Radio, The First Line of Defense

By FREDERICK LANDIS

RADIO did a great job during the recent Chicago fire, a fire which for a while threatened to equal, if not exceed, the conflagration which destroyed that city, back in the seventies.

For hours the flames raged over more than a square mile, borne northward by a wind, able to carry in its arms enough burning fagots to wipe the city off the map.

It had the fury of a demon; it wrapped block after block in the embrace of swift destruction; it leaped across street after street, claiming new conquests for devastation, the brave firemen seeming but pygmies before its awful wrath.

Masterpiece Painted by Science

And all this time, a gallant band of radio volunteers remained on the roof of the telephone exchange building, in the very heart of the flaming region. There those volunteers stayed to do their duty, to direct the fight against the ever growing furnace, and to TELL THE LISTENING WORLD HOW THE BATTLE WAS GOING.

They painted a never-to-be-forgotten picture, those volunteers at the microphone, pausing now and then to place damp cloths upon their faces when the scorching wind blew over them or some great fire-tinted billows of smoke came to suffocate them.

But never once did the work of broadcasting stop!

Near at hand, the flames shot two hundred feet into the air above buildings, soon melted into ruins, but amid the horror of it, *radio stood its ground and did its work.*

It was a description which filled the far flung audience with dread and all over this land flashed the fear that Chicago might perish, and then suddenly the broadcasters turned from descriptive narrative to relay the fire marshal's command, **A COMMAND SPOKEN WITH ALL THE AUTHORITY OF A GENERAL ON THE FIELD OF BATTLE.**

Now it was a call for assistance, shot through the blinding chaos, next it was a call to the fighters to direct their efforts against a newly discovered peril, and then it was some other direction to the gallant men out there somewhere giving all they had to save their city.

In brief intervals between such calls to duty, the broadcasters returned to the lighter task of keeping the outside world informed as to the stage of the struggle, only to have such recitals abruptly ended in order that a warning might be sent to thousands, standing in a dangerous area, or that *the Red Cross might be told where to take its injured.*

With the discipline of seasoned veterans, those at the microphone worked on and on.

A New Field Marshal

This post of the American Legion was ordered to assemble at one place, and that regiment of soldiers was commanded to stand by for future orders. Boy Scouts were told where to go and what to do—and the little fellows did it. Then the word was flashed that so many nurses had volunteered for service, and rescue parties were told where to take their charges.

Through the instrumentality of radio, it was possible amid the confusion and the danger to maintain a well ordered procedure.

Hospitals announced that they were ready for service; firemen off duty were summoned from all parts of the city; homes were thrown open for the accommodation of families,

driven from their own houses—and all this was done without a moment's delay.

On the Flank of Catastrophe

Without radio, there would have been helplessness and endless confusion. No intelligent program of relief would have marched step by step alongside the catastrophe.

And through fire and smoke, radio flashed forth its messages as perfectly as it sends forth the silver notes of opera on peaceful, star-lit nights.

The grim advance of the red destroyer, inch by inch, was described and *those in the pathway* of what seemed certain destruction *were told what to do.* Next the people of Chicago were commanded to stop their use of water, in order that the pressure might not be lowered below the point of efficiency.

Then, in the little time before he would again be summoned to duty, the broadcaster would announce: "The walls of the stock yards bank are now falling—buildings in the pathway of the flames are being dynamited."

NEXT A LITTLE CHILD *was brought to the microphone* to give his name and to tell his story of escape, after which he **WAS RESTORED TO HIS FOLKS.**

In his turn, came the head of the public health service to broadcast a call for plumbers to inspect pipes and drains in the ravaged area and to warn those living in the neighborhood to boil their water to guard against an epidemic.

These and many more messages were broadcast in the effort to gather up the many threads of the emergency and knit them into public duty and public welfare.

For Every Great Crisis

The great service performed on that occasion brought home to millions of listeners, far and near, a realization of the fact that in every crisis which may face our civilization, radio will stand in **OUR FIRST LINE OF DEFENSE.**

Indeed, as one listened to its thrilling voice on that day and night when Chicago's fate hung in the balance, it seemed as if some dread invader had marched with ruthless legions upon the city unaware, and that this great instrumentality of communication was striving to save it.

There was enough of horror in the holocaust to bring home to those who listened a realization of the fact that if this land were at war, radio would be its sentinel—**NOT A SENTINEL MARCHING UP AND DOWN, BUT FLYING ACROSS THE WIDE SKY**—another and a greater Paul Revere.

Until this great disaster revealed radio in this thrilling role, we had thought of it as an entertainer, a minstrel, a comedian, a singer, but when we saw it take its tinsel off, put on its armor and march forth to fight, we hailed it as a hero.

Comrades in Heroism

On that tragic day in the life of Chicago, radio won all the medals given to soldiers for gallantry in action, and those fearless volunteers who stayed up there on the top of the telephone exchange building in the midst of it all and sent forth messages which guided the battle to ultimate victory, are worthy comrades of those operators on sinking ships who have continued to send out SOS signals until the waters have overwhelmed them.

For what it did in the Chicago fire, the country salutes Radio as a warrior—**A WARRIOR WITHOUT FEAR AND WITHOUT REPROACH.**

Phil Baker's Two Loves

Another of the Gripping Series: "THE GREAT LOVES OF RADIO STARS"

By Lew C. Barrison

Phil Baker, as he looked at the time he met the first of his two loves

FOR every star shining on the air, there's a story! Too often it has been written merely as a success story. Your favorite maestro once fiddled for his supper in a cheap cafe. This blues singer made her debut in the Girl's Glee Club of the North Junction high school. That dramatic artist lent her first baby lisps to Mamma and Papa's act in small-time vaudeville. And now look at them!

Yes, do. And you will find their real stories not such as can be told in terms of salary figures and fan mail. You will find instead a human story, a story of struggle, of joy and sorrow, and love . . .

Take Phil Baker, the genial comedian who plays his accordion, patiently reasons with the incomparable Bottle and not so patiently endures the jibes of the phantom stooge, Beetle, every Friday night on the Armour hour. Radio offers few stories more dramatic than that of Phil Baker. He rose from fifty cents a performance to \$5,000 a week as headliner in vaudeville and musical comedy. He married a Follies beauty, was divorced from her. He remarried. These are its facts. But are facts the whole story? What do they reveal of the dreams and hopes of a young man, found answered in the shining eyes of Vivian Vernon?

They were rather special dreams; detached, somehow, from the Phil Baker who in 1921, a handsome, demure-eyed young man in his middle twenties, already had become one of Broadway's most popular entertainers, headliner in Flo Ziegfeld's famous Midnight Frolics on the New Amsterdam roof. There nightly he gave his smartly-clad, sophisticated audiences the magic music of his white-keyed accordion, fed them his laughter-provoking wisecracks, shared with them his vibrant and likeable personality. But there are things a popular entertainer does not share with his audience.

Tomorrow he was leaving the Midnight Frolic to accompany Flo Ziegfeld to Palm Beach. He was looking forward to the change with anticipation and no regret. Appreciative applause is much the same one place as another.

And then somebody was saying: "May I present Miss Vernon?"

As quickly and in as conventional a way as that it happened. Phil saw a young girl—Vivian Vernon was scarcely seventeen at the time—a flawlessly beautiful face under a radiant crown of hair, two soft eyes alight with eagerness, filled with expectation, with question. In their very seeking, Phil found his answer. "An adorable girl!" his own admiring eyes told him. But his heart told him more.

