigorous representations by CAB succeeded in partial reversal of the CBC's policy of monopolizing television in Canada. Non-government capital will now be permitted to develop television service in any city where CBC does not have a television station. Although this is a step forward, the present policy of monopolizing the larger centres for CBC television is not a good one and efforts to have this situation corrected are continuing.

In 1952 the Copyright Appeal Board awarded CAPAC (ASCAP) a copyright fee scale of 1 $\frac{3}{4}$ % of station revenue. Hitherto the fee scale had been 7c per licensed receiving set. The dollar increase amounted to roughly \$300,000.

The Association has appealed this award on principle to the courts, contending that the Copyright Appeal Board do not have the power to fix a fee based on percentage of revenue. Meantime representations to the Copyright Appeal Board for a downward reduction of scale, regardless of the basis used, are vigorously continuing.

The subject of listener surveys engaged the Association's attention during 1952, and it is now proposed to set up an independent research director, who will audit

and gauge the validity of all programming-popularity research.

Arrangements were made for an industry-wide pension plan, allowing all member stations to join forces in a pension plan for employees, thus offering substantial savings. Other forms of industry-wide insurance are being explored.

Member stations of the Association were permitted during 1952 to form a one-time national network for the first time in recent Canadian history.

The broadcast was a special salute from the private stations to Queen Elizabeth II on the occasion of her first birthday as Queen of Canada. The broadcast itself was highly successful. Apart from drawing tremendous favorable comment, it clearly demonstrated that the privately owned stations can produce material of network calibre and handle network operation.

The broadcast was released also by several United States networks.

The Association took an active part in civil defense planning, especially in the communication field and is actively engaged in a study of the practicability of editorial policy for broadcasting stations.

This civil defense activity is an outgrowth of, and an enlargement on, the program instituted last year to meet any emergency, no matter how caused. Broadcasting, according to this plan, will aid in providing information, maintaining civilian morale and giving instructions to the defense population of the Dominion.

An adaptation of BMI's teen-age book parade is now under way and is attracting favorable attention from parent groups, editorials and listeners generally.

A wide variety of new services to members was introduced during the year, including specific suggestions on sales, promotion, programming, the effective collection and compilation of statistics, a review of economic trends and like services.

The Association's chief accomplishment, however, was establishing by the process of repetition in the minds of most Canadians the basic fact that broadcasting is publishing and there is reason, therefore for treating the broadcast form of publication in exactly the same fashion as the printed forms of publication.

NEWS—AUDIENCE BUILDER

Value To Radio Extends To TV, RTNDA Finds

By TOM EATON, President

Radio-Television News Directors Association

NEWs via radio and television continues to make great strides. More and more stations in both media are realizing that their best way to get additional listeners and viewers is to add news operations manned by trained news personnel.

The Radio-Television News Directors Association which was organized in October of 1946 at Cleveland as the National Association of Radio News Directors, has done much in its short history of seven years to prove to management that stations can best increase their revenue through news by winning respect, loyalty, prestige . . . and LISTENERS OR VIEWERS.

The RTNDA's object is to help not only the newsmen and women do a better job, but to assist management in holding their listeners and viewers.

Surveys made by the RTNDA during the past three years have shown that many stations throughout the nation are selling all of their news shows with very little difficulty, and as a matter of fact many radio and TV stations report that they have waiting lists of clients who want to sponsor good news shows.

At its seventh annual convention in Cleveland last December the name of the newsman's organization was changed from the National Association of Radio News Directors to Radio-Television News Directors Association so as to include newsmen of both media. At the same time the RTNDA voted to set up five regional vice presidents who would work to create greater interest in news operations in their areas and to assist stations in sound and economical ways of organizing newsrooms.

The members of RTNDA have long realized that radio and television news must have the very best in trained personnel. The officials of the organization have always kept their doors open to schools and universities who have students desiring to know more about radio and television news. At an early date the RTNDA will have a committee of veteran newsmen available for lectures or talks at schools in their communities.

The RTNDA has done much during the

past three years to help newsmen get into places with their tape recorders and cameras. The association's Freedom On Information committee is ever alert to see that newsmen of the radio and TV media are not penalized, by being barred from the so-called press conferences. The committee has members in Washington and other key cities whose duty it is to see that radio and television news people get equal access to the news.

The RTNDA also has a wire service study committee which works with the various wire services, making studies of the various stories carried on the wires. The committee, which is headed this year by News Director Richard Oberlin of WHAS and WHAS-TV, Louisville, Ky., comes up with suggestions which will help improve the services to the radio and TV stations.

The top awards for radio and television news are presented each year to the winners in the RTNDA's competition by the Medill School of Journalism, Northwestern University, Evanston, Illinois. Basket Mosse is in charge.

This year RTNDA and Northwestern are going to sponsor seminars on News for both Radio and TV at Evanston. The most experienced newsmen in radio and TV will be on hand as the instructors.

The RTNDA Bulletin is published each month with the cooperation of the School of Journalism, State University of Iowa, Iowa City. Sample copies will be furnished managers and newsmen who write to the RTNDA's Executive Secretary Burleigh Downey, WKAR, Michigan State College, Lansing, Mich.

Managers and non-members are always welcome to attend the annual conventions of the organization. This year's convention will be held in Washington, D. C., and it appears that the program will be the best in the history of the newsmen's association.

Many of the leading managers and owners of stations in the radio and television field have given their stamp of approval to the RTNDA and know that the organization's first objective is to help its members and their stations present the best in radio and TV news programs.

TV NOW "COMING OF AGE"

Vital Problems Must Be Faced, Decisions Made

By **THAD H. BROWN, JR.**, Director Television Department,
National Association of Radio and Television Broadcasters

TELEVISION, literally, will begin to "come of age" in 1953. There will be vital decisions made within every segment of the industry, and the results therefrom will commence to delineate the ultimate dimensions of the medium.

The Federal Communications Commission has already exceeded the 200 mark in the issuance of post-freeze grants, a great majority of which are in the UHF channels. This unprecedented acceleration of action by the Commission is being matched by many of the permittees, who, with station construction immediately under way, are estimating inaugural operation dates hitherto thought impossible. Truly, an adequate one-word definition of television broadcasting today is—"speed."

Both the FCC and the industry are demonstrating ever-increasing faith in the UHF channels, not only engineering-wise, but in the economic aspects as well. It seems apparent, therefore, that 1953 will witness the first tests of the feasibility of UHF, not only in those markets where UHF stations are first on the air, but also where the new station will meet competition of established, pre-freeze stations.

The addition of these new grantees, and the shifting competitive aspects engendered by their operation, will bring into clearer focus the needs, requirements and demands of program availability. There will begin to develop the answer to the presently unresolved question of the equitable ratio between "live" and network programming and programming by film and kinescope.

As part and parcel of the programming question, the industry will face decisions regarding the availability of program sources for television broadcast. One of the most precedent-setting cases on this point, and one which will reverberate for years to come, is presently being argued in the Federal District Court in Philadelphia under the title of the National Professional Football case. Indeed, it is more than that; the vigor with which the Justice Department prosecutes the case—and the end result—will go far to establish whether or not many of the events people expect to witness by television in their homes at no cost will be reasonably

available to them in the future.

Another question within the industry revolves around a date—June 2, 1953. That date marks the first anniversary of the allocation of channels by the FCC for non-commercial educational use. Some permittees of these channels have not yet taken action to utilize the grants; and the question is—what will become of such channels when the year of grace has passed? Will the Commission extend the deadline, or can commercial applicants petition to have these allocations thrown open to bidding by commercial interests? The FCC has not yet declared policy in this area.

Its critics to the contrary, television worked cooperatively and successfully with educational institutions of the nation to compile an excellent record of achievement in the field of education during the year just closed. And on its own, the sight-and-sound medium certainly set a new standard of mass education through its coverage of the conventions of the Republican and Democratic parties, the presidential campaign and the inaugural ceremonies that followed. Through the lenses of the TV cameras millions witnessed history in the making.

A major step toward self-improvement was taken by the industry with the promulgation of the NARTB Code of program standards. The Code was developed voluntarily within the industry as a means of better serving the public, and it is subscribed to presently by nearly one hundred individual stations and the four networks.

One of the primary objectives of television in the year ahead will be that of gaining free access to coverage of public events—particularly sporting events and legislative hearings. Broadcasters hold the unanimous belief that the public is entitled to such programming, and will make every effort to open these doors to television.

Though many other problems, and some solutions, are forecast in 1953 before Congress, the FCC, the markets and the laboratories, the foregoing are among those that come immediately to mind as major factors in the development of nationwide television broadcasting.

MONDAYS 9:30 - 10:30 PM EST

TV SURGE HIGHLIGHTED '52

By BRIG. GEN. DAVID SARNOFF

Continued from Page 43

uled to be broadcast during the Spring.

Sales of radio sets continue to increase, enhanced by technical refinements and attractive designs. At the beginning of 1952, there were more than 105 million radio sets in the United States, including 25 million radios in automobiles. During the year, more than 9 million new sets were produced by the industry. Portable sets, because of their efficiency and convenience have gained in popularity and will continue to do so. Clock-radios and book-size receivers in light-weight plastic cases beautifully designed in a variety of colors have contributed to the novelty and usefulness of such instruments and have increased the public demand for them.

The popularity of the "Victrola" phonograph and recorded music continues to grow. Today there are 26 million phonographs in the United States as compared with 8 million in 1946. New, simplified and improved record-changers, smaller non-breakable records, new electronic techniques in recording, and attractively designed albums have all helped to increase the demand for phonographs and records.

The "45" records and 33 1/3-rpm Long-Play records have spearheaded the advance. Among the new developments in 1952 was the RCA Victor "EP" (Extended Play) "45" record which plays up to eight minutes a side, or a total of 16 for each 7-inch disk.

Modern record players provide the public with turntables that literally are concert stages with a catalog of music in every classification.

There is plenty of evidence at hand to show that television will by no means be limited to its present operations. The uses of TV in education are manifold. It may well be that the volume of business that can be developed in industrial television and electronics as well as television in education, will one day be larger than the volume of business now being done in the field of TV entertainment.

For security reasons the latest developments of electronics for defense cannot be discussed. It may be observed, however, that electronics is one of the most important building stones in that technology. Science links defense and industry as a bulwark on land, on sea, under the sea and in the air. Radar, robot planes, airborne television, electronically con-

trolled missiles and other devices now are vital elements in our military plans.

In recent years, a vast new field for exploration and development called "electronics of solids" has opened in the scientific world. So impressive are the developments, and so important the potentialities for the future, that scientists are acknowledging the electronics of solids as one of the most dramatic steps in technical progress.

The United States is fortunate in having a radio-television industry made up of so many competent organizations. The keen competition among them spurs continued effort on the part of all and stimulates scientific and economic advances matched by no other country.

These competing organizations, through their individual efforts, give the United States preeminence in all phases of radio, television and electronics. For defense, this industry provides superior equipment developed and produced by American ingenuity and craftsmanship. The finest radio-television instruments and services in the world, and at the lowest cost, are made available to the American home. In achieving this, the industry provides employment for hundreds of thousands of people and contributes substantially to the high standards of living enjoyed in this great country.

It is difficult to predict and unwise to limit the possibilities of the future in such a world-wide field of operations. In science, however, we are certain that progress will continue. The basis of our confidence is our faith in technology and in the ability of Americans to apply their talents in science, research, engineering and labor. The readiness of the American public to accept new ideas as well as new services and products is stimulating to all of these forces that operate within modern industry.

We must recognize, however, that progress, in its larger sense, depends upon other factors as well as upon science and invention. We must strive to achieve world peace, preserve our freedom and maintain our American way of life. These are the main essentials that call for our spiritual as well as our physical improvement. We enter the coming year with renewed hope.

FILM—BACKBONE OF VIDEO

Growing Demand Felt For Screened Programs

By JOHN L. SINN, President,
Ziv Television Programs, Inc.

THERE is no better report on the status of filmed television today than the fact that three of Ziv's films are each being shown on about 70 stations.

It's not a question of whether stations will telecast filmed or live shows—they *need* filmed shows. In many markets we are selling packages of six or eight programs.

Only this week I received a letter from a midwest educator who lamented the fact that although television has now come to his city, he will never see the many wonderful programs which have been broadcast over the national networks in the past few years. Because they were live they were as ephemeral as any sight or sound, which, once seen, vanishes forever. If all programs were on film, the new station in this man's area would be able to select the best and he and his neighbors would be able to sit back and watch entertainment that a king couldn't buy.

And this is true every time and every place where a new television station goes on the air.

In addition to the wonderfully entertaining programs that would be available, it would be a great public service for each new television station as it goes on the air to show on film the great news events, current events, sports, interviews, campaigns, political conventions, and the other significant history of the past five or six years. If it only started with the great political conventions in Philadelphia in 1948, say a wonderful, important daily or weekly feature could be shown the local audiences to bring them up to date on what television has been showing since that time.

This would not only be a great public service, it would also be an excellent instrument for local promotion. For example, this program could also be shown during the day at special school assemblies, and at other special, attention-getting groups. Because it would be on film, such flexibility and permanence would be possible.

We know that listeners don't know, or don't care, whether they are watching live or filmed television. Not only in the case

of historical features which I mentioned above, but also for dramas, comedies, interviews, press conferences or even news. In other words, everything, certainly all news events, should be filmed as well as telecast live, not only for posterity but also for the man who happens to be busy in his office or driving his truck when the news event took place and who would love to see it that night.

In addition to the advantages film offers to stations, film is equally important to agencies, sponsors, writers, performers and technicians—more and more of whom are insisting they will work only in film. For their own varied and individual reasons, ranging from the artistic to the economic, these people are finding film the best medium for television programs.

These people like the ease and freedom they can get with film. They like films' exciting range from illusion to realism. The actors like the comparative freedom from the director's stopwatch as well as the reduced chance of ending up in a hospital; the writers like being able to create a scene that doesn't have to be played inside chalk marks; technicians like the opportunity film affords for perfection; sponsors and agencies like knowing what they are buying; producers and distributors like being able to place the programs on many stations; directors like the artistic liberty and freedom of creation they are permitted—and above all, audiences love the wonderful things that can be done on film, the plays and stories that could never be told except on film, the great illusions they can watch on film, and the security of knowing that no matter what is happening, anywhere, if there is a film camera anywhere around, sooner or later they can see it, too, on their television screens.

We don't want to debate the relative merits or advantages of film and live. Both are indigenous to television and each must certainly do its best to give the audience the programs it wants. We do point out, however, that there are increasing numbers of the creators and performers and sponsors who find film the perfect medium for them.

CHARLOTTE MANSON

RADIO

TV

MU. 8-6600

MANUFACTURING MARKET

By FRANK M. FOLSOM

Continued from Page 57

not only the design and construction of these transmitters, but advances in receiver design and the design and installation of new combination UHF-VHF antennas by the RCA Service Company.

Both VHF and UHF provide excellent telecasting service, but, because of the added frequency range, new dual receiving equipment must incorporate the best possible technical design. This type of equipment includes combination VHF-UHF receivers, as well as conversion units for sets already in use. Our objective is to continue to provide excellent reception in the home at all stages of television's growth. In this connection, RCA has continued its engineering development of compatible color television as a future additional service to the public.

A major contributor to television's present stature, the National Broadcasting Company—a service of RCA—completed its twenty-sixth year in 1952. In both radio and television programming, NBC continued to offer new, high-calibre shows to the public. The network led all others in volume of business. For the first nine months of 1952, NBC radio and television sales totaled \$92,093,592. Television scored a marked advance over previous years, with a sales total of \$97,793,752 at the end of the third quarter of the year.

The most important developments in phonograph records in 1952 were those which helped to provide record buyers with "more music for less money." The pattern was set by RCA Victor's introduction of two major advances—Extended Play, which doubles the playing time of single 45-rpm records, and the "Bluebird Classics" albums. EP records make it practical to record—complete on one side—hundreds of shorter classical works which did not fit logically on previous records and, also they considerably reduce the cost of popular music albums. There has been an excellent response to the high-quality classical recordings issued on the new, low-priced "Bluebird" label.

One of the most significant releases during the year was RCA Victor's recording of the Ninth Symphony of Ludwig Van Beethoven under the direction of Arturo Toscanini with the NBC Symphony Orchestra. The list of great opera merchandise was strengthened with the addition

of the full-length recordings of Puccini's "La Boheme," Verdi's "Il Trovatore," Puccini's "La Tosca," Moussorgsky's "Boris Goudenoff," as well as albums offering the highlights from Bizet's "Carmen," Donizetti's "Lucia di Lammermoor," Mozart's "Idomeneo" and the celebrated "Amahl and the Night Visitors," which made a sensationally successful debut over NBC-TV.

A recapitulation of sales figures reveal that the top show albums for the year were "Wish You Were Here" and "New Faces."

By the end of 1953, the sale of 78-rpm records probably will amount to less than 25 per cent of the market, having been replaced by the newer, unbreakable, and easier-to-handle 45 and 33 1/3 rpm speeds. With the increased number of turnables now in use, including new three-speed players, and with the growth of interest in music apparent throughout the country, the phonograph industry can look forward to the greatest sales in its 75-year history.

The growth and expansion of the radio-television and electronics industry is an outstanding example of American industry's capacity for teamwork.

For our civilian population, this teamwork meant more and better television and radio sets, records, transmitting and industrial equipment, and all the other products that have enabled the people of our country to achieve their high standard of living.

For our Armed Forces, it meant military equipment and technical assistance to help keep our country strong and free.

Big companies and small companies worked together to make the products needed for our civilian use and defense. At RCA, for example, nearly 5,000 independently-owned companies helped supply the materials and services needed to manufacture finished products. Three-fourths of these suppliers are classified by the Government as small business firms, and they receive approximately half of the dollar volume of all RCA purchases.

The electronic symbol is a bright and guiding star that challenges science and industry to advance into new fields of endeavor, to create, and to improve with quality and efficiency as the standards.

RADIO-TV'S PATRIOTIC ROLE

Election Service Drew People Closer To Nation

By TOM FITZSIMMONS, Associate Editor
Radio Annual and Television Year Book

ON JANUARY 20, 1953, Dwight David Eisenhower was sworn in as the 34th President of the United States. Approximately 60,000,000 voters cast the ballots which chose the wartime leader and his youthful running mate, Richard M. Nixon, over their distinguished Democratic opponents, Adlai E. Stevenson of Illinois and Sen. John Sparkman of Alabama.

The election of the Republican candidates marked the culmination of what was undoubtedly the most intensive radio and television campaign in the short but exciting history of these two industries, a campaign which pointed up impressively the unmatched superiority of these two media in reaching the homes and the firesides, the hearts and the minds, of the American people.

Both General Eisenhower and Mr. Stevenson waged spirited, sincere and essentially dignified campaigns in seeking the highest honor within the gift of the people, the former emphasizing the homey, man-to-man approach, with Mr. Stevenson impressing the viewer and the listener by his almost Churchillian command of the English language.

While both candidates sought to appeal primarily to the common sense of the voters, showmanship *per se* was employed effectively by both camps. The assistance of some of the foremost entertainers was enlisted by each party. While the "stunts" were at times lacking slightly in dignity considering the importance of the office involved, the value of their aid was conceded by both political organizations.

Drama was utilized skillfully by both sides, but in this department the Republicans undoubtedly had an edge, with the "Oscar" in this division going probably to the broadcast-and-telecast wherein Mr. Nixon explained the existence and source of his campaign funds, and included in his address a complete recapitulation of his personal finances as well as other details regarding his home and family life which went straight to the hearts of his audience.

Drama, also, there was in the six-and-one-half-hour "telethon" by Gov. Thomas E. Dewey of New York over WOR-TV on election eve. Making his first appearance

of the day at 6 a.m., he was televisualized at least 15 minutes of each hour until 9:45 p.m., at which time he took over completely, remaining on camera until midnight, during which time he answered innumerable questions and introduced such "guest stars" as John Roosevelt, Clare Booth Luce, Mrs. Wendell Willkie and Mrs. Fiorello La Guardia. The "telethon" was sponsored by the New York State Republican Committee.

To adequately comprehend the magnitude of the vast campaign which surged to its climax last January 20, one must, logically, start at the beginning. That beginning was marked at a date some six months before the election when radio and television joined hands in a "Get Out the Vote" drive which bore fruit a half year later in what was aptly termed "the greatest single expression of public opinion in the history of the nation."

More than 3,000 radio and TV stations participated in the get-out-the-vote drive in a co-operative effort sparked by the NARTB in association with the American Heritage Foundation and aided mightily by the state broadcaster organizations. Robert K. Richards, assistant to Harold E. Fellows, president of NARTB, was in charge for the association, with John H. Smith, Jr., as campaign co-ordinator.

Chairman of the industry committee for the drive was John F. Patt, president of the Goodwill Stations. Members of the committee included: Roger W. Clipp, WFIL, Philadelphia; Frank Fogerty, WOW-TV, Omaha; Kenneth D. Given, WLBJ, Bowling Green, Ky.; Paul Morency, WTIC, Hartford, and Joseph Wilkins, KFBB, Great Falls, Mont.

Both the NARTB and AHF supplied radio and TV stations with campaign "kits" containing a wealth of suggestions, including text for announcements as well as ideas conceived especially for clubs and commercial organizations. These suggestions were used *in toto* or were utilized as a basis for other ideas put into practice by local community groups.

In commenting on the outstanding success of the get-out-the-vote campaign, Mr. Fellows, speaking as president of NARTB, declared: "There are three particularly

TV FILM—FACT, NOT TREND

Now A Positive, Activated And Vital Institution

By CHARLES B. BROWN, Vice President,
Bing Crosby Enterprises, Inc.

A FRIEND asked recently, "What is the *trend* in film for television?" Upon checking the word *trend* in our Webster, we found that "*trend*" means ". . . an underlying or prevailing tendency or inclination to drift. . . ." Upon this basis, there is no trend to film in television since the move to film is a positive planned, activated movement rather than an unpremeditated, uncontrolled drift into film production.

Actually, the question of whether live shows or programs on film are best can never be an unqualified question because some programs, like special events, most quiz programs and others are best live while other certain programs are always best on film.

As we see it, the why of film growth in television, however, is not one of sheer production values alone, rather it is that film is the solution to four fundamental problems only one of which has anything to do with respect to program production quality as such. There are four problems. With the readers' indulgence, we should like to expand each of these four elements into a few brief paragraphs.

(1) *Program Quality and Suitability:* Full turn illusion as in dramatic programs can best be done on film for many reasons obvious to all. Fluffs can be edited, retakes are always possible and the fearful physical toll of continuous tension is eliminated. The week in and week out demands on live programs featuring a central character or cast is already too well known to require embellishment. Illusion can run the entire gamut of human expectation. A desert scene is just what it purports to be and the rapport of viewer with the unfolding story is doubly insured because of the sweep and scope of realism. No adjustment to scenic inadequacies is necessary.

The second problem is: *Time Zone Differences.* Nothing can be devised to move the unmovable; time differential with a visual medium simply offers an unscalable obstacle to live TV other than special events of major significance. Seven o'clock Central Time is difficult for top-budget shows, but six o'clock Mountain Time and five o'clock Pacific Coast Time is out of the question. The viewer cost per dollar

differential will not be accepted as a regular matter by any sponsor paying the tab for nighttime type program particularly when he can so simply solve his problem by spotting his program in these western markets at suitable time periods.

Number three on our list is: *National Marketing Problems.* Advertising strategy, in my opinion will be applied more than ever before to meet the specific and peculiar merchandising and sales problems of each particular organization in given markets. Mass advertising will, of course, still be an important factor, but "directive-placement" of advertising funds will be both a common term and a policy in the rough competitive selling days ahead.

(4) *Local Advertising Requirements.* Retail accounts will use television as they have never used local media other than newspapers in the past. Department stores, always slow to use anything but newspaper space, will be among television's strongest local supporters.

From the standpoint of the film producer, the most encouraging sign is the desire of more national, regional and local advertisers to place business on a minimum of 39 and quite often a 52-week basis. The service and sales impact of a television film program can be much more effective if longer term buying is possible because story properties can be planned, written and/or purchased with long-term values in mind both as to writer interest and story content.

Besides these intricate values, there is continuing viewer growth potential of the longer lived program.

Lastly, local advertisers or national advertisers using local markets desire program product which is equal to the best in network programming. There is obviously not sufficient high-level talent available for local programming thus, the only certain answer is a film program which alone can bring to the local viewer, during local station time, a standard of program performance which will secure and hold a viewing audience of sufficient size to pay the investment off with profit to spare.

WILL 'PRICE' KILL LIVE TV?

Tele Film Producer Scans Present And Future

By **PETER M. ROBECK**, General Manager
Consolidated Television Sales

"LIVE" network television is pricing itself out of the market. The sound financial future of the entire industry lies in top-notch filmed programs sold and resold at the local and regional level.

From a sales standpoint, therefore, the future of firms such as ours, which sells and distributes filmed television programming, is exceedingly and increasingly bright. New stations are opening both in this country and abroad. The advertisers in each new market area thus being opened, and the new stations themselves, need good filmed programs and are great potential sources of revenue to the sales agents and producers. Business is good now, and it will get even better.

My guess is that approximately \$50,000,-000 will be spent during 1953 to produce filmed television programming. Some of these programs are earmarked for single sponsorship at the national level. Others are being produced for sales at the local and regional levels to stations, advertising agencies, and either national and regional advertisers for "spot" coverage, or to local merchants.

The success stories of stations and sponsors who have been buying filmed "open end" television programs insure that our future will continue to be bright. Advertisers have discovered this is the best dollar-for-dollar buy available, a fact brought home to them by the enthusiastic reaction of the viewers who more and more are realizing the unmatched advantages of filmed programs.

There is no need to cite here the many advantages of filmed programming over live. By now the entire industry recognizes that film affords great flexibility in production, and that "open end" film permits maximum flexibility in programming, so that the largest possible viewing audience can be attracted to watch the show and the "commercial."

These over-all "advantages" of film are, of course, great plus factors in helping firms like ours complete sales. Gradually even the most severe critics of film are coming to realize that the technical improvements of the past few years enable film to be received with as much clarity as any "live" show. By now, the best

behind-the-scenes brains in the film industry are working in television - producing, writing, filming, scoring and editing television programs.

Naturally there are rotten apples in the film barrel, just as there are in the "live" barrel. But on the whole, "film" has grown up and become a healthy, husky young man, AND a powerful sales tool.

The problems, then, confronting the firms concerned with the selling of "open end" filmed shows are twofold:

- 1) To obtain distribution rights to sell produced programs which have a mass audience appeal.

- 2) To sell and properly distribute and service such programs.

The "key" persons are the salesmen in the field. They must have not only the programs to sell, but the experience needed to properly advise and help buyers obtain maximum benefits from the product. They must be able to point the way for the stations to effect sales to advertisers, and be able to point the way for advertisers to properly do the job in their communities through the use of television.

In our case, we insist that our salesmen have a wide media background, and that they confine their operations to a limited area so that they can best service the needs of the customers, as well as our needs.

To be of mutual service, both to customers and to ourselves, the salesman must keep abreast of the times in this rapidly changing industry. He must be at once a consultant and a researcher, a seller and an aid to the buyer. He must keep his finger carefully on the pulse of the television public in order that he may detect and interpret each trend.

As a concluding note, the market is excellent now for the sale of filmed programs to be re-run in cities where they already have been shown. Available figures prove that some re-run programs obtain a larger viewing audience than they had on first run! This is a healthy sign which bodes well for the future of the industry, since the assurance of re-run revenue is enabling producers to devote larger budgets to the production of better programs.

We thank the many TV stations, advertisers and agencies for their honored requests for Joe Palooka on TV.

Pressure of events and the wish to cooperate with the Armed Forces, Red Cross, Charities and others in their requests has held up our opportunity to get the show ready. It won't be long now!

Again Sincere
Thanks,

F^{HAM} FISHER AND
JOE PALOOKA

AS WALL STREET SEES US

Average Gains Shown, With Prospects Excellent

By ROBERT M. GREBE, Night Editor,
Radio and Television Daily

WILL 1953 be the peak year for radio and television manufacturers? It is questionable, taking a backward glance at the industry, that the peak was reached in 1952.

Inasmuch as Federal Communications Commission did not lift the TV freeze until April, and waited three more months before issuing the first TV grants, expansion of television did not really get under way until the latter half of the year. Thus, set sales in markets previously unserved by video, did not really develop until the last few weeks of the year.

With many new stations taking to the air in 1953, indications would seem to point to the fact that the real boom is yet to come. Delays in expansion of course may be caused by the threat of war and rearmament, but with any degree of normality, 1953 may be the year.

In addition to the manufacturing phase, the approval of the merger of the American Broadcasting Company and United Paramount Theaters is certainly of interest. With new capital, ABC threatens to move into the top brackets. Whether or not that development will come this year or next, or at some later date, remains to be seen.

One manner of evaluating the gains of the industry during the year of 1952 is looking at the trends of the various stocks on the New York Exchange. It is not a perfect picture however, since many of the concerns listed are engaged in other fields of endeavor other than the manufacturing of radio and television equipment and sets. But it does give a clue.

Stock prices of major radio-TV and electronic companies during 1952 showed little more than average gains in most instances, and in some cases, showed declines. For the most part, they followed general market trends, in spite of the lifting of the TV freeze and other industry factors.

Of special note is the fact that two firms, both involved in the merger of the American Broadcasting Company and United Paramount Theaters, showed declines. Du Mont Labs., starting the year at 16%, wound up 1952 at 16, after minor fluctuations. ABC itself fell from 11% in January to 9% at year's end.

Other leaders in the field failed to show anything unusual, indicating that the full effects of the FCC "thaw" on television is yet to be felt by the indus-

try. Major gainers were Zenith Radio, moving from 67½ to 81 during the year and General Electric, from 59½ to 72¾ on December 31. Both concerns, it may be noted, are involved in the appliance field, which could mean that their prices were due to other factors.

Other majors showed the more average gains. These include. Admiral, from 26¾ to 30½; Philco common, 27 to 35¼; RCA common, 23½ to 28¾; Stewart-Warner, 19½ to 22½; and Westinghouse, 39% to 47%.

CBS A and B stock showed similar gains. A stock rose from 34¼ to 39 and B rose from 34½ to 39½. The latter stocks gained despite generally adverse factors affecting the CBS color TV system, on which the company has spent heavy sums.

AT&T, partially affected by coaxial cables and lines supplied to the industry, rose from 156¼ to 159%.

Another means of checking the gains or losses of industries in the year is through the year-end statements. For the most part, electronics manufacturers reported record or near record income for the year, while net incomes were proportionately lower. The latter was attributed by most of the concerns to increased taxes.

RCA gross income, for example, jumped 16 per cent in 1952 over the previous year to a new high of nearly \$694-million, but at the same time, profits went from some \$31-million in 1951 to only slightly more than \$32 million in 1952.

Total sales by Westinghouse Electric rose 17 per cent in 1952 over 1951 to nearly \$1.5 billion. But net income showed only a six per cent increase to about \$68.6 million.

And General Electric sales jumped 13.1 per cent in 1952 over 1951 to \$2.6 billion while net earnings rose 9.8 per cent to nearly \$152-million.

Perhaps the law of diminishing returns was at work, perhaps it was the higher taxes or some other factor. Yet the gains were not enough to be of great importance when one considers the lower dollar value since the start of the Korean conflict.

With the rapid expansion of TV across the country, the foundation has been laid for new peaks. Given favorable conditions to operate (eased material controls, lower taxes, etc.) the industry could make 1953 far greater than 1952 and perhaps lead the way to an even better 1954.

Sign of Good Business

Here's a sign that *ABC means business* in radio...

It's the symbol of the *new ABC*... and a sign that big things are in the air!

New programs are being developed. New talent will be attracted. New facilities are going to be added. ABC now has a powerful combination of added experience and showmanship to make its leading position even stronger.

Yes, *ABC means business*. If you are an advertiser, *this is* the time to put ABC radio in your plans!

FARM DIRECTORS DECADE

Association Marks 10th Anniversary This Year

By MAL HANSEN, President.

National Association of Radio Farm Directors

THE year 1953 marks the 10th Anniversary Year for the National Association of Radio Farm Directors. The organization's informal beginning was in May, 1943, when a handful of farm broadcasters talked about forming a national organization while attending the Institute of Education by Radio at Columbus, Ohio. The first official meeting followed in December in Chicago. From this small beginning NARFD has increased its membership to 323 persons representing 41 states in the union, from Canada and several foreign countries in various parts of the world.

Farm broadcasting is as old as radio itself. But since the close of World War II there has been a substantial increase in the number of farm directors employed by radio and television stations, and a rapid increase in the number of hours stations are devoting to farm service programs. This has accounted for the rapid growth of NARFD. The addition of television has added new personnel to farm developments. Regular farm television shows have been on the airwaves since 1949.

Economics has been the major factor behind the growth of farm radio and farm television departments. Station managers have found that by developing a sound farm department, they are able to make more money for the station and at the same time provide the service necessary in fulfilling the requirements of their federal license.

Radio is already the key means of obtaining information on the farm, and television is making rapid headway. BMB has reported that 98.1 per cent of the nation's farm homes have radios. Tens of thousands of sets are in farm automobiles, trucks, tractors and in the milkhouse or barn.

The instantaneous nature of broadcasting, which makes weather and market news available within minutes after the news is made, materially aids the farm director in his work. These principles, multiplied by the sheer weight of numbers of receiving sets, has clinched a place in the broadcasting future for the farm director who has the background

and inclination to serve the farmer over the airwaves.

Generally speaking, the men who provide this service belong to the National Association of Radio Farm Directors. The association itself has a constitution which states that its objectives are cordial relations and better understanding between commercial radio farm broadcasting and farm organizations, advertising agencies and other groups interested in reaching farm people, and the station management itself. In addition, the objectives are to keep this kind of service on a high plane, spread farm service to areas where it is now lacking and advance the welfare of those engaged in farm broadcasting.

With these fundamental principles setting the course, NARFD is built on a regional basis . . . a logical step because agriculture is largely regional in nature. There are eight regional chairmen who serve with the elected national officers on the executive committee. Officers for 1953 in addition to the author, are vice-president, C. W. (Jack) Jackson of KCMO, Kansas City, Mo.; secretary-treasurer, Frank Atwood, WTIC, Hartford, Conn., and historian, Herb Plambeck of WHO, Des Moines, Iowa.

In 1952, under the leadership of President Sam Schneider of KVOO, Tulsa, Okla., the organization sought improvement in relationship among the basic triangle with which the farm director is always concerned . . . namely, the farmer, the sponsor, and the agricultural college.

In 1953 NARFD has many goals. Under the general subject of improving public relations for agriculture, farm broadcasters need to tell the story of the importance of agriculture to the consuming public. There are numerous misunderstandings between town and country that must be corrected.

Within the radio and television industry itself, a segment of managements must be made aware of the commercial potentials of good farm service programming. And even more important, the advertisers, both of farm products and consumer products, must be informed of the tremendous farm market that can be reached effectively, quickly and at reasonable cost through specialized farm shows on radio and TV.

How much does it cost to keep a bear?

IF he draws a big enough crowd, a bear can earn every last berry you feed him. And the trick with a bear — or with any kind of entertainment, in person, in print, or on the air — is always the same: *to find a balance between how much an attraction costs and how much it attracts.* A way that is gaining new conviction among America's leading advertisers is network radio. For it continues to draw more people at less cost, prospect for prospect, than any other medium. It permits a rounded ad-

vertising program, with frequency that keeps impressions fresh. And it leaves ample funds for merchandising and dealer promotion. **I**n radio, the costs of attractions, for the numbers they attract, are lowest on CBS Radio. It has more of the traffic-building top shows than all other networks combined...and its sponsors invest 24 to 178 per cent more than on the other networks. **S**o draw the crowds on CBS Radio—where entertainment is like a bear that performs on a birdlike appetite.

CBS RADIO NETWORK

Where America Listens Most

makes big sales after sunset

And anyone who thinks otherwise about nighttime radio had best look closely at the new A. C. Nielsen Coverage Survey just published.

Among other things, Mr. N. points out that NBC Radio is heard in more than 16,000,000 homes on the average night – 25,466,870 *different* homes by the end of a week.

When you realize that this multi-million audience is delivered by NBC at a cost-per-thousand lower than any of the other networks – *far* lower than any of the leading magazines . . .

you begin to realize why NBC Radio glows in the dark.

BMI

offers these
**PROGRAM AIDS TO
THE BROADCASTER**

BMI services are all designed to aid the broadcaster and are available to every BMI-licensed station. Check with your program director or music librarian for this material.

Continuity music programs that sell — ready for immediate use... smooth, well-written scripts for a variety of program purposes:

- ACCORDING TO THE RECORD (five minutes, daily)
- THE TEEN AGE BOOK PARADE (quarter hour, weekly)
- MUSIC and SPORTS (quarter hour, 3 times weekly)
- SPECIAL EVENTS (half hour, periodically)

Concert Music Monthly Pin Up Sheet listing new recordings of outstanding contemporary and standard compositions.

- YOUR CONCERT HALL — a series of half-hour radio scripts, three times weekly
- TODAY IN MUSIC—dates and facts about the important music events of the month.

Pin Up Sheets Convenient and timely reference to the current song leaders — pop hits, folk favorites, rhythm and blues successes... issued monthly

Copyright Research Thorough, up-to-the-minute information on music clearance — a complete basic catalog and regular weekly supplements of newly published music with consolidated indexes provided semi-annually

Newsletter Personal monthly message to the broadcasters. An exchange of radio and music ideas.

Music Memo Monthly informational bulletin — the radio man's guide to BMI music... contains Recordata, the Platter Spinners Parade, and Tips on Tunes

Meet the Artist Valuable reference of vital statistics on 144 of the nation's popular recording artists.

Record Report Forecast of tomorrow's song hits weekly facts about BMI-licensed tunes coming up

Holiday Music Timely suggestions of appropriate music for seasonal and holiday occasions.

Music Distribution Music of every type, published by BMI and affiliated publishers, mailed to stations frequently.

Performindex Handy, time-saving catalog of most-performed BMI-licensed titles

Categorical Index Provides immediate reference to a wide variety of song titles arranged for selecting appropriate music in countless script situations.

Your BMI Field Representative, who visits your station periodically, can be helpful in many ways. For any personal problem in selecting or programming music send your inquiry to BMI's Station Service Department.

TV AS REPORTER OF NEWS

Progress Is Rapid, But It Can't Yet Match Radio

By **PAUL W. WHITE**, Executive Editor,
KFMB and KFMB-TV, San Diego, Cal.

TELEVISION is now old enough and experienced enough to brave a direct comparison with radio in news coverage.

And the plain hard fact is that day in and day out the newer medium can't yet match the standards of the older one.

It would be easy to choose a few exceptions, in which TV has done an exciting and superlative job, and argue the other side. When TV focuses on an event-in-progress it is often gripping and dramatic. But news is rarely action. Nowadays it's largely ideas. And it has been said before that there is no power in the world so great as the power of an idea whose hour has come.

Nearly always an idea must be expressed in words, not in pictures. Words are radio's strength—in too many instances they have been one of television's few weaknesses.

Indeed there may be some evidence to support a belief that watching the newscaster actually lessens the viewer's comprehensions.

Television executives realize this, of course, and so they have gone in strongly for gimmicks of all kinds — newsreels, stills, charts, maps, animations and cute art. The result is that many news shows are elaborately overproduced on TV — with presentation of facts taking second place to skill in the shifting of camera focus.

Television, as I've said, is at its best in watching history-in-the-making, whether it's a political convention, a baseball or football game or a parade. But even here there are some faults.

One is that no broadcaster seems as yet to have fastened upon the proper formula as to how much he should talk.

This is probably because viewers themselves differ so markedly. Take the simple common situation of a ball game in which there's one man out and a runner on first.

The batter, we'll say, rolls an easy one to short.

Now there's one type of baseball announcer who will describe the play in toto.

But there's another kind of announcer

who would say only: "Rizzuto has it. Will they get two? They do."

Your long-time baseball fan undoubtedly prefers the second announcer. The only question in his mind from the time the ball is hit is whether it will result in a double play. But how about the viewer who isn't quite as knowledgeable? He may want the full description supplied by the first announcer.

That's a tough one and I confess I don't know the answer.

Then there's another irritation in regard to multi-camera coverage. In most cases the cameras are trained on a single action to give the director a choice of a long or medium shot or a close-up. Rarely is there a cameraman instructed to "rove" to try to pick up subordinate aspects of the event.

And, even if there is one, the director is usually not news trained. He knows his pictures but too often he doesn't know news. TV news will get better as more news-trained personnel is placed in command of special events coverage.

At any rate, radio too can improve greatly upon the news it's giving in most communities. In a recent talk before news directors I outlined a five-point program for better radio news coverage.

I will now plagiarize myself and list the points all over again. Here they are:

First, more and more local news. The fastest growing large city in the world (San Diego) is still a pretty small town—but so's New York, for that matter.

Secondly, get on the phone and talk with people. Then record it and use it whenever you get a chance. We put on a half-hour program once a week that consists of nothing but recorded interviews with townspeople and visitors.

Thirdly, don't take your press association or your network for granted. When service on a story or the writing is bad, take the time to tell them so.

Fourthly, try to get the boss to take advantage of his FCC-given right to editorialize. Is there anything more listenable than crackling controversy?

Fifthly, do things. Don't go along this week with exactly the same schedule you had last week. Make people talk about you.

TRANSMITTER FIELD BOOM

FCC 'Green Light' Finds Manufacturers Ready

By HERBERT E. TAYLOR, JR.

Manager, Television Transmitter Division,
Allen B. Du Mont Laboratories, Inc.

THE year 1953 will mark a new era in the development of the television transmitter manufacturing industry. After four long years in which the "freeze" brought the building of new television stations to a grinding halt from coast to coast, the new Federal Communications Commission allocation plan has finally been launched and is well under way. The ensuing months will witness the greatest period of expansion in the transmitter field that the industry has ever experienced.

Although, relatively speaking, we have scarcely entered this new period of growth and development, we can already limn its broad outlines and begin to anticipate in some measure the enormous task which lies ahead of those who are now building the nation's television stations.

During 1953 the volume of business for the transmitter manufacturing field will be in excess of \$50-million. About 75 new television stations will go on the air in the coming year and equipment for an additional 75 stations will be shipped during the same period. This together with new sales of transmitters and associated station and studio equipment will easily account for the \$50-million volume in the future.

While the financial picture is a bright one, it is only part of a story of an expansion which will have far reaching beneficial effects on all segments of the industry.

Perhaps the most important development in 1953 will be the opening up in earnest for the first time of the huge field of UHF telecasting. At this writing there already have been more than 125 construction permits granted for the building of new commercial UHF stations and 9 CP's for UHF educational outlets.

The wide geographic distribution of these permits plus the flood of UHF applications not acted upon makes several important facts evident: (1) Prospective broadcasters in all areas have readily accepted UHF. (2) There is adequate financial backing to build a truly nationwide TV service in record time. (3) The desire for TV is at a fever pitch in all parts of the country.

Although UHF and VHF production will both be stepped up far beyond all previous levels, it is impossible to say exactly how much UHF equipment as compared to VHF can be manufactured or shipped in 1953. This is due to several factors. TV manufacturers face the question of split production capacity plants which previously produced only VHF and UHF simultaneously. The speed with which UHF can be manufactured will remain unknown until quantity production gets under way. Material availability and production for defense are the important factors which can reduce output of both UHF and VHF.

There is also the question of how rapidly the FCC will be able to conclude hearings and OK licenses, plus the kind of construction permits granted. If the FCC speeds the granting of VHF and slows UHF grants, or vice versa, production will be affected accordingly.

In the field of industrial television, greatly increased activity can be expected. Many industries such as oil, railroading, and steel have experimented widely with television during 1952. Indications are that they will start using TV on an expanding scale in 1953.

The television industry, particularly those sections of it devoted to the manufacture of broadcast equipment will supply our armed forces on an expanding scale with the electronic products necessary for our common defense. The atomic energy program will bring increased production of special electronic equipment.

Television and electronics are destined to play an increasingly important part in our lives. Up to now the manufacture of broadcast television equipment has been conducted under severe limitations, probably greater than those ever imposed on an industry in any period of our history. Those limitations have now been removed and the year 1953 will mark the turning point for the industry. In providing the country with a truly nationwide television service, the manufacturers of television broadcasting equipment face heavy responsibilities. They will more than live up to them in the year to come.

What kind of pressure creates the best advertising?

It usually isn't the pressure of time, or work—not client-pressure, not boss-pressure.

Nearly always it is simply the pressure a man puts on himself—the pressure to keep seeking a better way of doing something which is already being done well.

It is a pressure that is being applied every day, in every department of Young & Rubicam.

America runs on

BULOVA

TIME

Again in 1952, as in years past—more Americans chose BULOVA than any other fine watch in the world.

Again, we at BULOVA continued to depend upon spot radio and spot television as our principal advertising media. And, we know that the success of these campaigns was due, to a large extent, to the magnificent cooperation of the radio and television stations and their representatives throughout the country.

So, once again, to all of you — our sincere appreciation. We look forward to many more years of pleasant and profitable association.

ADVERTISING AGENCIES

WHY WE BELIEVE IN RADIO AND TELEVISION

BECAUSE their primary function is to operate in the public interest.

BECAUSE they have become important cultural and social forces in our American way of life.

More than 9 out of 10 American families are influenced by them every day

BECAUSE they have given us, and our clients, two of the most useful of all media for selling people by *telling* people.

There is no more intimate means of communication than the human voice.

BECAUSE in *their* unlimited future of spontaneous, educational, sales-producing entertainment . . . lies *our* future, too!

FOOTE, CONE & BELDING

to
 remind
 you

Now—the first multi-purpose, all-in-one tele-communications consulting service. What ever the particular problem, William J. Scripps Associates is most apt to have the answer.

Operating or projected radio-television stations, ad agencies, private industries, public service groups and others are clients for radio, television, multiplex, facsimile, teletype, radar, sonar, film or recording—they see the "sell" in electronics and allied fields.

William J. Scripps Associates will plan, engineer, design and construct the desired system. Long-term market and technical research, and economic guidance are additional services. More limited consultation is also available.

Industry, public service or government—domestic or foreign—your interests can best be served by

WHY IS AP THE BEST?

BECAUSE—**AP** has more news correspondents, more news bureaus, more miles of news wire than any other news service.

REPRESENTED BY RAMBEAU is a radio station's mark of distinction throughout the entire field of radio advertising.

REPRESENTED BY RAMBEAU means honest and aggressive sales representation for a few select stations that have pride in their accomplishment and integrity in their dealings with their audience, their clients and the agencies placing business on these stations.

REPRESENTED BY RAMBEAU means 20 years of clean, successful operation by radio's first exclusive national representative.

HOW TO APPLY FOR FCC LICENSE

Official FCC Procedure for AM, FM and TV Licenses

ANY qualified citizen, firm or group may apply to the Federal Communications Commission for authority to construct a commercial standard, frequency modulation or television broadcast station.

Licensing of these facilities is prescribed by the Communications Act of 1934, which sets up certain basic requirements. In general, applicants must satisfy the Commission that they are legally, technically and financially qualified, and that operation of the proposed station would be in the public interest, convenience and necessity.

The licensing procedure is detailed in Part 1 of the Commission's "Rules Relating to Practice and Procedure," while station operation is covered by Part 3, "Rules Governing Radio Broadcast Services," and "Standards of Good Engineering Practice."

The application procedure is substantially the same whether the facility sought is an FM, television or standard broadcast station.

Selecting a Frequency

The Communications Act recognizes broadcasting as a competitive industry and invests the Commission with the responsibility of allocating facilities so as to provide a fair, efficient and equitable distribution of radio service.

Standard broadcast stations operate on "local," "regional," or "clear" channels. Local stations are of 100 to 250 watts power and serve smaller communities; stations of 500 watts to 5 kilowatts cover larger centers of population and surrounding areas; stations of 10 to 50 kilowatt maximum power are for large area coverage, particularly at night.

To determine whether an AM frequency is available for assignment in a particular area, it is necessary for the

applicant to have a channel study made by a competent engineer. The Commission's engineering personnel cannot undertake to make such studies for prospective applicants.

A FM applicant must specify a frequency available to the area intended to be served. The Commission has tentatively allocated geographic blocks of frequencies to accommodate Class A stations (community) and Class B. Stations (metropolitan and rural). Except in the larger cities, the demand for FM stations has not yet exceeded the supply of available frequencies.

Applying for a Construction Permit

Once a prospective licensee has decided the type of station he wants to apply for, the next step is to make application for a construction permit. This application must be in writing, on a form (No. 301) supplied by the Commission. This form requires information about the citizenship and character of the applicant, as well as his financial, technical and other ability to construct and operate a station, plus details about the transmitting apparatus to be used and the proposed new service. Triplicate copies are required, one of which must be executed under oath or affirmation.

Application Processing

Applications are reviewed in their engineering, legal and financial aspects by the Broadcast Bureau, which makes recommendations to the Commission.

If, upon examination of an application, the Commission determines that there are no engineering conflicts and that all other requirements are met, the application is granted and a construction permit is issued.

Hearings

Where it appears that interference would be caused to another station above the degree described in the Commission's "Standards of Good Engineering Practice," or if other serious questions are involved, a hearing is usually required before a determination can be made. Sometimes, also, a hearing is necessary because two or more applicants request the same frequency.

In designating an application for hearing, the Commission gives public notice of the issues for the information of the applicant and other parties who may be concerned. Prior to the hearing, requests may be made for enlargement of the issues, to amend the application, or to permit other parties to intervene.

The hearing notice generally allows the applicant a period of 30 days or more in which to prepare. Even after being designated for hearing, an applicant may find it possible to satisfy the issues by amending his application, especially if there are engineering considerations.

Hearings are customarily conducted by an examiner. He has authority to administer oaths, examine witnesses and rule upon the admission of evidence. Individual or partnership applicants may appear in person or by counsel, but cooperate applicants must be represented by attorney.

Within 20 days after the close of the hearing, each party and the Chief of the Broadcast Bureau of the Commission has the privilege of filing proposed findings of fact and conclusions in support of his contentions. After review of evidence and statements, the hearing examiner issues an initial decision.

In the event he wishes to contest the initial decision, the applicant or any other interested party then has 20 days from the date on which the initial decision was announced to file exceptions and to request oral argument before the Commission. Oral argument is granted on request. After oral argument the Commission may

adopt, modify or reverse the hearing examiner's initial decision. Within 20 days thereafter, any party involved may petition for a rehearing. Such a petition may be filed whether or not the decision is based upon a hearing but does not stay the proceedings unless ordered by the Commission.

If no exceptions are filed, and the Commission does not initiate a review of the hearing examiner's initial decision, the latter becomes effective 40 days after the issuance of the initial decision, unless otherwise ordered by the Commission.

Construction Permit

When and if an application meets statutory and other requirements, it is granted and a construction permit is issued. The latter specifies a date for commencement and another for completion of construction. A maximum of 60 days from date of grant is provided in which construction shall begin, and a maximum of six months thereafter as the time for completion (or 8 months in all). If the permittee is unable to build his station within the time specified he can apply (on Form 701) for additional time, stating the reasons. Upon completion of construction, the permittee can engage in equipment tests.

License

The final step is to apply (on Form 302) for the actual license. The applicant must show compliance with all terms, conditions, and obligations set forth in the original application and the construction permit. After applying for a license and receiving authority from the Commission, the holder of a construction permit can conduct tests. A station license is then issued if no new cause or circumstance has come to the attention of the Commission that would make operation of the station contrary to the public interest.

Standard and FM stations are licensed for the statutory limit of three years; television stations for one year.

RADIO BOARD OF DIRECTORS 1953-1954

In accordance with Article IV of the By-Laws, the Board of Directors has designated the following composition of each of the 17 NARTB Districts.

Director	District	States Comprising District
Robert L. Krueger.....	1	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont.
WTAG, Worcester		
E. R. Vadeboncoeur.....	2	New York and New Jersey.
WSYR, Syracuse, N. Y.		
George H. Clinton.....	3	Delaware, Pennsylvania, West Virginia and Maryland, excluding the counties of Prince Georges and Montgomery.
WPAR, Parkersburg, W. Va.		
Harold Essex.....	4	District of Columbia, North Carolina, South Carolina, Virginia and Maryland, including the counties of Prince Georges and Montgomery.
WSJS, Winston-Salem, N. C.		
John Fulton.....	5	Alabama, Florida, Georgia, Puerto Rico and Virgin Islands.
WGST, Atlanta		
Henry B. Clay.....	6	Arkansas, Louisiana, Mississippi and Tennessee.
KWKH, Shreveport, La.		

Director	District	States Comprising District
F. Ernest Lackey.....	7	Kentucky and Ohio.
WHOP, Hopkinsville, Ky.		
Stanley R. Pratt.....	8	Indiana and Michigan.
WSOO, Sault Ste. Marie, Mich.		
Hugh K. Boice, Jr.	9	Illinois and Wisconsin.
WEMP, Milwaukee		
E. K. Hartenbower.....	10	Iowa, Missouri and Nebraska.
KCMO, Kansas City, Mo.		
John F. Meagher.....	11	Minnesota, North Dakota and South Dakota, excluding the counties of Fall River, Shannon, Bennett, Todd, Mellette, Waushabaugh, Washington, Custer, Pennington, Jackson, Jones, Stanley Haakon, Meade, Lawrence, Butte, Harding, Perkins, Ziebach, Armstrong, Dewey and Corson.
KYSM, Mankato		
Jack Todd	12	Kansas and Oklahoma.
KAKE, Wichita, Kan.		
Kenyon Brown	13	Texas.
KWFT, Wichita Falls, Tex.		
William C. Grove.....	14	Colorado, Idaho, Utah, Wyoming, Montana, New Mexico, and South Dakota, including the counties of Fall River, Shannon, Bennett, Todd, Mellette, Waushabaugh, Washington, Custer, Pennington, Jackson, Jones, Stanley, Haakon, Meade, Lawrence, Butte, Harding, Perkins, Ziebach, Armstrong, Dewey and Carson.
KFBC, Cheyenne, Wyo.		
William D. Pabst.....	15	California, excluding the counties of San Luis Obispo, Kern, San Bernardino, Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Diego and Imperial, Nevada, excluding the counties of Mineral, Esmeralda, Nye, Lincoln and Clark, and Hawaii.
KFRC, San Francisco		
Albert D. Johnson.....	16	Arizona, California, including the counties of San Luis Obispo, Kern, San Bernardino, Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Diego, and Imperial, and Nevada, including the counties of Mineral, Esmeralda, Nye, Lincoln, and Clark.
KOY, Phoenix, Ariz.		
Richard M. Brown	17	Alaska, Oregon and Washington.
KPOJ, Cortland

NEW SYMBOL OF PROGRESS

AB-PT Moves Swiftly To Build Public Service

By **ROBERT E. KINTNER**, President
American Broadcasting Company

A NEW competitive force was initiated in the home radio and television broadcasting industry on February 9, 1953 when the Federal Communications Commission gave its approval to the merger of the American Broadcasting Company and United Paramount Theatres, Inc., as being "in the public interest."

The merger combined in the newly formed American Broadcasting-Paramount Theatres, Inc., the 651-theater chain of United Paramount Theatres, Inc., with the then 355-radio station and 81-television station networks of the American Broadcasting Company which owned five stations in radio, television and FM.

Under the terms of the merger, the American Broadcasting Company continues to operate its radio and television networks as a division of the merged company, AB-PT, which maintains its policy of operating its theaters on a decentralized basis through regional operating subsidiary companies.

The merger brings together in one company the combined show business "know-how" of two leading components of the entertainment world—radio and television on the one hand and the motion picture theaters on the other.

Less than a month after the merger was consummated, ABC moved rapidly ahead to make good its promise to become a stronger and top competitor in the home broadcasting and telecasting industry. In rapid succession these developments were announced by ABC:

Feb. 18: ABC to spend \$2,000,000 for super-power video for its five owned television stations

Feb. 19: ABC buys two top TV story properties; to star Paul Hartman and Barry Sullivan.

Feb. 23: A new concept in radio programming featuring music and news on ABC Saturday, Sunday and Monday nights, with name stars as masters of ceremonies.

Feb. 24: ABC eagle on federal mirror adopted as trademark by ABC radio and television networks starting March 1, 1953.

Feb. 25: WABC, WABC-FM and WABC-TV are the new call letters for ABC in

New York, effective March 1, 1953.

Feb. 27: ABC announces expenditure of \$100,000 for all-family film serials on New York television station—WABC-TV.

March 2: ABC expands its TV and radio operations into additional top markets of the country; adds 14 new TV affiliates for total video network of 95 and five new radio affiliates bring ABC radio network to 362 stations.

March 6: (the date this was written) ABC signs George Jessel to an exclusive long-term contract for his services in radio and TV as a performer and producer effective June 1, 1953.

These are the headlines which tell in graphic and concise fashion the story of ABC's first steps following the merger to become a vital and vigorous competitor.

The goal of ABC is to compete more effectively, to render a better and more far-reaching service to the public. We plan to achieve this goal through sound, business-like progress and a steady, consistent development and growth. We do not expect magic results over-night.

Time alone will tell the full benefits of the merger to the American audience in radio and television through better programming, not alone by ABC but throughout the entire industry as competition rises to higher levels.

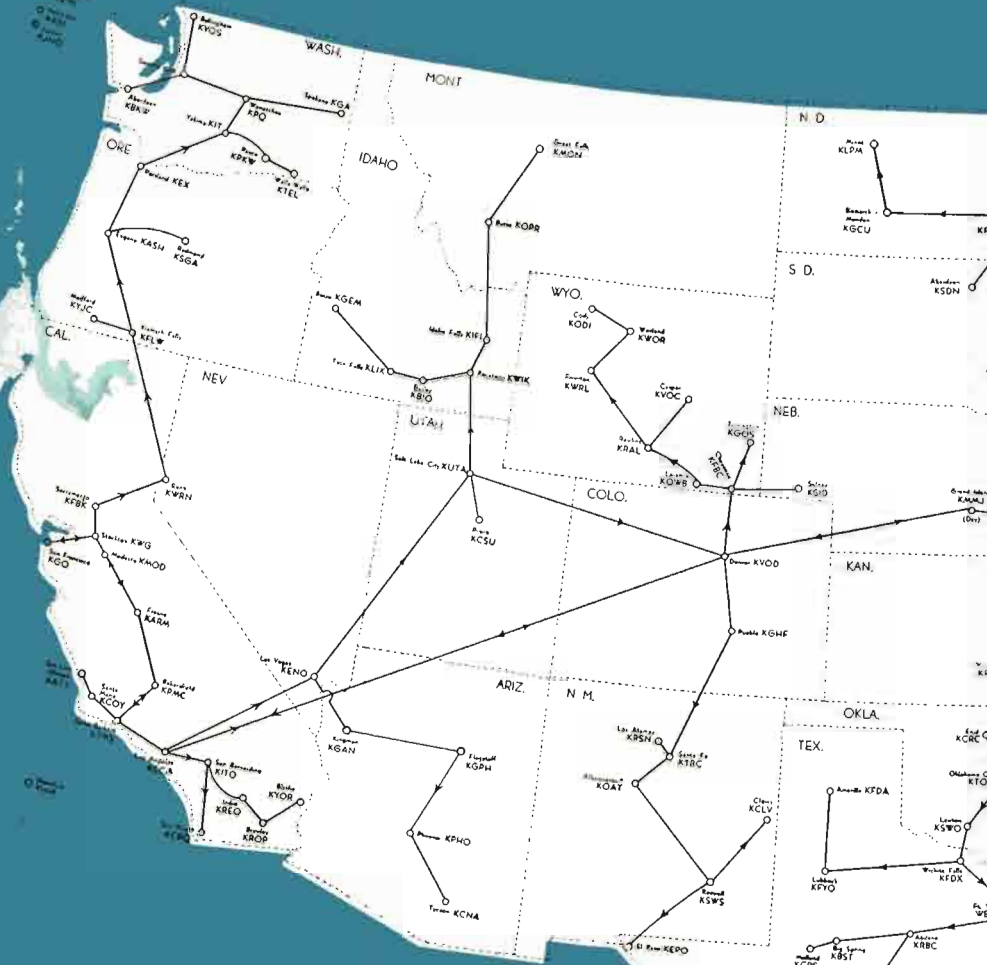

This year (1953) will mark one of the peak periods of expansion in the history of ABC. Basically this expansion will be on the programming front and is geared to the Fall season. As a milestone in the network's progress, 1953 will take its place alongside the August, 1948-September 1949 period when ABC became the first network to place in operation its five owned television stations.

ABC eagerly welcomes the opportunities the merger presents to us for broadening the industry's programming horizons just as I am certain CBS, DuMont, MBS and NBC recognize and will rise to new heights of achievement to meet the challenge of strong new competition.

This will rebound to the benefit of the audience, the advertiser and the industry. We are indeed standing on the threshold of an exciting new era in radio and television.

NO. 1 PROBLEM—AUDIENCE

Basic Ingredients For Its Building Is—Programs

By ADRIAN MURPHY
President, CBS Radio

IT IS always something of a risk to try and set down in the middle of January predictions which will be published toward the end of April and which will be read (if at all) at some unknown time in the succeeding ten or eleven months.

This is a risk which none of us takes willingly. But perhaps it is good for the soul that we do take it since it forces us to attempt long-range revaluations of a situation which, for the most part, we see only on a day-to-day, even hour-by-hour basis.

It seems to me that now—as invariably as in the past—the basic problem of radio is audiences. And audiences inevitably have only a single fountainhead: programs.

The mere fact that television has become another competitor for leisure-time attention—added to reading, conversation, movies, visiting, driving, etc.—accents the audience problem rather than makes it insoluble.

Perhaps one of radio's strongest attributes now, as always, is the fact that radio listening is a leisure-time activity *which can be engaged in at the same time people engage in other activities*. This is most demonstrable during the daytime hours when housewives are faced with the hourly and weekly chores which continue throughout the year. These housewives each day recognize and rebuild their homes from the debris of everyday living and, *at the same time*, are informed and entertained by daytime radio—without missing a crease in the bed sheets or a speck of dust in the living room. This simultaneous work-play equation has made daytime radio the good companion of the American housewife. There seems to me to be no evidence that television will materially change this situation in the foreseeable future.

In nighttime radio we have, obviously, a somewhat different situation. Initially radio was traditionally a center-of-the-home activity. The radio set was a major household investment made for the whole family. The family made dates with their favorite performers between the hours of 7 and 10 and gathered *as a family* to keep these dates.

But, even before television, this pattern

was changing. Radio listening was moving beyond the confines of the living room into the den, the kitchen, the bedroom, and the automobile. The mere fact that in the past six years 100,000-000 new radio sets have been bought seems to indicate that the radio has been becoming a personal, rather than a family, adjunct to people's lives.

I suspect that as the general economic well-being of the United States continues to grow—as more and more people continue to get more and more of the so-called luxuries—this trend toward personalization of radio will accelerate, rather than diminish.

I think as broadcasters we have a very real responsibility to work with diligence and imagination to create new forms of programming which will conform to the living habits of our people.

Obviously, none of us is satisfied with the encouraging situation as it is reported to us through research information. We, at CBS Radio, are considering how we can best translate the world of public affairs into exciting radio fare. This might be a program feature of the future. We are constantly devising new ways to discover and expose new personalities to the radio audience. All this, and more, we have done and will continue to do.

I grant you that there is a wide gap between recognizing and accomplishing an objective. However, recognition is an important first step—and we have already taken a few steps beyond.

Programs is the word that all of us keep before us at all times—think about, talk about, dream about. I am sure that other broadcasters are doing the same. I am convinced that today, and for the next five years, audiences are the industry's primary concern. It is the concern of our affiliated stations, and it is the concern of network and the stations that we own and operate. I am confident that the nature of radio, and the personalities of radio, and the interest that people have in acquiring radios to accompany them wherever they go represent a foundation which will insure the continuance of radio as a major medium for reaching, communicating to, and influencing the U. S. market in 1953 and years beyond.

(For television personnel turn to TELEVISION
YEAR BOOK in this volume)

AMPLE ROOM FOR RADIO, TV

New And Better Ways Devised For Use Of Each

By THOMAS F. O'NEIL, President,
Mutual Broadcasting System

EXAMINING 1952 for what it was—a 12-month installment in the long-term history of broadcasting — I find the year noteworthy on three main counts, with a fourth which turned out to be mainly a stage-set for the other three, despite advance notices which had it billed as the milestone event of the decade. But the top contribution of the year as a whole was its stronger-than-ever evidence that radio and television are both destined for long and thriving existence . . . each one performing vital functions in its own right.

TV's Big Thaw, announced last April, proved to be merely the backdrop against which both forms of broadcasting played their respective roles in '52. Theoretically, that FCC ruling was to open the flood-gates to nationwide saturation by this newest medium. For a number of reasons, however, the expected flood is still a trickle; large U. S. areas are still unreachable by TV; radio continues to serve as the only real mass medium available to the people of the United States at the present time.

Accordingly, one point firmly established during the past year is this: that the national economy has ample room for both radio and TV. This point had been perennially questioned ever since television first arrived on stage. But it seems to me that the two media's working roles got squared away, for a long time to come, by their users' experience in '52. New and better ways were developed for the use of each, and the comparative scope and effectiveness of both became more clearly understood to the people than ever before.

This brings me to the second plus-mark in my scoring of the past year, and here I credit television with doing radio a genuine service. For years, a good three-quarters of all network radio business was confined to four main product-types: foods, drugs, soaps, and tobaccos. Then along came TV, with all its allure for all sorts of advertisers—many of whom had never conceived of using the airwaves, with or without pictures. Inevitably, a number of these new sponsors found TV costs out of line with their own economics, and had to discontinue. But even that

brief fling gave them first-hand realization of the mass impact which both radio and TV provide, and radio networks found a lot of new doors open to their broadcast, mass-sales story. On the one last year, 22 different product classifications were represented, and the entire medium is improving its ability to sell a vast variety of goods and services with every turn of the calendar.

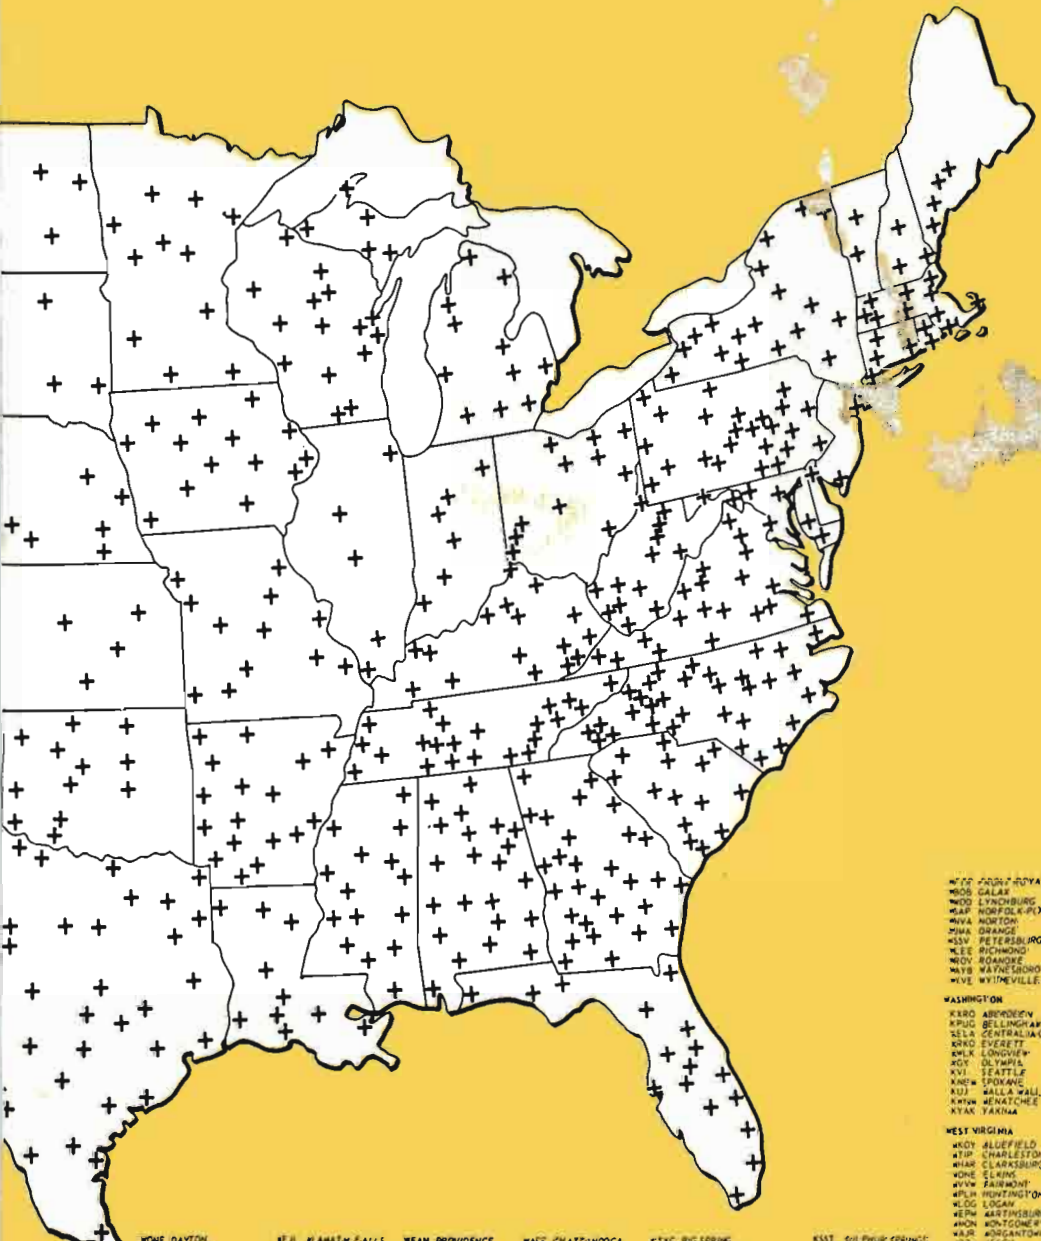

I approach Point Three on year's record with some confidence, here my assessment of next radio '52 must concentrate on the Mutual Network. Our solid and contra-industry gain in billings over the preceding year is reasonably good proof that radio time continues to work well in our clients' hands. But still more important—for the whole industry and its whole future—is the new focus we have put on actual radio-vs.-TV performance.

This refers, of course, to the unique formula for rate adjustment set up by Mutual. Following the other networks in point of time, but differing entirely from them in point of policy, our rate revision enables the radio sponsor to gear his time costs to the spread of TV—even as that spread increases in years to come. In brief, our rates remain unchanged in non-TV America . . . we provide a 50% discount on nighttime charges for all stations within 50 miles of a TV transmitter . . . and we apply that discount, six months after TV reaches any new area, to all MBS stations within that radius of the new tower.

I can't help remarking that, without exception, the loudest blasts against radio, and the most presumptuous arrangements for its immediate funeral, are made by persons with the least insight into the actual workings of the medium. Often, too, the apparent "glamour" of television and its stars seems to cloud some people's thinking regarding the real value inherent in the two media.

The past year has demonstrated anew the unmatched effectiveness of network radio. And it is my abiding conviction that, because of the year's further contributions in both flexibility and economy as traced on this page, the future of the medium is assured.

PEOPLE MEET THE LEADERS

Radio And Television Bringing Greater Intimacy

By FRANK WHITE, President.
National Broadcasting Company

IN AN industry which always has its restless eye on tomorrow, the luxury of the long look back is a tradition to be cherished and encouraged. In the past, I have been privileged to use space in the Radio Annual—Television Yearbook for a summing up of the previous year's business accomplishments, and an estimate of the prospects they suggest for the period ahead. This year, such an expression of pride in the great forward strides made by NBC in 1952 would come with ill grace from one who has been president of the company for less than a month. Nor do I wish to resort to the relative impersonality of industry statistics measuring the massiveness of radio and recording the upsurge of television. They tell a story dramatic and worth the telling, but that story alone does not begin to indicate the essential values of the broadcasting media.

To me, 1952 stands out in broadcasting as the year which marked television's coming of age as an instrument of infinite capacity in service to the public, and a year which saw radio continue—despite economic crisis and adversity — as a medium for fundamental public needs.

The prime example of broadcasting's service during 1952 was, of course, its facility in bringing directly to the people in their homes the whole political panorama as it unfolded—from the first of the primaries through the Conventions and campaigns and election to the stirring ceremonials of the inauguration. By stimulating public participation in the issues and events on such a broad base, radio and television took a long step forward in bringing the Government back to its citizens, and its citizens back to the Government. In the face of growing complexities in our social and political organization, they provided the means whereby the people could become the masters—and not the servants—of those problems.

In its eyewitness coverage of news and events as they occurred, television demonstrated the greatness of which it is capable, and the role it can play in giving all the people equal opportunity to learn and understand what is happening in the world around them.

In order for television to provide these

opportunities, it must itself have equality of opportunity to attend wherever something of importance to the public is happening, because it is the eyes and ears of the public. To deny it access to the things the people should know is to deny them such access. In 1952, we saw a growing realization of the importance of this principle and in 1953 we may hope for its full acceptance.

In 1952, too, we saw confirmation of the principle that broadcasters are equipped and able to keep their own house in order and should be left free to apply the procedures they have developed for self-regulation—which is the only really effective kind of regulation. In carrying through on this responsibility in the past year, the new television medium again demonstrated its coming of age.

But this coming of age is only a threshold and a beginning. All the things television has done in the past year and all the public contributions it has made are only a token of what it can do as it moves ahead into maturity. Through this complete communications medium of sight and sound and movement — and eventually of color — Americans throughout the country, rich and poor, young and old, can become more truly and more wholly citizens of their times and world.