"You are Vivian Vernon!" It was an exclamation rather than a question. He knew well enough who she was. Broadway already was whispering the charm of its newest "Baby Beauty." Eager eyes already had picked her out in the front row of the chorus of "Sally," then launching in the New Amsterdam theater the spectacular success which was to follow it throughout the country, and attach to its name, even today, a sentimental glamour. Eager tongues had already described her as

"different," a mere youngster who, though standing at the very threshold of success and romance, was yet untouched by its promise, a girl unconscious of her own power, grateful for the watchful chaperonage of her mother . . . But even in this first moment of meeting, Phil knew more than that. He knew that his very special dreams were about to be fulfilled.

He made his trip to Palm Beach as planned. But applause, the adoring glances of women, the consciousness of professional success, were no longer nearly enough. Up in New York a far more important quest awaited him. Only a few days later he returned. His courtship, as ardent as it was precipitous, set the theatrical world talking. It proved a choice tidbit for busy tongues. It tempted reapplication of some of Phil's own gags. But Phil cared nothing for these things. He had fulfilled the dreams of his ambition. Now he followed with equal vehemence the dreams dictated by his heart.

Three weeks that courtship lasted, three glorious, hectic weeks, when contracts and new gags and song hits were forgotten, when everything was forgotten but Vivian. Flowers, cozy dinners, midnight parties, intimate strolls, unrecognized, through the streets of New York—then Vivian was his. For him alone was that look of eager anticipation in her eyes. They were married, and sailed for Europe on their honeymoon.

It seemed like a fairy-tale to Phil, a dream of dreams come true, a distant goal attained. The skyrocket ascent to fame and fortune of the so-called East Side "gang," Eddie Cantor, George Jessel, Ben Bernie, Phil Baker, had not yet become tradition. It was still the theater's miracle. And to no one was it more miraculous than to Phil Baker himself. No mere outsider could remember as he did its very stuff and substance.

He could remember, for instance, the thrill of his first public appearance. It was in the old Bowdoin Square theater in Boston. Phil had run away from home, just why he could not tell, except that the nature of his boyish dreams, the special ones combined with the ordinary, seemed to demand some such dramatic gesture. He had shipped on one of the old Joy Line steamers from New York and landed, hungry and broke, in Boston. Boston, and the world untried before his wistful, fifteen-year-old eyes!

But even the magic of unknown places could not stay his hunger. He prowled the streets looking for work. Surely there were dishes he could wash, floors he could sweep! Almost unconsciously his lagging feet took him to the theater. It was amateur night. They told him he could go on. With his great determination drowning the beating of his heart, he faced his first audience, played the piano, sang songs in Italian dialect.

The audience liked him. He was paid fifty cents and sent to Fall River to repeat his performance. He felt that he had already stumbled onto the happy chance that was to shape his career.

But he was to learn that careers are not so easily launched. They paid him one dollar at Fall River. Seventy-five cents of it went for food, fifteen more for a bed. In the morning, the rosy glow of his first success still was upon him, he wandered the streets. One thin dime remained in his pocket. The fall that attends undue pride approached, clad in a policeman's uniform.

"Where you going, son?" asked the policeman. Phil had no act for this audience. "I'm . . . Why, I'm just out for a walk!"

The policeman knew all about such matters. He clamped a hard hand on Phil's shoulder and marched him off to the wood yard reserved in those days for runaway boys. For four days Phil resentfully chopped wood, four days of chopping to work out his transportation back to New York.

Strangely enough, New York looked good to him when he got there. And his own sense of failure was diminished by the joy on his mother's face when he walked in his own door.

But Phil, like all others who follow its elusive light, stuck to his star. If the direct approach to the theater was not open to him, he would try the indirect. He became secretary to Carl Laemmle. He feasted his eyes on Mary and Lottie Pickford and King Baggot and other lights of the old IMP film company. More, his was the task of making out every week Mary Pickford's \$75 salary check.

His evenings he spent at the neighborhood movie house, sitting as close as possible to the front and enviously watching the dark-haired girl who played the piano. One hot night she was taken ill. The picture flickered on without music. Phil, sitting inconspicuously in his front seat, struggled with an idea. His

natural shyness fought with the conviction that here was the opportunity of a lifetime, knocking loudly. Quietly he rose from his seat and took his place on the stool. He knew three tunes. He played them over and over, in varying time and loudness! "Hearts and Flowers" for the love scenes—improvised hullabaloo for Indians on the warpath. It was not very good music. The manager approached, frowning. Phil's fingers grew cold and stiff on the keys.

"Grumph!" said the manager. "So you think you

Vivian Vernon, from a photograph taken when she was one of Ziegfeld's "glorified" and Phil Baker's fiancée

can play my piano?"

Once more disaster threatened.

But the manager continued: "Well, my boy, just keep on playing!"

Phil kept on playing. He played himself into a permanent job. At last, it seemed, he was on the right road.

His ambition now had taken on direction. Vaudeville. What can a mere pianist do in vaudeville? Phil found what he could do. Eventually he was teaming with Eddie Janis, playing accompaniments for Eddie's fiddle. Still he looked ahead. There were any number of pianists with ability and ambition equal to his. Phil abandoned the piano and took up the accordion. He saw the already famous team of Bernie and Klass in action. His ambition became focused. On the basis of a former acquaintance, he obtained an audition with the great Ben Bernie.

That was not an audition to inspire a shy youth with confidence. It took place in a small hotel room early one morning before Ben was up. Phil took his stand at the foot of the bed, strapped on his accordion, and began. "Not bad," said the great Ben. "Fair, in fact. Come back two years from now and show me what you can do."

Faint praise, but not damning to Phil. Phil knew what he wanted by now. He was willing to wait and work for it. In two years almost to the week, he again played for Ben Bernie. He was using by now one of the first of the new

(Continued on Page 38)

Parade of the Stars

RADIO-ACTIVE Americans are invited to sit in the reviewing stand this Summer as the largest parade of talent in the history of sustaining programs marches down the airwaves each Sunday evening, beginning June 3. The Columbia Broadcasting System is marshal.

The formation of the parade has an interesting history, revealed in fact here for the first time:

In radio parlance, summer and slumps are synonymous. Sponsors, believing that the major portion of the great unseen audience is on the lake-shore and the seashore and in the mountains, away from loudspeakers, withdraw their costly talent from the airwaves and send them to the lake-shore, the seashore and the mountains. Radio, therefore, becomes largely a matter of sustaining programs and such commercial features as have been tried and found not wanting.

Now comes the Columbia Broadcasting System with the proposition that the radio audience takes its loudspeakers to the lake-shore, the seashore and the mountains, and that it listens just as avidly in the summer-

Gertrude Niesen, from a recent photograph taken when her affiliation with the biggest sustaining program of the air was announced

time as it does during the cold, winter months when the call of the outdoors is a mere whisper.

Columbia announces that it will keep faith with the summer audience after the more timid sponsors have packed up their lares and penates—and talent—and have gone back into their factories and sales headquarters.

To the insinuation that the audience is less interested in the summer-time, Columbia responds with the most lavish regular sustaining program in the history of radio. Columbia has sent out the hurry call to its built-up talent and has cleared all air for probably the most important hour on its time, viz., Sunday night, 8 p. m. to 9 p. m. EDT.