To develop this potential, to bring broadcasting to the point of maximum service, a healthy economic foundation for the industry must be assured. This means proper economic support, not only for radio and television stations, but also for the networks which provide the basic national service and are the source of the nationwide news and special events coverage and the great cultural and entertainment presentations.

Today, those of us who are concerned with network operations are still wrestling our way through the economic problems, and there are no easy solutions. But the accomplishments of 1952 in moving toward a level of stability in network radio and developing the patterns for television's strength are certainly favorable signs that we can progress toward the goal in the turbulent year ahead. And the goal is so great that it is worth every effort we can put to the task.

From **AMPEX** *the best answers to broadcast recording*

YESTERDAY

Transcriptions so "live" they defied detection — this ideal became a reality when Ampex introduced the Model 200. Within months of their introduction, AMPEX Tape Recorders had been installed by a major network throughout its facilities from coast to coast and others were following fast.

TODAY

Ampex has brought the cost of ultra high fidelity tape recorders down to a quarter of the cost of the original Model 200. The low maintenance cost, durability and fidelity of the AMPEX has made it the established standard of the broadcast industry — yet its superlative performance is within reach of every station from 50,000 watts to 250 watts.

TOMORROW

The AMPEX you buy today will still be giving unsurpassed fidelity and performance, and Ampex will still be setting the pace for the recording industry.

AMPEX

ELECTRIC CORPORATION

934 CHARTER STREET
REDWOOD CITY • CALIF.

For your recording requirements, your best answers today or tomorrow will come from the leader in the tape recording field. If you plan for tomorrow, buy AMPEX today.

BIG AREAS STILL LACK TV

Over 400 Stations In Localities Without Video

By **SIDNEY J. WOLF**, President,
Keystone Broadcasting System, Inc.

THIS year, the radio industry faces another period of adjustment. With the lifting of the TV freeze, there is little doubt but what Keystone will thrive, due to the fact that at the present time Keystone has over 400 stations beyond the effective TV coverage area; and as new stations are built, there will be a tendency on the part of national advertisers to buy in all TV markets and supplement with Keystone. Within the past year, there was every indication that some advertisers would cover some markets with TV and supplement their activity with the smaller stations.

It is extremely gratifying to us at Keystone to know that BMB has reported that these same prosperous people who live in this market, listen longer and more often by far to their hometown radio station.

Their home town station is a vital part of their community. The average Keystone station owner is the manager and he's usually known around the town square by his first name. He's a common sight at local functions whether it's the county fair or a high school football game, and his mobile unit is just as common a sight as any other vehicle.

This same man is just as concerned about the disappearance of Mrs. Jones' cat as the next door neighbors are . . . and he makes a sincere effort to enlist the aid of his listeners in finding the cat so that the community may return to normal. His services usually reach far beyond what metropolitan stations consider as the usual.

The founders of the Keystone Network knew that these simple facts accounted for much of the high listener loyalty of the Home Town stations. This is why the Keystone Network has paid off for so many advertisers in its thirteen-year history.

At first, when Keystone was established, it was to enable the advertising agencies to buy a package of small stations with a single order . . . to help their clients reach this plus audience in the rich small city and rural market.

However, since the advent of television, there has developed a second reason for using Keystone . . . to give advertisers a

rich market that is beyond effective television. Advertisers discovered that the use of metropolitan television is limited — television at the present doesn't have the coverage to do a selling job in the Home Town and Rural market. Keystone has proved to be the logical answer for supplementary coverage to metropolitan television.

Proof of this performance is indicated by the fact that Keystone, entering its 14th year of operation, has shown a consistent healthy increase in each succeeding year . . . and the number of affiliates are in excess of 625.

During 1952, 12 new major advertisers were added . . . and 134 new affiliates. These figures are evidence of performance and the faith of the advertisers in Keystone to do a good job. This will be the best year in Keystone's history.

Even as this is being written it has become necessary to dispatch to this publication another seven new affiliates extending from West Virginia to California, from Ohio to Texas. The usual Keystone map, a regular feature of Radio Annual for many years has been replaced by a double-page listing of all KBS stations, a move made necessary by the fact that the tremendous number of affiliates could not be included within the limits of the map and still remain legible.

The use of the Keystone Network by national advertisers has been an interesting and profitable experience for them. They discovered Home Town America—a market that Keystone has known for a long time since its inception . . . and that the prosperous farm segment of this market alone represents an income of \$50,000,000 yearly.

KBS is looking forward to another year of progress . . . helping advertisers discover the Home Town stations whose sales producing ability is the sole factor in the success of the Keystone Network.

In 1953, the Keystone Broadcasting System, the only established and growing transcription network, will become a medium of even greater importance to the nation's advertisers who want to reach the world's richest market. And, there is little doubt but what we will have more than 700 affiliates by the end of 1953.

SERVICES OFFERED: The Keystone Broadcasting System is a network which assists local radio stations in their programming with transcriptions, with KBS making their time available to national advertisers and their agencies at an attractive network package rate.

At present, there are more than 625 Keystone affiliates, located in towns of 10,000 to 50,000 population where they reach both the small town and rural markets. For the most part, these Keystone stations serve those areas which are beyond clear reception areas of the large metropolitan radio stations or other high-power stations. The number of radio homes in these Keystone markets run into the millions, all within the prime area of Keystone affiliates. And, most of these homes are beyond effective television influence of the larger metropolitan areas.

Keystone is a flexible media easily purchased, whole or in part. Entire areas or spot coverage may be selected . . . whichever meets the needs of the advertising program. Regardless of the schedule, Keystone makes its time available at a considerable savings.

In operation, Keystone offers the same advantages as the wired networks. Instead of a large number of individual transactions, KBS reduces your problem to one order, one time clearance, one series of Affidavits of Performance, and one invoice.

During 1952, as in 1951, many of the nation's largest advertisers were using the facilities of Keystone. Types of programming vary from 25 word spots to one hour shows.

SELECTION AN

IS THE
KEYSTONE

Markets

Buy any part of the U.S.A.—by STATES, TRADE TERRITORIES, GEOGRAPHICAL REGIONS—whatever covers your distribution!

HOUSEWIFE FARMER COLLEGE HOMETOWN

Audience

Farmer, Hometown People, College Students, Housewives—you may select any of the receptive audiences!

Time

From sign-on to sign-off, 631 KBS stations may be purchased any time of day!

Merchandising

Keystone cooperates with any advertiser in a merchandising program that gets results!

Announcements or Programs

Station Breaks, Minutes, 15-Minute or Half Hour Shows, etc.—all are available on any of the 631 KBS Stations.

FLEXIBILITY

KEYNOTE OF THE BROADCASTING SYSTEM.

Build your own network by selecting the stations you need. The Keystone Network is flexible—you may buy the time periods with adjacencies you need to reach a selected audience. You may use live copy or transcriptions. The number of announcements or length of campaigns is up to you. You may do all this with *one order, one rate, and one invoice.*

KEYSTONE BROADCASTING SYSTEM, INC.

• New York: 580 Fifth Ave.

• Chicago: 111 W. Washington

• Los Angeles: 1330 Wilshire Blvd.

Live or Transcribed

Many advertisers use live announcements;
others use transcriptions.

● As a boy, James Watt noted the power of steam rising from a teakettle's spout and went on to become world-famous as an inventor. The term "Watt" to indicate power derives from his name.

Nobody Yet Ever Tuned In a Watt—

We should know . . . we have 10,000 of them going out every day . . . pushing our signal all over Arkansas.

The folks in Arkansas don't know one watt from another . . . but they do know what station brings them—

- CBS Radio programs
- Johnnie Halmes, Farm Reporter
- The Barnyard Frolic and other top Western entertainers
- Merry-Go-Round and other top-rated DJ shows
- and a host of other programs

They further know what station has the only full-time News Department, with Mark Weaver, Gene Goss and Randy Gover to keep them posted on events.

Local and national advertisers feel the same way about it. They bought more time in 1952 on KLRA than ever before in history!

Greater Coverage of Three Great Markets

THE STATIONS OF THE AMERICAN HOME

On the Pacific Coast the PLUS is DON LEE

The Don Lee Radio Network is the only Pacific Coast advertising medium that gives effective advertising coverage of all the metropolitan areas PLUS localized penetration of the many widely-separated "outside" markets!

Low uniform day-and-night rates also make Don Lee the Coast's most economical buy — more homes delivered for each dollar invested!

Your Don Lee or Blair man has convincing proof of both these statements. Ask for it before you earmark another dollar to produce Pacific Coast sales — and be sure you get the Pacific Coast's PLUS value!

Represented Nationally by John Blair & Company

*The Nation's Greatest
Regional Network*

Local Advertisers Pick*

KFWB

**980 ON THE DIAL
5,000 WATTS DAY and NIGHT**

KFWB disc jockeys are primarily salesmen with large, loyal and faithful audiences, who will give your sales message sincerity and conviction.

In this center of the motion picture, radio, television and phonograph recording industries, there is a steady stream of celebrity guests to the KFWB microphones to enhance the music programs that have built large and steady listening audiences.

Ask the Branham man in your city for all the details.

Just Call Me Up Sometime

Published figures issued by Southern Bell Telephone Company show that the Miami district *leads the South* in the number of telephones in use... both New Orleans and Atlanta now trail Miami!

And, for more than 27 years, WIOD has served this fast-growing market well ...keeping pace with "big town" demands. Your Hollingbery man will gladly bring you up-to-date on the whys and wherefores *in a big way!* Give him a ring!

James M. LeGate, *General Manager*

Nationl Rep.
 JOHN BLAIR
 in Southeast
 JAMES S. AYERS

Why take the piece
when you can
have the whole pie?

WSB and WSB-TV provide for advertisers the greatest available coverage in the South. In every survey ever made in Atlanta by any recognized authority these stations have been dominant firsts. In this booming Southland prodigious sales appetites are being satisfied. If you are interested in big portions your effort warrants the strongest advertising support you can obtain.

Covers

GEORGIA'S 2ND MARKET

(Nation's 92nd!)

★ 208,200 population

★ \$137,813,000

RETAIL SALES

All Figures From Sales Management May 10, 1952

WRDW is the station that most Augusta people listen to most in this rich, rapidly growing market that has no television for 160 miles. These thousands of radio listeners are sold on the Hooper-high CBS and local programs of Augusta's first station, WRDW.

The Augusta Market is Growing!

It's growing, even as you read this. The increase of nearby Camp Gordon, the AEC's new H-Bomb plant, and many other varied industries and businesses this rich area is attracting have combined to make a pattern of spectacular, permanent growth. Population has increased 111% since January 1, 1948.

The figures tell the Augusta market story:

Population	208,200
Bank Deposits	\$341,821,278
Retail Sales	137,813,000
Food	32,312,000
Gen'l. Mdse.	21,450,000
Automotive	25,975,000
Home Furnishings	7,106,000
Drug	3,689,000

It's a fact...

Radio reaches and sells more people at far lower cost than any other medium.

It's also a fact...

WGN reaches more homes per week than any other Chicago station*... one reason why more grocery and drug advertisers buy WGN than any other major station in the second largest market in the nation!

*BMB... Study No. 2

The Purpose of Advertising
is to get

RESULTS

Evidence of WLS position as a result producing medium for advertising is found in the impressive group of advertisers who, like those listed below, use the station consistently year after year. They and many others have found that listener loyalty to WLS extends to the station's advertisers —and that midwest people *buy* the products they hear about on WLS.

Listener loyalty produces advertising results.

Bristol-Myers	9 yrs.	Pioneer Hibred Co.	16 yrs.	Colgate-Palmolive-Peet	10 yrs.
Ralston-Purina	12 yrs.	Chrysler Corp.	8 yrs.	Vick Chemical Co.	14 yrs.
Allied Mills	14 yrs.	Oshkosh Overall Co.	16 yrs.	Murphy Products Co.	21 yrs.
Block Drugs	9 yrs.	Procter & Gamble	16 yrs.	Groves Laboratories	10 yrs.
Campbell Cereal Co.	23 yrs.	Carter Medicine Co.	15 yrs.	Sterling Drug	9 yrs.
Consolidated Products	12 yrs.	Flex-O-Glass	16 yrs.	Keystone Steel &	
Phillips Petroleum	9 yrs.	Lever Bros.	8 yrs.	Wire Co.	21 yrs.
General Foods	9 yrs.	Hulman & Co	13 yrs.	Metropolitan Life Ins.	8 yrs.
Standard Brands	7 yrs.	Little Crow Milling Co.	14 yrs.

THESE FACTUAL DATA* WILL HELP YOU BUY
 THE QUAD-CITY MARKET

A PREFERRED MARKET
 AMONG THE 162 STANDARD
 METROPOLITAN AREAS

82ND

IN POPULATION

74TH

IN RETAIL SALES

67TH

IN BUYING POWER

11TH

IN EFFECTIVE BUYING
 INCOME per CAPITA

The information presented here permits you to compare the Quad-City Market with the other (161) metropolitan areas on a recognized reliable basis—Sales Management's Survey. Naturally, we are gratified that the Quad-Cities have earned such favorable ratings. (And that these cities frequently appear among the preferred-cities-of-the-month.)

To take advantage of this desirable, active market your advertising must reach the majority of Quad-Cities' nearly one quarter million people. This you can achieve with time on WHBF Radio and Television.

* Copyright 1952. Sales Management Survey of Buying Power

ISOLATED!

. . . MUST BE REACHED FROM WITHIN.

Like an oasis in the desert . . . WTHI serves the vast rich Wabash Valley trading area.

- North, South, East or West . . . no sizeable market exists nearby.
- The major focal point in a diversified market of determined growth.
- A \$12,000,000 industrial building program is now in progress.

And, WTHI is its most powerful sales voice!

Terre Haute's strongest and only Home-Owned station

Represented Nationally by The Bolling Co.

WIDE

BIDDEFORD-SACO, ME.
MBS-YANKEE

Since it went on the air November 6, 1948, it has been growing steadily in acceptance as a proven sales medium in this industrial-recreational marketing area. WIDE's proven daytime service area covers a population of 201,781 . . . During the spring and summer months the population increases enormously because WIDE is located in the heart of Maine's richest resort area . . . Old Orchard Beach, Kennebunk Beach, Pine Point and many others. Here, too, are located the famous textile plants of Pepperell, Bates and Saco-Lowell with large year-round payrolls.

ARTHUR A. DETERS

*The
busiest
stations in
America's
automotive
center*

Today there are 1 1/2-million radio homes and 1/2-million auto radios in

the Detroit market. Best way to reach them, day and night, is through WWJ. For 32 years, it's the station Detroiters have looked to for the best in programs, and advertisers for the best in results. At lowest cost, too! WWJ costs less than the average cost-per-thousand for radio time in Detroit . . . 14.5% less according to Pulse ratings! To get your share of the 4-billion dollars retail business done in Detroit, employ Detroit's first radio station . . . WWJ.

Shortest distance between your visual sales message and the 800,000 TV sets in Detroit is through WWJ-TV, first TV station in Michigan. *Proof?* Whenever Detroit's 3 TV stations telecast the same event . . . conventions, elections, speeches, sports . . . ratings give WWJ-TV a greater audience than both other stations combined! *More proof?* Throughout the year, WWJ-TV carries most of the top-rated weekly shows! *Still more proof?* WWJ-TV is the busiest station in television. Besides its 10 hours of NBC network shows, WWJ-TV often exceeds 19 live shows in 7 hours of local programming daily in its new building, containing the largest and finest facilities in America!

AP SELLS

For Stations and Sponsors—

For instance . . . KFOR

“AP newscasts are consistent Hooper leaders in our market. We consider them most important in gaining and holding our listening audience. And AP newscasts stay sold; they are seldom available to a new sponsor. We have a waiting list for AP news—the news that sells in this metropolitan market!”

GEORGE X. SMITH,
Vice-President and Manager,
KFOR, Lincoln, Nebraska

SATURATION

SELLS GOODS

IN BUFFALO and WESTERN NEW YORK

Pitch your sales message . . .

. . . NOT once a week; NOT five times a week . . .

BUT 26 TIMES A WEEK!

adjacent to newscasts

WKBW offers alert advertisers **SATURATION!**

The most successful advertising technique is "Telling your sales story to as many people, as many times as you can, within the limits of a sound budget." This is the WKBW SATURATION FORMULA which is bringing increased sales results for WKBW advertisers; and we have the renewals to prove it. Call Avery-Knodel or WKBW.

WKBW offers you **MORE THAN TWICE** **AS MANY LISTENERS** **FOR YOUR DOLLAR!**

No matter what your yardstick is for buying radio time . . . Nielsen . . . Pulse . . . coverage maps . . . or special local surveys, you'll find a WKBW SATURATION CAMPAIGN gives you **MORE THAN TWICE AS MANY LISTENERS** for your advertising dollar. That's why your sales results will be **MORE THAN TWICE AS GOOD!** For details about this and other WKBW saturation campaigns call Avery-Knodel or WKBW.

the **WHLI** *long island story*

*One Station — **WHLI** — dominates
L. I.'s rich growing NASSAU COUNTY*

	POPULATION	RETAIL SALES	AUDIENCE SHARE (daytime)
1948	525,000	\$602,000,000	14.9
1952	950,000	\$794,860,000	27.5
% increase	80%	32%	84 ⁰ / ₁₀

WHLI has a larger audience, daytime, in the Major Long Island Market, than any network station or combination of independent stations.

Big Bonus Coverage

(Nassau, parts of Queens, Suffolk and Brooklyn)

Population—2,304,567

Net Income—over \$4 billion

Retail Sales—over \$2 billion

DATA SOURCES: Sales Management — 1952;
Conlan Survey — 1952.

The Italian Influence

In the world of fashions, as in films, food, furniture and American industry and the arts in general, Italian creativeness continues to play a more and more important role in satisfying our demands for better living.

The Italian influence on fashions in clothes, motor cars, home decoration and cuisine has received wide spread publicity and recognition in the past few months.

To you the advertiser, this has a special meaning. More than two million Americans of Italian origin live in and around New York. To them, WOV is the link between the old world and the new. And it is upon this tremendous group that the Italian Influence makes its first and most penetrating impact.

When planning your advertising in New York give careful consideration to the intimate association between WOV and the largest Italian-speaking community in the world.

we want to blow our own horn and yours too

- 1 . . . WQXR is America's leading good music station.
 - 2 . . . WQXR gives its advertisers a half-million pre-selected homes in the nation's No. 1 market.
 - 3 . . . Nearly 300 advertisers found WQXR a profitable medium in 1952.
 - 4 . . . The good music of WQXR is so much in demand outside Metropolitan New York that 17 stations in Connecticut, Pennsylvania and up-state New York rebroadcast most of its programs.
- There's more to brag about—let us tell you how WQXR can blow your horn, too.

WQXR *1560 on AM Dial—96.3 on FM Dial*

WTRY

*wraps up and
 delivers...*

the

**ALBANY-TROY
 SCHENECTADY
 market**

WTRY keeps the lead on the 1952 Pulse.

WTRY'S rates are half the No. 2 station's.

WTRY is a spectacular "best buy".

CBS

5000 WATTS
 980 KC

Represented by Headley-Reed Co.

Any way you look at it...

WSYR is FIRST *in Central New York*

Up to 239% More
Weekly Daytime* Audience Families
than any other local station

According to SAMS 1952

29.8% more than Station A
72.7% more than Station B
194.4% more than Station C
239.1% more than Station D

According to Nielsen 1952

47.0% more than Station A
55.0% more than Station B
157.5% more than Station C
212.2% more than Station D

There it is—the leadership revealed by BMB in 1947 still continues.
WSYR is your advertising buy in rich Central New York.

**And the nighttime figures show approximately the same leadership*

Out Where the West Begins . . .

KFYR...

★ . . . pays off extra dividends as the result of an intense listener loyalty built up by over 27 years of outstanding local programming.

★ . . . gives you the nation's largest arca coverage in the heart of the rich Northwest farm market.

★ . . . the Number One station in the country's largest wheat producing state — the nation's fourth largest spending families.

Radio Has No Competition!

Who said Television? Out here it's live talent that counts—packed in by KFYR's always persuasive salesmanship! When Bismarck held its Western Roundup Days, KFYR sponsored an outdoor talent show every Tuesday night for six weeks . . . with between 2,000 and 3,000 people each week, jamming the pavement to see the entertainment. Thousands more listened over the air.

If you've got TV-jeebies, check on this terrific market where RADIO IS STILL KING . . . where you can be sure of PLUS ACTION for every RADIO advertising dollar.

KFYR

WRFD Reaches "R.F.D. Ohio" At Much Less Cost!

It was a great step forward when the United States Post Office instituted Rural Free Delivery. It meant that folks in the rural areas of America could be reached almost as easily as those living in the cities and towns! Yes, Rural Free Delivery was a great advance, but here's an even better, much less expensive way to reach buyers in Ohio's BILLION DOLLAR RURAL MARKET! Put your sales message on WRFD—the station that farmers depend upon and listen to for the best in farm features and programs plus well produced entertainment! WRFD gives you deeper penetration at LOWER COST than any other advertising medium! Ohio's Rural Radio Station SELLS Ohio's Rural Market! For the complete WRFD story, telephone the studios (Franklin 2-5342) or get in touch with our national representative.

WHOL

ALLENTOWN, PA. CBS

Serving a progressive and prosperous area of diversified manufacturing plants; rich farms and splendid educational institutions, WHOL should definitely be your choice in the Allentown-Bethlehem market... 3rd in Pennsylvania... 42nd in the Nation.

The last census showed approximately 403,000 residents in the area served by WHOL. Retail sales in 1951 amounted to more than \$350,000,000... and farm dollars exceeded \$28,000,000. You certainly want some of this business for your client's products, and WHOL can deliver it to you.

**WHLM
 BLOOMSBURG, PA.**

The 1951 retail sales in the area serviced by WHLM amounted to \$147,346,000. Add to this \$21,847,900 of farming dollars and you get a pretty fair idea why we say, "Time Buyers, you can't afford to pass up the selling power of WHLM."

Located in WHLM's primary coverage area are the famous Magee Carpet Company, American Car & Foundry, Wise Potato Chips and Merck Drug Company. to mention just a few with good, big payrolls.

WAZL

HAZLETON, PA. NBC-MBS

WAZL is uniquely located at the southern end of Luzerne County and its coverage reaches into Carbon, Schuylkill and Columbia counties. This brings Hazleton's metropolitan buying population to 127,000.

Hazleton enjoys the rare distinction of having a higher effective buying income per family than the U. S. average . . . \$6,570.00 per family and they use it to buy the products advertised on WAZL. Here is a station that will deliver to you 70% of the radio listening audience from 8:00 in the morning until 10:30 at night.

VICTOR C. DIEHM
 President and Gen. Mgr.
 Rep. ROBERT MEEKER

HOPPER STATION LISTENING INDEX

10 TIMEBUYERS-
*a 1953 Reminder
of 1952's top-operated
Station in Harrisburg*

TIME	STATION A	STATION B	STATION C
8:00 AM-12:00 NOON	60.2	18.9	7.3
MON. THRU FRI. 12:00 NOON-6:00 PM	65.3	10.8	7.2
SUNDAY 12:00 NOON-6:00 PM	43.7	15.6	15.3
SUN. THRU-SAT. EVE 6:00 PM-10:30 PM	57.3	20.0	14.7
TOTAL RATED TIME PERIODS	59.6	15.7	14.7

It's a wonderful combination, says Mr. 580. CBS and WHP and the highest ratings . . . in the top quality market in Pennsylvania . . . with the highest per capita income . . . with retail sales 192% of average.

So if you want sales in Pennsylvania's Central South area—including Lancaster, York and Lebanon—WHP's got 'em. Get 'em today through Bolling!

AIR TIME WITH AN ECHO

Throughout the important Philadelphia Retail Trading Area—the scene of American industry's greatest expansion in recent years—the WFIL stations give a power boost to your consumer impressions via the most complete promotion-merchandising plan in town.

Check the services offered—and weigh the important difference.

Air time with an ECHO can make your product the star of the stores.

The WFIL echo can be amplified to suit you best.

1951-'52 Consumer Markets Estimates of WISL's enormous market:

Population	259,800
Families	75,900
Radio Families	71,540
Total Retail Sales	\$161,194,000
Food	42,984,000
Gen'l. Mdse.	15,628,000
Apparel	12,611,000
Drug	4,085,000
City of Shamokin Retail Sales per Family	\$4,963

Active Industries in Shamokin and Vicinity:
 sheet metal products brewing
 meat packing drug products
 paper products hosiery mills
 dress and shirt factories cellulose
 silk and cloth weaving, railroad shops
 mining drugs building materials
 dyeing and processing furniture

ONE STREET IN SHAMOKIN, PENNSYLVANIA divides almost 40,000 PEOPLE in TWO political sub-divisions

The growth shown by SRDS statistics in the WISL area of Pennsylvania —(Where WISL dominates) is due to new or expanding industrial activity by such firms as Merck & Co., (drugs); Cluett-Peabody Co., (Arrow shirts); Westinghouse, (Radio & TV); Empire State Chair Co. (furniture); Sunbury Wire Rope Manufacturing Co.; Shamokin Woolens; Pur-O-lator, to name a few.

The eastern quarter of WISL's coverage is mainly anthracite mining, while the north, south, and west quarters cover widely diversified industry and rich farming territories.

The industrialization of this area is due to the favorable conditions found here—good industrial sites, ample power (electricity, coal, gas)—unlimited good water, available labor, fine shipping facilities, recreational and cultural opportunities and community cooperation.

Be sure your distribution and sales grow with the area. Cover this entire territory through WISL—The Station That Produces Results.

SHAMOKIN, PENNSYLVANIA

... AND 4 OTHER PENNSYLVANIA COUNTIES*
 WITHIN WISL'S PRIMARY COVERAGE AREA.

REPRESENTED BY: FORJOE & CO.

A QUALITY STATION IN A QUALITY MARKET
 SHAMOKIN, Pennsylvania
 A NATURAL OUTLET OF 1000 WATTS
 A \$4 MILLION RETAIL TRADE INCREASE
 SHOWN IN WISL'S PRIMARY AREA

WBAP Offers the BEST in Coverage, Market, Facilities, Programming!

Here's the TV story of WBAP!

FACILITIES—finest in the Southwest 78,000 square feet of floor space, three studios, engineering and maintenance shops and storage rooms, a 502 foot tower 1138 feet above sea level!

COVERAGE—Sixteen fabulous counties surrounding Fort Worth and Dallas—the WBAP TV market—foremost in the South, ahead of Houston and Miami! In addition, WBAP-TV offers the advertiser a BONUS VALUE—dominance of the extensive non-metropolitan audience as well.

MARKET—WBAP-TV delivers a \$1 1/2 Billion Market—the No. 1 Market in the South! In the WBAP TV Primary Area of 16 counties, total buying income amounted to \$1,950,527,870 during 1951. Over 700,000 viewers in this wealthy region have money to spend for merchandise of every kind. And note this—WBAP-TV's proven response area includes 30 wealthy Texas counties with a total population of 1,797,000 and total retail sales of \$2,059,150,000.

No doubt about it—you'll find TOP facilities, TOP coverage, and the South's No. 1 Market—delivered by WBAP-TV!

Here's the AM-FM story of WBAP!

The Fort Worth-Dallas area, the No. 1 Market in the South, plus most of the Great Southwest is blanketed by WBAP with top quality local programs and shows from NBC, ABC and independent producers. Top Hooper ratings prove—it's WBAP for quick, certain sales results in this booming, bustling market.

In the combined Tarrant-Dallas County market area alone, total buying income was \$1,751,959,000 during 1951. Total retail sales during the same period were \$1,356,542,000.

WBAP facilities are the finest in the business—six studios, each with its own control room, color scheme and acoustical design, a master control room capable of handling ten programs at one time plus a completely equipped recording room housing Anipex Tape Recorders and RCA Disc Type Recorders. Field recording equipment also is available.

Check these latest BMB figures:

WBAP-820, 50,000 watts, clear channel, daytime BMB 976,380 families, 291 counties, 8 states; nighttime BMB, 1,078,200 families, 511 counties, 16 states

WBAP-570, 3000 watts, daytime BMB 656,850 families, 193 counties, 2 states; nighttime BMB 581,810 families, 190 counties, 2 states.

Look to WBAP-AM-FM-TV for the BEST in coverage, facilities, market and programming.

AP SELLS

For Stations and Sponsors—

For instance... **WLPM**

“We have no trouble keeping sponsors of AP news happy. They always stay on the air longer than any others. Sponsors perk up when you mention an available AP newscast. And our Sales Department agrees unanimously that AP news is the easiest thing they have to sell!”

FRED L. HART,
 WLPM, Suffolk, Virginia

WHY IS AP
 THE BEST?

BECAUSE-AP has more news
 correspondents,
 more news bu-
 reaus, more miles
 of news wire than
 any other news
 service.

AP SELLS

For Stations and Sponsors—

For instance . . . WFHR

“Our income from AP news has been substantial year after year. Many news sponsors have been with us ever since WFHR went on the air more than 11 years ago. AP news sells easily, to national as well as local advertisers. We were among the first AP radio stations. And still feel AP is the best in the business.”

GEORGE T. FRECHETTE,
 General Manager,
 WFHR, Wisconsin Rapids, Wis.

WAPA

(San Juan, P.R.)

ONE OF THE ISLAND'S MOST POPULAR RADIO STATIONS!

IN the last survey sponsored by The Puerto Rican Broadcasters Association, The Puerto Rican Association of Advertising Agencies, and The Puerto Rican Association of Advertisers, WAPA comes out as one of the TOP stations in the island of Puerto Rico, ranking second place.

The reason: WAPA broadcasts "soap operas", News, variety shows, local and American baseball. WAPA carries 28 daily programs with a minimum rating of 5% or more.

For Complete Information, Rates, Availabilities, Etc., Contact:

WAPA — P.O. Box 4563,

IN CANADA

more people listen regularly to*

CFRB Toronto

*than to any other
station . . .*

★ The 1952 BBM figures show CFRB's coverage as 619,430 daytime and 639,720 night time — more than one-fifth of the homes in Canada, concentrated in the market which accounts for 40% of the Dominion's retail sales.

CBC facilities and service stand at a new high level

AM

French-speaking listeners in Northern Ontario and the Prairies are now served with CBC programs in French . . . by the westward extension of the CBC French Network to privately-operated stations in Sudbury, Timmins, St. Boniface, Gravelbourg, Saskatoon and Edmonton.

More extensive program service is also available to English-speaking listeners, coast-to-coast. The CBC Dominion Network, maintaining its varied *evening schedule*, has expanded still more its *daytime* program service.

The Trans-Canada Network, with a daily sixteen-hour schedule in all six of Canada's time zones, continues to bring to listeners the best in music, drama and comedy . . . news, information and public service programs . . . new features and greater variety.

TV

To its nationwide service via *network radio*, TV has been added in Canada's two biggest markets. CBLT-Montreal and CBLT-Toronto are now in operation. Additional CBC television stations are planned for other regions.

As Canada's economy rises . . . as its population grows and its markets steadily increase . . . CBC service continues to expand.

In the use of these expanded facilities . . . network radio *and* television . . . and in the development of top-flight programs . . . the CBC stands ready to co-operate in every way possible with advertising agencies and their clients.

HEY — LOOK AT YOUR *NEIGHBOUR'S BULGING BILLFOLD!

YES — Canada's a pretty wealthy guy right now. Got lots of cash — good old-fashioned folding money, which he's ready to lay out on most anything you can sell him. Been doing particularly well just lately. Gotten him some nice oil strikes up in Alberta. Turned up uranium in Saskatchewan and a whole raft of iron ore in Labrador. Owns quite a parcel of heavy industry in Quebec and right down through Ontario. And the old family business of lumber and gold and fishing don't exactly bring in chicken-feed, either.

Always been the States' best customer. Likes much the same things you do — for himself, his home, the wife and kids. Drives the same autos, reads the same comics, gets just as het up over the World Series. 'N his wife's just like yours, too. Makes the country over at the women's clubs, fusses over Junior's diet, shops more and more at the supermarket.

Only difference is — he's a mite hard for you to get to know. Often speaks two languages, French and English, has quite a few personal quirks you mightn't know about. And times he lives way off where it's plenty tough to reach him.

Except by radio. Canada listens to radio most all the time — and most everywhere. For his leisure he just naturally likes to pull up a chair and visit with the folks at his local station. And whether he speaks French or English, Canada and radio are right friendly. Takes radio's advice on what to buy — and he sure buys plenty. Spent nigh on 10½ billion dollars last year, just in the stores.

Yes, sir! That's Canada, your customer. How's about letting us go get him for you.

"In Canada you sell 'em when you tell 'em!"

A message from the 115 member stations of the Canadian Association of Broadcasters whose voices are invited into over 3 million Canadian homes every day.

Canada's Selective Radio Headquarters

The little All-Canada man represents all phases of Canadian broadcasting — both time and talent.

Through the years he has come to symbolize not only the Company he represents, but the medium he champions: *Selective Radio*.

In a vast country with wide "skip-distances" between major markets, All-Canada offers you the most economical, most effective method of reaching the consumer at home through a select group of key Canadian stations.

Call on the All-Canada man wherever your campaign plans extend into the Canadian market. He'll be ready to discuss times and stations; and All-Canada also offers you selection from the world's largest library of transcribed programs.

MEXICO

**3RD
LARGEST MARKET
FOR U.S. GOODS**

COVERED

COMPLETELY

BY

RADIO PROGRAMAS DE MEXICO

KNOWLEDGE

of the people and their buying habits.

EXPERIENCE

with campaigns of U.S.'s most successful sponsors.

FACILITIES

to reach all Mexico's 26 million consumers and more . . . economically.

MEXICO is a *mighty* good neighbor in dollar-volume purchases of U. S. goods: 5 times more in 1946 than in 1940, totalling nearly a half billion dollars. And today (1951) another 25% boost to \$711 million. Mexico, 3rd largest market in U. S. world trade, is a new world of trade for advertisers like Bayer, Canada Dry, Colgate, Parker, Sidney Ross, GE, Coca-Cola and scores more. They sell Mexico's 26 million consumers through Latin America's most important network—the 94 stations of Radio Programas de Mexico.

Here is a market equal in population to Ohio and New York combined. But, unlike the U. S., where channels of distribution are filling, Mexican demand is never-ending. *Competition is almost unknown.* Investigate your opportunity for mass distribution in this virtually untapped mass market. *YOUR new sales frontier is South . . . through 94 stations of RPM.*

RADIO PROGRAMAS DE MEXICO

Largest Latin American Broadcasting System

The New Sales Frontier is South

A LOCAL-SALES FORMULA

Showmanship + Smart Shows + Merchandising

By ROBERT W. FRIEDHEIM, Vice President,
World Broadcasting System, Inc.

WORLD BROADCASTING SYSTEM'S business for 1952 was 40% over that of 1951. And 1951 had been our record year. There is no better proof possible that local radio is stronger than ever because, of course, our business is local.

In 1952, local radio sales were up 7.1% and network sales were down 13.1%.

I predict that 1953 will be our greatest year not only because local radio will be better even than last year, but because of our expanded plans to build programs and sales features which will stimulate local sponsorship. We have never operated in the vain, empty hope that because radio was strong, we would be strong simply by reflection.

Even before television, we planned aggressive, imaginative, exciting releases because we knew that no matter how great radio is, it must be sold to make it profitable.

And no one is going to buy radio simply because it's there.

Local radio station salesmen want aids for selling, they want to be able to walk into a local sponsor with a plan, with a program that is tested and proved, with big names that attract audiences, and, in addition — merchandising and promotion aids with which the station can back up the program.

That is the combination which keeps our business climbing—showmanship plus smart, attractive program features plus hardhitting merchandising. With that combination, radio will continue to grow and the smart local radio station operator will find his business bigger even than ever.

But this requires more than lip service to merchandising. We're not competing with Chautauqua lecturers here, we're fighting for the audience with the most glamorous of all media, television. This kind of competition requires complete, well-planned merchandising from point of sale merchandising to suggested tie-ins, to presentation material for advertisers, to public service campaigns, to special selling aids and to reports on other stations' success stories.

In other words—ammunition. No one ever shot any game with last year's record book.

Our climbing business proves two things: That local radio is booming, and that where it booms loudest is where you find it supported by strong merchandising and promotion.

Last year we gave our station subscribers selling tools which varied from "Bundle of Joy," a framework for announcing the arrival of new babies, to a "Go

To Church" campaign, to a commercial sound effects feature. We also drew on the nation's excited interest in the political campaigns and produced a "Get Out The Vote" campaign.

These sold, as will one of our big features planned this year which I predict will hit a new high in combining smart programming, showmanship and merchandising.

The listeners are there. There are 44 million radio homes and 25 million car radios. Radio is not only strong, but it will grow and become stronger. It is up to the programmers to avoid like the plague listless programming unsupported by merchandising. This is inviting disaster.

Our subscribing station managers write to us continually reporting that with the help of our sales features their business is better than ever. They are not crying the blues as are some of the radio network officials. They know the business is there, but they also know that it has to be jumped for.

The available business includes not only large national advertisers who now bend an attentive ear to an attractive local program, but also advertisers new to radio. Both those groups, as well as those who have successfully used local radio for years are the ones we think of when we blueprint our programs.

These are smart businessmen. They aren't going to go into radio or stay in radio because it puffs their ego to be sponsors; they want to see their advertising dollars produce revenue. And there are more advertising dollars available than ever. It is up to us programmers to build sales tools to help the local station manager get his share of those dollars.

FELLOWS

(Continued from Page 35)

tion to re-write the Taft-Hartley Act, and the ultimate outcome here should have far-reaching effects upon labor-management relationships.

Already-felt manpower shortages continue to be a problem. Stations have come into existence at a faster rate than skilled workers have been produced, and the resultant problem is a very real one.

This problem was given serious consideration at the 1952 NARTB District Meetings; and from these came instructions that the Association do everything possible to encourage the nation's schools and colleges to afford proper training for young people in the radio-TV industry. As an initial step, NARTB has urged every state association of broadcasters to work with the educational institutions within their areas to achieve this goal.

By no means the least of the problems to be overcome by the media in 1953 are those involving legislation. This looms as a most active year for the law-makers at all levels—federal, state and municipal. For example, all but four of the state

legislatures are in session this year, and it is certain that the industry will receive attention from each.

NARTB watches federal legislation vigilantly and willingly places its facilities and advisory services at the disposal of the members of Congress and the Congressional committees. In many instances this industry representation and cooperation has been instrumental in preventing unwise legislation—much of which is proposed simply through an ignorance of the industry itself rather than through a desire to impose unreasonable restrictions. Ours, therefore, is the task of "educating" law-makers in the complexities of the business of broadcasting. The industry will be aided materially if every broadcaster will make this his personal responsibility during the years ahead.

Yes, 1953 is certainly fraught with problems. But it also promises the compensations of expanded economic stability, improved services to the audience and to the advertiser, and the continuing satisfaction of the opportunity to make substantial contributions to our democratic society through serving in the public interest, convenience and necessity.

this year...you're going to need

RCA's *Thesaurus*

Why? Because in 1953, you'll need more sponsors and bigger audiences and—you can get both faster and easier—with RCA's *Thesaurus*

No need to tell you that the way to build bigger profits in 1953 is to do a more effective job for your advertisers. This means building bigger audiences for their messages.

There is need to have something different—some-

thing better to sell in programming.

That's why you need *Thesaurus*, the complete local programming service which gives you everything to boost local radio time sales. And because RCA's *Thesaurus* brings you top-talent, you can easily sell shows and make extra profits on talent fees.

So investigate *now* the ways in which *Thesaurus* can help build greater audiences and increased profits for your station. Contact your nearest *Thesaurus* representative for complete details.

The Hour of Charm

Phil Spitalny's All-Girl Orchestra and Choir—featuring Evelyn and her Magic Viola... half-hour show—once a week.

"DATE IN HOLLYWOOD"

Starring Eddie Fisher and Gloria de Haven with Hugo Winterhalter and his Orchestra... quarter-hour show—twice weekly.

The WAYNE KING Serenade

The "Waltz King" and his Orchestra with Harry Hall, Gloria Van, Jacqueline James and the Wayne King Chorus... half-hour show—once a week.

Look at all you get!

BASIC LIBRARY: approximately 5,000 selections.

MONTHLY RELEASE: 52 or more new musical selections each month. Hit tunes well in advance of their popularity peak.

WEEKLY SCRIPTS: continuity for 31 program series—80 individual shows. Holiday shows and other bonus productions.

PRODUCTION AIDS: voice tracks, theme music, tie-ins,

cross-plugs, mood music, sound effects, vocal cues; and open-end time & weather jingles, commercial & shopping jingles; plus news, sports and feature program signatures.

SALES AIDS: Sponsor-selling brochures. Sales-clinching audition discs. Complete audience-building promotion kits—mats, photos, press releases—to publicize and merchandise *Thesaurus* shows locally.

FLING SYSTEM: In addition to storage cabinets, you get loose-leaf catalog, card index file, check list, record selection list.

this complete programming service...

Thesaurus . . . the library that pays its own way with
80 top-talent shows . . . 31 program series —
plus 5,000 musical selections and 52 releases per month!

And, again this year . . . as in every year . . . you can count on the New Era in *Thesaurus* to provide the biggest names . . . the most saleable shows . . . the most effective program aids . . . the most productive sales tools in the transcription library field.

Stations praise Thesaurus results . . .

"Sponsor very happy — Mail response increased appliance dealer's schedule of *Thesaurus* show from 3 to 5 times per week." **WFDF (Flint, Michigan)**

"We're getting a large enough talent fee from *The Wayne King Serenade* and *The Hour of Charm* to pay for your service." **WMT (Cedar Rapids, Iowa)**

"Sold 15 *Thesaurus* shows in 60 days—46 quarter-hours weekly. . . Thanks for everything in helping us get started with *Thesaurus*." **KROS (Clinton, Iowa)**

Services Offered: The Keystone Broadcasting System is a network which assists local radio stations in their programming with transcriptions, with KBS making their time available to national advertisers and their agencies at an attractive network package rate.

Keystone is a flexible media easily purchased, whole or in part. Entire areas or spot coverage may be selected . . . whichever meets the needs of the advertising program. Regardless of the schedule, Keystone makes its time available at a considerable savings.

In operation, Keystone offers the same advantages as the wired networks. Instead of a large number of individual transactions, KBS reduces your problem to one order, one time clearance, one series of Affidavits of Performance, and one invoice.

During 1953, as in 1952, many of the nation's largest advertisers are using the facilities of Keystone. Types of programming vary from 25 word spots to one hour shows.

SKILL

... the mark of an "old pro"

It takes years to develop the ability to produce the highest degree of skill under the most exacting pressure. This is the mark of the professional.

We at Radio Recorders are "old pros" when it comes to high fidelity sound recording. Our skill never suffers under pressure.

For 16 years Radio Recorders has followed a basic policy of concentrating on the technical improvement of sound recording in all forms. The result is perfection in all departments.

As the largest independent recording organization in America, Radio Recorders only interest is to perfect sound quality, and to keep clients secure in the knowledge that their efforts will be recorded with the highest fidelity possible ... by the best "old pros" in the business.

RADIO-TV's PATRIOTIC ROLE

(Continued from Page 89)

heart-warming aspects to this story. First, the listeners and viewers of America have demonstrated in convincing fashion their loyalty to and reliance upon radio and TV. Second, broadcasting has added a new chapter to its 30-year record of public spirited good citizenship. And third, one cannot help but feel that the unparalleled coverage given to the conventions, the campaign, and the issues by TV and radio have created in the citizen a new feeling of closeness to political decisions and a more active desire to have a part in them."

With a vast audience assured by the success of the get-out-the-vote campaign, both parties settled down to the serious business of putting into operation one of the most intensified time-buying drives in history.

It is estimated that the national political organizations and their supporters spent more than \$6,000,000 for radio and television time during the campaign, with the Republicans signing up for the lion's share of this total.

The surge of spending brought with it the obligation on the part of the two industries to exercise the ultimate in fairness in handling the campaigns, an obligation which was fulfilled in a manner which brought universal approbation.

Praise of the industries' efforts in this direction was paid by Paul A. Walker, chairman of the Federal Communications Commission, at the close of the campaign.

Walker, in an appearance before the special House of Representatives committee which looked into campaign expenditures, told that group that the Commission had received no evidence that either the radio or television industry, or the commercial sponsors of the programs aired by those industries, had favored any candidate or party. Reports indicated, he said, that the stations and networks had exercised every effort to play fair with all candidates, not only for the national, but also for the state and local offices as well.

The balloting took place on Tuesday, November 4. The inauguration of General

Eisenhower as the 34th President of the United States was held on Tuesday, January 20. Both were red letter days in the radio and television industries. With public interest at a fever pitch, the audience for each of the media was probably greater than at any other time in history.

Mighty preparations for coverage of the balloting were made by the major networks.

NBC opened its facilities at 8 p.m. with a running story of the balloting. George Hicks and Merrill Mueller gave listeners full returns as well as vote analyses, while Richard Harkness kept listeners informed on gubernatorial and Senatorial contests.

For TV, Bill Henry, veteran of the Chicago convention, provided the running story as developments unfolded. John Cameron Swayze acted as "presidential reporter" for the televiewers.

CBS election headquarters at 15 Vanderbilt Avenue was a compact, complete co-ordination of radio and TV, with some 500 staffers working within the confines of three adjoining studios. TV was housed in the larger studio, a beehive of continuous activity from 8 p.m. onward, giving well-integrated, up-to-the-minute coverage via scoreboards on Presidential, gubernatorial and Senatorial returns, with the web's top commentators, Walter Cronkite, Ed Murrow, Lowell Thomas and Doug Edwards holding forth, aided by a 20-member staff of statisticians under the direction of John Burke, together with a highly geared staff of newsmen and other CBS personnel—all co-ordinated by Don Hewitt.

The AM headquarters of CBS was directly behind the bustling TV beehive. Fourteen teletype machines serviced both radio and TV in a night-long schedule.

ABC Radio and Television started coverage of the balloting promptly at 8 p.m., with such luminaries as Walter Winchell, John Daly, Drew Pearson and Elmer Davis spearheading the network's operation. For tabulating purposes the network used IBM machines and a special staff of personnel numbering some 300. Total staff

used by the network from studios in New York, Chicago and Hollywood totaled more than one thousand.

The newsroom of the Mutual network, while achieving a peak of activity, was at the same time a model of smooth operation. Under the direction of Milton Burgh, Mutual's director of news, batteries of teletype machines fed bulletins to a full staff in program operations, with Hal Wagner at the helm, and to control, under Art Feldman, director of special events.

At 8 p.m., starting time of the Chevrolet sponsorship of the broadcasts, Mutual gave the "box score" existing at that time. Then Fred Vandeventer, anchor man of the MBS team, launched into a report of late returns. Within the next quarter hour the network had switched to seven cities throughout the East, South, New England and midwest for election news from those sections. Coverage was given to General Eisenhower's headquarters in New York's Hotel Commodore as well as to Stevenson headquarters in Springfield, Ill.

The Du Mont network, in a tie-up with the New York Journal American, gave its adherents an all-video picture of the event. Frank Conniff, popular "Journal" columnist, and Sanford Stanton, noted political editor, were featured on the WABD-Du Mont "Election Roundup," giving viewers accurate analyses of the voting trends.

The five major networks each received a "Bill of Rights Award" from the American Heritage Foundation for their work in the get-out-the-vote campaign. The networks so honored by the Foundation were ABC, CBS, Du Mont, Mutual and NBC.

As the tumult and the shouting of the election died, the nation's viewers and listeners leaned back and enjoyed a breathing spell while looking forward to the inauguration of "Ike," which was held in Washington on Tuesday, January 20.

It is estimated that most of the country's 158 million people saw the inaugural ceremony on television or heard it on the radio. There are an estimated 110 million radio sets in the nation, and more than 21 million television receivers.

The radio networks and the independent

stations carried the inaugural to all sections of the country, while 125 TV stations in 75 cities gave a sight-and-sound coverage to upward of 75 million viewers.

The leading role which radio and television played in the recent election poses at once the question "What of the future"? The basic processes of nominating—and electing—a President may undergo radical revisions in the light of recent events.

A conservative estimate of TV coverage reveals that the more than 21,000,000 receivers are normally watched by approximately 70 million persons, putting telecasts within range of 75 per cent of the population at the present time. And this percentage is being enlarged daily.

The rapid rate of this advance can be appreciated when it is recalled that when Mr. Truman took office four years ago there were only 800,000 TV sets in range of the pooled telecast which reported his inauguration. The 21 million receivers available in 1953 represents an increase of more than 2,600 per cent in only four years. What this figure will be in 1956 can be only a matter of conjecture.

Radio and television broadcasts of the recent campaign pointed up the possibility and feasibility—the necessity, in fact—of shortening the campaign period. Obviously, the days of the "stumping" candidate are over. The striving, and jockeying, for political advantage, which consumed almost a year, has been made archaic by the advances of radio and TV.

The waste-time, waste-motion, waste-money character of the political nominating conventions was brought home forcefully to those who pay the bills by the all-revealing eye of the television camera. Here again the need for correction has been made painfully clear.

In 1956, with virtually 100 per cent of American homes reached by radio, and with, possibly, 90 per cent within video range, the people of the nation will be brought face to face, so to speak, with their candidates for leadership. An entirely new era in political life will have been born.

This industry is fortunate indeed that it is the instrumentality whereby this revolutionizing development will most surely result in a clearer-thinking, a better-educated political America.

OPERATION SUCCESS!

with du mont telecasting equipment

The rich heritage of over 12 years' experience in the design, manufacture and use of telecasting equipment is reflected in every piece of Du Mont equipment today. This experience results in equipment without peer for performance, dependability and operating economies.

Du Mont-equipped stations were among the first to "break into the black" a few years ago. Today a roster of the most successful stations in the television world shows an impressive percentage of partial or

100% Du Mont-equipped operations.

It was Du Mont who first advocated the "Grow As You Earn" basis of station equipment. This has paid dividends to the many stations who recently increased their transmitting power through the Acorn-to-Oak Series Transmitters. Such power increases were achieved with no loss of "time on the air" or loss of former equipment.

Truly, a Du Mont-equipped TV station exemplifies OPERATION SUCCESS!

DU MONT Television Transmitter Division

TELEVISION—1953

FORGING ahead with boundless enthusiasm the television industry in this year 1953 is on the threshold of an era of electronic expansion unprecedented in the history of communications.

THIS edition of the Television Year Book is replete with information attesting to the giant strides video has made during the past year as well as to the planning for the future. It is an up-to-the-minute chronicle of a year of startling progress of the sight-and-sound medium.

THE facts, figures and opinions embodied in this edition bear testimony to the creative forces which brought this modern miracle to the nation. This volume is your record of accomplishments.

TO the men and women of television we express our appreciation. Your interest and contributions have made this edition a price-less reference volume. Again, we thank you.

Is your Television set outmoded?

(THE NEXT FEW MINUTES WILL TELL YOU)

Here are eight pertinent questions you should ask yourself about your present television set. Get a pencil and answer them now.

YES NO

- Got a small picture?** The new Zeniths have big 17, 21 and 27-in. pictures, fine grain pictures with sharp, clean contrasts.
- Is your cabinet an eyesore?** Every new Zenith is a fine piece of furniture in its own right. 22 models to choose from, styles for every taste.
- Has your set a flat, tinny tone?** Big speakers and precision-engineered FM sound systems make the sound of a new Zenith as matchless as the Zenith picture.
- Has your set an awkward tuning system?** You tune a Zenith, both sound and picture, with just one knob. You get perfect reception on every channel, UHF or VHF, pre-tuned for your location.

YES NO

- Do you anticipate UHF troubles?** Any Zenith ever built can be readied for UHF in 15 minutes without taking the chassis out of the cabinet, without converters.
- Does interference blur picture and sound?** You can lock out interference with the Zenith Fringe Lock. It keeps the picture from wobbling and rolling, too!
- Got fringe area "snow"?** When tested in 17 difficult fringe areas the new Zenith million-dollar chassis gave 25% better reception than any leading make tested against it.
- Do you get reflection and glare on the screen?** A special development eliminates room reflection and glare at eye level on the new Zenith models.

IF you've answered "Yes" to 2 or more of the above questions, it's pretty good proof that your set is out of date—robbing you of a lot of TV enjoyment. And it means that you'd better make a bee-line for the nearest ZENITH TV DEALER.

The Tudor

17-inch screen \$199.95*

THE TELEVISION CODE OF THE NARTB

PREAMBLE

TELEVISION is seen and heard in every type of American home. These homes include children and adults of all ages, embrace all races and all varieties of religious faith, and reach those of every educational background. It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television's relationship to the viewers is that between guest and host.

THE REVENUES from advertising support the free, competitive American system of telecasting, and make available to the eyes and ears of the American people the finest programs of information, education, culture and entertainment. By law the television broadcaster is responsible for the programming of his station. He, however, is obligated to bring his positive responsibility for excellence and good taste in programming to bear upon all who have a hand in the production of programs, including networks, sponsors, producers of film and of live programs, advertising agencies, and talent agencies.

THE AMERICAN businesses which utilize television for conveying their advertising messages to the home by pictures with sound, seen free-of-charge on the home screen, are reminded that their responsibilities are not limited to the sale of goods and the creation of a favorable attitude toward the sponsor by the presentation of entertainment. They include, as well, responsibility for utilizing television to bring the best programs, regardless of kind, into American homes.

TELEVISION, and all who participate in it are jointly accountable to the American public for respect for the special needs of children, for community responsibility, for advancement of education and culture, for the acceptability of the program materials chosen, for decency and decorum in production, and for propriety in advertising. This responsibility cannot be discharged by any given group of programs, but can be discharged only through the highest standards of respect for the American home, applied to every moment of every program presented by television.

IN ORDER that television programming may best serve the public interest, viewers should be encouraged to make their criticisms and positive suggestions known to the television broadcasters. Parents in particular should be urged to see to it that out of the richness of television fare, the best programs are brought to the attention of their children.

ADVANCEMENT OF EDUCATION AND CULTURE

1. Commercial television provides a valuable means of augmenting the educational and cultural influences of schools, institutions of higher learning, the home, the church, museums, foundations, and other institutions devoted to education and culture.

2. It is the responsibility of a television broadcaster to call upon such institutions for counsel and co-operation and to work with them on the best methods of presenting educational and cultural materials by television. It is further the responsibility of stations, networks, advertising agencies and sponsors consciously to seek opportunities for introducing into telecasts factual materials which will aid in the enlightenment of the American public.

3. Education via television may be taken to mean that process by which the individual is brought toward informed adjustment to his society. Television is also responsible for the presentation of overtly instructional and cultural programs, scheduled so as to reach the viewers who are naturally drawn to such programs, and produced so as to attract the largest possible audience.

4. In furthering this realization, the television broadcaster:

a) Should be thoroughly conversant with the educational and cultural needs and desires of the community served.

b) Should affirmatively seek out responsible and accountable educational and cultural institutions of the community with a view toward providing opportunities for the instruction and enlightenment of the viewers.

c) Should provide for reasonable experimentation in the development of programs specifically directed to the advancement of the community's culture and education.

ACCEPTABILITY OF PROGRAM MATERIAL

Program material should enlarge the horizons of the viewer, provide him with wholesome entertainment, afford helpful stimulation, and remind him of the responsibilities which the citizen has toward his society. Furthermore:

a) (i) Profanity, obscenity, smut and vulgarity are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

(ii) The Television Code Review Board (see V, Section 3, page 25) shall maintain and issue to subscribers, from time to time, a continuing list of specific words and phrases, the use of which should not be used in keeping with this subsection. This list, however, shall not be considered as all-inclusive.

b) (i) Attacks on religion and religious faiths are not allowed.

(ii) Reverence is to mark any mention of the name of God, His attributes and powers.

(iii) When religious rites are included in other than religious programs, the rites are accurately presented, and the ministers, priests and rabbis portrayed in their callings are vested with the dignity of their office and under no circumstances are to be held up to ridicule.

c) (i) Contests may not constitute a lottery.

(ii) Any telecasting designed to “buy” the television audience by requiring it to listen and/or view in hope of reward, rather than for the quality of the program, should be avoided.

d) Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually nor justified as a solution for marital problems.

e) Illicit sex relations are not treated as commendable.

f) Sex crimes and abnormalities are generally unacceptable as program material.

g) Drunkenness and narcotic addiction are never presented as desirable or prevalent.

h) The administration of illegal drugs will not be displayed.

i) The use of liquor in program content shall be de-emphasized. The consumption of liquor in American life, when not required by the plot or for proper characterization, shall not be shown.

j) The use of gambling devices or scenes necessary to the development of plot or as appropriate background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature. Telecasts of actual sport programs at which on-the-scene betting is permitted by law should be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.

k) In reference to physical or mental afflictions and deformities, special precautions must be taken to avoid ridiculing sufferers from similar ailments and offending them or members of their families.

l) Exhibitions of fortune-telling, astrology, phrenology, palm-reading, and numerology are acceptable only when required by a plot or the theme of a program, and then the presentation should be developed in a manner designed not to foster superstition or excite interest or belief in these subjects.

m) Television drama shall not stimulate news or special events in such a way as to mislead or alarm. Reference is made to the section of the Code on News.

n) Legal, medical and other professional advice, diagnosis and treatment will be permitted only in conformity with law and recognized ethical and professional standards.

o) The presentation of cruelty, greed and selfishness as worthy motivations is to be avoided.

p) Unfair exploitation of others for personal gain shall not be presented as praiseworthy.

q) Criminality shall be presented as undesirable and unsympathetic. The condoning of crime and the treatment of the commission of crime in a frivolous, cynical or callous manner is unacceptable.

r) The presentation of techniques of crime in such detail as to invite imitation shall be avoided.

s) The use of horror for its own sake will be eliminated; the use of visual or aural effects which would shock or alarm the viewer, and the detailed presentation of brutality or physical agony by sight or by sound are not permissible.

t) Law enforcement shall be upheld, and the officers of the law are to be portrayed with respect and dignity.

how to secure a top television film program:

Five basic requirements are necessary to produce a top television film program series—from promise to fulfillment. The real job is to find them all in one organization—with sufficient experience to insure that all five are working smoothly and efficiently.

These five requirements are:

- . . . an adequate script department
- . . . a mature casting group
- . . . a truly fine production unit
- . . . a top creative editorial staff
- . . . ample capital.

As producers of 44 half-hour *Fireside Theatre* programs and now well under way with two new series of 52 half-hours each, *Rebound* and *Crown Theatre*, Crosby Enterprises, Inc. offers agencies and advertisers a background and experience probably unparalleled in this field. We have several additional properties available for consideration.

Inquiries should be addressed to Charles B. Brown, Crosby Enterprises, Inc., 9028 Sunset Boulevard, Hollywood 46, California.

u) The presentation of murder or revenge as a motive for murder shall not be presented as justifiable.

v) Suicide as an acceptable solution for human problems is prohibited.

w) The exposition of sex crimes will be avoided.

x) The appearances or dramatization of persons featured in actual crime news will be permitted only in such light as to aid law enforcement or to report the news event.

y) The use of animals, both in the production of television programs and as a part of television program content, shall, at all times, be in conformity with accepted standards of humane treatment.

RESPONSIBILITY TOWARD CHILDREN

1. The education of children involves giving them a sense of the world at large. Crime, violence and sex are a part of the world they will be called upon to meet, and a certain amount of proper presentation of such is helpful in orienting the child to his social surroundings. However, violence and illicit sex shall not be presented in an attractive manner, nor to an extent such as will lead a child to believe that they play a greater part in life than they do. They should not be presented without indications of the resultant retribution and punishment.

2. It is not enough that only those programs which are intended for viewing by children shall be suitable to the young and immature. (Attention is called to the general items listed under "Acceptability of Program Materials.") Television is responsible for insuring that programs of all sorts which occur during the times of day when children may normally be expected to have the opportunity of viewing television shall exercise care in the following regards:

a) In affording opportunities for cultural growth as well as for wholesome entertainment.

b) In developing programs to foster and promote the commonly accepted moral, social and ethical ideals characteristic of American life.

c) In reflecting respect for parents, for honorable behavior, and for the constituted authorities of the American community.

d) In eliminating reference to kidnapping of children or threats of kidnapping.

e) In avoiding material which is excessively violent or would create morbid suspense, or other undesirable reactions in children.

f) In exercising particular restraint and care in crime or mystery episodes involving children or minors.

DECENCY AND DECORUM IN PRODUCTION

1. The costuming of all performers shall be within the bounds of propriety, and shall avoid such exposure or such emphasis on anatomical detail as would embarrass or offend home viewers.

2. The movements of dancers, actors, and other performers shall be kept within the bounds of decency, and lewdness and impropriety shall not be suggested in the positions assumed by performers.

3. Camera angles shall avoid such views of performers as to emphasize anatomical details indecently.

CONSOLIDATED FILM INDUSTRIES

NEW 16mm LAB

Consolidated is proud to make available to users of 16mm film its new 16mm laboratory.

This is the first large, fully-equipped, professional laboratory ever built for the processing of 16mm film exclusively. It incorporates every advanced facility for attaining the finest possible quality in 16mm black & white and color.

*In Every Field, One Name Stands Out.
In Film Laboratories, It's . . . CFI*

1740 Broadway, N.Y.C. 19, N.Y. • JU 6-1700

4. Racial or nationality types shall not be shown in television in such a manner as to ridicule the race or nationality.
5. The use of locations closely associated with sexual life or with sexual sin must be governed by good taste and delicacy.

COMMUNITY RESPONSIBILITY

A television broadcaster and his staff occupy a position of responsibility in the community and should conscientiously endeavor to be acquainted fully with its needs and characteristics in order better to serve the welfare of its citizens.

TREATMENT OF NEWS AND PUBLIC EVENTS

News

1. A television station's news schedule should be adequate and well-balanced.
2. News reporting should be factual, fair and without bias.
3. Commentary and analysis should be clearly identified as such
4. Good taste should prevail in the selection handling of news:
 - Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided. News should be telecast in such a manner as to avoid panic and unnecessary alarm.
5. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.
6. Pictorial material should be chosen with care and not presented in a misleading manner.
7. A television broadcaster should exercise due care in his supervision of content format, and presentation of newscasts originated by his station; and in his selection of newscasters, commentators, and analysts.
8. A television broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.
9. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements nor should he permit dramatizations in any program which would give the false impression that the dramatized material constitutes news. Expletives, (presented aurally or pictorially) such as "flash" or "bulletin" and statements such as "we interrupt this program to bring you . . ." should be reserved specifically for news room use. However, a television broadcaster may properly exercise discretion in the use in non-news programs of words or phrases which do not necessarily imply that the material following is a news release.

Public Events

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.
2. Because of the nature of events open to public, the treatment of

Yes, I dabble in oil a bit, but my real money comes from my new TV station. You see, I bought Consolidated's **STATION-STARTER PLAN** and made money on programming right from the start.

Actually, it was just a case of taking the little old ball and running with it. Money came pouring in. Have a cigar. Have two.

Consolidated Television Sales *distributors of film for Television*

25 VANDERBILT AVENUE, NEW YORK 17, MU. 6-7543

520 N. MICHIGAN AVE., CHICAGO 11, MI. 2-5231

such events by a television broadcaster should be effected in a manner to provide for adequate and informed coverage as well as good taste in presentation.

Controversial Public Issues

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. In keeping therewith the television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to its fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. The provision of time for this purpose should be guided by the following principles:

a) Requests of individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

b) Programs, devoted to the discussion of controversial public issues should be identified as such, and should not be presented in a manner which would mislead listeners or viewers to believe that the program is of entertainment, news or any other character.

Political Telecasts

Political telecasts should be clearly identified as such, and should not be presented by a television broadcaster in a manner which would mislead listeners or views to believe that the program is of any other character.

Religious Programs

1. It is the responsibility of a television broadcaster to make available to the community as part of a well-balanced program schedule adequate opportunity for religious presentations.

2. The following principles should be followed in the treatment of such programs:

a) Telecasting which reaches men of all creeds simultaneously should avoid attacks upon religion.

b) Religious programs should be presented respectfully and accurately and without prejudice or ridicule.

c) Religious programs should be presented by responsible individuals, groups, and organizations.

d) Religious programs should place emphasis on broad religious truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.

3. In the allocation of time for telecasts of religious programs it is recommended that the television station use its best efforts to apportion such time fairly among the representative faith groups of its community.

PRESENTATION OF ADVERTISING

1. Ever mindful of the role of television as a guest in the home, a television broadcaster should exercise unceasing care to supervise the form in which advertising material is presented over his facilities. Since tele-

BMI

offers these

TELEVISION PROGRAM AIDS

BMI services are designed as practical aids to the television broadcaster. Check with your program director or music librarian for this material.

TELEVISION SKETCHBOOK

A regular monthly service containing timely and practical working scripts for the presentation of songs in dramatic, comic and pictorial fashion.

The very latest song hits as well as the standard favorites are developed into photogenic sketches which can be used effectively as complete musical shows, as production numbers in variety shows, or for scene-setting segments.

There are dozens of ways in which you can adapt the Sketchbook to advantage.

RECORDED

BRIDGES

MOODS

INTERLUDES

A classified and cross-indexed reference book, particularly helpful wherever descriptive mood music or background music is necessary.

You don't have to be a music expert to make the most of this BMI service.

"Recorded Bridges, Moods, Interludes" gives you thousands of cues to recorded symphonic music which is available to any telecaster.

CATEGORICAL INDEX

For setting musical scenes and selecting appropriate music for countless script situations.

A complete volume, carefully compiled, indexed and cross-indexed, to provide immediate reference to a wide variety of popular and standard song titles.

"22 TELEVISION TALKS"

An important book containing transcripts of the talks and discussions at the BMI Television Clinics.

A practical symposium of TV data by men of wide experience and recognized pioneers in television.

Offered to TV, radio and allied industries at the cost of transcribing and printing.

Your BMI Field Representative, who visits your station periodically, can be helpful in many ways. For any personal problem in selecting or programming music send your inquiry to BMI's Station Service Department.

BROADCAST MUSIC, INC.

580 FIFTH AVENUE • NEW YORK 36, N. Y.
NEW YORK • CHICAGO • HOLLYWOOD • TORONTO • MONTREAL

vision is a developing medium, involving methods and techniques distinct from those of radio, it may be desirable, from time to time, to review and revise the presently suggested practices.

(a) Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.

b) A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should seek to avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called "trailer" announcements). To this end, the program itself should be announced and clearly identified before the sponsor's advertising material is first used, and should be signed off after the sponsor's advertising material is last used.

c) Advertising copy should contain no claims intended to disparage competitors, competing products, or other industries, professions or institutions.

d) Since advertising by television is a dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.

e) Television broadcasters should exercise the utmost care and discrimination with regard to advertising material, including content, placement and presentation, near or adjacent to programs designed for children. No considerations of expediency should be permitted to impinge upon the vital responsibility towards children and adolescents, which is inherent in television, and which must be recognized and accepted by all advertisers employing television.

f) Television advertisers should be encouraged to devote portions of their allotted advertising messages and program time to the support of worthy causes in the public interest in keeping with the highest ideals of the free competitive system.

g) A charge for television time to churches and religious bodies is not recommended.

ACCEPTABILITY OF ADVERTISERS AND PRODUCTS

General

1. A commercial television broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements. Moreover, in consideration of the laws and customs of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable

Associate Producer: **Bob Wald**

Administrative Director: **Martin Cohen**

to a substantial and responsible segment of the community. The foregoing principles should be applied with judgment and flexibility, taking into consideration the characteristics of the medium and the form and content of the particular presentation. In general, because television broadcast is designed for the home and the family, including children, the following principles should govern the business classifications listed below:

a) The advertising of hard liquor should not be accepted.

b) The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable subject to federal and local laws.

c) Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.

d) The advertising of firearms and fireworks is acceptable only subject to federal and local laws.

e) The advertising of fortune-telling, occultism, spiritualism, astrology, phrenology, palm-reading, numerology, mind-reading or character-reading is not acceptable.

f) Because all products of a personal nature create special problems, such products, when accepted, should be treated with especial emphasis on ethics and the canons of good taste; however, the advertising of intimately personal products which are generally regarded as unsuitable conversational topics in mixed social groups is not acceptable.

g) The Advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is not acceptable.

2. Diligence should be exercised to the end that advertising copy accepted for telecasting complies with pertinent federal, state and local laws.

3. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

Advertising of Medical Products

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer, and the following principles and procedures should apply in the advertising thereof.

a) A television broadcaster should not accept advertising material which in his opinion offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.

b) Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe", "without risk", "harmless", or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

Contests

1. Contests should offer the opportunity to all contestants to win on

the basis of ability and skill, rather than chance.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of product, reasonable facsimiles thereof should be made acceptable.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (see Time Standards for Advertising Copy.)

Premiums and Offers

1. Full details of proposed offers should be required by the television broadcaster for investigation and approval before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts which would distort or enlarge their value in the minds of the listeners.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

Time Standards for Advertising Copy

1. As a guide to the determination of good telecast advertising practice, the time standards for advertising copy, presently suggested, are as follows:

Length of Program (minutes)	News Programs Day and Night	Length of Advertising Message (minutes and seconds)	
		Class "A" Time	All Other Programs Hrs.
5	1:00	1:00	1:15
10	1:45	2:00	2:10
15	2:15	2:30	3:00
25		2:50	4:00
30		3:00	4:15
45		4:30	5:45
60		6:00	7:00

2. The time standards set forth above do not affect the established practice of reserving for station use the last 30 seconds of each program for station break and spot announcements.

3. Announcement programs are designed to accommodate a designated number of individual live or recorded announcements, generally one minute in length, which are carried within the body of the program and are available for sale to individual advertisers. Normally not more than 3 one-minute announcements (which should not exceed approximately 125 words if presented live) should be scheduled within a 15-minute period and not more than six such announcements should be scheduled within a 30-minute period in local announcement programs; however, fewer announcements of greater individual length may be scheduled provided, that the aggregate length of the announcements approximates three minutes in a 15-minute program or six minutes in a 30-minute program. In announcement programs other than 15 minutes or 30 minutes in length, the proportion of one minute of announcement within every five minutes of programming is normally applied. The announcements must be presented within the framework of the program period designated for their use and kept in harmony with the content of the program in which they are placed.

4. Programs presenting women's services, features, shopping guides, market information, and similar material, provide a special service to the listening and viewing public in which advertising material is an informative and integral part of the program content. Because of these special characteristics the time standards set forth above may be waived to a reasonable extent. In the present state of experimentation in programming and advertising techniques in television programs of this type no definite limitations to these exceptions are set forth at this time.

5. Any casual reference in a program to another's product or service under any trade name or language sufficiently descriptive to identify it should, except for normal guest identifications, be condemned and discouraged.

6. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade mark or slogan may be used only incidentally. They should not obtrude on program interest or entertainment. "On Camera" shots of such materials should be fleeting, not too frequent, and mindful of the need of maintaining a proper program balance.

Dramatized Appeals and Advertising

Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes. When dramatized advertising material involves statements by doctors, dentists, nurses or other professional people, the material should be presented by members of such profession reciting actual experience or it should be made apparent from the presentation itself that the portrayal is dramatized.

Sponsor Identification

Identification of sponsorship must be made in all sponsored programs

in accordance with the requirements of the Communications Act of 1934, as amended, and the Rules and Regulations of the Federal Communications Commission.

★

REGULATIONS AND PROCEDURES

The following REGULATIONS AND PROCEDURES shall obtain as an integral part of the Television Code of the National Association of Radio and Television Broadcasters:

I

Name

The Name of this Code shall be the Television Code of the National Association of Radio and Television Broadcasters.*

II

Purpose of the Code

The purpose of this Code is cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural, economic, moral and entertainment needs of the American public to the end that more and more people will be better served.

III

Subscribers

Section 1. Eligibility

Any individual, firm or corporation which is engaged in the operation of a television broadcast station or network, or which holds a construction permit for a television broadcast station within the United States or its dependencies, shall, subject to the approval of the Television Board of Directors as hereinafter provided, be eligible to subscribe to the Television Code of the NARTB to the extent of one subscription for each such station and/or network which it operates or for which it holds a construction permit; provided, that a non television-member of NARTB shall not become eligible via code subscription to receive any of the member services or to exercise any of the voting privileges of a member.

Section 2. Certification of Subscription

Upon subscribing to the Code, subject to the approval of the Television Board of Directors, there shall be granted forthwith to each such subscribing station authority to use the "NARTB Television Seal of Approval", a copyrighted and registered seal to be provided in the form of a certificate, a slide and/or film, signifying that the recipient thereof is a subscriber in good standing to the Television Code of NARTB. The seal and its significance shall be appropriately publicized by the NARTB.

Section 3. Duration of Subscription

Subscription shall continue in full force and effect until thirty days

* "Television Board. The Television Board is hereby authorized:—(4) to enact, amend and promulgate standards of practice or codes for its Television members, and to establish such methods to secure observance thereof as it may deem advisable; —". *By-Laws of The National Association of Radio and Television Broadcasters, Article VII Section 2, B. (4)*.

after the first of the month following receipt of notice of written resignation. Subscription to the Code shall be effective from the date of application subject to the approval of the Television Board of Directors; provided, that the subscription of a television station going on the air for the first time shall, for the first six months of such subscription, be probationary, during which time its subscription can be summarily revoked by an affirmative two-thirds vote of the Television Board of Directors without the usual processes specified below.