Beginning June 3, therefore, the radio audience will hear:

"Ladies and gentlemen—the Voice of Columbia . . ."

The gentlemen with the furrowed brows at CBS went into a huddle and said, figuratively to our Mr. X, the average listener:

"If you could hear on one program, all of your favorite artists singing the songs for which each is famous; if on the same program you could hear your favorite conductors presenting your favorite numbers in arrangements for which each is famous; and if you added George Jessel as master of ceremonies, along with a vivid dramatic sketch including outstanding stars of stage and screen, wouldn't that make an ideal summer show for the airwaves?"

Our Mr. X said "yes," and the furrowed brows smoothed.

Columbia, therefore, began pouring the cream of its talent into the new show, the "Voice of Columbia," and here is what will be offered each Sunday night on that important hour:

George Jessel and telephone. (Every Sunday is Mother's Day to Jessel).

Gertrude Niesen, exotic singer of hot

tunes. Sylvia Froos, the personality of song.

Mary Eastman, lyric soprano.

Nick Lucas, the crooning troubadour.

The Beale Street Boys, new quartet from the South.

Fats Waller, pianistic singer and song-writer (at the

organ).

Evan Evans, baritone.

A symphony orchestra of 45 pieces under the batons of such maestros as Freddie Rich, Mark Warnow, Howard Barlow, Johnny Green, John Augustine.

Nick Lucas, the "crooning troubadour", who takes his place in the new star parade

Stars of the stage, outstanding dramatic sketches (details to be revealed a little later, as the show progresses).

As master of ceremonies, Jessel has the task of presenting a musical tapestry woven from the many strands of Columbia's outstanding talent. When George isn't calling his mother on the phone, he has promised to introduce a new comedy song as his contribution to the gala premiere.

Here are the ingredients of the first Voice of Columbia show:

Johnny Green provides the hors-d'ouvres with an orchestral medley featuring "Song of the Vagabonds," "Indian Love Call," "Smoke Gets in Your Eyes," and "Strike Up the Band." Gertrude Niesen will deliver "Carioca" in the manner which drew Walter Winchell's "Okay." Sylvia Froos, the Diminutive, will sing "Dancing in the Moonlight." Fats Waller will emerge with his tropical playing of "St. Louis Blues" on the organ. Evan Evans will offer "The Beat Of My Heart," and Mary Eastman will feature "Zigeuner" from Noel Coward's "Bittersweet."

The musical side of the program is destined to be a tonal kaleidoscope of personalities. In the course of an hour the audience will hear the gay and sophisticated arrangements of Johnny Green, the surging rhythms and flashing colors of Freddie Rich's settings, the rich and glamorous orchestrations of Mark Warnow, the brilliant musicianship and symphonic style of Howard Barlow, and the polished style of Johnny Augustine.

All this will be presented without benefit of commercial sponsorship—strictly sustaining. No commercial plug will interrupt the smoothness of the entertainment. No announcer will plead with you in dulcet tones to buy.

All the Voice of Columbia will ask of you is an interest and a willing ear. And CBS is certain that the quality of its new show is, in itself "the command to listen."

And will the sponsors of the cooler months cock their ears to the echo of your applause? They will—and how! There is a lurking doubt in their collective mind about the claims that portable and automobile radio receiving sets have made year-around listeners out of our vacationists. But they are chary about investing the money which it would cost to substantiate or dissipate their qualms.

This is Columbia's challenge to their judgment.

Short Wave Carnival

THESE rare days in June are bringing to short-wave enthusiasts an especially rich carnival of enjoyment.

Much of this is being rebroadcast also by long wave over the networks. Included are a stratosphere ascent—the Finnish National Orchestra—Byrd's antarctic broadcast—the English Derby—religious ceremonies at England's ancient Canterbury Cathedral—music by the English Royal Marine Band.

Short waves will play an especially important part in the stratosphere attempt, which is scheduled for this month. As the balloonists float over the Middle West, short-wave radio in the gondola will carry their voices from the rim of the earth's aerial envelope to the coast-to-coast networks. George McElrath, NBC operations engineer, is now in Rapid City, S. D., engaged in surveying the site for the ascension of the National Geographic Society—Army Air Corps expedition.

Racing across the countryside as the balloon drifts, NBC's New York and Chicago mobile transmitters will give to America's loudspeakers the "hound's-eye" view of this drama of the deep heavens. These swift-moving "studios" will be located at strategic points designated by McElrath. As the balloon moves in a general southeasterly direction, they will follow along the ground—imitating its wind-blown lateral movements in a determined effort to be on the spot when finally it lands.

In this unique job of trailing a balloon with automobiles, many different broadcasting frequencies will be used. The exact call-letters—either of the transmitter in the gondola, or of those in the studios-on-wheels—are not yet known. However, the mobile transmitters usually are assigned to some WIO—calls.

A striking illustration of the rapidly-growing importance of short-wave to the average listener, is furnished by the special broadcast offered on Monday, June 4, by the British Broadcasting Corporation. Only

part of this, a concert by the Finnish National Orchestra, will be picked up by the American networks. The remainder can be had solely by those listeners possessing short-wave equipment.

This broadcast will come from London—which city the orchestra is now visiting. The program, composed principally of works by Jan Sibelius, famous Finnish composer, will issue direct from Queens Hall, through the facilities of the British Broadcasting Corporation over their station GSB on 31.55 meters. GSB will be on the air from 11 a. m. to 5:30 p. m. CDT. The NBC WEA network will pick up the broadcast from 2:40 to 3 p. m. CDT. The National Orchestra of Finland will be conducted by George Schneevoght, noted Finnish musician who conducted the Los Angeles Philharmonic Orchestra from 1927 to 1929.

On Wednesday, June 6, the Columbia Broadcasting System again will bring to the listeners the Byrd Antarctic program. These weekly features will be sent out over the short-wave station KFZ, which usually is heard either on 24.30 or 31.75 meters. Their test broadcasts can be heard from 6 p. m. to about 10 p. m. CDT. The actual rebroadcast over the networks takes place at 9 p. m. CDT.

Both networks will pick up (Continued on Page 37)

Subscription rates: six months, \$1.25; one year, \$2.00.

Along the Airialto

By Martin Lewis

WHEN the high-powered battery of legal talent prepares its defense of *Eddie Cantor* in the suit brought against him by the magazine "Life," resort will be made to classics three thousand years old. The magazine seeks \$25,000 damages from the the banjo-eyed comedian for alleged theft of material.

The gag story in "Life" from which Cantor is charged with having lifted the material for a complete broadcast, was not original with the magazine, so the defense claims. Therefore, that the magazine cannot justly claim theft, will be the substance of the Cantor defense, it is reasoned.

The comic's attorneys are now at work digging up the original sources of the various lines of wit which "Life" claims he took and used for his own. Although obviously they cannot quote authorities, because they do not wish to tip off their hand, an attache of the Cantor defense staff gave an example of what the researches have revealed:

"There is a comic team on the radio named *Block*

and *Sully*, boys and girls the country over were repeating it after *Block* and *Sully*.

Other lawyers venture the opinion that the suit will be something rare in jurisprudence—a precedent regarding the aphorism that there are only seven original gags, and that on the outcome of this legal action will rest forevermore the right of any publisher to claim title to funny lines.