Section 4. Suspension of Subscription

Any subscription, and/or the authority to utilize and show the above-noted seal, may be voided, revoked or temporarily suspended for television programming which, including commercial copy, by theme, treatment or incident, in the judgment of the Television Board constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by an affirmative two-thirds vote of the Television Board of Directors at a regular or special meeting; provided, however, that the following conditions precedent shall apply: (1) The subscriber shall be advised in writing by Registered Mail of the charges preferred; (2) Such subscriber shall have a right to a hearing and may exercise same by filing an answer within 10 days of the date of such notification; (3) Failure to request a hearing shall be deemed a waiver of the subscriber's right thereto; (4) If hearing is requested by the subscriber, it shall be designated as promptly as possible and at such time and place as the Television Board may specify. Oral and written evidence may be introduced by the subscriber and by the Television Code Review Board (hereinafter provided for). Oral argument may be had at the hearing and written memoranda or briefs may be submitted by the subscriber and by the Television Code Review Board. The Television Board of Directors may admit such evidence as it deems relevant, material, and competent and may determine the nature and length of the oral argument and the written argument or briefs to be submitted. The Television Board of Directors shall decide the case as expeditiously as possible and shall notify the subscriber and the Television Code Review Board in writing of the decision.

Section 5. Additional Procedures

The Television Board of Directors shall, from time to time, establish such additional rules of procedure as, in its opinion, may be necessary for the proper administration of the Code; provided, that special considerations shall be given to the procedures for receipt and processing of complaints and to necessary rules to be adopted from time to time, taking into account the source and nature of such complaints; such rules to include precautionary measures such as the posting of bonds to cover costs and expenses of processing same; and further provided, that the Board of Directors shall take the steps necessary to insure the confidential status of any proceedings before it.

Section 6. Amendment and Review

Because of the new and dynamic aspects inherent in television broadcast, the Television Code, as a living, flexible and continuing document, may be amended from time to time by the Television Board of Directors; provided that said Board is specifically charged with review and reconsideration of the entire Code, its appendices and procedures, at least once each year.

Section 7. Termination of Contracts

All subscribers on the air at the time of subscription to the Code shall be permitted that period prior to and including the earliest legal cancellation date to terminate any contracts, then outstanding, calling for program presentations which would not be in conformity with the Television Code, provided, however, that in no event shall such period be longer than fifty-two weeks.

IV

Rates

Each subscriber shall pay 'administrative' rates in accordance with such schedule at such time, and under such conditions as may be determined from time to time by the Television Board (see Article VII Section 2.B (3) and (4), *By-Laws of the NARTB*); provided, that appropriate credit shall be afforded to a television member of the NARTB against the regular dues which he or it pays to NARTB-TV.

V

The Television Code Review Board

Section 1. Composition

The Television Board of Directors shall establish a continuing committee entitled the Television Code Review Board, upon the promulgation of the television code. The Review Board shall be composed of five members, all of whom shall be from the Television membership of NARTB. Members of the Television Board of Directors shall not be eligible on the above specified Review Board. Members of the Review Board shall be appointed by the President of the NARTB, subject to confirmation by the Television Board of Directors. Due consideration shall be given, in making such appointments, to factors of diversification of geographical location, company representation and network affiliation. Those members appointed, following promulgation of the Code, shall serve until immediately following the annual NARTB Convention of 1952. Thereafter a term shall be for one year.

A. Limitation of Service

A person shall not serve consecutively as a member of the Review Board for more than two years.

Section 2. Quorum

A majority of the membership of the Television Code Review Board shall constitute a quorum for all purposes unless herein otherwise provided.

Section 3. Authority and Responsibilities

The Television Code Review Board is authorized and directed:

- (1) To maintain a continuing review of all television programming, especially that of subscribers to the television code of the NARTB;
- (2) to receive, screen and clear complaints concerning television programming;
- (3) to define and interpret words and phrases in the Television Code;
- (4) to develop and maintain appropriate liaison with government agencies and with responsible and accountable organizations and institutions;
- (5) to inform, expeditiously and properly, a subscriber to the Television Code of complaints or commendations, as well as to advise all subscribers

concerning the attitude and desires program-wise of accountable organizations and institutions, and of the American public in general; (6) to review and monitor, if necessary, any certain series of programs, daily programming, or any other program presentations of a subscriber, as well as to request recordings, aural or kinescope, or script and copy, with regard to any certain program presented by a subscriber; (7) to reach conclusions, and to make recommendations or prefer charges to the Television Board of Directors concerning violations and breaches of the Television Code by a subscriber; (8) to recommend to the Television Board of Directors, amendments to the Television Code.

A. Delegation of Powers and Responsibilities

The Television Code Review Board may delegate, from time to time, such of its above-specified responsibilities, as it may deem necessary and desirable, to a Staff Group of the NARTB-TV.

B. Meetings

The Television Code Review Board shall meet regularly at least four times a year at a date to be determined by it in the months of January, March, June and September. The chairman of the Review Board may at any time on at least five days' written notice call a special meeting of the Board.

* * * * *

APPENDIX A

*Additional Procedures Relating to Administration, Hearings and Decisions**

I

THE TELEVISION CODE REVIEW BOARD AUTHORITY AND RESPONSIBILITIES

(Reference: Television Code, Regulations and Procedures, V, Section 3)

Section 1—Preferring of Charges — Conditions Precedent

Prior to the preferring of charges to the Television Board of Directors concerning violation of the code by a subscriber, the Television Code Review Board (1) shall have appropriately, and in good time, informed and advised such subscriber of any and all complaints and information coming to the attention of the Television Code Review Board and relating to the programming of said subscriber, (2), shall have reported to, and advised, said subscriber by analysis, interpretation, recommendation or otherwise, of the possibility of a violation or breach of the Television Code by the subscriber, and (3), shall have served upon the subscriber by Registered Mail a Notice of Intent to prefer charges, at least twenty days prior to the filing of any such charges with the Television Board of Directors. During this period the Television Code Review Board may, within its sole discretion, reconsider its proposed action based upon such written reply as the subscriber may care to make, or upon such action as the subscriber may care to take programwise, in conformance with the analysis, interpretation, or recommendation of the Television Code Review Board.

* Reference: *By-Laws of the National Association of Radio and Television Broadcasters, Article VII, section 2, B (4); Television Code, Regulations and Procedures, III, section 5.*

A. Notice of Intent

The Notice of Intent shall include a statement of the grounds and reasons for the proposed charges, including appropriate references to the Television Code.

B. Time

In the event that the nature of the program in question is such that time is of the essence, the Television Code Review Board may prefer charges within less than the twenty days above specified, provided that a time certain in which reply may be made is included in its Notice of Intent, and provided that its reasons therefor must be specified in its statement of charges preferred.

Section 2 Confidential Status

Hearings shall be closed; and all correspondence between a subscriber and the Television Code Review Board and/or the Television Board of Directors concerning specific programming shall be confidential; provided, however, that the confidential status of these procedures may be waived by a subscriber.

Section 3 The Charges

The charges preferred by the Television Code Review Board to the Television Board of Directors shall include the grounds and reasons therefor, together with specific reference to the Television Code. The charges shall contain a statement that the conditions precedent, hereinbefore described, have been met.

II

HEARINGS AND DECISIONS—TELEVISION BOARD OF DIRECTORS

(Reference: Television Code, Regulations and Procedures, III, Section 4)

The following additional rules and procedures shall obtain in such hearings as may be held pursuant to the *Television Code, Regulations and Procedures*, III, section 4:

Section 1—Notice

A subscriber shall be advised in writing by Registered Mail of the charges preferred, which notice shall include a statement of the grounds and reasons for such charges, together with appropriate reference to the *Television Code*.

Section 2—Presentation; Representation

A subscriber against whom charges have been preferred, and who has exercised his right to a hearing, shall be entitled to effect presentation of his case personally, by agent, by attorney, or by deposition and interrogatory.

Section 3—Intervention

Upon request by the subscriber-respondent or the Television Code Review Board, the Television Board of Directors in its discretion, may permit the intervention of one or more other subscribers as parties-in-interest.

Section 4—Transcript

A stenographic transcript record shall be taken and shall be certified by the Chairman of the Television Board of Directors to the office of the Secretary of the National Association of Radio and Television Broadcasters, where it shall be maintained. The transcript shall not be open to

inspection unless otherwise provided by the party respondent in the proceeding.

Section 5—Television Code Review Board; Counsel

The Television Code Review Board may, at its discretion, utilize the services of an attorney from the staff of the NARTB for the purpose of effecting its presentation in a hearing matter.

Section 6—Order of Procedure

At hearings, the Television Code Review Board shall open and close.

Section 7—Cross Examination

The right of cross-examination shall specifically obtain. Where procedure has been by deposition or interrogatory, the use of cross-interrogatories, shall satisfy this right.

Section 8—Authority of Presiding Officer; of Television Board of Directors

The Presiding Officer shall rule upon all interlocutory matters, such as, but not limited to, the admissibility of evidence, the qualifications of witnesses, etc. On all other matters, authority to act shall be vested in a majority of the Television Board unless otherwise provided. (Reference; *Television Code, Regulations and Procedures*, III, section 4).

Section 9—Films, Transcriptions, etc.

Films, kinescopes, records, transcriptions, or other mechanical reproductions of television programs, properly identified, shall be accepted into evidence when relevant.

Section 10—Continuances and Extensions

Continuance and extension of any proceeding or for the time of filing or performing any act required or allowed to be done within a specific time may be granted upon request, for a good cause shown. The Board or the Presiding Officer may recess or adjourn a hearing for such time as may be deemed necessary, and may change the place thereof.

Section 11—Findings and Conclusions

The decision of the Television Board of Directors shall contain findings of fact with conclusions, as well as the reasons or bases therefor. Findings of fact shall set out in detail and with particularity all basic evidentiary facts developed on the record (with appropriate citations to the transcript of record or exhibit relied on for each evidentiary fact) supporting the conclusion reached.

Section 12—Reconsideration or Rehearing

A request for reconsideration or rehearing may be filed by parties to the hearing. Requests for reconsideration or rehearing shall state with particularity in what respect the decision or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact shall specify the pages of record relied on. If the existence of any newly-discovered evidence is claimed, the request shall be accompanied by a verified statement of the facts together with the facts relied on to show that the party, with due diligence, could not have known or discovered such facts at the time of the hearing. The request for rehearing may seek:

- a. Reconsideration
- b. Additional oral argument
- c. Reopening of the proceedings
- d. Amendment of any findings, or
- e. Other relief.

Section 13—Time for Filing

Requests for reconsideration or rehearing shall be filed within ten (10) days after receipt by the respondent of the decision. Opposition thereto may be filed within five (5) days after the filing of the request.

Section 14—Penalty, Suspension of

At the discretion of the Television Board, application of any penalty provided for in the decision may be suspended until the Board makes final disposition of the request for reconsideration or rehearing.

Section 15—Disqualification

Any member of the Television Board may disqualify himself, or upon good cause shown by any interested party, may be disqualified by a majority vote of the Television Board.

Radio-TV Receiver Production in 1952

Washington—A month-by-month breakdown of 1952 production of television and radio receivers, showing a total production for the year of more than 6 million TV's and 9.7 million radio receivers, as released by the Radio-Television Manufacturers' Assn., follows:

	Television	Home Sets	Portables	Auto	Clock	Total Radio
January	404,932	288,724	68,433	195,147	80,151	632,455
February	409,337	312,705	72,866	267,779	106,103	759,453
March (5 weeks)	510,561	357,689	99,720	343,314	175,169	975,892

TV 'NEVER HAD IT SO GOOD'

But—Beware The Delusion Of Self-Satisfaction

By CHRIS J. WITTING, Managing Director,
Du Mont Television Network

TELEVISION at both the network and station level "never had it so good" as in 1952—at least on the basis of billings figures and reports on sets in use—and 1953 looks even better!

But one does not require a crystal ball to question whether telecasters should accept too confidently all that meets the eye—whether they wouldn't be wiser to look below the surface. Here, within the confines of the industry's trade journal annual, is a good place to make a closer examination of some of the things that rate a second look.

The first question we should attend shapes up in the query: Just how united are we in our "united front"? True, we've got the code and we've even acquired a congressional accolade for industry efforts to police ourselves. And, of course, the code has remedied some programming problems—cleavage and off-color, ad lib jokes, for example. But who will contend that the code is as fully effective on the commercial side—as to length of commercial, improper display of promotional signs, and so on?

In reviewing many a conversation on the subject this year, I'm sure that I express a common sentiment when I suggest that we'd all be wise sincerely and effectively to support the industry's effort to do the many jobs that the code seeks to carry off—to do the jobs for ourselves before we face the added problem of outside attempts at "regulation." And if there is any doubt in your mind that the threat of such outside "aid" is very real, just ask your Congressman.

And while we are on the subject of Washington, I think television would be wise to view with sympathy the tele-consciousness of the Eisenhower administration and develop an affirmative, positive program to make sure that the administration finds ways to interpret national problems and its approach to them through our medium.

Last year I wrote here that television had two vital jobs cut out for it in 1952, and one of them was "to put the brakes on

soaring costs." Yet costs have continued to rise and this pivotal problem has been carried over into 1953.

Employees are striking or negotiating for more money. Stations already on the air are increasing rates as their set circulation figures rise, and new stations are coming on the air—all to add to the bill that sponsors are expected to foot.

What does this mean? The answer is written in the roll of advertisers who used the medium a year or two ago, but found it "too rich for their blood"—"too rich" during a period when they, too, were operating at peak levels, enjoying good incomes and profits. Where will we be if the excess profits tax is eliminated and many enterprises don't have the money available in the future that they have had in the past? Or if business volume falls off a little?

One of the most regrettable things of the year is the general agreement among sympathetic but critical commentators that network TV, although only three years old, commercially has found a "well heeled rut" and is taking the conventionally safe side of the road rather than the rougher road of daring and pioneering. It makes me wonder whether we are not too inclined to accept the quick dollar rather than explore the promise in such initiative and creative effort.

And I am all the more sensitive to this when I review the quick response to Bishop Sheen, who has been followed by so many programs based on a strong individual; by our own daring Mono-Drama Theater which puts Shakespeare in the format of a soap opera with great success; by *Dark of Night* which proves television capable of "on location" dramatic production—breaking through the walls of the studio, and by the splendid documentaries that two of our competitors have produced this year.

So, to sum up, the moment is one that calls not for self-satisfaction over ever-increasing billing figures but for serious self-examination and energetic co-operation that Television may quickly achieve a sound economic basis and become the great communication medium that it promises to be.

As Whole Nation Looks And Listens

ABC-TV's 3-WAY EXPANSION

Talent, Production And Facilities All Affected

By ALEXANDER STRONACH, Jr.
Vice President in Charge of the ABC-TV Network

A new super nova appeared in the firmament of the entertainment industry early this year.

However, this nova is already behaving in a manner totally unfamiliar to astronomers and scientists accustomed to coping with our heavenly bodies. This nova didn't suddenly flare up only to return to its former magnitude in a few weeks or months. It was born of long and deliberate undertaking and study—the merger of the American Broadcasting Company, Inc. and the United Paramount Theaters, Inc. into the American Broadcasting-Paramount Theaters, Inc.

This new giant on the horizon of the entertainment industry was made possible through approval by the Federal Communications Commission on Feb. 9, 1953.

The realization of this accomplished fact brings into sharp focus the competitive enterprise that makes American business the envy of an entire world and the American knack for entertainment, especially as applied to the broadcasting-telecasting fields—one of the truly great industries in America.

The merger has placed at the network's disposal sufficient financial resources to enable ABC to expand—talentwise, productionwise, and facilitieswise—and to assume a real competitive position in TV.

These three major expansions have already been undertaken:

Talentwise: by the signing of George Jessel as artist-producer and whose services become available to both the ABC Radio and TV Networks on a long term basis in June of this year; similarly, the signing of America's outstanding disc jockey—Martin Block, for his "Martin Block's Make Believe Ball Room" to debut on the network's flagship radio outlet—WABC—on New Year's Day, 1954 and who will shortly thereafter, inaugurate a similar program over the ABC Radio Network. Block's services will also be available to the ABC-TV Network. Even as this is being written, ABC will shortly announce the signing of two of the top stars in our comedy roster.

Productionwise: the ABC-TV Network already has in preparation a series of especially planned TV presentations, each of

half-hour's duration and which will have their initial showing in April of this year. Titled the "ABC Album," with Donald Cook as host of the series and featuring such outstanding names of the entertainment world as Paul Douglas, Brandon de Wilde, Audrey Christie, Don Briggs, Allen Jenkins, Walter Slezak, John Hodiak, Alan Mowbray and others, the "ABC Album" will bring to the nation's viewers a new concept in TV entertainment.

Facilitieswise: the long-range improvement of the network's owned video outlets, boosting their respective power output to maximum signal strength as authorized by the FCC, and which will enable the ABC-TV Network's five owned stations—WABC-TV, New York; WBKB, Chicago; WXYZ-TV, Detroit; KECA-TV, Los Angeles, and KGO-TV, San Francisco, to radically improve their signal strength, and which in turn will result in better reception to viewers in those cities and surrounding areas. This facilities improvement plan is being undertaken at a cost of \$2,500,000 and will be finally completed during 1954.

The merger does something more than simply bring into being a greatly revitalized network. It brings new life and hope to the entire entertainment industry—an industry that constantly strives to find new methods for the expression of great talent, education, news, public service and many other facets that enable some 80 million Americans to sit down in their living rooms each evening and see what the creative and technical skill of other Americans can bring to them.

From the combined resources of the newly merged companies there is certain to emerge a greater good and purpose. The fact that the merger creates a new competitive force among the other major networks is in itself most laudable.

New methods for programming will be undertaken. New talent projected. New stations added. New technical improvements made.

The challenge has been set before us. We have met it in the past. The merger now enables us to meet the future with renewed strength in which a great industry and the public it serves are the final beneficiaries.

A. B. C. TELEVISION NETWORK

ALEXANDER STRONACH, JR. *Vice President in Charge of the ABC-TV Network*

Rich in experience as a free-lance writer and as a director of some of radio's top shows, ALEXANDER (SANDY) STRONACH, JR. joined the American Broadcasting Company in September, 1948 as manager of television programs for the network. His versatility and ability to adapt himself to the rapidly changing TV industry gained him swift recognition as both a showman and executive and in January, 1950, he was named national director of television pro-

STRONACH, JR.

gram operations for ABC. A year later, in January, 1951, he was appointed vice president in charge of television programs and in May of that year was promoted to vice president in charge of the ABC-TV Network. As vice president in charge of the ABC-TV Network, Stronach is responsible for the overall supervision of the Television Sales Department and the Television Programming Department.

ROBERT M. WEITMAN *Vice President in Charge of Programming and Talent*

He may be new to ABC, but ROBERT M. WEITMAN isn't new to people in show business. He joined ABC this year as vice president in charge of programming and talent as a direct result of the merger of the American Broadcasting Company, Inc. and the United Paramount Theaters, Inc. into American Broadcasting-Paramount Theaters, Inc. and he is without a doubt, one of the most valuable executives that the broadcasting-television industry could ac-

WEITMAN

quire. His acumen as a showman and developer of outstanding talent had far reaching effects in the success of the original Paramount Pictures, Inc., and as a vice president of UPT, Inc., sparked that company's immediate success as an independent operation.

He now brings all of his outstanding abilities to the newly strengthened American Broadcasting Company, strengthened all the more, because of Bob Weitman.

CHARLES R. ABRY *National Sales Manager for the ABC-TV Network*

It was in the early part of this year (February) that CHARLES R. (CHICK) ABRY was promoted to the position of national sales manager for the ABC-TV Network, a rather phenomenal rise, considering that he first joined ABC in June, 1951, as an account executive in the network's television sales department. And it was only a short while after he became associated with ABC, that he proved himself one of the most capable account executives in the network field.

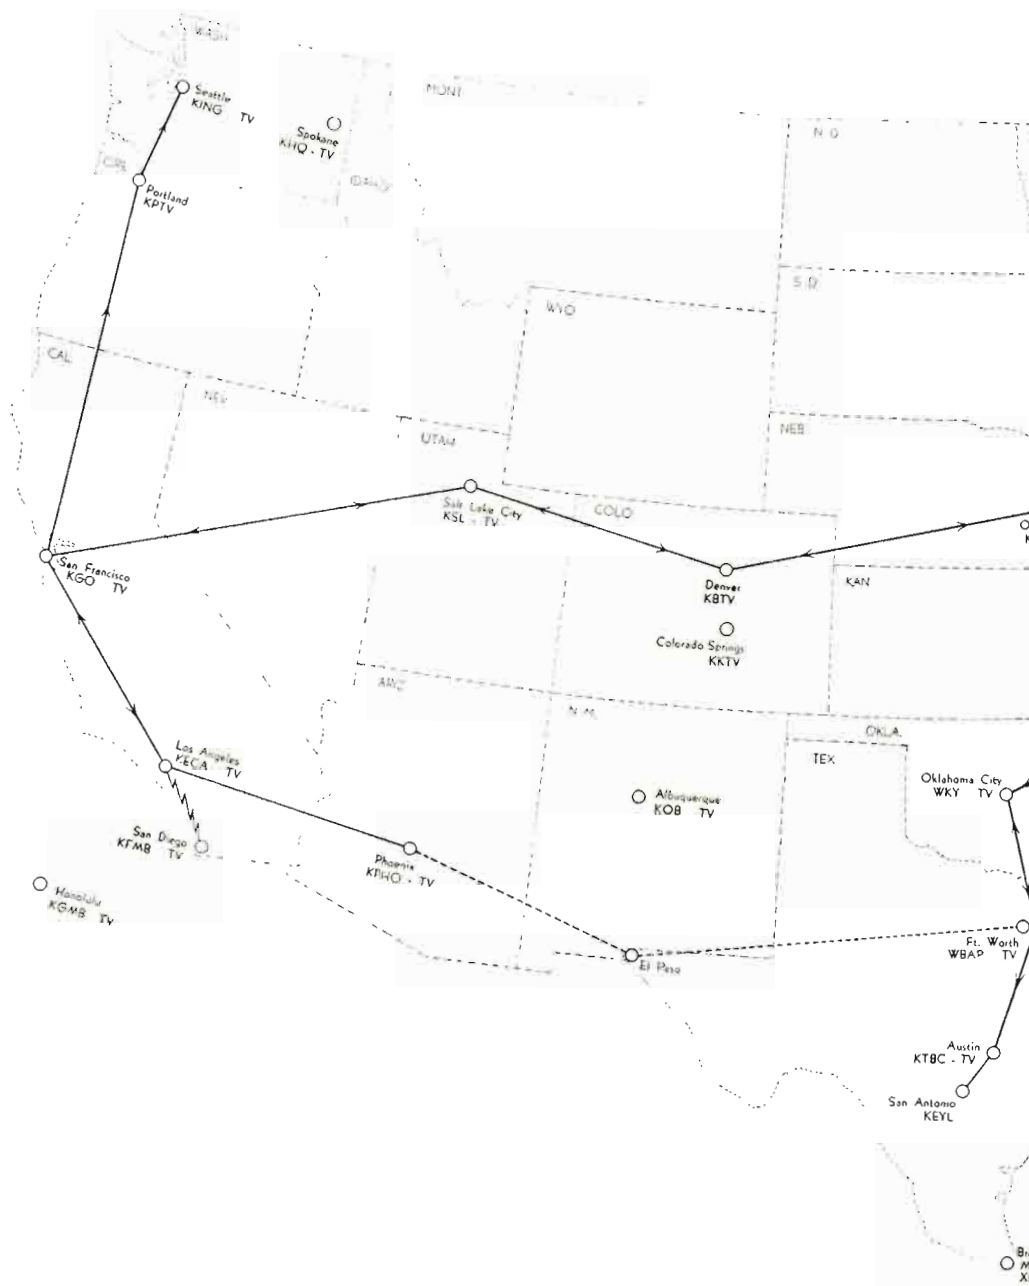

ABRY

His salesmanship, meriting greater executive latitude, brought him the appointment of Eastern Sales Manager for the ABC-TV Network in November, 1952.

His present duties as National Sales Manager for the ABC-TV Network entail the close supervision of a large selling force of account executives as well as close surveillance of a number of top level national accounts currently using the facilities of the ABC-TV Network.

Curtain going up . . . on the

Biggest Event in Television!

Chances are you've already seen television's newest, most exciting symbol . . . the symbol for the *new* ABC.

But the symbol is not important by itself. It's just a curtain raiser for major announcements to come. It's a sign that big things are in the 'air . . . and if you are an advertiser, a sign that *this* is the time to put ABC television in your plans.

New shows are being developed. New talent will be attracted. Not all right away, of course. But it will pay to watch ABC . . . because ABC now has the right combination of experience, equipment, and showmanship to be a leader in television.

The stage is set . . . and big things are beginning to happen. So keep your eye on the *new* ABC!

ABC TELEVISION NETWORK

VIDEO FITS RETAIL PATTERN

Adaptable To Current 'On-Sight-Alone' Buying

By J. L. VAN VOLKENBURG
President, CBS Television

IT WAS a chilly month of the year. Electrical dealers in Chicago couldn't understand why they were virtually sold out of \$70 electric fans. Within a single week, \$60,000 worth of the fans had moved across their counters.

There had been no local advertising, no other possible sales stimulus—*except* a single television commercial message on the Westinghouse "Studio One" program.

And there was the case of Schick Razor. Chester Gifford, president of Schick, Inc., reports: "Our sales record shows the biggest first quarter in our sales history, and also the biggest first half, with sales one-third ahead of the same period last year—and this at a time when industry in general, and especially the electrical appliance field, was not enjoying any material increases."

Behind this story of vanishing inventories of Schick shavers is another great television success story—a story of the company's merchandise being pulled out of non-TV areas and rushed to TV areas in order to meet consumer demand.

Each of these stories has a peculiar significance to marketing men. Each indicates that we may soon be anticipating a shift in the market picture determined largely by whether television is there or not. We can look for the market to follow television, rather than the other way around. For television creates demand for products—takes the customer to the spot where he can buy them.

And television fits today's retail buying patterns: Today we find an increasing trend toward the self-service market, where merchandise is sold on sight alone, with the number of trained personnel kept to an economic minimum. No medium has given this trend such powerful impetus as television, where the skilled and controlled demonstration of the product occurs before the customer ever reaches the actual point-of-sale.

Advertisers, well aware of this merchandising trend, are relying more and more on television—as a potent advertising medium, as a new and revolutionary distribution and sales tool.

On our part, CBS Television has built a new flexibility into the medium to put it at the service of more and more advertisers. One plan, for example, is alternate-week sponsorships, with cross-referencing of sponsors, so that the advertiser may enjoy the benefits of a weekly program for about half the price of going it alone.

Another notable departure is the advertising participation plan, whereby the cost of some of the biggest shows may be assumed by as many as three or four sponsors on an equal basis.

In addition, we are currently experimenting with a five-minute segment plan for some of our daytime shows, by which an advertiser may buy as many or as few segments as he likes on a daily, weekly or seasonal basis. The plan makes network programs available to advertisers with modest budgets.

We have also made aggressive attacks on television's basic costs. We built CBS Television City in Hollywood, for example, not only to provide housing for an increasing number of programs, but also to incorporate cost-reducing production methods.

We are fitting out our new production center in New York City with the same goals in mind. We expect to continue developing production efficiency and program quality in order to bring better and better shows before the public and to assure the most attractive and effective "buy" for advertisers.

As each new case history of sales success continues to indicate, television has emerged as the swiftest, most effective, most economical tool for moving merchandise across the counters of America.

C. B. S. TELEVISION NETWORK

HUBBELL ROBINSON, JR. *Vice President in Charge of Network Programs*

HUBBELL ROBINSON, JR., joined CBS in July, 1947, as vice president in charge of network programs. In 1951, when CBS was reorganized into separate network operations for television and radio, he was named vice president and director of CBS Television network programs. Previous to his CBS affiliation, Robinson had been vice president and director of radio for Young & Rubicam. He was with the agency for sixteen years, from 1928 to 1944. He joined

ROBINSON JR.

the Blue Network, now ABC, in 1944, as vice president and director of programs. In 1945, he switched to Foote, Cone and Belding as vice president in charge of radio. Robinson was born in Schenectady, N. Y., on Oct. 16, 1905, and is a graduate of Brown University. He was a reporter on the Schenectady Union Star and the Knickerbocker Press in Albany after graduation. In 1928, he moved to New York and entered advertising.

HARRY S. ACKERMAN *Vice President in Charge of Network Programs — Hollywood*

HARRY S. ACKERMAN was named vice president of the Columbia Broadcasting System in charge of of the network's Hollywood programs in June of 1951. His position includes general supervision of all CBS operations in the California entertainment capital.

Ackerman joined the Columbia network in 1948 in the capacity of executive producer. In June of the same year he transferred to Hollywood, where he served as director of network programs.

ACKERMAN

Ackerman attended Dartmouth College, from which he was graduated in 1935.

Following graduation from College, Ackerman became a writer and also filled roles as actor as well as director and producer of many radio shows. In 1936 he joined Young & Rubicam, Inc., as a program director. In 1946 he was made vice-president of the advertising agency in charge of all program operations.

Ackerman was born in Albany, N. Y.

WILLIAM H. HYLAN *Vice President in Charge of Network Sales*

WILLIAM H. HYLAN, associated with CBS for sixteen years, was named vice president in charge of network sales for CBS Television in December, 1952. After four years as an account executive with CBS Radio Sales, from 1937 to 1941, Hylan entered military service with the army. In November, 1945, he returned to CBS Radio and was appointed assistant to the director of station administration. In 1948, Hylan switched to the network's new TV sales staff as an account execu-

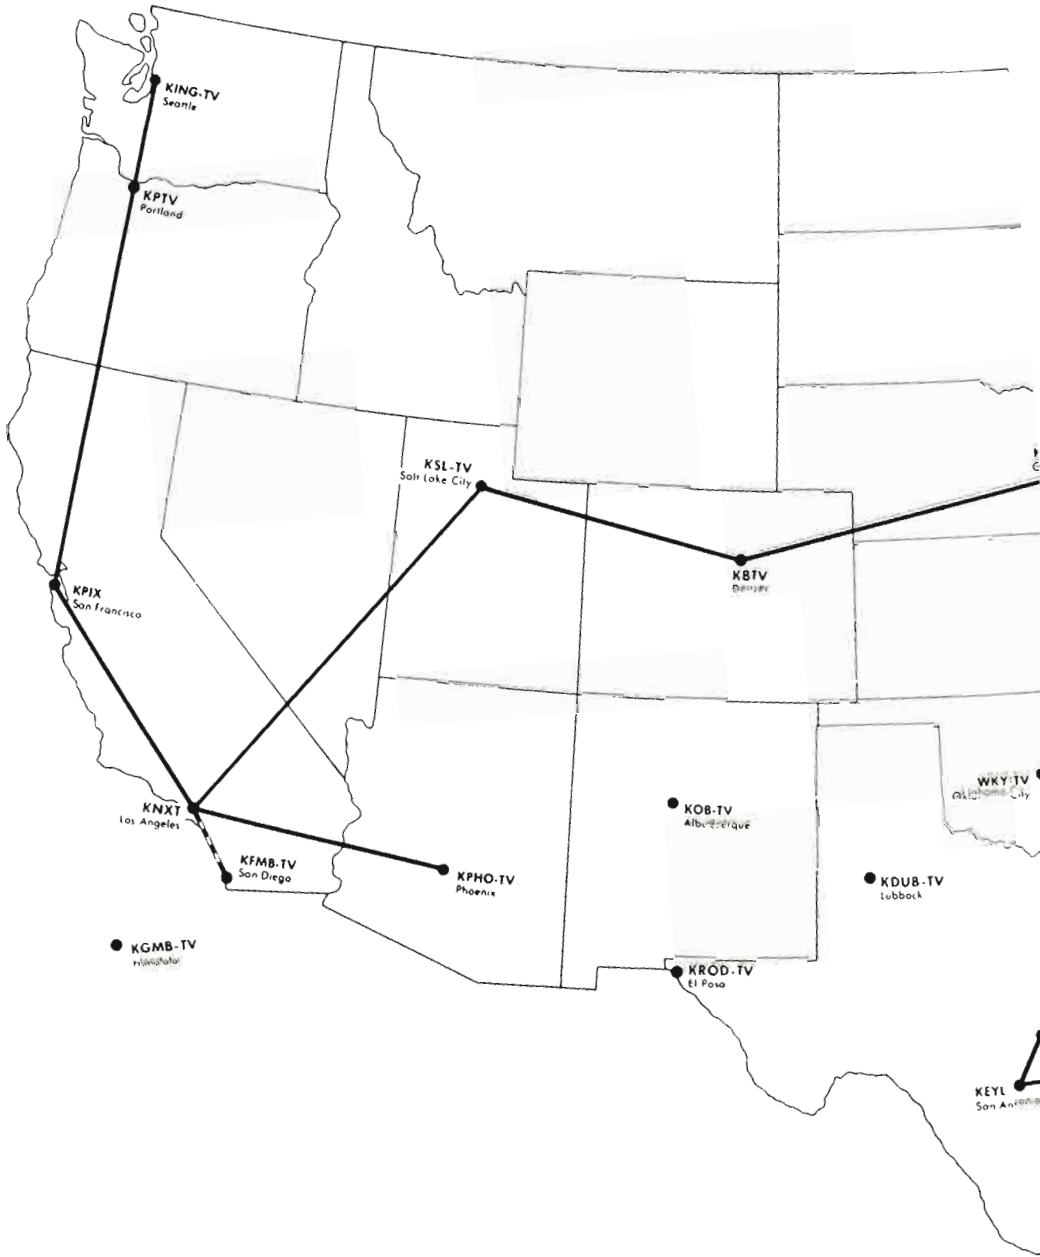

HYLAN

tive. In July 1951, he was named assistant sales manager. In January, 1952, he was appointed eastern sales manager.

Hylan is a native of New York City, having been born in the town of Father Knickerbocker on October 16, 1905. He spent a goodly portion of his youth as a resident of the Island of Puerto Rico. Following his secondary school education he entered Yale University, of which he is a graduate.

The pattern that killed a myth

The pundits who solemnly explained that television's popularity was largely based on its "novelty" may now go to the rear of the class.

Today some five years after the novelty has worn off, Americans continue to find television as irresistible as easy money, as compelling as a thunderstorm. And the pattern of their devotion is as plain as the forest on the rooftops.

Families with sets devote more time to television than ever before — an average last year of four hours and forty-nine minutes a day. This is more time than the American family has ever given to *any* spare-time pursuit.

Though not all areas yet have access to television, *one television program wins, week after week, the largest audience ever garnered by any medium in advertising history* — 40,000,000 people!

That program, of course, is carried over CBS Television, as are most of the most popular nighttime television programs.

Indeed, in the nation's leading markets, where audiences have a choice of what to look at, CBS Television keeps winning the highest average audience of any network.

Add to a pattern of leadership the fact that CBS Television delivers these great audiences at the lowest cost per thousand ... and it becomes clear why advertisers use more time on CBS Television than on any other network.

CBS TELEVISION

"BRIGHTEST YEAR" FOR TV

1953 Augurs Well For "Fastest Growing Industry"

By DR. ALLEN B. DU MONT, President
Allen B. Du Mont Laboratories, Inc.

TELEVISION, the most spectacular facet of the electronics industry, can anticipate its brightest year in 1953. All signs point to the industry continuing its sensational growth pattern which has been one of the fastest moving developments yet seen in American business history.

An all-time cumulative total of receiver production since 1946 runs to 23.6 million units. This adds up to an aggregate public total investment, at retail level of \$9½ billion. And, of course this figure is apart from the investments averaging \$500,000 each, in approximately 120 telecasting plants (as this is being written). Small wonder that television is called America's fastest growing industry!

Looking ahead to industry prospects in 1953, we may expect upward of 75 new stations on the air, with the possibility that approximately 50 of this total will be in the Ultra High Frequencies. This increase in stations, will, of course, mean a wide increase in present coverage by the major networks.

An interesting development, only recently announced, is that of a new coaxial cable system. This system is capable of handling simultaneously 600 telephone conversations plus one television program in each direction it travels. Widespread use of this revolutionary coaxial cable could conceivably help to cut present line costs considerably.

The release of the "freeze," new stations going on the air, and numerous construction permits being granted by the Federal Communications Commission means that transmitter manufacturers can look forward to a possible volume of \$60 million for transmitting and allied studio equipment in 1953.

The increased use of television by various segments of business and industry also makes the industrial television market an attractive one for equipment manufacturers.

The new television areas opening, and increased emphasis on the multi-television-set-home in older markets, cues manufacturers to plan for 1953 their big-

gest production year since 1950 when 7.5 million receivers came off the production lines.

During 1952, the broadcasting segment of the industry reached high levels with its serious and constructive view of its responsibilities, not only as an entertainment medium, but as an instrument of public service to the American people.

In 1953 television will be stimulated and inspired to accept an even greater challenge. As television continues to broaden its horizons its vast potential will be limited only by the imagination and skill of those using it. Since Allen B. Du Mont Laboratories, Inc., is devoted exclusively to television in all of its phases, its progress in 1953 will mirror the growth pattern of the video industry.

Nineteen fifty-two was an excellent year for the network division, and prospects for 1953 look even better. For the first time in network history, billings passed the 10 million dollar mark and, at the moment, we are putting into operation our new Tele-Centre on East 67th Street.