More Cantor chatter is that he plans to create his own "Rubinoff" for his new series, to start next January. More than likely it will be his Greek comic character, Mr. Parkyakarkas, (Continued on Page 32)

Candid camera photograph of Johnny Green, shown directing his orchestra, which is heard over a WABC-Columbia network Tuesday and Friday evenings

Helene Claire from a photograph taken in her costume for her part in the *Roses and Drums* sketches, heard every Sunday afternoon over a CBS network.

and *Sully*, which has gained widespread popularity because of the use of a line 'Look at him!' During the research into the realm of classic literature, it develops that 'Look at him' originally was used as a bit of comic interlineation in the play 'The Knights,' written by Aristophanes more than 3,000 years ago.

"On page 13 of the accepted translation, appears the following dialogue:

"No, not that, but a bumper of good unmixed wine in honor of the good genius. Perchance we may stumble on a happy thought."

"Nicias, in the play, replies to Demosthenes, who uttered the words above:

"'Look at him! Unmixed wine! Your mind is on drink intent. Can a man strike out a brilliant thought when drunk?'"

Greeks to the Rescue

Cantor's counsel will contend that more than half the humorous lines in the article which "Life" refers to in its suit, can be traced back to the classics, and will submit plays and essays by Greek philosophers and humorists dead and gone these thousands of years to prove that if anybody did any stealing, it was "Life," not Cantor.

Incidentally, *David Freedman*, who writes Cantor's script as well as that of *Block* and *Sully*, who popularized the wise crack of Aristophanes, declares that *Block* and *Sully* used the "Look at him" line before they ever had read a line written by the famous Greek, and that he himself did not know that Aristophanes had written as a comic bit "Look at him" until long after school

Reviewing Radio

By Martin J. Porter

SOME months ago, after a confab with *John Royal*, program chief of the National Broadcasting Company, I ventured the prediction that radio drama would rise out of its doldrums and become a vital factor in broadcasting—for one reason.

Mr. Royal had told me that there was only one way to accomplish a satisfactory materialization of the drama, which for ten years had been allowed to drift more or less in a haphazard manner. That way, said Royal, was to do away with the majority of studio-reared casts, and to call on the stage and the screen for real dyed-in-the-wool actors who wouldn't need scripts, and who knew what the drama was all about. I hastened to tell the radio audience, through the *RADIO GUIDE*, that Royal was prepared to adopt these methods.

Now, suddenly, radio drama has become a living thing, while yet tabloidish with regards to the time allotted to it. I doubt if this one defect will ever be remedied until sponsors are willing to throw in for full-hour dramas—and even then they will need to be abridged, in comparison to drama on the stage and screen.

However, it is now time to say that the drama has grown up, and if you doubt this, begin counting the stage and screen names holding forth in plays, playlets, and mostly in scenes from plays that are already deeprooted in the public memory. No less than forty-two famous actors and actresses have come to the networks since April 1, including *Elsie Ferguson*, *Helen Menken*, *Leslie Howard*, *Walter Huston* and others of equal prestige and theatrical rank. It may not be realized at once, but this flood of able talent to the microphone marks one of the most vital and commendable stages of progress in radio history.

The *Chase and Sanborn Hour* is regarding its plans for the autumn with the utmost care. The agency has lost Cantor to another network, which is slated to take him on for a sponsor, *Pebeco*, in February; and according to contract Cantor still has eight weeks to go in the autumn, with the *Rubinoff* session. Wheth-

er he will be required to do this, now becomes problematical. If he wishes to, there is nothing to stop him; but if he does not wish to, there is reason to believe that the coffee people will not insist. Their plan at the moment, apparently, is to put *Joe Penner* on the coffee show and keep him there, possibly with a mild twist in his routine. The agency figures Penner without a peer as a box-office draw.

Anent this hour, I think that perhaps a quick critique of the routine of *Jimmy Durante*, as published by *Aaron Stein*, a New York radio scribe, who doesn't care particularly for Durante's style, rates repetition as a highlight of the week. Says Mr. Stein, in his fast summing up:

"I have listened thrice to Mr. Durante, and am rapidly becoming convinced that even his nose is not as big as advertised."

IT WASN'T long ago that I was overcome by sentiment sufficiently to wish for a return of a number of old-timers to the microphone. In a list which you may have read, I included *Brad Browne* and *Al Llewellyn*, two of radio's earliest comics and playboys. Browne, if your memory is good, you will recall as the lad who created the *Nit Wit Hour*, and who played the Major to *Al Llewellyn's* Senator in the first of the *Robert Burns* series.

The program listings will show you that the lads have, indeed, come back, and are now on the *Tastyest* bill, where *East and Dumke* pulled one of the most successful flops in their career.

What actual motivation lies behind the organization of twenty band-leaders, last week, into a protective group, I do not know, but I hear that it will result in better radio music, and also in great relief to the musical unemployment situation. The score of batoneers organized to dis-

and to place it in the hands of *Abe Lyman*, who was elected president. I understand that their first ambition is to bring about the enlargement of most dance bands of the (Continued on Page 37)

Training Max Baer with Radio

By Ancil Hoffman
(Max Baer's Manager)

Recent photograph of the Challenger, showing Baer as he occupies himself part of the time when he's not studying his script or "doing his stuff" over the air

SINCE Max Baer started his three-a-week, coast-to-coast broadcasts, I have been receiving plenty of irate letters and telegrams from ardent California fight fans—supporters of the West Coast heavyweight.

"What's the idea of letting Baer take a regular commercial program while he's in training?" they ask. "What kind of a manager are you, anyway? Don't you know that he's going to fight a world's heavyweight champion for the title? Radio will take his mind off his big job."

To tell the truth, that's just the way I did feel when Baer first came to me and told me he had been invited to appear before the microphone.

"Go ahead, Max," I said. "A radio interview won't do you any harm. Tell me what night you are to be on so I can tune in."

"Interview, hell!" said Max. "It's a regular commercial show, three-a-week over a coast-to-coast NBC network. And they offer important money for it, too."

"What has the money got to do with it?" I asked him. "You're a fighter, not a radio star, and a fighter has no business in radio while he's in training, especially for a championship fight. And, by the way, what's the matter with the money involved in the Carnera match? Isn't that important?"

No fighter had ever made a regular radio program a part of his training schedule before. As I saw it then, Baer would have plenty to do in his training camp getting ready to meet da Preem. When I argued against a regular radio program for my handsome California fighter, I was thinking of what it might do to him. Radio is a big job in itself. I thought the responsibility of a regular program would take his mind off fighting.

Now I have changed my mind about radio training. Actually, it has taken Baer's mind away from the ring—but I'm glad of it. Radio has removed the one great hazard that every boxer faces before a crucial fight—the mental slump. Training a challenger on radio for a heavyweight title match is a new experiment in the history of the ring and, so far as Baer is

concerned, it has been highly successful. I'll tell you why it has been so successful in the case of Max Baer.

Physical training experts—and Mike Cantwell, Baer's trainer, is one—insist that out of every 24 hours a fighter should have nine hours of good sleep and seven hours of leisure. The rest of the time he can do roadwork; he can box with his several sparring partners, punch the bag and generally condition himself. But seven of his waking hours must be devoted to pursuits as far removed from thoughts of flying leather as possible. Baer's radio programs are giving him such a major pursuit.