We look forward in confidence to keeping step with the spread of the medium throughout 1953. Our programming has made two distinct contributions to the medium during the year. Bishop Sheen demonstrated that millions of viewers are eager for substantial thought-provoking periods. And we strengthened sports telecasting substantially—first, with regular weekly boxing bouts, and later through our coverage of professional football, demonstrating how fans can see the game they want to see weekly, namely, by way of regional telecasts.

The public's acceptance of our 1953 line of television receivers is already following the 1952 trend which saw production hard pressed to keep up with expanding sales.

The long range future of electronics and television will be limited only by the imagination of those using it. At this point we have only skimmed the surface of its possibilities. Electronics and television are new instrumentalities which mean wider and added services to mankind. They both will provide a new dimension in every day living.

DuMONT TELEVISION NETWORK

CHRIS J. WITTING *Managing Director*

A veteran of the Du Mont organization, CHRIS J. WITTING, managing director of its broadcasting division, is also a leader in telecasting. He joined Du Mont in 1947, when he was asked to leave his own accounting business and set up operating procedures for the telecasting division, whose general manager he became in 1949. He assumed his present position of managing director in June, 1951. In the meantime, he has seen Du Mont reach the highest billings in its history and com-

WITTING

plete a \$4,000,000 programming-engineering center in Manhattan. He took a part in setting up the National Association of Radio-Television Broadcasters and at its organization was made a member of its board of directors. He was elected a director of the American Television Society in June, 1951. In April, 1952, he was elected a member of the board of directors of the Advertising Council, representing the broadcasting industry.

JAMES L. CADDIGAN *Director of Programs and Production*

JAMES L. CADDIGAN, director of programming and production for the Du Mont Television Network, is a pioneer in network television programming. He is credited with giving the medium several of its significant "firsts"—the first full daytime schedule as well as 7 to 9 a.m. programming, the medium's first space show (Captain Video) and its first kindergarten (TV Baby Sitter). He also created and aired its first fantasy for children (Magic Cottage). A

CADDIGAN

veteran of the motion picture field, he pioneered the effective use of film on TV through skillful editing for a home audience and in late 1952 instituted the medium's most sustained effort at "on location" production with "Dork of Night." He also has been a leader in creating programs of a public service nature. A native of Boston, Caddigan served during the war as a colonel on the staff of the Adjutant General. He is a member of ATS and SMPE.

TED BERGMANN *Director of Sales*

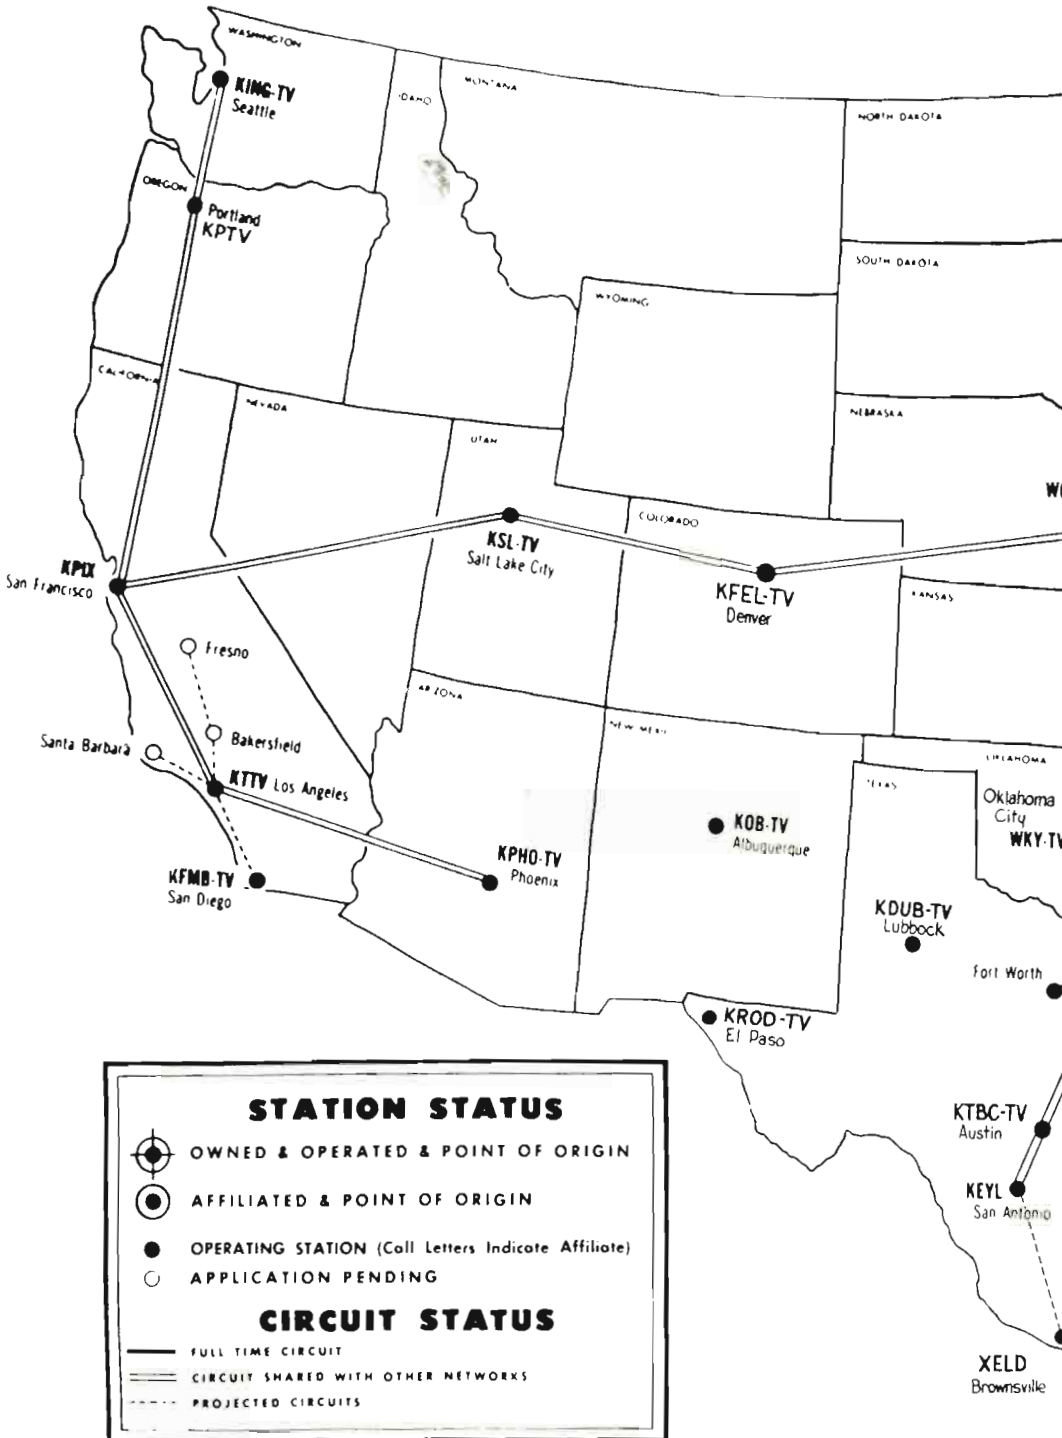

TED BERGMANN was the Du Mont Television Network's top salesman before becoming the web's director of sales in July, 1951. Joining the organization in June, 1947, he had had an effective hand in signing most of the major contracts for time bought by national advertisers. These sales coups included "Cavalcade of Stars" and "Cavalcade of Bands," as well as the "Captain Video" deal—TV's first half hour across-the-board network time sale

BERGMANN

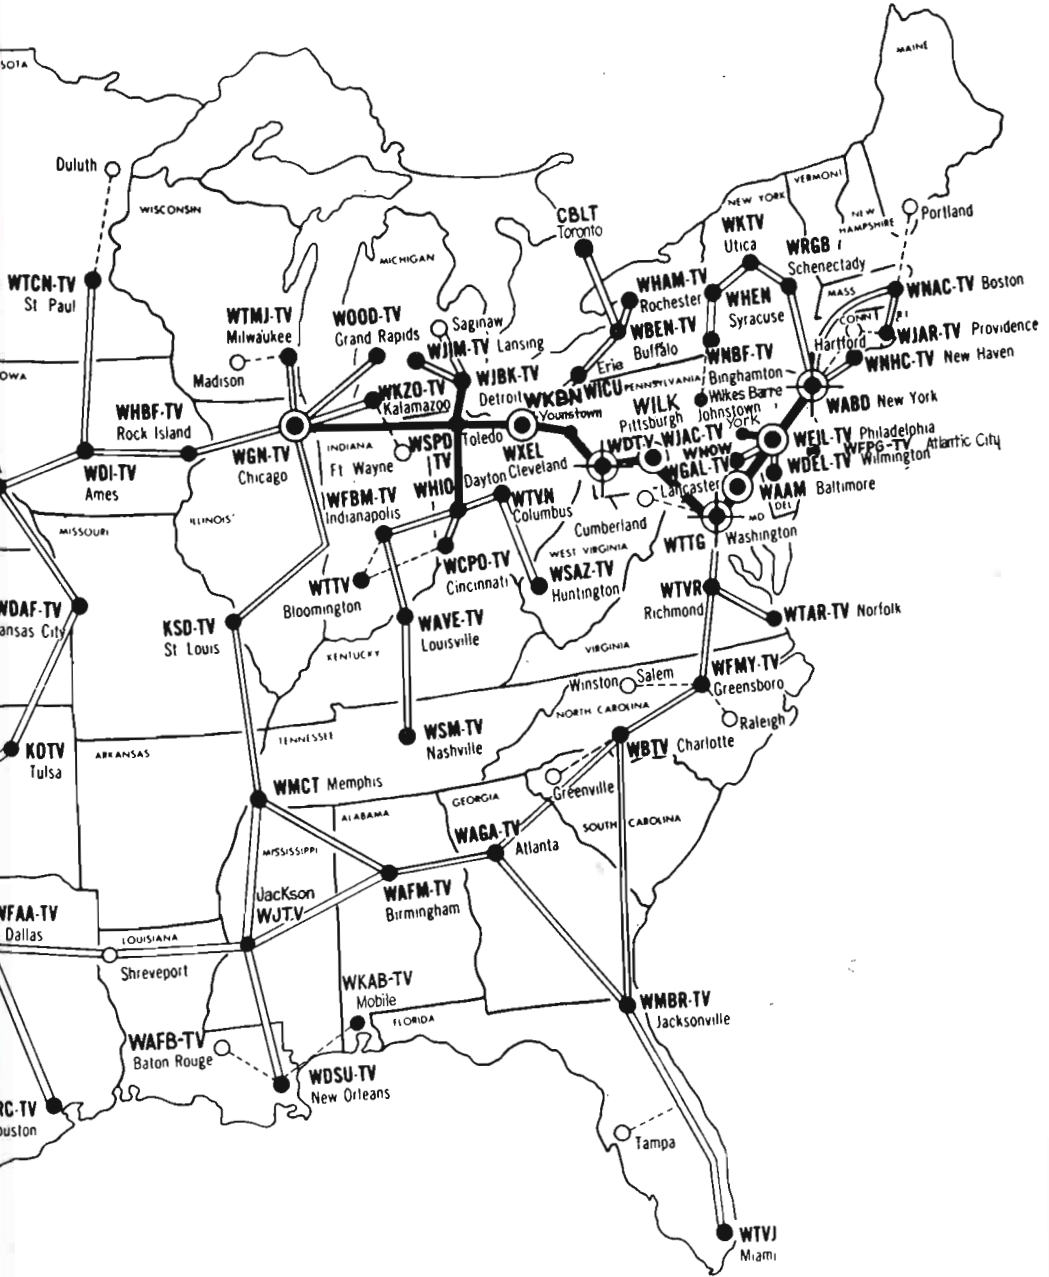

to a single sponsor. New York City-born, Bergmann entered broadcasting by joining NBC in 1941, leaving shortly for wartime duty. A commissioned officer, he was second in command of radio public relations on General Eisenhower's staff. Leaving the service, he rejoined NBC and later went to a radio production organization as creator and salesman, resigning that position to join Du Mont's network sales department as an account executive.

FRONT ROW CENTER = U.S.A.

Whether there be green grass or white lights outside, inside they're watching television. Without tickets, without top hats, with but a single switch to turn, millions of people, day and night, watch miracles from the best seats in the house.

Du Mont keeps them watching with a simple formula—sensible television. With programs that lift while they entertain, that please everyone. With programs born of imagination, not imitation.

For advertisers, too, Du Mont television is sensible television, powerful in impact but practical in cost. Du Mont alone has brought this greatest of all sales mediums within the grasp of all advertisers, large or small.

Because it is unique in its appeal to viewers, and to advertisers, Du Mont will always be a prime factor in the continued growth and betterment of the miracle called television.

DU MONT TELEVISION NETWORK

FINANCIAL SIDE OF TV-FILM

Good Product Now Can Be Accurately Evaluated

By **BASIL GRILLO**, Exec. Vice President,
Bing Crosby Enterprises, Inc.

THE bookkeeping aspects of the business of producing film for television is not the least of the manifold problems created by this mercurial child of electronics. Television, or, seeing at a distance, according to the language experts, offers no sight at any distance when it comes to the certain estimate of investment return over given periods.

Certainly, good product will pay out because the profit horizon is now much nearer the reach of calculating instruments than in past years and hard-headed evaluation suggests that realistic price structures if understood and maintained by all concerned, can bring sufficient revenue to make television film production a sound enterprise.

Top production requires adequate investment and adequate investment obviously requires adequate return. It's that simple to comprehend but much more difficult to realize.

There has been a tendency to equalize rising facilities' costs by a demand for reduction in program payments. But as was said many years ago about radio costs, "... no one ever listened for a watt. ..." then just as certainly, nobody cares to view merely a television test pattern.

The show is the thing and good shows cannot be made out of stuffed suits. People of talent who can move the minds and warm the hearts of viewers, writers who give them the words and directors who bring the whole into a smooth exhilarating experience for the viewer—these are the elements which give television more than temporary scientific excitement and such as these are the only insurance of a continuing growing of the great television industry.

Production investment is long term and we expect to wait for our fair return, but that old bugbear, obsolescence — obsolescence of style, of settings, of events themselves, is ever lurking in the background, so time is also of the essence to capital.

It is too easy to overlook the fact that a thirty-nine week Class "A" television series can be equivalent to a Class "A" metropolitan station in point of invest-

ment. Those of us who have risked hundreds of thousands of dollars are willing to venture and to wait, but the television dollar must be so pried as to equalize return as well as risk, and thus to attract continuing investment from the same experienced, tried and proven production sources.

Overall distribution costs have had a tendency to increase insofar as selling the smaller television markets is concerned since these require the same personal contact and sales service as the larger markets, yet potential income per sales dollar expended is ridiculously small by comparison.

Rising costs during the past three years have created additional burdens on the producer and he has found himself on the horns of a dilemma. He cannot get sufficient additional income for his product to level off the increase nor does he desire to reduce production values in order to even things up. If he did, his competitive position would be seriously endangered, plus the fact that any budgeting on production value would probably shorten the production life of the series. Top-level production, in our opinion, aids materially in extending the income potential since the product continues to hold its own with newer product into which more production money may have been invested because of greater income expectation from the additional markets constantly coming on the air.

Corner cutting on dramatic show production is something which will always stick out like a sore finger because the mood is created by *atmosphere and dialogue* together. To eliminate mood producing settings and thus place the entire production upon the cast is to invite mediocrity and low-level impact.

Viewers will expect to find continuing improvement in their television programs, they will not be satisfied with anything less than an ever-growing visible maturity in this new medium. We have much to learn, much to refine and much to develop in the business of bringing to the television screen all of the values potentially possible in this intricate, challenging and dynamic medium of communication.

N. B. C. TELEVISION NETWORK

DAVID SARNOFF *Chairman of the Boards of RCA and NBC*

BRIG. GEN. DAVID SARNOFF, chairman of the Boards of RCA and NBC, entered the communications field as a messenger boy at the age of 15. As the importance of radio grew, he became successively Chief Inspector, Assistant Traffic Manager, and in 1917, Commercial Manager of the Marconi Wireless Telegraph Company of America. In 1919, when RCA was formed, it acquired the Marconi Company and appointed General Sarnoff commercial man-

SARNOFF

ager. During the following eleven years, he advanced from Commercial Manager to General Manager, then Vice President, Executive Vice President, and in 1930, at the age of 39, he was elected president of RCA. He was elected chairman of the board and chief executive officer of RCA in 1947. During World War II, he served as Special Consultant on Communications to General Dwight D. Eisenhower at SHAEF in Europe.

FRANK WHITE *President of NBC*

Elected President and a director of NBC on Jan. 2, 1953, FRANK WHITE is a veteran of 16 years in the broadcast industry, beginning in 1937 when he joined CBS as treasurer. In 1942, he was named a vice president and director, continuing to function as treasurer until 1947, when he became president and director of Columbia Records, Inc. On May 1, 1949, he moved to MBS as president and director. He joined

WHITE

NBC May 31, 1952, and was named vice president and general manager of the networks June 18, 1952.

White, a graduate of George Washington University and a veteran of Navy aviation in World War I, served for six years as treasurer of the Literary Guild of America, leaving in 1935 to join the Stage Publishing Co. From 1936 to 1937 he was treasurer and business manager of Newsweek, Inc.

JOHN K. HERBERT *Vice President in Charge of Networks*

JOHN K. HERBERT joined NBC Sept. 5, 1950, as assistant to the President, and on Nov. 27, 1950, was appointed general sales manager for the Radio Network. He was named vice president in charge of Sales for both the Radio and Television Networks on July 21, 1952. On Jan. 2, 1953, he was named vice president in charge of Networks. He left the post of vice president and general advertising manager of Hearst Magazines, Inc.,

HERBERT

where he had served for 12 years, to join NBC. Prior to that Herbert had been New England manager and Eastern advertising manager of Good Housekeeping. A graduate of Holy Cross College, in Worcester, Mass., he served in the United States Marine Corps from January, 1943, until October, 1945, when he left the Marine Corps with the rank of captain.

BIG

As this advertisement is written in January, 1953, there are 21 million TV sets in use. Five years ago, when NBC instituted Network Television, there were only 170,000 sets.

Compare this to the automobile industry—one of America's greatest industrial achievements. It took 31 years to put 21 million automobiles on the road.

A comparison that's closer to home.

NATIONAL

GEST

five-year-old in history

is the radio industry. Radio reached the 21 million mark in 1932 after 11 years of set production and broadcasting.

NBC has led every inch of the way in developing television as a lively art and as a selling medium. By establishing the first network...by pioneering big-time program techniques...by bringing the greatest stars in entertainment to television...by measuring and proving tele-

vision's tremendous sales effectiveness...by developing new and unique sponsorship plans...by providing a national merchandising service to NBC television sponsors.

By the end of 1953, 6 million more television sets will have been added to the nation's total. And just as in the past, these six million new sets will be tuned most often to NBC.

BROADCASTING COMPANY

a service of Radio Corporation of America

21.8 Million TV Sets Manufactured Since 1946

Over 21.8 million television receivers were shipped to dealers throughout the country from 1946 through the end of 1952, according to figures published here early this Spring by the Radio and Television Manufacturers Assoc. Although the report is not designed to show the actual number of TV sets in use in various areas—due to obsolescence, exports from the area, dealers' inventory and other factors—it does give a picture of the original distribution of the 21,812,263 sets shipped to dealers during the 7-year period, the Radio Television Manufacturers Association said.

The following table shows state-by-state shipments.

State	Total	State	Total
Alabama	156,268	Nebraska	139,179
Arizona	49,918	Nevada	581
Arkansas	36,893	New Hampshire	63,570
California	2,097,172	New Jersey	1,282,586
Colorado	100,571	New Mexico	20,406
Connecticut	415,902	New York	3,505,155
Delaware	77,200	North Carolina	255,067

ANWIL
OAKLEY

See how they run

(and re-run, too!)

All ten of these Television film shows give you the best possible run for your money—high ratings and high-quality production *at low cost*.

Three are already in Telepulse's first twelve syndicated shows, nation-wide.* *All* rate high, wherever they go. Second or third run, they're doing as good as or better than on the first. Sample: one show almost *doubled* its rating, third run over second, in San Francisco.

You're 'way out front with the showmanship and technical craftsmanship of such producers as Bing Crosby Enterprises and Flying A Pictures... not to mention our sales-building merchandising kits and on-the-spot counsel.

See how they run yourself. Ask your CBS Television Film Sales representative *today* for a private showing and the whole story. You've never seen such buys in your life.

**...A *solution* TO YOUR
CHICAGO SALES PROBLEMS**

DURING 1952, more local retail and national spot advertisers sponsored *programs* on WGN-TV than on any other TV station in Chicago.

These advertisers are selling a great, receptive and active buying audience.

If you are seeking sales in the Chicago market (and who isn't) WGN-TV is your answer.

The

BIGGEST

KITCHEN

IN CENTRAL NEW YORK

WHEN
SYRACUSE

KAY'S KITCHEN

HAS TO BE BIG TO HOLD ALL ITS
FRIENDS

Thousands of her friends gather each morning in Kay's Kitchen to visit with her, and join in 15 minutes of recipes, household hints and old-fashioned philosophy. A spot on Kay's Kitchen means a product sold!

Who

is NUMBER ONE IN CLEVELAND?

A **GOOD** question and a
fair question.

*Here's your television
answer . . .*

- 1** WNBK Cleveland delivers a larger audience from 7 a. m. to 1 a. m. throughout the week than any other television station, local newspaper or national magazine.
- 2** WNBK Cleveland, *Your Community Station*, offers the greatest number of preferred local programs. WNBK viewers are not "switch happy" . . . they stay on Channel 4.
- 3** WNBK increases the value of your advertising dollar through the services of a complete Advertising, Promotion and Merchandising Department.

**Always Buy WNBK CHANNEL

We've Got Reading **WHUM**ming!

In One of the Nation's Top Markets

WHUM-AM

- Serving the Pennsylvania Dutch Country.
- WHUM is the most listened to station in the Reading Metropolitan Area.
- The WHUM audience exceeds the other two Reading stations combined . . . Pulse.
- WHUM is the only CBS station in Berks, Schuylkill, Lebanon, Lancaster, Chester and Montgomery Counties (4243 square miles).
- The WHUM Market is a Billion Dollar Market.

WHUM-TV CHANNEL 61

- Serving one of the nation's top 10 television markets with 2.7 million population in the Reading-Allentown - Harrisburg - York - Lancaster - Wilkes-Barre area.
- World's most powerful television station with 260,000 watts.
- Antenna height of 2680 feet above sea level (actual antenna height: 1050 feet), nearly twice the height of the antenna on the Empire State Building.
- Only General Electric Klystron transmitting equipment in the nation.
- On the air February 22, 1953.

TV EXPANDS IN MEXICO

... **Leader Evaluates New Service**

By **MIKE JABLONS**

Special Correspondent, RADIO-TELEVISION DAILY

Mexico City—"Television will be operating in the black by the end of this year," declared Don Emilio Azcarraga during an interview held at his office in Mexico City's imposing new Televiscentro. "We are building up set circulation and viewing audiences steadily and we hope to be able to revise our rate schedule by the end of the summer so that we may pass the break-even point sometime before the end of 1953," he added. The present rate structure at XEW-TV lists a half-hour of "A" time at 800 pesos, or about \$100, plus a small additional facilities charge. However, lest Madison Avenue time-buyers hop the next plane for Mexico City, the rate is exactly double for shows produced outside the borders of the country. Thus a filmed or kined show produced in the States and shown down here on XEW-TV, plus being relayed across the country by XEQ-TV for the same time charge, will command a tariff of 1,600 pesos per half-hour. Even so, a half-hour of "A" time costing around \$250 is an advertiser's dream buy in this thriving metropolis which already boasts 40,000 receivers.

AZCARRAGA

Don Emilio, "El Hombre Fuerte" of Mexico's radio and television industry, also revealed that he plans to inaugurate an "Art House Movie Theater" on TV both here in Mexico City on XEW-TV, and on his new outlet XETV, channel 6, in the Tijuana-San Diego area. The "Art House Movie Theater" will run important domestic and foreign feature-length movies.

"We plan to run this film feature after 10 o'clock in the evening," Don Emilio explained. "At that time the children will, or should be, in bed, and if these fine adult French, Italian, British, and Mexican films can be shown in theaters, there is no reason why people demanding good movies on television should not be able to see these pictures." Recently as an experiment, XEW-TV telecast the Italian movie hit, "Bitter Rice," and did not receive any unfavorable comment.

"The do a lot to help popularize the new medium," Don Emilio explained.

Station XEW-TV, channel 2, has its transmitter site atop Televiscentro at Avenida Chapultepec 26 in the heart of Mexico City. The 320 foot TV tower resembling a miniature Eiffel Tower has rapidly become a landmark in the city;

having a transmitter and tower atop the studio building results in considerable savings for Senor Azcarraga's television operation. Zoning and aviation regulations make this one of the few cities in the world where such tower construction is permissible.

But the transmitter site that would make the eyes of any U. S. TV broadcaster pop is that enjoyed by XEQ-TV, channel 9. XEQ-TV is Don Emilio's relay station to carry the programs of XEW-TV to the country outside of Mexico City. Exclusively a relay station—it picks up XEW-TV's signal via microwave relay—XEQ-TV originates no programs of its own. The XEQ-TV transmitter is situated in Paso Cortes, 14,500 feet high in Cortes Pass between the twin volcanos that have become the trade mark of Mexico, Popocatepetl and Ixtaccihuatl (try pronouncing that on your precocious ten-year-old). From this vantage point XEQ-TV retransmits XEW-TV's programs with a clear signal as far as the city of Vera Cruz, almost 300 miles away on the Gulf of Mexico.

NEW TV STATIONS SET FOR OPENING IN 1953

On this page, and the three pages following, we list geographically the television station organizations planning to begin operations in 1953, together with channel numbers and, where possible, date for start of broadcasting.

PERFECT TV PRODUCTION REQUIRES

Precision Prints

**STEP PRINTING
ELIMINATES
CONTACT SHIFTS**

The sharpness of a print depends on close contact between original and print stock. In step printing at Precision, the two films are absolutely stationary during exposure. Timing and effects are produced without notching original. One-to-one optical sound printing assures broadcast quality.

YOUR ASSURANCE OF BETTER 16_{mm} PRINTS

15 Years Research and Specialization in every phase of 16mm processing, visual and aural. So organized and equipped that all Precision jobs are of the highest quality.

Individual Attention is given each film, each reel, each scene, each frame — through every phase of the complex business of processing — assuring you of the very best results.

Our Advanced Methods and our constant checking and adoption of up-to-the-minute techniques, plus new engineering principles and special machinery

enable us to offer service unequalled anywhere!

Newest Facilities in the 16mm field are available to customers of Precision, including the most modern applications of electronics, chemistry, physics, optics, sensitometry and densitometry—including exclusive **Maurer**-designed equipment—your guarantee that only the *best* is yours at Precision!

Precision Film Laboratories — a division of J. A. Maurer, Inc., has 14 years of specialization in the 16mm field, consistently meets the latest demands for higher quality and speed.

Photographing the celebrated Columbus Boychoir and Founder-Director Huffman in action, with the Maurer "16"

From Maine to Texas

... MUSIC STRANGELY SWEET

A glorious twentieth century American cultural accomplishment is the founding, training and development of the Columbus Boychoir. Singing to packed houses in America's finest concert halls, and in hundreds of cities and towns throughout the land, "America's Singing Boys" are bringing the joy of music to millions.

"Movies, records and radio have brought our story to the public thousands and thousands of times," says Founder-Director Herbert Huffman, "Now we want a record of our own, so we bought the finest camera we could find, the Maurer '16'."

THE MAURER 16MM., designed specifically for professional use, equipped with precision high-power focusing and view-finder. Standard equipment includes: 235" dissolving shutter, automatic fade control, view finder, sunshade and filter holder, one 400-foot gear-driven film magazine, a 60-cycle 115-volt synchronous motor, one 8-frame handcrank, power cable and a lightweight carrying case.

I AM proud indeed to be associated with Liberace, producing the show receiving such National acclaim. I again applaud my entire staff, the very same men who have worked with me from the inception of an idea, into the creation of an organization now producing more musical film for TV than any other in the industry. Experience and Know-how win again.

HUGH L. KIBBEY, film buyer of WFBM-TV, Indianapolis, has been with the station for 11 years. He has served as announcer, writer, editor and director. Prior to joining WFBM, Hugh served as staff announcer for WIBC, Indianapolis. He is a graduate of Indiana Business College and Arthur Jordan Conservatory of Music. WFBM-TV has been on the air since May 30, 1949, and his role as film buyer began in September of that year. Hugh is married and has one child.

GEORGE A. HEINEMANN, program manager of WNBC, Chicago, started with NBC in 1937 as a page boy, leaving for CBS as Special Events Editor. He entered the U. S. Navy as an aviator, serving in the Pacific. A civilian again, he entered his own business of commercial photography in New York and Phoenix, Ariz., photographing fashions and doing mail order work, then became production manager of Aldens, Inc. He returned to NBC in New York, and moved to Chicago when WNBC opened.

JEAN HENDRIX, film buyer at WSB-TV, has been in the newspapers, theater, radio and TV. She attended high school in Charlotte, N. C., and joined the Charlotte Observer. She later left to assume the duties of advertising director for the Wilby Kincy theaters. Jean went on to the D. C. War Finance Committee of the Treasury Dept. where she was named director of radio and advertising. She joined WSB in 1946 as publicity director, was transferred two years later to WSB-TV.

ELIZABETH BAIN, film buyer of WGN-TV, Chicago, is a graduate of Clarke College, maxima cum laude. She was director and solo violinist of a string ensemble over WKBB, Dubuque, and also taught band and orchestra. Following her teaching career she became music librarian of KFI-KECA, Los Angeles, and joined WCFL, Chicago, a year later, then went to WGN in 1948, a month before WGN-TV went on the air, to build a music library for TV. Choosing between music and film, she chose the latter.

GEORGE PATTERSON joined WAVE-TV, Louisville, Ky., in 1934 as an announcer, and was made program director the next year. He helped direct the station's active relief role during the disastrous Ohio River flood in 1937, when "send a boat" was heard throughout the nation on network broadcasts. When WAVE-TV was established in 1948, he was made program manager of Kentucky's first TV station. Both WAVE-AM and TV have won numerous program awards under his supervision.

WARREN F. WARNER, program director of WTVN, Columbus, Ohio, is also film buyer for Midwest TV, which buys films for WTVN, WICU, Erie, Pa., and WMAC, Massillon, O. Warren was born and educated in New York. He was production manager for Brewster Aeronautical Corp. before entering service. Warren was Civil Affairs officer in the Philippines and Military Government officer in the Korean Occupation. As a civilian again, he worked for Lever Bros., went to WKRC-TV, Cincinnati, and on to his present post.

BERNARD C. BARTH, film buyer of WLW-TV, Cincinnati, Ohio, is assistant to the director of TV operations for Crosley Broadcasting Corporation. He was born and educated in South Dakota. Bernard has been associated with KOBH, Rapid City, S. D., WKRC, Cincinnati, and WFIL, Philadelphia, as writer, producer and newscaster. Joining the staff of WLW-TV in 1948, he rose quickly from producer to program director and assumed his present post in the Fall of 1950.

H. PETER LASKER, manager of the Crosley Broadcasting Corporation's TV outlet in Dayton, WLW-D, was born and educated in Switzerland. His first job was working in transportation advertising in France and England, which gave him the experience to take on the duties of director of transportation advertising for WLW, when he came to this country. Pete held that post for ten years before heading up WLW-D's sales staff. Now Pete bosses the entire Dayton setup of Crosley.

HOWARD ANDERSON, film director of WFAA-TV, Dallas, Texas joined the NBC-TV affiliate in February, 1951 as a director, and took his present post a few months later. Howard graduated in radio-speech from the University of Utah. While attending the university, he did free lance writing, directing, and acting as well as amateur radio work. Howard joined KDYL-TV from the time the station went on the air, and was responsible for all remote telecasts until he left the station.

NED R. BROOKE, film director of WSAZ-TV, Huntington, West Va., joined WCMI as a staff announcer, after graduation from college, and was station director when he left. Ned opened an electrical contracting business in Huntington, which he operated until he joined the staff of a local contracting company. In February 1951 he joined the staff of WSAZ-TV as a member of the film department, and was later promoted to the position of film director, the post which he holds today.

GEORGE A. DORSEY, film director and program operations supervisor of WNBW, Washington, D. C., is a graduate of Duke University, with a Bachelor of Science degree in electrical engineering. Following his graduation he joined the sales department of the Westinghouse Electrical Manufacturing Company, and was on a five-year leave of absence for Navy service during the war. George was a member of the station's staff when it first went on the air in June 1947.

WILLIAM L. COOPER, JR., film director of WJAR-TV, Providence, R. I., started his career in the Visual Education Department of the Providence public schools. With the outbreak of World War II he served in the southwest Pacific with the Army Signal Corps. After release, he became southern New England manager of the Audio Visual Corporation. Leaving this to form his own corporation, he produced a series of documentary and public relations films for theatrical release.

DERRICK DYATT, film director of WTOP-TV, Washington, D. C., was born and educated in Pa. Upon graduation from high school his interest in show business grew, and he joined the Allentown Little Theatre, later joining WSAN as an announcer. He entered the Navy and completed his stint in 1946, when he returned to WSAN. Two years later Derrick left to attend George Wash-

ington University, where in his senior year he joined WTOP-TV, and worked in production until 1951 when he was made film director.

RICHARD C. DREYFUSS, film director of WDTV, Pittsburgh, Pa., first broke into radio when he joined NBC, Chicago, after being educated at the University of North Carolina. At the outbreak of World War II, he entered the U. S. Army Air Force. At the War's end he joined WAGM, Presque Isle, Maine, as program director. Three years later found him associated with the CBS-TV film operations.

Dick is said to have the distinction of being the only film director in the country handling an all night TV film operation.

FRELON M. FOWLER, film manager of WABC-TV, N. Y., started at NBC on the guest relations staff, when promoted to the ticket division. While affiliated with NBC, he was engaged by ABC as program assistant in the all-night news operations. His next stint was with CBS to assist Worthington Miner in the development of TV programs. In 1948 he joined the staff of WIZ-TV (now WABC-TV) be-

fore the station hit the air. Three years later he was named manager of film programming for the outlet and the ABC-TV network.

F. C. ECKHARDT, film buyer of KDYL-TV, Salt Lake City, Utah, attended the University of Montana, where he was active in the band and spent plenty of time in theaters as an m.c. With the outbreak of World War II he enlisted in the U. S. Navy in the aviation branch. Returning to Helena, Montana, after the war, Connie kept a watchful eye on the development of TV, and in January 1949 joined KDYL-TV, the first station to go on the air in the intermountain west.

KEITH GUNTHER, film buyer of KSD-TV, St. Louis, Mo., has been in TV since 1939 when he was assigned by NBC to work in the network's infant TV department in N. Y. with video pioneers such as Captain Bill Eddy and Warren Wade. When NBC curtailed its TV activities because of World War II, Keith became night manager of WHN. He served as an officer in the U. S. Navy, principally aboard aircraft carriers in the South Pacific. Keith joined KSD-TV a month before the station went on the air, Feb. 8, 1947.

BILL FOX, film buyer and program director for KFMB-TV, San Diego, Calif., is the film buyer for San Diego's first and only TV station. He was formerly with the staff of KALB, Alexandria, La., then KSYL, and later moved to WLSU, the Louisiana State University station. In World War II, Bill joined the U. S. Air Force and was stationed in the Pacific Theater, participating in many of the big raids over Tokyo. Bill joined KFMB-TV in 1948 and became program director two years later.

CARL LAWTON, film buyer of WBZ-TV, Boston, Mass., started his career in radio as a staff announcer for WHYN, Holyoke, Mass. In 1942 he left the station to enter the U. S. Marine Corps and served overseas in the South Pacific. Following his discharge from the service, he joined WFCL, Providence, R. I., as an announcer. Carl left to join the Northeast Airlines where he was engaged in general sales

office and public relations, until January 1950 when he joined WBZ-TV as film librarian.

NORM LOUVAU, film buyer and sales manager of KRON-TV, San Francisco, Calif., developed an interest in music at an early age. This soon led him to become a band leader. In this capacity he toured most of the Western States. In 1941 Norm entered the U. S. Army. After his discharge from service, he turned to advertising, leaving that field to join the staff of KRON-FM. When KRON-TV first went on the air, he went over to TV and has been with the station ever since.

JULIAN M. KAUFMAN, film buyer, has been executive sales manager of KPHO-TV, Phoenix, since 1950. Prior to that he was with ABC-TV in San Francisco as account executive where he established a national sales record in 1949. He established the TV department for the Tolle Co., advertising agency, in San Diego. Recognized as an authority on TV station management, his recent

article "TV Tips for Medium Size Station Operation," was published in trade magazines, and won nation-wide recognition.

WILLIAM C. LACEY, manager of the film department at WCBS, N. Y., joined the station this Spring following four years at WABD, where he was film buyer before being named to his present post. At WCBS, Will works under Hal Hough, program director of the station. Before entering the industry, William earned the rank of ensign with U. S. Navy, while at the same time studying at St. Lawrence University and Holy Cross, from which institution he graduated with a B. S. degree.

HARRY JONES, film buyer of WCCO-TV, Minneapolis, Minn., worked for the Wichita (Kans.) Beacon as combination stockyards-police reporter. Following this, he was with the Minneapolis Star-Tribune in the promotion department. In April of 1949, Harry joined WTCN-TV, Minneapolis, as a staff member, the second member to be hired specifically for TV at this station.

WTCN-TV hit the air later that year, and Harry took his present post. In August 1952 WTCN-TV became WCCO-TV, CBS affiliate.

ED HYMAN, film buyer and program director of WOAI-TV, San Antonio, Texas, joined the station as sports director in November, 1949. Ed started his career in radio as a staff announcer. He served in the U. S. Air Force during World War II. Returning to civilian life, he completed his education at Trinity University in San Antonio, Texas, where he majored in psychology and speech. His commentary and interviews are a weekly feature of local wrestling matches televised by WOAI-TV.

WINSTON HOPE, film buyer of WTAR, Norfolk, Virginia, attended the University of Virginia, where he was prominent in the Glee Club, and later attended the Juilliard School of Music in New York. He sang in numerous network programs as a member of several choruses and did solo work in churches from N. Y. to Ala. He entered the Army in 1941 as a private and emerged a

captain. Winston joined WTAR as staff announcer and disc jockey and became production manager for WTAR-TV when it opened in April 1950.

BARRY HERSH, of WKRC-TV, Cincinnati, O., is perhaps the youngest film coordinator in the TV business, having reached his 21st birthday in October, 1952. His ambition always had been to enter the field of TV, and he took the most menial job at WKRC-TV to get his foot in the door. From that point on, it has been the story of rapid progression upward to his present position. Barry

attended the University of Cincinnati for two years, and is a member of the United States Naval Reserve.

LABE B. MELL, film director of WTVJ is also general manager of its subsidiary corporation, Reela Films, Inc. Mell has been associated with WTVJ since 1948 when he transferred to the station from his theatre manager's position with the parent organization, Wometco Theatres, Inc. Upon his transfer he was sent to New York where he gained six month's TV experience with the DuMont television network. In 1949 when WTVJ went on the air, Mell was named film director. Mell is married and has two daughters.

work. In 1949 when WTVJ went on the air, Mell was named film director. Mell is married and has two daughters.

JULES HUBER, film buyer of WTTG, DuMont, Washington, D. C., was born and educated in New York. He joined WTTG's film department six years ago, when Washington's first TV outlet was in its acorn days. During World War II, Jules spent four years in the Merchant Marine. At the present time, when he's not buying film, he's buying building supplies and actually constructing a home for himself and family, which he's hoping to occupy this summer. He is married and has two daughters.

JAY HICKS, program director and film buyer of KDUB-TV, Lubbock, Texas, joined the station when it hit the air in October 1952. He is a graduate of Texas Western University, having majored in history. Jay got his start in radio at WBML, Macon, Ga., in 1944 after his discharge from the Army. Returning to his native El Paso, Texas, he took the position of program director at KEPO, spending four years there before going to KDUB-TV. Jay is married and has two children.

GLENN HARRIS, film buyer of KMTV, Omaha, Neb., is also program manager for the May Broadcasting Co. Glenn started his career with KYSM in Mankato, Minn., leaving to join KMBC in Kansas City, returning to Minnesota, when he joined the KSTP announcing staff. There he developed many of his audience-participation shows, and he was soon getting all of the emcee assignments. When KMTV went on the air in Sept. 1949, Harris found himself solely responsible for the programming on the new TV station.

NICK MUELLER, film director of KRLD-TV, Dallas, Texas, was a member of the staff orchestra of KRLD, Dallas, CBS network affiliate. During World War II, Nick served as a sergeant in the U. S. Army. Following his discharge, he joined KRLD as record librarian. That job lead to his position as film librarian with KRLD-TV at the time the station made its bow in December 1949. His suggestions for film operation were adopted, and he was named film director in August 1952.

BERT MITCHELL, program director and film buyer of KPRC-TV, Houston, Texas, started as an actor, but turned to directing. After studying at the Pasadena Playhouse in Calif., Bert came back to his native state, Texas, to help direct the Cavalcade of State of the 1936 Centennial. He joined ABC on the West Coast, where he stayed for four and a half years before he was called into the Army. Bert was associated with WFAA-TV before coming to KPRC-TV in 1951 when he took his present post.

EDWARD G. MURRAY, film buyer of WPTZ, Philadelphia, Pa., is a graduate of Yale University. He served with the 63rd Division during World War II. Following conclusion of hostilities Ed joined Monogram International Corporation and was sales manager of the non-theatrical sales division. In 1950 he joined the staff of WPTZ as film buyer handling such nationally known local shows as "Frontier Playhouse" and "Hollywood Playhouse." Ed is a member of the Yale Club of New York City.

LELAND MULLER, film buyer of KTLA, Los Angeles, Calif., known to his intimates as Jerry, is a graduate of the University of Southern California, where he majored in cinematography. Jerry joined KTLA's film department in 1946, when the station was known as WXYZ. He was formerly production assistant at 20th Century-Fox. Jerry was a First Lieutenant in the Army Air Force in World War II, a veteran of 85 bombing missions in the China-Burma-India theatre of operations.

WILLIAM G. MULVEY, film buyer of WNHC-TV, New Haven, Conn., was born in Albany, N. Y. Following graduation from Fordham University in New York City, where he earned a Degree in English and a BS, William joined the Elm City Broadcasting Corp. Shortly thereafter he was appointed to his present position, where he now supervises all program activities together with TV film purchasing. While at Fordham, he was promotion manager, sports-writer and announcer for the University FM station WFUV.

SIDNEY NADLER, film director of WXEL, Cleveland, O., joined the staff of WXEL, in September, 1951, as assistant film director. He attained his present post a year later. His previous experience includes being film editor for WOR-TV in N. Y. and account executive for WPTR, Albany, N. Y. Sidney was a sound motion picture technician for the U. S. Marine Corps for three and a half years, serving both in the U. S. and overseas. Returning to civilian life, Sidney still maintained his interest in the film business.

ELAINE S. PHILLIPS. film buyer of WSPD-TV, Toledo, O., had her first exposure to television as a member of the all-girl wartime staff of Chicago's WBKB. She worked in all phases of studio and control room operations. Specializing in film programming, Elaine left WBKB in Dec. of 1946 to become film director of WWJ-TV in Detroit. Two years later she returned for a short period to Chicago as film programming consultant for WGN-TV, and later that year assumed her present post at WSPD-TV.

ROBERT M. PASKOW. film buyer of WATV, Newark, N. J., comes to TV after twenty years in the motion picture industry with Warner Brothers. Following graduation from New York University, he was employed with the Oxweld-Acetylene Co., in Newark, as an industrial engineer, and later joined the Bremer Broadcasting Corp. Bob, as he is popularly known, was active in organizing the National Film Council in 1948 and served as vice-president-treasurer and chairman of the Television Station Committee.

WILLIAM B. ROBB, JR., film buyer and program manager of KEYL, San Antonio, Texas, started his career with a dramatic stock company on the West Coast. Going to New York City, Will joined the singing personnel which led to tenor solo work at the Radio City Music Hall. With outbreak of the war he joined the Armed Forces, returning to Radio City upon his release. Going West, Will joined KEYL as senior director before the station went on the air in 1940, and six months later attained his present post.

JOHN F. PIVAL, station manager and film buyer of WXYZ-TV, Detroit, Mich., became interested in radio as an advertising medium for theaters, while general manager of Schreiber's theaters. He finally launched his own program on Detroit's WMBC. His theater-radio interests were interrupted in 1942 when he entered the Coast Guard. Upon leaving the service, he returned to WXYZ. When WXYZ-TV hit the air in 1948, John was made program manager and three years later took his present post.

QUINTIN P. RENNER, film supervisor of WBen-TV, Buffalo, N. Y., was born and educated in Buffalo. After high school he taught piano and organ, playing the organ in downtown and suburban theaters in pre-talkie days. Quint was associated with the Buffalo Schools Department in the audio-visual division, taking charge of maintenance and film distribution in the public elementary and high schools. He joined WBen-TV in 1948, two months prior to the formal inauguration of the station.

CARL A. RUSSELL, film buyer of WKBB, Chicago, Ill., took his present position in May of 1950, as it was the desire of the company to have someone who had knowledge of film as well as background and experience in judging the public's film desires. Prior to joining WKBB, Carl was with Balaban and Katz Corporation, one of the nation's top theater circuits. He started with the company as an usher and then moved up to chief of service, assistant manager, and finally to manager.

DAVID VAN RENSSELAER STICKLE, film

buyer and news director of WMAR-TV, Baltimore, Md., attended Syracuse University. He went to the Baltimore Sunpapers from the Cleveland News. On the latter paper, he was a general assignment reporter. For the Sun he covered the political beats. During the war he rose from private to captain in the Infantry. After discharge he returned to

the Sun as a rewrite man, joining the Sunpapers TV outlet in 1947, at the time of its inception.

ED WESTON, film buyer and program

manager of WCPO-TV, Cincinnati, O., started in radio as assistant news editor at WMCA, New York City, leaving to join WSAV, Savannah, Georgia, as announcer. His next stint was with the Armed Forces Radio Service in the Army. He was with WXLM on Okinawa. Leaving the service, Ed joined WCCC, Hartford, as news editor. His TV career began in 1949

when he left for Cincinnati to open Scripps-Howard's TV outlet as program director with overall operational duties.

RICHARD V. THIRIOT, film buyer of KSL-TV,

Salt Lake City, Utah, has been in his present post at the station since 1950. Prior to that time he was an advertising agency executive. Richard had been active in production of industrial and commercial motion pictures, when his hobby became his vocation and he accepted a position with the Eastman Kodak Company. Several of his pictures have won national acclaim. He was an Air Force bomber pilot during World War II, flying missions from England to various parts of the Continent.

LYNN TRAMMELL, film buyer of WBAP-TV,

Fort Worth, Texas, is a native Texan, graduating from Baylor University. Lynn joined WBAP in 1944 as a secretary in the newsroom, being placed in charge of transcription later that year. Coming to New York a few years later, she attended the NBC Television School for two months in preparation for her TV film duties which were considerably enlarged in September of 1948, the date on which WBAP-TV signed on the air.

ROGER VAN DUZER, film director of WLTV,

Atlanta, Ga., was born in 1911, and was educated at Brown University. His first radio appearance, as a pianist, took place in 1927. He started announcing a few years later. For eight years he led his own orchestra in the New York area, then returned to radio announcing. Later he was made general manager of WALB, Albany, Ga., going later to WMBR, Jacksonville, Fla., as program director, where he prepared and shot film commercials. In 1951 was made program dir. of WLTV.

WALTER L. TILLMAN, film buyer of WFIL-TV,

Phila., Pa., is a graduate of the U. of P. He began his career in the production department of N. W. Ayer & Son. He was associated with Warner Brothers in the publicity and advertising departments, leaving to operate a chain of neighborhood theaters. During the war years, he was active in war production while employed by the La-Francia Sugar Co., which produced by-products used by the government in production of gun powder. He joined WFIL-TV in 1948.

FRED J. MAHLSTEDT, director of operations for CBS-TV film sales, is a pioneer in the TV film industry, having a long, successful record in advertising and network operations. Before joining the CBS network he was associated with the Arthur Kudner and Erwin Wasey advertising agencies. Prior to June 1950, when Fred was singled out for the job of organizing a film syndication unit for the

Columbia network, he was general sales manager for CBS spot radio and TV sales.

BOB MULHALL, WOI, AM-FM-TV, Ames, Iowa, operations manager, is a graduate of Loras College in Dubuque. He was an announcer and newsmen with KDTH in Dubuque before coming to WOI as news director in 1943. When television arrived in Iowa, Bob forsook his news and announcing chores and shifted to his position as operations manager, in charge of the station's business activities, serving also in the film department. The Mulhalls have four children, two boys and two girls, all TV fans.

ties, serving also in the film department. The Mulhalls have four children, two boys and two girls, all TV fans.

KIETH MATHERS, film director of WKY-TV, Oklahoma City, Okla., took the NBC Institute course at Northwestern University, after attending Marshalltown College. He worked as an announcer at KFJB, Marshalltown; KGLO, Mason City, Ia., and WMT, Cedar Rapids. Prior to joining the promotion department of WKY in April, 1947, he was promotion director at KIDO, Boise, Idaho. When WKY-TV went

on the air in June of 1949, Kieth was named to his present post.

SANFORD SPILLMAN, film buyer and program director of KPIX, San Francisco, Calif., is a graduate of the University of California. Sandy then joined KSFO as a page boy, progressing to script writer. During the war he served as a naval lieutenant in the Pacific theater of operations, returning to KSFO as news editor. When KPIX began telecasting in 1948, he was transferred to the TV operation as a producer and writer, filling in as director. Spillman was named to his present post in 1949.

EDWARD A. CALLAHAN, film director of KSTP-TV is a former producer-director of KSTP-TV. He joined the Minneapolis-St. Paul station in 1948 in the television production department, and handled telecasts of football, baseball and hockey games. While in the U. S. Marine Corps, Edward managed nine theaters at Camp Pendleton, Calif. Previous to that he acted as advance man for the Dick Jergens Band. In February 1952 Ed was named to his present post.

WILLIAM V. ROTHNUM, film buyer of WSYR-TV, Syracuse, N. Y., is also program director. A native of Pittsburgh, Pa., Bill went to Syracuse in 1930 to join the announcing staff of WMBO, Auburn, and a few years later joined WSYR. Since that time he has worked as an announcer, sports director, and finally program director. With television added, he also took over the program director's job in that medium. Bill was recently made a V.P. in the Central N. Y. Broadcasting Corp. which operates WSYR and WSYR-TV.

WILLIAM R. DEERING, president of Video Pictures, Inc., formerly Video Varieties, has been associated with MGM pictures on the East and West Coast. He entered the U. S. Navy during World War II, emerging as lieutenant commander. Upon discharge, he returned to MGM in N. Y., leaving to form the Hartford Agency. Simultaneously he was on the board of directors of Video Varieties,

remaining at the same time with the agency as V.P. and gen. mgr. until Jan. 1953. Will took his post as president in Jan. 1952.

WILBUR S. EDWARDS, general sales manager of CBS-TV film sales, has been associated with the Columbia network for the past sixteen years in offices on the East and West Coasts. Prior to his present appointment, Bill was manager of KNXT, CBS TV owned station in Hollywood. His first association with Columbia was as student announcer at WBT, the CBS affiliate in Charlotte, N. C. He

joined the station's sales staff in 1937 upon graduation from Davidson College.

GILBERT S. CANFIELD, film buyer of WEWS, Cleveland, O., was an early staff member of Muzak Corporation. This was followed by a season with the Cleveland Community Fund, after which he spent a summer season at the N. Y. World's Fair with a marionette group. In 1941 he joined WHYN, Holyoke, Mass., as an announcer, and next went with WSPR, Springfield. In December, 1947, Gil

joined WEWS as an FM announcer, and a few days later when TV called he transferred, and took his present post two years ago.

HERBERT B. CAHAN, film buyer and program manager of WAAM, Baltimore, was born and educated in Phila. His first stint was as advertising manager for a Harrisburg department store. In 1941, Herb entered the Army Air Corps as a flying cadet and was mustered out as a major. He then joined the Food Fair supermarket in Phila., in the advertising department, and left to join the Forward Adv. Agency, then on to WFIL-TV. In 1948 he came to WAAM as operations manager and took his present post a year later.

FRANK P. CUMMINS, program director and film buyer of WJAC-TV, Johnstown, Pa., took his present post in May 1949, three months before the station began commercial operations. A native of Johnstown, he joined the Pennsylvania Electric Co. after graduation from high school. During the war Frank entered the Air Force and was separated from the service with the rank of captain. Upon release, he returned to the Pennsylvania Electric Co. remaining until he joined WJAC-TV.

CARL KING, Vice President of Sterling Television Co., N. Y., has had a dual career in video, as announcer-narrator and executive with the makers and distributors of films for TV. He is a graduate of the University of Chattanooga, followed by a semester of law at Georgetown in Washington, D. C. Carl has been newscaster, disc jockey and executive in many cities. Since June, 1949, he has worked exclusively in television and films. At Sterling, his duties include production and management details.

ROBERT L. LAWRENCE, President of Robert Lawrence Productions, Inc., N. Y., is a graduate of the U. S. Military Academy at West Point. He was formerly Vice President of Jerry Fairbanks, Inc. and prior to that was with RKO Pathe in N. Y. Robert Lawrence Productions are producers of TV and non-theatrical motion pictures, and are currently producing "Vacationland America," TV program featuring John Cameron Swayze, in addition to TV film commercials for Colgate-Palmolive-Peet Co. and others.

•

ALBERT G. ZINK, program manager of WRGB, Schenectady, N. Y., is a graduate of Hobart College. Following graduation, Albert became an announcer before joining WGY. He entered the Army in 1942 as a private and rose to the rank of captain. A civilian again, he returned to WGY where he was placed in charge of science broadcasting and program supervision. In 1947 he was made supervisor of programs at WRGB, and a few years later was named manager of all General Electric's broadcasting stations.

FRANK FERRIN, owner of the television, radio and film production company bearing his name, in Hollywood, produces "Smilin' Ed's Gang" on CBS TV and radio. He entered radio via WRHM (now WTCN) in his native city of Minneapolis, doing the lead in a comedy act at night and selling time for the station during the day. Frank was formerly vice president for Leo Burnett Co., Inc., until he organized his own firm. He has just completed production on his first theatre film, "The Hindu," filmed in India.

ARTHUR A. MAYERS, president of Unity Television Corporation, was at one time general manager of Colorfilm. While in that post he helped to establish the present Cinecolor Company. His next move was to become sales manager of Atlas Cinephone. From there he joined World Pictures Corporation as sales manager staying there for twelve years. In 1942, Archie became assistant to Jules Levy, president of Mayfair Prods., remaining for eight years before heading Unity in 1950.

HOMER DUERR, treasurer of Bing Crosby Enterprises, Inc., and budgeter of its TV film department, served as a member of the U. S. Air Force during World War II. He followed this with a term as special auditor for Arthur Anderson & Co., and later set up his own private accounting firm. Among many other firms, he served Enterprises. Homer is also comptroller of Bing's Things, Inc., director of Bing Crosby Ice Cream Sales, Inc., and auditor for Bing Crosby Minute Maid Corporation.

JOHN MITCHELL, newly elected vice president of ABC, assumes supervision of WRKB, Chicago, ABC's owned video station. Upon graduation from Miami University in 1931, he joined Balaban & Katz Corporation, and was placed in charge of the Indiana Theaters operated by Great States Theatres, Inc., a B & K subsidiary. In 1948 John was transferred to the general management of B & K's TV station in Chicago. Following the merger of ABC and UPT, Inc., he joined ABC in his present post.

CHARLES MICHELSON, president of Charles Michelson, Inc., established his transcription program firm in 1938. He pioneered in the sale of network type dramatic programs on transcriptions for local station use. He has been identified with such programs as "The Shadow," "Nick Carter" and "Hopalong Cassidy." He pioneered in the development of bloc dramatic programming currently featured

on hundreds of stations with as many as ten different mystery program series weekly.

GERALD (JERRY) KING, president of United TV Programs, Inc., is also president of Standard Radio Transcription Services, Inc. He entered the broadcasting field via the Los Angeles Daily News. When Jack Warner became interested in his radio articles Jerry was offered the management of KFVB, Hollywood, remaining there for eleven years. In 1934 he and Milton Blink started Standard

Radio. Jerry was the organizer and first president of the Southern California Broadcasters Assn.

HARRY WAYNE McMAHAN, president of Five Star Productions, Inc., recently celebrated his 25th year in advertising. His book, "The Television Commercial," published in 1952, was one of the first texts on the subject. Harry was born in Indiana, raised in Texas where he became city editor of a country weekly at sixteen. He then went into advertising and wrote and produced

more than 1,000 radio shows on ABC. In 1938 he established Five Star Productions, Inc., specializing entirely in advertising films.

EMANUEL DEMBY is president of Demby Productions, Inc., television and motion picture producers, and of the Demby Company, public relations firm. He is the author of the book titled "My Forty Year Fight For Korea," named by the New York Times and Herald Tribune as one of the outstanding biographies of last year. Since 1936, he has pioneered with such radio and television programs as "What's Playing?," the first TV show to wed the movie industry and TV on a regular basis.

BOB CLAMPETT, executive producer and creator of "Time for Beany," syndicated nationally through Paramount TV Prod., at the age of ten drew cartoons for the L. A. Times Junior section and won several prizes. When he was 16 he drew the sketches of the Mickey Mouse doll which was sold to Disney. He joined the Leon Schlesinger studios, starting as apprentice artist and progressed to director of "Merrie Melodies" and "Bugs Bunny." "Time For Beany" hit the air in Feb. 1949 on KTLA.

JOHN B. CRON, national sales mgr. for the NBC film div., attended Princeton University before enlisting in the U. S. Air Force during World War II. Prior to NBC, he served as assistant film director of CBS TV after a year as gen. mgr. for Monogram Pictures in the West Indies. Prior to that he was a sales representative for Monogram International. John's responsibilities include the syndication of such TV film properties as "Hopalong Cassidy," "Douglas Fairbanks Jr. Presents" and others.

ISIDORE LINDENBAUM, president of Filmcraft Prods. in Hollywood, was formerly an attorney. In 1941 he was admitted to practice before the United States Supreme Court. It was shortly thereafter that he became interested in television, so interested that he soon began devoting his full time to the development of Filmcraft. His company films the *Groucho Marx "You Bet Your Life"* series for NBC and is also producing *"Small Wonder."* He is known to clients and employees alike as "Lindy."

HERBERT SCHEFTEL, president of Telenews Productions, Inc., N. Y., is also head of the Great Plains TV Properties, Inc., having construction permits for stations in Duluth, Little Rock and Sioux City. Herb started out as a member of the Stock Exchange, but quickly became interested in the production of visual news. At present Telenews is servicing some 100 stations, in addition to such features as *"This Week in Sports,"* and *"Sports Extra"* distributed by INS.

JOHN F. HOWELL, director of sales and merchandising for Paramount TV Prod., Inc., joined the organization in 1950 with duties primarily involved in the exploitation of Paramount's *"Time For Beany."* During World War spent five years in the U. S. Marine Corps, attaining the rank of Major. Prior to joining the Paramount organization, John was vice president of Stephen Slesinger, John is now in charge of the *"Beany," "Wrestling Hollywood Reel,"* and national syndication of *"Hollywood Reel."*

WILLIAM VAN PRAAG, head of Van Praag Prods. N. Y., produces and directs both film commercials and features for television. He has been associated with Bray Studios, Jerry Fairbanks, and was president of General Business Films. Prior to forming his own company, he did some pioneer film work for NBC TV. He served a three-year hitch with the U. S. Army during World War II. Some of Van's accounts are Ballantine Beer, Ford and many others. He is the holder of the International Film Festival Award.

CHARLES W. CURRAN, president of Times Square Productions, Inc., worked as a motion picture projectionist in his high-school days in Auburn, N. Y. The first half of his business life was spent as copywriter and account executive with leading advertising agencies. He has been engaged in every phase of the movie business from production to exhibition. His play *"Ad Man"* was made into a feature by RKO-Radio. Charles is the writer and publisher of *"The Handbook of Motion Pictures For Business Men."*

LOUIS D. SNADER, president of Snader Tele-descriptions, Corp., Calif., started in the movie business via the real estate end of it. He bought and sold several small motion picture theaters, then expanded to the Midwest and the West Coast. Though he moved to California to retire, it was in 1948 that he started to finance motion pictures, then backed his original *"Fireside Theatre"* for television. Currently in production of a series of 17 half-hour musical TV films, starring Liberace.

PETER F. ELGAR, head of Peter Elgar Productions, Inc., of New York, is a Viennese and the holder of three Ph. D. degrees from well-known continental universities. His firm concentrates on the production of documentary, educational and industrial films, as well as spot commercials for use by television stations. He was associate producer and director of the famous "Madchen in Uniform," one

of the all-time greats of the motion picture industry. Peter has resided in Paris, Berlin, Rome and Hollywood.

MILTON BLINK, vice president and co-owner of Standard Radio Transcriptions, is also executive v. p. of United Television Programs. Educated at the University of Michigan, Milton was active in college dramatics. He acted in, and directed, the Wisconsin Players workshop series on WIMS, Milwaukee. In 1933 he established and became co-owner of Standard Radio Trans., and has been with the

organization since. Early in 1951, together with Standard's Gerald King, he organized United TV Programs.

WILLIAM MIESEGAES, president of Transfilm, Inc., was born in London, and received his education at Harrow and in Switzerland. He was associated with the British firm of MacLaine, Watson & Co., for ten years, four of which were spent with the company's Far Eastern office in Indonesia. Filming a travelogue in Mexico, in 1940, led him into the motion picture business and eventually to the forming of

Transfilm, Inc. In 1951 his company produced Gian-Carlo Menotti's "The Medium."

JOHN GUEDEL, producer and vice president of John Guedel Radio Prod., Calif., is only a v. p. because everyone in the organization holds the same title. There is no president. After various jobs, John decided he wanted to write and joined Hal Roach where he wrote "Our Gang" and "Laurel & Hardy" shorts. He was writing radio scripts for a Los Angeles agency and while there, worked out the formula for "Pull Over Neighbor," forerunner to "People Are Funny" on the air for over 10 years on NBC.

THE REV. JAMES K. FRIEDRICH, president of Cathedral Films, was quick to convert his backlog of 40 religious film productions for television presentation. His present plans call for a complete new series geared especially for the sight-and-sound medium. Frequent cross-country tours and participation in industry workshops have established him as an expert in the TV film field. "I Beheld His Glory,"

one of Dr. Friedrich's best known productions, was completed at a cost of \$100,000 for release during the Easter season.

ROBERT GROSS, executive producer and partner of American Film Producers, N. Y., was production chief for the U. S. Air Force Combat Service during World War II. In 1946 following the close of the war, he formed the present company with L. A. Glesnes. Prior to the war, Bob was regional supervisor of public relations for the New York State Education Department and later chief of photography for the N. Y. State Bureau of Publicity. He was one of the first to standardize packaging and labeling of TV commercials.

NORMAN C. LINDQUIST, vice president and director of TV of the Atlas Film Corp., Oak Park, Ill., is a graduate of De Paul University. He originally started on a professional musical career, but this was interrupted when he joined the Navy. Upon separation from Naval Service, Norman joined with the Malcolm-Howard Adv. agency as director of TV.

of TV Advertising Prods. He was associated with the Malcolm-Howard Adv. agency as director of TV.

PAUL PARRY, head of Paul Parry Productions in Hollywood, entered into production of TV feature and spot commercial films during the early days of the television industry. His background includes years of association with major studios in Hollywood and later in the filming of corporation training films. Presently, Paul Parry Productions is shaping for the TV market a series of TV program films of a human interest-situation format titled "Cameras & Models In Action."

a human interest-situation format titled "Cameras & Models In Action."

BOB LONGENECKER, president of Telepak and head of his own artist agency in Hollywood, joined the Kiewit Advertising Agency following his graduation from Penn State College. He joined CBS as producer-director for KNX in Hollywood, and later served as head of the radio-TV departments for both Myron Selznick Agency and Sam Jaffe, Radio's "Family Theatre" success story includes credit for Bob's pioneer work and production with Father Patrick Peyton.

credit for Bob's pioneer work and production with Father Patrick Peyton.

JACK H. HOFFBERG, president of Hoffberg Productions, Inc., is a pioneer in the motion picture business, starting his career in 1911 in the early days of the skyrocketing industry. He was export manager for Goldwyn Pictures Corporation until time of the merger with Metro in 1924, leaving to establish his own firm. He was one of the first to enter TV production and distribution, dating back to 1940. Jack is now contemplating production series of half hour adventure films in Europe.

DWIGHT W. WHITING, western sales manager of Consolidated Television Sales, took his present post in April of 1952. He entered television with KTTV, Los Angeles as an account executive. Prior to KTTV, he was associated with KAGH, Pasadena, and Condé Nast Publications, Inc. serving with both organizations as account executive. Dwight later served with the Army Air Force during World War II. Upon release from the Army, he graduated from the Babson Institute of Business Administration.

graduated from the Babson Institute of Business Administration.

ROBERT H. REID, TV sales manager for International News Service, started the development of news tape for TV way back in 1946. Following graduation from Cornell University, Bob embarked on a Wall St. career with E. A. Pierce & Co. He organized Radio Chart in 1938, a radio log page for daily newspapers. Bob joined the INS sales staff, leaving two years later to enter the Army Signal Corps. Upon discharge, he returned to INS as assistant sales mgr. and two years later was named to his present post.

EDWARD J. LAMM, president of Pathescope Co. of America, Inc., entered the industrial film business by forming Advertising Film Associates in 1933, and six years later took over Pathescope. During the war years, he produced a great many training and orientation films for the Navy and other government agencies. The company produces industrial and educational films, TV commercials and TV programs. Ed has been active in the formation of the Film Producers Assn. of N. Y.

PAUL F. HEARD, president of Paul F. Heard, Inc., attended Lawrence College, (Appleton, Wisc.) and the University of Minnesota. He was production supervisor in the Visual Education Department of the University of Minnesota. Paul has been associated with Methodist Church Headquarters as director of films, and also served as film evaluator, United Nations Central Training Film Committee in Washington, D. C. He is a member of many film associations.

J. R. BRAY, president of Bray Studios, New York City, produces educational films for schools, hospitals, and the Armed Forces training programs. He began as an artist on the Detroit Evening News and later became associated with the Brooklyn Daily Eagle. In 1905 he invented and developed the animated motion picture cartoon processes and introduced the first animated cartoon in theaters. John produced a large number of training films for the U. S. Government during World War II.

DAVID I. PINCUS, president of Caravel Films, N. Y., established the firm with two partners in 1923. He was set designer for the old Universal Studios in Coytesville, N. J. After a period as manager of the educational dept. for Fox, making films for Cunard and others, Dave joined Lejaren A. Hiller, and when Hiller's studio became part of Underwood & Underwood he went along. He is v.p. of the Film Producers Assn. and co-chairman of the Film and TV committee of the N. Y. Board of Trade.

RALPH COHN, V.P. and general manager of Screen Gems, Inc., subsidiary of Columbia Pictures, received his initial training in the motion picture production field as executive producer at Darmour Studios and Columbia. He was associated with Mary Pickford and Buddy Rogers in Triangle Prods. prior to serving in the U. S. Army. Ralph returned to Columbia, remaining until he formed Telefilms, Inc. and Telespots. The following year he joined Screen Gems as gen. mgr. and was elected V.P. late in 1952.

CARL DUDLEY, president of Dudley TV Corp., and Dudley Pictures Corp., produces industrial, travel, education and television films for both commercial and entertainment use. While working as a writer in the shorts subjects department at Warner Brothers Studio, he obtained the Santa Fe Railroad as his first account and thus began to set himself up in business. Today Dudley TV Corp. does the commercials for the "I Love Lucy" show, "Judge Dunhill" and many others.

W. WALLACE ORR, president of Tel Ra Productions, is a pioneer in the production of sports films for television. Prior to establishing Tel Ra, he was vice president of the N. W. Ayer Agency and acted in a supervisory capacity for several national accounts. Wally was responsible for the introduction of the Atlantic Refining Company sports broadcasting program in 1936, including the procurement of football, baseball and basketball rights for presentation on the air.

ment of football, baseball and basketball rights for presentation on the air.

MARC FREDERIC, general manager of the TeeVe Company, California, produces the quarter-hour show "Little Theatre." This is the program with the two O. Henry type vignettes, in which the real punchy climax comes at the very close. Marc joined forces with Gifford Phillips and Ludlow Flower, Jr., owners of this company and used his knowledge of merchandising gained in the retail business to successfully put this program on the air in 42 cities within two years.

business to successfully put this program on the air in 42 cities within two years.

SAUL J. TURELL, president of Sterling Television Co., is a native New Yorker. He attended City College of N. Y. From 1942-46 he was in the Army and served in the South Pacific. After his discharge, Saul joined Official Films. He organized Sterling Films in 1946 in partnership with Robert Rhoades. The primary business was in the home movie, educational field, but in 1949 when Bernice Coe joined Sterling, a television department was set up, which proved a major factor in the Sterling progress.

Coe joined Sterling, a television department was set up, which proved a major factor in the Sterling progress.

PHILIP N. KRASNE, co-owner of Gross-Krasne, Inc., Calif., was formerly a barrister. He became engaged in independent motion picture production and began to produce the "Charlie Chan" series of movies. In association with Fred Ziv, he acquired the rights and began filming "The Cisco Kid." In 1950 as president of Cisco Kid Pictures, sold his interest in the company to Ziv TV. Gross-Krasne, Inc., have completed 26 "Big Town" pictures for TV under the sponsorship of Lever Bros.

HENRY USHIJIMA, head of motion picture and television services at George W. Colburn Laboratory, Inc., (Chicago) began working at M-G-M while still a student at the University of California. After graduating from UCLA's School of Business Administration, he was offered a full-time position in the M-G-M sound department. Later he became a cameraman, and joined the staff of Columbia Pictures. During the war he made films for the United States Navy and the OWI.

HAL ROACH JR., vice-president of Hal Roach Studio, Calif., is also president of the Academy of TV Arts & Sciences. He has been film editor, writer and director. Hal now produces "My Little Margie," "Buckit Squad" and "Trouble With Father." Hal served with the Army Air Corps during World War II. The Hal Roach Studio is the only one in Hollywood still being operated by the man who built it, Hal Roach. The studio itself produces "Amos 'n' Andy" for CBS and "Life of Riley" for NBC.

Roach. The studio itself produces "Amos 'n' Andy" for CBS and "Life of Riley" for NBC.

VICTOR KAYFETZ, head of Victor Kayfetz Prods., Inc., N. Y. C., established the firm in 1946. He served with the U. S. Army Pictorial Service in India and Burma during World War II. Prior to the war, he was writer-photographer for picture magazines, which took him to India and the Virgin Islands. With the advent of TV, he moved to Hollywood, Calif., and produced one of the first films specially made for TV for Vallee-Video, Inc., subsequently returning to the East to continue TV production.

AL BUFFINGTON, was "campus commentator" on WJSV, Washington, D. C. (now WTOP) while attending the American University. After graduation Al joined WCAO, Baltimore, and later became associated with WFBR in the same city. He served as a lieutenant in the U. S. Navy during World War II. Upon discharge Al established his own radio production company in 1946, and syndicated the "Quiz of Two Cities" in 30 cities throughout the country. In 1948 Al opened a branch office in Hollywood, Calif.

NATHAN SOBEL, president of Cineffects, Inc., N. Y., is also part owner of Color Service, Inc., in association with Robert Crane. He has been associated with Consolidated Film Industries, Advance Trailer and Du-Art Film Labs. He became experienced in production problems, animation, special effects, with the firm of Audio Productions. In November of 1939 he started, and presently owns, his own special effects, animation, art title, and insert studio known as Cineffects, Inc.

JOHN A. NORLING, president of Loucks & Norling Studios, Inc., N. Y., established the firm with Arthur H. Loucks in 1923, and since that time has produced over a 1000 film subjects. He pioneered in stereoscopic motion picture research starting in 1921, and in 1933 produced three-dimensional anaglyph motion pictures released by MGM. He is the author of technical articles on cinematographic subjects in general, including animation, trick photography and three-dimensional photography.

BERNARD HOWARD, president of Academy Film Productions, Inc., Chicago, took his present post in 1950. He has been associated with Arthur Meyeroff & Co., W. E. Long Co., Malcolm Howard and CBS as writer-producer-director. While he had his own radio-TV production firm, serving as packager and consultant to many agencies, he sold a network program idea, called "Name The Movie" to Roche, Williams & Cleary, which was aired for 26 weeks out of Hollywood.

SETH (TOM) BAILEY, president of Tom Bailey Prods., Inc., Tucson, Ariz., was formerly a newspaperman. He left the Chicago-Herald Tribune in 1939 to write for magazines, and since that time has sold over 700 short stories and novelettes. Three years ago Tom became interested in the making of films for TV, and together with Charles Herbert launched the Southwestern Motion Picture and TV Corp. In 1952, Tom organized his present company, currently producing "The Sagebrush Kids."

IRVING MACK, president of Filmack Trailer Co. of Chicago and New York, organized the company thirty-four years ago, at the age of 24, due to the lack of special trailer companies in the Midwest. He attended Wendell Phillips High School and while still in his teens became assistant publicity director of White City Amusement Park. Prior to Filmack, he was associated with the Universal Film Company as publicity manager. His three sons are all part of Filmack Studios of Chicago.