As I said before, at first I didn't like the idea of Baer devoting a couple of hours a day, three days a week, to the work that goes with a regular radio commercial program. But after he had been on the air a week I began to notice that he was keeping up his spirits all the time, and never lapsing into those dangerous thoughtful moods that tear a fighter's mental condition apart in the days before an important match. It didn't take me long to admit I was wrong about radio. I reserved my opinion and I say now that radio is a pretty good trainer, after all.

Naturally, I know the routine of Baer's life in the training camp on the estate of P. Hal Sims, the bridge expert, at Asbury Park, N. J. So let me tell you about the fighter's day since radio entered the camp.

Baer starts his day by rising at 7 a. m. There is no grabbing an extra half-hour of sleep after 7 o'clock, either. When the alarm gives the signal, Baer pounces out of bed just as the lads in the army camps used to do when the bugle snorted:

"I can't get 'em up! I can't get 'em up!"

Baer pops into some flannel trousers and a couple of sweat shirts and goes prancing out onto the gravel driveway of the estate.

With several followers and the eagle-eyed Mike Cantwell at his heels, the fighter is soon out of the estate and on the road.

While the clock is ticking off an hour, Baer is grinding off an even dozen miles of Jersey highway, dog-trotting, running and skipping.

At the half-hour mark, the camp cavalcade turns back, and by 8:15 o'clock Baer is sprawled on the gym training table, getting his first rub-down of the day at the hands of Cantwell after that, until 8:45, well.

He takes things easy when the chow-horn blows the signal that breakfast is ready.

Breakfast is a rowdy meal at the Baer camp.

Max is full of gags and wise cracks, and most of them are aimed at his beloved trainer. His meal takes a half-hour. After he has eaten, he rests in a canvas-backed porch chair for 45 minutes.

Then when 10 o'clock rings on the mornings of his broadcasts, three times a week, the members of the cast of his radio program may be admitted to the veranda or they may stay down at the hotel. At any rate, Baer gets a copy of the night's script and is busy on it for an hour and a half.

Don't get the idea that Baer doesn't know all the tricks of good acting on the radio.

If you were to examine his script after he gets through with it, you'd find under-scoring marks in important places in the dialogue, just as you'd see them on the continuity in the hands of G. Underhill Macy, a veteran radio actor who plays the part of Baer's pal.

Baer reads the script over several times to himself. Then he starts working on it.

When he finishes it at noon, he has a good part of it memorized, and a very good idea of where the accents are supposed to fall when he delivers it at night on the air.

At noon, the fighter eats a light lunch, then rests until 1:45 o'clock. At 2 o'clock sharp the big workout of the day begins. He steps into the barn and "fights" the canvas socking bags for half an hour. After that he is ready for the ring.

Baer boxes several opponents in the course of a day. A light, fast lad will pace him.

Then a big, hard-hitting fellow comes into the ring. He frequently feels the weight of a Baer wallop; in fact, some of the big boys have been expressing the thought that they can think of much softer jobs.

After disposing of the big lad, Baer goes a few rounds with an even bigger, though slower, partner. Frequently, this man is his "little brother" who weighs 250 pounds and who is almost the size of Carnera.

By the time Max is through with the sparring partners, it is 4:30 p.m., the end of Baer's fighting day.

This is the danger hour at fighters' training camps.

Dempsey used to sulk.

Gene Tunney would read fitfully or drive his car here and there aimlessly.

Baer, however, takes a nice rest, and at five he is ready for his supper.

At 6 o'clock he is whisked in a car to the hotel in Asbury Park where the temporary studios are located. With his marked script in his hand, the heavyweight challenger joins the rest of the cast. Joking and grinning, he talks with the other radio players until Capt. Gene Grombach, producer of the show, taps for order.

Baer takes to direction unusually well, as the movie megaphones found out during the filming of "The Prizefighter and the Lady." He has amazed Grombach and Barry Ryan, Luther Wood and Myron Kirk of the agency, with his histrionic ability.

With other members of the cast, Baer rehearses very seriously.

Gone are all thoughts of the training camp and the ring. He is a serious actor, playing the part of Al Harper, the hero in the radio comedy play, "Taxi."

In fact, Baer makes fewer mistakes than some of the old-timers.

The signal to stand by comes at 7:43. The show is almost ready. Baer is almost ready. Baer waits in front of the mike as Graham McNamee raises his hand. Graham is ready to speak when the red light flashes on. Baer squares his shoulders and moistens his lips.

McNamee says, "Good evening, ladies and gentlemen . . ."

The broadcast is on the air over an

Max Baer's brother and chief sparring partner, whose build fittingly qualifies him to represent the Champion, Carnera, in the trial bouts preparatory to Max's challenge fight

Max Baer as his motion-picture audiences know him, and as he appears when he broadcasts

NBC coast to coast network.

Just a few more minutes and Baer will say:

"Boy, I could box six rounds right now."

Baer's radio work is not finished for the day, even after the program ends. He remains in the studio for another hour, going over the next script. He's always a day ahead of his Monday, Wednesday and Friday broadcasts.

Radio is a lot of fun to Baer. But he's in earnest about his coming fight with Carnera for the world's championship in the Madison Square Garden Outdoor Bowl, on Long Island, June 14. After he leaves the studio he drives back to the training camp and is in bed at 10 o'clock, ready for the full nine hours of sleep.

His mind has been off the ring since six o'clock. He has had mental relaxation and has not been sulkily reviewing the events of the training day.

Baer is mentally alert, and radio is responsible.

His programs and the work attached to them take his mind off himself. The manager of any fighter will tell you that is one of the most important phases of a fighter's training.

And that is one of the things I would like to make clear to Baer's California supporters and others who have been criticizing his appearances on the radio because they feel it may hurt his chances of victory over Carnera and his possibility of winning the world's championship. To them, I want to say:

"Baer will be in the best of condition on June 14 when he steps into the ring with Carnera, and I give radio a great deal of credit for keeping him contented while he's in training.

"It is hard to predict how any departure from routine will be adopted by others. But it is reasonable to believe that the innovation will be tried by those who are aware of these low spots during the training period."

Under the Bugaboo

Jack Benny (left) NBC-WEAF Fridays—"Holeless hosiery"

Graham McNamee (right) NBC-WEAF Tuesdays—"a slip of the tongue"

ARTISTS, actors, aviators and ball players usually are conceded the palm when it comes to superstitions. The theater has a legion of them that must be respected. Radio, being an offspring of the stage, has inherited most of these traditional bugaboos, and in addition carries the burden of the personal superstitions of its own individual stars.

Superstitions very nearly have broken up a hundred shows, and they have become so bothersome that one dramatic director, Charley Martin, has decided to establish a school for radio actors to cure the situation. Candidates must have no experience or association with the stage, screen, motion pictures or concert. He wants none who has had a chance to observe the traditions, inhibitions or superstitions that ride the shoulders of the craft, as does the Old Man of The Sea.

The immortal Milton describes superstition as "the greatest burden in the world," and the wisdom of his words is attested by every studio functionary or dramatic director who has to handle temperamental artists. Black cats, whistling page boys and the like, are the bane of their existence.

The story is told of how superstition played a great part in inducing John McCormack, the great Irish tenor, to consider radio in the early days. He was diplomatically approached on the subject. Radio did not enjoy the attention of great artists in those days, and McCormack was not enthusiastic.