ROBERT ANGUS, president of Volcano Productions, Inc., Calif., and General Service Studios, has covered in his extensive experience nearly every facet of the industry. He was a script writer at Fox, until he joined the editorial department at Columbia and subsequently wrote "Armored Car Robbery" for RKO. During the war Angus served with the U. S. Army Signal Corps Photographic Center as film editor of "Army-Navy Screen Magazine," "G. I. Movie Weekly" and others.

LINDSLEY PARSONS, independent film producer who releases through Allied Artists Productions, Inc., is a former newspaperman. Following his graduation from the University of California, he joined the old Los Angeles City News Service. In 1931 he joined Monogram motion picture production organization, as a one man publicity department, later writing western films, and then producer. In his career as producer he has launched such stellar players as Mariette Reynolds and Gale Storm.

FREDERICK A. NILES, vice president in charge of motion pictures and TV of Kling Studios, is a graduate of the U. of Wisconsin. During the war, Fred served in the Information Education Division of the War Dept. A civilian again, he joined WAAF, Chicago as news editor. Next step was to Kling, where he originated the video division in 1947. He steered the way from one account to more than a hundred, from TV spots to TV shows, and from a skeleton staff to one of the nation's largest.

HERMAN HACK, president of Hack Productions, Calif., has spent twenty seven years as an actor, stunt man and double for many stars in motion pictures, prior to his producing religious youth films. He not only writes, produces, directs and stars in his pictures, he also edits, distributes and even presents his film before audiences on occasions. He teaches Sunday School in his spare time. Herman is widely known as the "Frontier Parson," the cowboy who carries a Bible into action instead of a gun.

BEN GRADUS, president of International Movie Producers' Service is also president of Ben Gradus Studios. He produced and directed the first important film about TV, "Television Today," for CBS in 1949. He is currently producing a series of films on the subject of tolerance projected for TV programs, regarding the Puerto Ricans in the U. S. Among the products for which he produces TV spots are Vitells, Goodrich, Arrid and others. Ben is married and has a son and daughter.

GILBERT A. RALSTON, co-producer with Arthur Ripley of Sovereign Productions, Inc., Calif., was born and reared in the sunny state. He has been associated with the NBC network as writer-director, later joining Compton Advertising Inc., as manager of night-time radio for the agency. He joined Procter & Gamble Productions, Inc., as executive producer, following with Screen Televideo Productions as producer. The year 1952 brought Gil to Sovereign Productions in his present post.

HARVEY CORT, president of Olio Video Productions, Inc., N. Y. C., is a graduate of New York University with a BA degree. He wrote and directed dramatic and special events programs for WNYC, later joining WHN as assistant station manager. While in the Army during the war, Harvey produced radio shows for the Sixth Service Command, and produced theatrical and athletic programs with amputee and paraplegic veterans. He formed Olio Video to distribute features and westerns to TV stations.

SHAMUS CULHANE, president of Shamus Culhane Prods., Inc., started as an animator in 1924. He has worked on more than 250 animated pictures for all of the major Hollywood movie studios. He was with the Walt Disney Studio for five years as a pantomime specialist on such pictures as "Snow White," "Pinocchio" and the "Pluto" series. He has credits on two Academy Award feature pictures.

Shamus established his own studio six years ago and is now primarily engaged in making TV commercials.

ARMAND I. SCHAEFER, president of Flying A Pictures, Inc., is also executive producer of Range Rider Productions, and S.H.A. Company. He entered the motion picture business with Mack Sennett, film comedy pioneer, as a property man. Rapid progress brought Armand to many movie studios as director. He became a producer on the first Gene Autry serial for Mascot, and wrote the original story for the picture, "Tumbling Tumbleweeds." Armand took his present post in 1950.

VINCENT J. NOLA, owner of Nola Studios, Inc., N. Y. C., studied voice in Buffalo, N. Y., as a youngster, later moving to N. Y. C. to resume his studies and establish himself as a vocal coach. He established 16 studios at Steinway Hall, equipping some of these with recording facilities. The operation was such a success, he acquired 17 more in the WMCA Bldg., six of which are fully equipped for production of tape and disc transcriptions. His latest venture is motion pictures for TV.

HENRY BROWN, president of Atlas Television Corporation, N. Y., established the organization in 1948. He is a native New Yorker and attended City College of N. Y. and Columbia University. He has been in the motion picture business over twenty-five years as an exhibitor, owner of a chain of theatres in N. Y. and N. J., and producer of motion pictures. Henry has collected a vast library of features, westerns and other subjects, which Atlas now distributes to most TV markets.

WILBUR STREECH, owner of Wilbur Streech Productions, N. Y., is a graduate of U.C.L.A. in his native Southern Calif. He entered the animation field as a member of Walt Disney's staff. Will entered the Army where he organized animation production as a captain in the Signal Corps. On release from service, he became a partner in Triangle Films, which was then producing a series of one-reel animated musicals for Universal. After completion of this series, he formed his present firm.

HALSEY BARRETT, eastern sales manager of Consolidated TV Sales, is a graduate of Harvard Business School. After a brief stint with a Wall Street brokerage firm, Halsey joined WOR as a sales promotion man. He has been associated with WNEW as promotion manager and in 1940 joined Tide magazine. He left there to join the Navy in December 1941. Following his discharge he joined CBS TV, later moved to DuMont, and a year ago was named to his present post with Consolidated.

FRED FELDKAMP, managing editor of The March of Time, did sports correspondence while in prep school and sold a short story to the New Yorker at the age of 17. After college, Fred worked for the Brooklyn Eagle and contributed to magazines ranging from Asia to Vogue. He served three years as a Marine combat correspondent. A civilian again, Fred joined Time, Inc., in 1945, as a Life text editor and two years later moved to The March of Time, taking his present post last year.

BERNARD J. PROCKTER, president of Prockter Productions, Inc., attended the Universities of Chicago and Wisconsin. From 1929 to 1934 he was assistant national program director of CBS, where he developed and supervised the "Bing Crosby Show," "Morton Downey," "Kate Smith" program and many others. The next two years found him as supervisor of CBS owned stations, then he joined Biow Company as director of radio, resigning in 1944 to form his own company.

ROBERT GUGGENHEIM, JR., recently named gen. mgr. of Major Television Productions, Inc., Culver City, Calif., joined the company after four years as head of NBC TV's film dept. at KNBH, Hollywood. Prior to that he was in the U. S. Naval Reserve for 42 months and was discharged as a lieutenant commander. Before joining the Navy, he was associated with CBS at KNX, Twentieth Century Fox and David O. Selznick Productions. Before joining the entertainment field he was an ore buyer.

ROBERT W. SCHOFIELD, head of the TV feature and commercial film department for Telenews Productions, joined the company in February 1951. Since that time Bob has turned out commercials for numerous accounts, including Esso, Wheaties and Tintair, as well as sequences for "We the People," and others. Prior to joining Telenews, he was with the March of Time, for whom he produced documentaries, and after a brief period was promoted to production manager.

PAUL RAIBOURN, V.P. of Paramount Pictures Corporation, heads up the company's video interest as president of Paramount TV Productions, Inc. His early surveys of TV's potentialities led to Paramount's profitable 1938 investment in Du Mont Labs, as well as to the establishment of KTLA in 1942. Paul joined Paramount in 1921 and rapidly attained a reputation as an analyst of boxoffice values in relation to costs and public psychology in the entertainment industry.

LYLE DeMOSS, film buyer of WOW and WOW-TV, Omaha, is a pioneer of radio and TV, starting his radio career 30 years ago. Before joining the staff of WOW as production manager in 1937, Lyle served at several Nebraska stations. After joining WOW, he did a great deal of on-the-air work in addition to his duties, as a result of which his voice became well known to mid-western audiences. In 1949 when WOW-TV its program director, and later became assistant general manager of WOW, Inc.

WILSON M. TUTTLE, has recently been made president and member of the board of directors of United Television Programs, Inc., newly associated with Gross-Krasne Prods., Inc., and Studio Films, Inc., under the UPI banner. Bill recently resigned as V. P. in charge of radio and TV and a member of the board of Ruthrauff & Ryan. Bill had been associated with A. & S. Lyons, Inc., as head of the firm's N. Y. office, where his major job was creating, building and selling package shows.

REUB KAUFMAN, president of Guild Films is a veteran ad agency man of twenty-two years. He entered the TV film business in 1950 because his agencies "live" program headaches convinced him that films were the ultimate answer to profitable television programming. Reub resigned as president of Snader Telescriptions early in 1952 and organized Guild Films as a film packaging and distributing organization. He got into production with the "Liberace" show in January 1953.

JACK J. GROSS, in partnership with Philip Krasne, of Gross-Krasne, Inc., Calif., has been a producer at Universal and RKO, producing some of Hollywood's biggest box-office successes. While a student in N. Y. C., the place of his birth, his desire was to be around show people. His family moved to the midwest where Jack joined Maupin's Chautauqua concert orchestra, later assuming the post of theatre manager in Eldorado, Kans. Still later he became western division mgr. of the RKO theatres.

STUART REYNOLDS, head of Reynolds Productions, Calif., is one of the very few advertising men active in TV film production and sales. He was formerly with Lord & Thomas, B.B.D. & O., Erwin Wasey, General Mills, and the Don Lee Broadcasting System. Stuart has sold television film programs on a regional and local basis to such clients as Sunkist, Rainier Beer and many others. Headquartering on the West Coast, Stuart is a frequent commuter between New York City and Beverly Hills.

Famous
 last words
 we hope you,
Mr. Distributor,
 never have to say.

**"Why didn't I have that
 TV Film Peerless-treated"**

PEERLESS-treated prints are:
 moisture-stabilized—not "green" or brittle
 toughened—to resist scratches and wear
 lubricated—to ease projection.

**PEERLESS-treated prints start off right
 and maintain their good condition longer
 for more bookings.**

To
 the Producer
 who is a
 Perfectionist...

What you're shooting for, in the long run, is frequent showings of your film and sustained audience interest.

But, if your prints are untreated, they are bound to develop defects and thus irritate the audience.

To avoid this, the producer who is a perfectionist includes Peerless-treatment in his budget.

The cost is negligible — the results gratifying.

NBC Television

Every Wednesday Night

Sponsored By General Electric

PIANO PLAYHOUSE

A Maggy Fisher Production

The only network program which brings you weekly all the great names of Piano Music. In the classics, PIANO PLAYHOUSE offers such great artists as Jesús Maria Sanromá, Rosalyn Tureck, Eugene List, Abram Chasins, Constance Keene, Earl Wild, Appleton and Field, Whittemore and Lowe. The Philharmonic Piano Quartet, etc., etc., in addition to such great outstanding jazz stars as Frankie Carle, Vincent Lopez, Art Tatum, George Shearing, Erroll Garner and Skitch Henderson

all this and the one and only

MILTON CROSS

with CY WALTER and WILLIAM CLIFTON

at the Twin Keyboards

Alternating with FERRANTE and TEICHER

MGM PIANO PLAYHOUSE ALBUM (Volume III)

now being released

A fast growing high popularity show, and with sponsorship growing every day, is now available to you at

LOW CO-OP COST

PIANO PLAYHOUSE with all its glamour and prestige is now available at local rates. Ask your ABC representative today for full details, write or wire

RADIO & TELEVISION

A Laconic Bill Stern, Accepting Conditions of New TV Medium, Calmly Describes Cotton Bowl Game

By JACK GOULD

Bill Stern, the veteran sportscaster, showed a rare brand of both courage and common sense yesterday. Nosed for years as an announcer who practically never stopped talking, he completely altered his technique in giving over the N. B. C. network an account of the Cotton Bowl game between Texas and Tennessee.

The contrast between the Stern of yesterday and the Stern of old was so marked—and so welcomed—that there could be no doubt that the sportscaster had deliberately elected to heed the cries of many football fans to let the TV camera tell the story. Bill deserves credit for making an about face. For a person in the public eye that is never easy.

The Texas-Tennessee game was an acid test for Mr. Stern because the Cotton Bowl attraction was an incredibly dull one. But whereas in days gone by Mr. Stern would have endeavored to camouflage the obvious with a torrent of words, yesterday he succinctly observed that Tennessee was not very good and let it go at that.

Mr. Stern's major improvement was that he did not chatter while a play was in progress, for the most part restricting his comment to giving the name of the player who carried the ball. On passes and kicks, he kept still and allowed the viewer to see for himself what was happening. Even during several occasions when the teams took time out, he said nothing. The viewers waited along with the spectators of the bowl for the game to resume, which is enlightened television.

Similarly, Mr. Stern abstained from analyzing the game in technical gobbledegook. Mr. Stern should complete successfully the transition from radio to TV. His worst troubles apparently are over.

THANKS JACK GOULD

*Bill
Stern*

COMMERCIAL AM PROGRAMS OF 1952 (NETWORK)

The following pages contain a complete alphabetical listing of program titles of the four national networks' commercial programs heard during the 12-month period ending Dec. 31, 1952. Listing includes program title, sponsor and product, network and the advertising agency handling the account. Compilation has been made through the cooperation of ABC, CBS, MBS, and NBC. Programs are all of 13-week duration or longer.

COMMERCIAL TV PROGRAMS — 1952 (Network and Local)

The following pages contain an alphabetical listing by program title of the four national television networks' commercial programs as well as locally sponsored programs of television stations in operation during 1952. The programs listed are for the 12-month period ending Dec. 31, 1952. Listing includes program title, sponsor and product, network or station and the advertising agency handling the account. Programs are all of 13-week duration or longer. Compilation has been made through the cooperation of ABC, CBS, DuMont, NBC and the television stations listed.

Before you buy... consider PRESTO

... the finest, most complete line of tape and disc recording equipment available today. Here are just a few of PRESTO's most popular items designed and precision manufactured for stations and recording companies.

TAPE RECORDERS

PRESTO portable PT-920

The top buy in portable tape recorders, 10 watt amplifier, two speakers and amplifier in one case. 3 motors, no take-up clutch.

PRESTO tape reproducer TL-10

New and improved. Permits tape playback on 16" turntable at 7 $\frac{1}{2}$ " or 15"/sec. Plugs into standard speech input equipment.

DISC RECORDERS

PRESTO studio console 8 D-G

Direct gear drive, twin motors, 8 feed pitches in each direction. Radial cantilevered overhead with 1-D cutting head.

PRESTO portable 6-N

Low mechanical noise level; excellent accuracy at 78 and 33 $\frac{1}{3}$ rpm; 1-D cutting head. Micro-groove attachment available.

RECORDING AMPLIFIERS

PRESTO 92-B

For rack mounting. 60 watts, push button selector for recording characteristics. Removable front panel for easy maintenance.

PRESTO portable 90-B

Distortion of less than 1.5% at maximum output, 3 microphone input with mixer and master gain control. Complete facilities for remote recording.

REAR-PROJECTION ZONE

PROJECTORS

THIS LITTLE DESIGNER HAD PROBLEMS

(Just wasn't told about scale, screen-size or the like . . .)

AND MAINTENANCE HAD THEIRS, TOO

(Somebody sold somebody on something somehow . . . !)

SCREENS

HERE EVERY SCENE HAD A "HOT-SPOT"

(Bright as can be . . . but not for TV . . .)

WHILE THIS LAD GOT NO LIGHT THROUGH

(Who said what about foot-candles?)

SLIDES

BUT THIS STATION MANAGER BEING A SMART STATION MANAGER CALLED ON TRANS-LUX TO EQUIP HIS STUDIO WITH THE VERY FINEST IN REAR-PROJECTION AND SO HIS SHOWS WERE FAR BETTER AND HIS ENTIRE STAFF MUCH HAPPIER ALL THE DAY LONG.

VOICE OF AMERICA IN 1952

"Campaign Of Truth" Gains Over "The Big Lie"

By ALFRED H. MORTON, Director Int'l Broadcasting Service,
International Information Administration, Department of State

THE year 1952, which marked a decade since the Voice of America first began to broadcast the American story abroad, brought substantial evidence that the "Campaign of Truth" was gaining the initiative over the Big Lie of communism. Intensive Soviet jamming continued to demonstrate that the Communists regard the Voice of America as a potent threat to their designs. Their jamming network, which employs about 1,000 transmitters and many badly needed technicians, is estimated to cost the Soviet Government more than the U. S. spends for its entire international broadcasting program. But the Voice's message continued to get through to Russian listeners. And research based on interviews with thousands of persons recently escaped from the Communist orbit indicated that about 60% to 80% of radio listeners in the satellite states hear Voice of America broadcasts—and that an important announcement will spread through the entire population in a matter of hours by well-developed grapevines.

The Voice conducted an all-out campaign to tell the world that thousands of North Korean and Chinese war prisoners in UN compounds who refused repatriation had given the lie to communism's claim that it has created a "workers' paradise" behind the Iron Curtain. In another hard hitting campaign, the Voice exposed the scientific absurdity of the Reds' accusation that the UN Command used bacteriological warfare in Korea, and revealed that Stalin himself had originated this particular lie to spread terror among Russian peasants as long ago as 1933.

To free world audiences, the Voice stressed the firm march toward unity symbolized by NATO, the signing of a peace agreement with West Germany and the European Defense Community treaty, and the initial steps taken toward the implementation of the Schuman Plan. It continued to present a positive picture of the United States with the aid of promoting greater world-wide understanding of American life, culture, and politics and their relations to U. S. international policy. The Presidential election and the campaigns preceding it, provided a particularly vivid demonstration of American democracy in Action.

Audience surveys, conducted by independent research agencies, showed the Voice getting a large and highly interested audience in Europe.

In addition to its broadcasts in 46 languages totalling about 350,000 words a day from New York, the Voice of America expanded its Munich broadcasting operation which now originates programs in Polish, Russian, Estonian, Lithuanian, Hungarian and Bulgarian.

The Voice also continued its service to commercial and government broadcasters abroad. Many Voice of America broadcasts were relayed by local stations in the free world, and VOA transcribed programs were used regularly by 234 stations in Latin America; in Western Europe, 71; 40 in the Far East, and 31 in the Near East. In addition, the Voice of America furnished scripts and other raw materials for use in producing programs in the field.

The Voice's latest answer to jamming is the U.S.C.G. Cutter *Courier*, a sea-going relay station, equipped with one 150,000-watt medium-wave and two 35,000-watt shortwave transmitters, which broadcasts from a vantage point just outside the Iron Curtain. Other more powerful transmitters now under construction in the U. S. and abroad will further assist in penetrating Stalin's electronic curtain when they are added to the Voice's present globe-girdling net of about 75 transmitters.

The Voice's sharpened attack on the Communist record and ideology has forced the Communist press and radio to defend itself more frequently than ever before. Studies of Soviet and satellite propaganda show that the Communists felt called upon to answer—and thus advertise—the Voice of America no less than 1,000 times between July, 1951, and June, 1952. On one occasion *Pravda* devoted two-thirds of an entire issue to answering Voice broadcasts which blamed the Soviet Union for the Katyn massacre.

Millions "Attend" Eisenhower Inaugural

This scene, which could be duplicated in many educational institutions throughout the land, shows students of New York's Public School No. 9 gathered to view the Inauguration on a TV set furnished by the Citizenship Education Project of Teachers College, Columbia University, in co-operation with CBS-TV.

Here's the print of an unretouched "off-the-tube" photograph of Dwight D. Eisenhower being sworn in as President of the United States. The picture was taken in the television studio of the American Broadcasting Company in New York.

Cameramen of NBC TV moved about Washington on Inauguration Day in a mobile TV transmitter mounted in a converted Cadillac. They telecast the Inaugural Parade and other scenes, which assured on-the-spot coverage of the history-making event.

How to Make Your Promotion to Sell Time More Effective

Mold the opinions that need molding: Of most vital importance to radio and TV sales curves are the opinions and decisions of the advertisers and the agency account executives. The solution to the sales problems of broadcasters today lies largely in reaching and convincing these upper-bracket executives without whose approval the time-buyer is powerless to further your cause.

Best Way to Reach Them

To reach executives who make decisions on markets and media — including whether to use the broadcast medium or something else — as well as to reach your time-buyers, account executives and company sales and advertising managers, your message is best carried in the general advertising press . . . and in ADVERTISING AGE, in particular.

Put Your Message on a Live Tower

ADVERTISING AGE is no dummy antenna — but a live tower, properly tuned and loaded to transmit your message to those decision-makers who should hear it, and who can *act* on it. That's why ADVERTISING AGE, with the big circulation where it counts, carries well over twice as much radio and TV promotion as any other general advertising publication— that's why it should carry *your* promotion, as well!

ASCAP MUSIC IS GOOD FOR BUSINESS

In 1953, music will entertain more people,
personalize more sales messages, put
more customers in a buying mood.

The use of music by enterprises of all kinds is increasing rapidly. This year like last, more radio and TV stations will discover more ways in which ASCAP music can help them make greater profits for themselves and their advertisers.

ASCAP's simple licensing system puts the country's 2,500 songwriters and composers to work for business—inexpensively, promptly, efficiently. ASCAP's local offices are on the job to serve users of music—new clients as well as old customers—from Maine to California.

An ASCAP license is the most direct avenue to greater profits.

Music Value is Limitless

Wide Appeal Makes It Top Programming Item

By JOE CSIDA, Vice President and General Manager,
Santly Joy, Oxford, Hawthorne and Trinity Music Firms

WHEN I resigned as editor-in-chief of The Billboard, a number of my good friends in radio and television were nice enough to write and express the hope that my new affiliation would enable me to continue some activity in the broadcasting-televasting industries. I told them I felt certain it would. I hope I will be forgiven the personal approach in this piece, but in truth I can think of no better way to get across my point, which I hope will be of some interest and value to broadcasters, advertisers and agency men.

For one of the most important factors which motivated me in my decision to leave The Billboard and go into the music publishing business was my firm belief that in the years to come music publishing would reach an era of prosperity and stability that would dwarf the very brightest days of its past. And the key to that great, new golden door, in my opinion, lies in three elements: Phonograph records, radio and television.

It has often been said, and in many instances, statistically proved, that the two types of radio programming, which most effectively meet television competition are News and Music.

There is literally no limit to the number of music shows a station may present in any given day; and there is almost an equal lack of limitation on the endless varieties of format it is possible to develop in the presentation of music programs.

Ingenuous program managers and disk jockeys the length and breadth of the land have amply proved the latter point, and yet the surface has not even been scratched. Because of its fundamental and broad appeal, and because it meets the increasing demand in sound broadcasting for the most effective yet inexpensive kind of programming, I think the day will come when the networks will be doing as much record programming as many independent stations have been doing for years.

For certainly, today, the best ideas in music are being produced (and made available to broadcasters) on records. No program director or musical director on any one station or network could pos-

sibly produce the kind of a first rate musical program, which may be put together from the records turned out every week by Columbia's Mitch Miller, RCA Victor's Dave Kapp, Capitol's Alan Livingston, Decca's Jimmy Hilliard and their artist and repertoire staff men. And what these a & r executives of the four major companies occasionally fail to supply is often turned out by their counterparts on any of the smaller labels. And this applies not only to popular music, but to country and western, rhythm and blues, children's music, and indeed to semi-classical and classical music of all kinds.

The reasons for this are obvious. The best writers of all these types of music, and the publishers of same bring daily to the record companies the finest of their works. The record men have at their command the country's outstanding musicians and vocalists. Not all eight of the networks, radio and television, could afford to have under contract all these fine artists. Yet their performances—nay, their very best performances—are available to broadcasters for programming purposes at no cost whatsoever in many cases, and very little cost in others.

What is needed, however, and what accounts for the big difference between just another record show, and a musical program of distinction and high rating potential, is AN IDEA, a dozen ideas, a hundred ideas.

And since I began this essay on a personal note, it may not be amiss if I end it in like manner. I have had long and numerous talks with my new partners, George Joy and his son, Eddie, on the theory and practice of music publishing. And we are in agreement on this: A music publisher's job is to find the best songs available, to encourage established writers and develop new ones; A music publisher's job is to bring these songs to the attention of record men, not just as songs, but with ideas; and a music publisher's job is to help channels through which music is heard (radio and television, notably, of course), find ideas for the most effective presentation of music on the air.

We are, we think, loaded with such ideas, and we hope to be talking to many radio and television men about them.

A. S. C. A. P.

By OTTO A. HARBACH
President

A BLANKET AGREEMENT with The American Society of Composers, Authors and Publishers gives a client the right to use any or all of the hundreds of thousands of songs and other musical works whose public performing rights are registered with the Society. This includes most of the world's important compositions of the past fifty-seven years, plus the present and future works of America's and Europe's best authors and composers.

Therefore, ASCAP becomes a vast clearing house through which creators can do business with users. It relieves both creator and user of all contractual and legal details and all bookkeeping relating to collections and distributions. To make its vast repertory easily available to licensees, ASCAP spends more than two million dollars yearly. Thus the great costs of music clearance that otherwise would accrue to the user are borne by ASCAP, whose members similarly are relieved of the otherwise onerous—in fact, impossible—task of supervising their musical properties.

Like Radio, ASCAP is truly cosmopolitan. Members of the Society hail from every state. Foreign-born Americans from more than forty countries are included in its membership. All speak the international language of music.

ASCAP's activity in music copyright has benefited all creative talent, going far beyond its own membership. Through the years it has built up a great body of legal precedent establishing the integrity of the music performing right. At the same time, ASCAP has become a leader in many movements having for their aim the promotion and development of American musical culture.

I am happy to extend to the vast radio industry and its young partner of the air waves, the amazing television industry, the greetings of ASCAP.

ASCAP maintains headquarters at 575 Madison Ave., New York City, with 25 branches throughout the country. Officers as of Jan. 1, 1953, are:

<i>Otto A. Harbach</i>	<i>President</i>
<i>Frank H. Connor</i>	<i>Vice President</i>
<i>Oscar Hammerstein, II</i>	<i>Vice President</i>
<i>Paul Cunningham</i>	<i>Secretary</i>
<i>Louis Bernstein</i>	<i>Treasurer</i>
<i>A. Walter Kramer</i>	<i>Assistant Secretary</i>
<i>Donald Gray</i>	<i>Assistant Treasurer</i>

The Board of Directors comprises 12 writer- and 12 publisher-members, elected biennially, the writers by writer-members, the publishers by publisher-members, for two-year terms.

ASSOCIATED MUSIC PUBLISHERS, INC.

By CHARLES A. WALL
President and Treasurer

Associated Music Publishers, Inc. is one of the foremost publishers of serious music in the United States. It has an extensive catalog of orchestra, instrumental, chamber, and choral music. In addition, it represents exclusively in the United States many of the principal serious music catalogs of Europe, such as Breitkopf & Haertel, N. Simrock, B. Schott's Soehne, of Germany; Universal Edition and Ludwig Doblinger of Austria; Schott & Co., Ltd. of England; Editions Max Eschig and Enoch & Cie of France; Songs of Spain, Spain; Suvini Zerboni and Casa Musicale Sonzogno of Italy.

AMP also is sole selling agent for BMI and BMI Canada, Ltd. publications. The AMP Board of Directors is as follows:

OFFICERS: Chairman of the Board, Sydney M. Kaye; President and Treasurer, Charles A. Wall; Vice President, Karl Bauer; Vice President, Richard French; Vice President, Earl B. Hall; Secretary, Robert J. Burton; Comptroller, Alexander D. Nicol.

DIRECTORS: Carl Haverlin, President, BMI; William S. Hedges, Vice President, National Broadcasting Co.; Paul W. Morency, WTIC, Hartford, Conn.; J. Harold Ryan, Storer Broadcasting Co.; Charles A. Wall, President, AMP and Treasurer and Vice President in Charge of Finance—BMI; Sydney M. Kaye, Chairman of AMP Board and Vice President, BMI.

Madrid

BROADCAST MUSIC, INC.

By CARL HAVERLIN

President

ONCE again BMI can report an excellent season in the popular music field, licensing more than 50 per cent of the songs heard on "Your Hit Parade" and in excess of 80 per cent of the most popular (juke box) recorded tunes in all classifications. The latter includes Pop, Western, Folk and Rhythm and Blues categories, and, in coin machine operators' polls, BMI licensed songs took all top honors.

During the past season, BMI sponsored ten concerts by the famed Berkshire Quartet at Music Mountain, Fall Village, Connecticut. This "Festival of Contemporary Chamber Music" drew many music lovers and students from far and wide. In New York, BMI sponsored a series of Contemporary Music Concerts at the Museum of Modern Art, conducted by Leopold Stokowski. These concerts were tape recorded and made available for re-broadcast by WNYC and other educational stations throughout the country.

In line with these concerts, BMI continues its campaign for more concert music on the air and over 1,200 stations have given this full cooperation and increased the broadcast of such music by many hours weekly. The Young Composers Radio Awards, administered under the aegis of BMI, musicologists, editors and composers, made its 1952 awards in December and the 1953 contest is now in progress.

Teen-Age Book Parade, a weekly series of reviews mostly of contemporary books by leading writers and newspaper book reviewers is broadcast by more than 1,000 stations. As with other BMI services, no charge is made for these reviews.

In 1952 BMI held 42 Program Clinics in the United States, Canada and one in Puerto Rico, all within a two-week period. This year in association with Broadcast Advertising Bureau there will be 42 Program and Sales Clinics, one day for each, thus saving the broadcaster time and money in not having to arrange two separate trips for himself and staff.

BMI subsidiaries such as Associated Music Publishers and BMI Canada, Ltd., are both flourishing concerns.

OFFICERS OF BMI: Carl Haverlin, President; Sydney M. Kaye, Vice-chairman of the Board, Vice-president and General Counsel; Robert J. Burton, Vice-president in charge of Publisher and Writers Relations, Secretary; Charles A. Wall, Vice-president in charge of Finance; Roy Harlow, Vice-president in charge of Station Service; Glenn Dolberg, Vice-president in charge of Station Relations; Jean Geiringer, Vice-president, Foreign Relations; Charles E. Lawrence, Assistant Treasurer and Assistant Secretary; Alexander D. Nicol, Comptroller; Robert Sour, Assistant Vice-president, Publisher Relations.

DIRECTORS: (elected annually): Justin Miller, Chairman; Sydney M. Kaye, Vice-Chairman; Herbert V. Akerberg, CBS; John Elmet, WCBM; Jos. E. Baudino, Westinghouse Radio Stations, Inc.; Carl Haverlin, BMI; William S. Hedges, NBC; Herbert Hollister, KBOL; Leonard Kapner, WCAE; Paul W. Morency, WTIC; Ray Diaz, A/BC-PT; J. Leonard Reinsch, WSB; J. Harold Ryan, Storer Broadcasting Co., and James E. Wallen, MBS.

SESAC, INC.

By PAUL HEINECKE

President

A YEAR AGO when I wrote a similar report, I held that as long as there were people there would be music lovers. These many months later I delight in the fact that the music lovers appear to outnumber the people. During the past year, SESAC personnel have visited thousands of radio and television stations throughout all the forty-eight states and the provinces of Canada. From the four corners of the broadcasting industry, one thought is repeated again and again: Good music has proved, beyond a shadow of a doubt, that it is the most important program material in broadcasting.

I am proud to head an organization whose repertory serves the radio and television industries so substantially through increased representation of SESAC works in the varied media of phonograph records, transcriptions and live-talent programs. Our publishers' catalogues offer superior musical and dramatic-musical works in all categories by the world's most famous composers. Your SESAC Performance License gives you simple and economical access to this ever-growing repertory of outstanding material.

The SESAC Transcribed Library proves to be more exciting than ever before, because our subscribers are so emphatic in their endorsement and support of our program efforts. In turn, we keep faith by continuing to record and bring to our Library subscriber pre-eminent artists in new and distinctive performances. The year 1952 has abounded with increased SESAC transcription production; 1953 holds even greater promise. The SESAC Script Department, an integral part of the Library, has penned over 1000 individual scripts and continuities. These well-turned shows, blended with music from the SESAC Library, are loaded with commercial potential. The result is top-notch musical programming at low monthly cost. Our sample transcriptions of complete commercial shows, produced with music from the SESAC Library, have proven excellent sales aids. They've been conceived and designed to help the subscribers increase local time sales.

Music lovers are music listeners and they remain the largest audience the world has ever known. It's this same audience that represents a large segment of the country's buying power. As throughout the past twenty-three years, SESAC will continue to meet the most exacting demands of this group and will bring to them and the radio stations who serve them the intimate in musical programming.

Radio-Television Daily's Almanac of Holiday and Special Events

1953

January

- 1: New Year's Day (In all States, Territories, District of Columbia and Possessions). Paul Revere born (1735). Emancipation Proclamation (1863). Blue Network organized (1927).
- 2: Georgia admitted (1778).
- 3: Battle of Princeton (1777). William S. Paley is elected president of CBS (1929).
- 4: Utah admitted (1896).
- 5: Stephen Decatur born (1779). George Washington Carver Died (1943). Week of Prayer, first week in January.
- 6: Carl Sandburg born (1878). New Mexico admitted (1912).
- 7: Millard Fillmore, 13th President born (1800). Electronic system for television, including a dissector tube to scan the image for transmission patented by Philo Taylor Farnsworth (1927).
- 8: Anniversary of the Battle of New Orleans (Louisiana).
- 9: Connecticut ratified the U. S. Constitution (1778). Connecticut admitted (1788).
- 10: Ethan Allen born (1737).
- 11: Alexander Hamilton born (1757).
- 12: John Singer Sargent born (1856).
- 13: Salmon Portland Chase born (1808).
- 14: First Written Constitution adopted at Hartford, Conn. (1639).
- 15: Mathew B. Brady died (1896).
- 17: Benjamin Franklin born (1706). Feast of St. Anthony.
- 18: Daniel Webster born (1782).
- 19: Robert E. Lee's birthday (1807) (Alabama, Arkansas, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia).
- Edgar Allen Poe born (1809).
- 20: Inauguration Day. Begun in 1937. To be observed every fourth year from that date by the 20th Amendment to the Constitution.

Federal Security Bldg., Room 3646, Washington 25, D. C.

Executive 6300, Extension 2897.

OFFICERS

Chairman.....Earl J. McGrath
Secretary-Editor.....Gertrude G. Broderick

FUNCTIONS

The Federal Radio Education Committee was appointed in 1935 by the Federal Communications Commission with the recommendation of that time that the broadcaster, on one hand, and the educator, on the other, combine forces which would: (1) eliminate controversy and misunderstanding between groups of educators and between the industry and educators; (2) promote actual cooperative arrangements between educators and broadcasters on national, regional and local bases. Some two dozen printed publications are described in a free folder entitled, "What the FREC Offers You." Most of them are sold at 25 cents per copy. The monthly FREC Service Bulletin, a four-page publication giving news of current educational radio programs, sources of program material and other information of interest to teachers broadcasters, is available free on request. Other free publications include a monthly list of Selected Programs for Student Listening and a Directory of College Radio Courses.

 Vice-Pres... Arthur B. Church
 Vice-Pres... Raymond Guy
 Vice-Pres... Martin Campbell
 Vice-Pres... O. H. Caldwell
 Vice-Pres... Charles A. Wall
 Secretary... Samuel S. Dean
 Treasurer... James E. Wallen

FUNCTIONS

"To establish a membership organization of persons who by their long years of service in the field of Radio desire to become associated for the purposes of

friendship and education. The Club shall be a central clearing house for the exchange of information and historical data about the Radio industry and shall record in form to be determined facts and data about the history of the Radio industry and its traditions for use by this and future generations. It is felt that this organization with the resultant exchange of information would make a valuable contribution to the public interest."

The purposes as outlined in the constitution are sufficiently broad to enable the Radio Pioneers to undertake almost any task which the Club may desire for the furtherance of the Radio Industry.

Accordingly, 1950 will mark the establishment of a Radio Hall of Fame in which the memories of men and women whose contribution have placed them among the immortals will be perpetuated.

No Puzzler for TV FILM USERS and DISTRIBUTORS

Whether you're an advertising agency, film producer or distributor, station or network, handling 16mm or 35mm film, don't be puzzled when these and similar questions arise:

- Will the film be shipped on time? Are the commercials spliced in properly?*
- Where can we store surplus film? Where can we consign returned film? Who will examine and repair damages? Who will remove out-dated commercials?*

Call Bonded, the world's largest film service organization servicing and shipping over 5,000,000 reels of film yearly for the film and television industries.

Bonded's Television Film Service Division is organized to handle as many film service operations as you require—storage, inspection, shipping, splicing, keeping records and preparing reports and data on all your film—at a nominal fee.

You'll find that Bonded offers the largest film service facilities available anywhere—from storage through screening:

FILM STORAGE—six huge, centrally located warehouses equipped with the latest and best means of protecting film.

PHYSICAL DISTRIBUTION & HANDLING—thoroughly experienced personnel to insure maximum efficiency for both 16mm and 35mm film.

SCREENING—Bonded's *Film Center Theatre* available for day and night 16mm and 35mm screenings.

For additional information, call JUDSON 6-1030.