Now everyone knows that a wagon load of empty barrels is considered an omen of good luck, and if drawn by a team of white mules it's equivalent to a whole teamload of rabbits' left hind feet. Miraculously, the morning before the contracts were taken to McCormack, a wagon load of empty barrels drawn by two white mules was passing his home just as he came out. Strange-

Stars of Radio, Screen and Stage Dominated by Strange Personal Superstitions

ly enough, he ran into that outfit at least a half dozen times within the next few days. McCormack went on the air.

Over at NBC a special guard always is thrown around Jack Pearl—"The Baron"—before he goes on the air, and while he is traveling up and down the elevators preparatory to a broadcast. This is to prevent anybody from touching him. Regardless of consequences and no matter how inopportune the moment may be, he will not continue with anything he is doing until he has returned the touch. This little superstition has brought NBC production men no end of grey hairs. "The Baron" will stop in the middle of a program and

Connie Boswell CBS-WABC Tuesdays and Thursdays—"a braided lock of hair"

chase somebody across the studio if they inadvertently or affectionately happen to touch him.

Jack Benny carries around an extra pair of socks with him. He will not go into a broadcast or a show with a hole in his sock. This checks back to his early days in vaudeville when he lost out on a sweet contract because he had a large hole in the heel of his hosiery.

Bing Crosby never enters a deal, signs a contract or talks about important business, unless he is wearing his hat. After his contract is signed, he has no objection to removing the top-piece; but he is fearful that if he took it off, ill fortune would follow in the enterprise.

Ed Wynn (right) famed "Fire Chief"—"my crucifix"

Jack Pearl (left) NBC-WEAF Wednesdays—"don't touch me"

It is said that he proposed to his wife with his hat on, and it wasn't in a street car, either.

A crucifix is worn by Ed Wynn at all times. It is a fetish that he wouldn't part with for any amount of money. It was given to him by an old lady the day before he made his first successful stage appearance.

Roxy has a lucky coin that he always surreptitiously fingers when discussing a big deal. He either palms it or jingles it in his pocket.

One of those who carry a coin good luck piece is John Charles Thomas, famous star of the Metropolitan Opera, who would never be found without the silver quarter-dollar that he tossed in making his decision between becoming a singer or an engineer. He uses the coin when in a quandary as to the advisability of any important decision.

Color schemes also have a decided effect upon some stars. Annette Hanshaw always wears something with blue in it. Green, orange and tan are taboo so far as the little singing lady is concerned, and members of her supporting cast have to be watched very closely that they wear none of the offending colors.

Freddie Rich never will conduct Tosti's "Goodbye" or "The Rosary". They are too closely identified with unfortunate incidents in his life.—Once, when "Goodbye" was scheduled for one of his sustaining broadcasts, he turned his baton over to his first violinist and left the studio until the selection had been played.

The "Meistersinger" has a similar effect on Howard Barlow, who nearly lost his life in the old Aeolian Hall immediately after conducting this Wagnerian masterpiece.

A close examination of Ferde Grofe's face leads one to believe that he had spent most of his time dueling, perhaps at Heidelberg. Ferde is one conductor who doesn't object to a barber (Continued on Page 32)

Off the Brass Standard

By Andre Kostelanetz

THE public's taste for music has turned from loud, brassy jazz to soothing, melodious songs, presented in interesting and unusual arrangements. Further, I predict that it will progress to a greater understanding and a keener desire for more beautiful and interesting things.

If anyone ever undertakes the writing of a history of music in radio, the Biblical quotation, "The old order changeth and yieldeth to the new," might well be used as its title. For the transition of radio from the days of its childhood, when it was influenced strongly by vaudeville and the theater, to its present age, where it is a separate and distinct medium of entertainment, has been accompanied by many changes in the style of playing and of singing popular American music.

There are several reasons advanced for the evolution of radio music—as written, as played and as sung. Perhaps this may seem far-fetched at first, but I am a firm believer that the economic, political and social conditions of the nation and its inhabitants has a great influence on music. The trend of things today seems to call for the playing of music of the soothing, melodious type. The demand for this kind of music is testimony to the fact that Americans are successfully weathering the years of depression and hardship, and are settling down to a normal, peaceful and happier existence.

Another reason for the change in the medium of musical expression is the rise and fall of orchestra leaders and their individual styles, with everybody con-

sciously or subconsciously imitating—or, to put it mildly, absorbing—his methods.

A leader, to be successful over a long period, must keep his ear close to the pulse of American life of the day; he must even anticipate the pulse beats of the nation.

Another reason for the change in radio music is that the average radio listener has become discriminating and knows exactly what he wants in the way of music. This discernment has been brought about by radio. With so many big programs from which to choose, the listener is going to select the one that sounds most natural in the surroundings of his home. The program with the widest appeal to the listener today, therefore, is one which creates a feeling of repose and does not jar.

Through years of constant listening to radio music, the listener has become educated to the different types of music, and now can sense when unusual arrangements are being presented. He no longer is satisfied with stock arrangements.

It always has been my belief that America's so-called popular songs, loved by the masses, musically are as important and as richly satisfying as are the best of the European classics. This music needs only bril-

liant instrumentation, finely trained voices and intelligent arrangement to demonstrate that it is comparable with many of the foreign classics.

In order for us to present this music in the manner it deserves on our programs, we must prepare approximately 1300 pages of manuscript for each half-hour show. Since there are three shows a week, Mondays, Wednesdays and Saturdays, that means the preparation of nearly 4000 pages of specially-arranged manuscript every seven days for our CBS-WABC broadcasts.

I believe that the radio listener, either consciously or unconsciously, realizes that he is hearing new and different arrangements on these shows, and that he will expect them always in the future.

If the tastes of the public continue to develop in proportion to the way they have in the last five years, with regard to the understanding and appreciation of music, the purveyors of music will certainly be kept on the go to meet the public demand for music more beautiful and interesting.

In giving reasons for the gradual change in taste to the present point where the public is turning a deaf ear to loud jazz and demanding the soothing, quiet type of music, the names of several orchestra leaders should be mentioned.

First on the list, in my opinion, should be the name of Paul Whiteman, who probably showed the way to his contemporary conductors. His work is a constant source of admiration, (Continued on Page 32)

Secrets of the Face Reveal YOUR CHARACTER

By "The Doctor"

Character, as revealed in the face, is authoritatively discussed every week in **Radio Guide** by that eminent exponent of character analysis known as "The Doctor"

Vera Van, CBS star, whose character as revealed in this photograph, is analyzed by "The Doctor"

care of her throat and vocal organs with the future in mind. Unfortunately, the wide photographic smile eliminates half of Miss Van's facial characteristics for the

THE face of Miss Vera Van is one of the best examples illustrating the statement that no two persons are alike vocationally, and that, being individuals, they cannot be analyzed properly with a general picture chart. One must read all the faculties before summarizing.

This lady is "open" of face and apt to talk a bit too much; yet another facial index, in the cheeks, announces that she can be highly secretive. Both are correct, and each one of these faculties holds the other in check.

She is buoyant, playful and enthusiastic; yet continually cautious and alert to both mental and physical danger. Miss Van has a large sense of utility, which means that she would be a good advisor in anything basically useful.

Sometimes she is a little inclined to take the reins and "boss the show", but she is quite capable of doing it efficiently. She is a natural musician, yet not greatly interested in the classics. We know this because the antrums of her cheek are large.

The resonance chambers at the back of her throat are very large. This would lead me to say that her voice is pleasantly throaty and not nasal.

In the wings of Miss Van's nose I find spontaneous judgment, while the language index in the temple region tells of large musical and vocabulary capacities. These qualities, coupled with those others already given, would make her a very natural executive secretary. However, she would have great difficulty in keeping quiet while her "chief" was talking to her or to someone else. Furthermore, she could easily become an excellent hostess, and she has marked ability for bookkeeping. However, she is not analytical enough for accounting. She could make a good office interviewer, and could placate the nervous visitor.

Yes, Vera Van has these vocational aptitudes, but I hope for her sake that she doesn't attempt to substitute their attendant professions for her present one. Why? Because she hasn't the necessary patience for heavy routine work. This need cause her no worry, however, for she will retain her ability as an entertainer late in life. Miss Van's wide eyes are something of an indication of content congeniality. She will seldom speak sharply to anyone. She is considerate in effort—that is, considerate of those with whom she works. She has high sociability: this we see in the corners of her mouth.

Vera Van is very fond of any radical change, and departure from the old ideas, and is apt to welcome fads and fancies of the moment. If she had more of a disposition to study and take advice, she could realize greater achievements than those for which her natural disposition allows her to struggle.

The long chin indicates a high endurance; but I would like to suggest that its owner exercise uncommon

analyst. This is true of most pictures, and the character reader's delight—a clear, unretouched photograph in which the subject shows a serious expression—is rare indeed.

Vera Van does not take kicks and knocks too seriously. She is an optimist and a real trouper who will play the game. Her imagination is not fully developed yet. Indications are that she will develop more idealism, romanticism and imaginative interest in beautiful objects than she now possesses. In fact, she may even become quarrelsome and overparticular about her settings and surroundings, especially in the matter of comfort. She likes luxury, particularly in scents, cosmetics and table delicacies.—And that is the character reader's story of Vera Van's unflinching facial indications.

Hits of Week

A COMPARATIVELY new song hit, *Night on the Desert*, sprang into popularity leadership over the airwaves during the past week, having been played more times than any other hit number.

A previous week's favorite, however, the smashing *Beat of My Heart*, continued to hold sway in the estimation of bandleaders, topping all others, including *Night on the Desert*, as their selection among the week's outstanding numbers.

RADIO GUIDE's weekly tabulation reveals the following figures:

SONG HITS PLAYED ON THE AIR		BANDLEADERS' PICK OF OUTSTANDING HITS	
Song	Times	Song	Points
Night on the Desert	27	Beat of My Heart	25
My Shawl	26	Love Thy Neighbor	23
Beat of My Heart	25	Night on the Desert	22
Had My Moments	22	My Shawl	22
Love Thy Neighbor	22	Cocktails for Two	20
Cocktails for Two	21	Had My Moments	20
Play to Me, Gypsy	21	Riptide	17
Reminds Me of You	20	Play to Me, Gypsy	15
True	19	True	14
Riptide	18	Reminds Me of You	10

Leon Belasco: I'll String Along With You; Easy Come Easy Go; Love Me; Little Dutch Mill; My Shawl.

Don Bestor: Cocktails for Two; A Thousand Good-nights; Ill Wind; Old Water Mill.

Reggie Childs: Like a Story in a Magazine; Love Thy Neighbor; Cocktails for Two; Riptide.

Charlie Davis: Riptide; She Reminds Me of You; Love Go Wrong; Night on the Desert; My Shawl.

Jack Denny: Easy Come, Easy Go; Boulevard of Broken Dreams; Smoke Gets in Your Eyes; Play to Me, Gypsy.

Eddie Duchin: My Shawl; A Thousand Good Nights; May I?; We're Not Dressing.

George Hall: Night on the Desert; Cocktails for Two; Moon Country; May I?; Hold My Hand.

Isbam Jones: Night on the Desert; May I?; Play to Me, Gypsy; I'll String Along With You; True.

Will Osborne: Love Thy Neighbor; Little Man, Busy Day; I Ain't Lazy; True; My Shawl.

Rudy Vallee: You're Devastating; Cocktails for Two; Play to Me, Gypsy; My Shawl.

Fred Waring: Moon Country; My Shawl; Beat of My Heart; Good Night, Lovely Lady; Had My Moments.

Mark Warnow: Beat of My Heart; Play to Me, Gypsy; Night on the Desert; Had My Moments; Riptide.

Theme Songs that "Click"

GLEN GRAY'S Casa Loma orchestra, heard Tuesday and Thursday nights over the Columbia Network, set a high standard of quality for themselves when they adopted "Smoke Rings" for their theme. Crowds that danced to the music of Casa Loma last summer in Glen Island Casino in Westchester (N. Y.) beside the moonlit waters of Long Island Sound, requested the number again and again. It was the perfect tune for a perfect setting. Just as Glen Island is a blend of music, moonlight and velvety waters, "Smoke Rings" is a blend of tonal suggestion for a rhythmic glide.

Those of you who are familiar with the melody of the Casa Lomas' theme song will, no doubt, be interested in the lyrics. Here are the words to the portion of the song heard most frequently.

Where do they go,
The smoke rings I blow each night?
What do they do,
Those circles of blue and white?
Oh! Why do they seem
To picture a dream above?
Then why do they fade,
My phantom parade of love?

"Smoke Rings" was written by Gene Gifford, banjo player, arranger and stockholder in the Casa Loma organization.

When the band went to Glen Island and inherited a CBS wire from Ozzie Nelson, Casa Loma needed a theme and "Smoke Rings" was elected.

At the time that the advertising agency handling the present account was searching for an orchestra for the Camel Caravan, the Casa Loma band was called to an audition. Naturally, "Smoke Rings" started the audition show.

The orchestra, smooth and satisfying, was accepted as

a "natural" for a cigaret program.

And the theme song was exactly what was wanted. Glen Gray's band was given the contract. Perhaps it was the song that sold the sponsor.

It is a popular number. It was popular enough before Glen Gray and his Casa Loma orchestra went on the air. But that was only the beginning. It has increased in popularity since its regular radio appearances.

And there is little doubt that crowds at Glen Island this Summer will continue to request its presentation again and again.

"Smoke Rings" is Copyright 1933, by Lawrence Music Publishers, Inc. Reproduced by special permission of the copyright owners.

Help Radio Guide to Serve You

RADIO GUIDE can advance only in the degree in which it serves its readers. That service, therefore, becomes the yardstick by which the success of the publication may be measured.

This, then is YOUR magazine. It is made for you and by you. The pride RADIO GUIDE finds in its fast growing family of readers is merely the reflection of the satisfaction those readers evince.

Each step forward is a stride toward greater service for you. It is your duty to yourself and to your fellow readers to help the publisher with indications of your wishes. Only with your help can the success of RADIO GUIDE be expanded and its service to you thus increased.

You are not only invited, but urged, to offer constructive criticisms for the betterment of this magazine. Your help is solicited. Address your communications to Editor, RADIO GUIDE, 551 Fifth Ave., New York, N. Y.

The OPEN DOOR to BEAUTY

By V. E. Meadows

V. E. Meadows, Director of the Beauty Guild of the Air, in this series of articles offers the essence of his years of experience in beautifying stars of radio, the screen and the stage.

LAST week we discussed general conditions of the face to determine what to do in individual cases. Now we're going to discuss proper methods of cleansing for the various types of skin.

First of all, your face must be cleansed every night before you retire. It should also be cleansed between make-ups; that is, if you change from one make-up to another.

For oily skin with large pores and blackheads, cleanse the face with a liquid cleansing cream. As soon as this is applied, remove with a soft clean cloth or tissue. Wash your face then with a good soap and lukewarm water.

The fabled fountain of youth is in your wash basin.

Don't be afraid of good, clean warm water. However, be sure that you remove thoroughly all soap residue from the skin. Above all, avoid the use of harsh, caustic soaps. Warm water has a stimulating effect, and it will do much to keep the skin clear and transparent. Further it will exhilarate the dissipation of underskin discolorations and blotches to the capillary congestion.

Mix a solution of one quart of distilled water and one pound of Epsom Salts. Pour the solution in a metal container and place on the stove. While heating, apply this solution with a piece of cotton, patting over the face for five or ten minutes.

Do not allow the salts to dry on the face. It does little good when it dries. Rinse the face thoroughly and apply the liquid cleanser liberally. Allow this to remain on the face over night.

For a dry or normal skin with or without large pores and blackheads, cleanse your face with a liquid cleanser. Remove the cleanser with a soft clean cloth or tissue after applying it.

Epsom salts can be bought very cheaply in bulk as Magnesium Sulphate.

The solution can be used rather generously without ill effects. Its penetration power will remove oil from the skin that is not touched by the soap and water applications. It, too, has a decidedly stimulating effect on the capillary system, and by quickening the blood flow it assists in cleaning up the complexion.

Do not expect, however, that one or two applications will clear up the skin that has been abused by years of unprotected powdering and rouging. In the course of time it will draw to the surface dirt and a collection of powder that has impregnated the skin for

Irene Rich (right) applies make-up to Sara Anne McCabe, using the Meadows method. Miss Rich is heard over an NBC-WJZ network every Wednesday evening

years without your being conscious of its presence. The average skin can be cleaned up in two or three months. However, I have known cases that take as long as a

year. Don't expect too much in too short a time. The abuses of years cannot be overcome by one application of any corrective measure.

The stimulation of the skin does not always result in an immediate healthy gloss. Quite the contrary, it will usually force to the surface a mass of small pimples and blackheads in a seemingly endless succession. This waste matter has been laying under the surface of the skin, and if a good healthy complexion is the eventual aim, as it must be with all women, this impregnation must be removed.

Wash the face with a good soap and lukewarm water.

If you will clean your face about one-half hour before you retire, you will find that the cream has been absorbed by the pores of the skin, so that it will not come off on the bedclothes. In the morning, soap and lukewarm water are necessary to wash your face.

If you desire to apply ice or cold water to the face, the morning is the time to do so, after you have washed. However, if ice is used, take precautions to cover the ice with a cloth so that the skin does not chill and the surface blood vessels do not break, leaving purplish lines in the face. These cannot be remedied.

In drying the face, do not attempt to stimulate the blood flow by the use of a rough towel or hard rubbing. You are very apt to abrade the skin and break the sensitive blood vessels which are very near the surface. The skin should not be subject to harsh treatment of any type. Sudden temperature changes are extremely bad, and the application of ice to the unprotected skin is not advised.

Next week we will discuss oily skin and how to apply a protective make-up.

Wave Marks

Curtain. Sympathy to Dumke, of East and Dumke. This team cancelled a vaudeville tour because of the death of Dumke's father—and won't return to the air until Fall.

Curtain. Sympathy to John Kuhn, NBC staff musician. His mother, Ida Hall, age 69, died May 14.

Meter. From Budapest, Hungary, to NBC came one Erno Rapee—who on June 4 of this current year, A. D., was 43 years of age.

Meter. And—such is the range of radio—from Presov, Czecho-Slovakia to NBC came Alois Havrilla—announcer and stooge formerly on Jack Benny's program. His natal date is June 7, 1891. Many femme fans think he's French.

Meter. He was born on June 9, 1908—and when Mamma Biviano said: "We'll name him Joe"—had she any idea that he'd grow up to be an NBC accordionist?

Meter. Many appy returns of the d'y—to that British comedy songster, Larry Hasbrook, who vocalizes with Don Bigelow's NBC "Cocktail Hour" orchestra. What d'y?—June 6

Meter. Through this portal passed one of the most beautiful girls in the world—to paraphrase Earl Carroll. The portal—matrimony; the girl, Simone Lee, of Carroll's Third Little Show; the groom of many months ago, Dan C. Burt, now saxophonist of Jack Denny's Hotel Pierre (NBC) orchestra—and the occasion of this mention, a wedding anniversary, dated June 2.

Meter. On June 9, Paul White—head of CBS special features department—calls it another year.

Meter. An anniversary for the De Marco sisters! It was just two years ago that they made their debut on a national network. A prominent commercial sponsor heard them singing on WNAC in Boston and took them to New York. Just two more little Cinderellas who have found that the shoe fits!

Meter. Just seven years ago, June 3, Annette Hanshaw sold her music shoppe in Mt. Kisco, N. Y., to

embark on a singing career. She has been much more successful in selling her own notes than she was in selling other people's.

Coming Up. From "away down under" in Sydney, Australia—where she opened with her first professional engagement two years ago June 8—Edith Murray has come up. Her debut was with the musical comedy "Good News" Now she's an NBC star, vocalist.

Coming Up. Ante-dating radio by some years—but still coming up—is one Jesse Block, who made his debut with Gus Edwards just eighteen years ago this June 4.

Short Circuit. Ted Husing says it's no sport broadcast when a man has to tell his pals that the little woman is staging a call-it-off court battle.

Short Circuit. Always the stooge is Cliff Hall ("Sharlie" of Jack Pearl's broadcast). Now he has to answer wife, June Porges Hall, former show girl, who is asking the judge for more of Cliff's money. She wants her alimony increased from \$75 a week to \$125 because—says she—he earns more money than he did when the 75 order was slapped on. Mrs. Hall charges he was cruel to her and a seven-year-old daughter. Then she referred to him as a "stooge."—Cruelty? Huh!

Sound Effect. 'Orses! 'Orses! 'Orses! Ethel Shutta, the NBC singing star, was honored when the feature race at Riverside Park, in Kansas City, Missouri, was named for her.

Sustaining. For eleven years, this June 2, listener interest has been well sustained by Breen and de Rose (May Singhi Breen and Peter de Rose), NBC team, who played their first program over WEAJ on that date in 1923.

Replacement. Gilbert McClelland has joined NBC's Chicago press department, replacing James Cook.

Interlude. Everett Mitchell, NBC announcer, returned from a vacation in California on May 14. Part of the time he spent in looking over NBC stations on the coast.

The Dish I Like Best

By Olga, Countess Albani

TURKEY is such a thoroughly American dish—a Thanksgiving Day and Christmasy sort of a dish—that you may be surprised to learn that I picked up this turkey-recipe in France. Turkey, prepared the "French" way, is the dish I like best.

Perhaps Americans who enjoy this fowl roasted in the conventional American fashion, will be interested in learning of a new manner in which it may be prepared. It is for that reason that I venture to offer the recipe:

First, the French method of cooking turkey calls for a "bed". This bed is made by placing in a large pan, strips of fat bacon, sheet herbs, onions, carrots, thyme, bay leaf, salt and pepper, nutmeg and spices. When you have carefully lined your large pan with these interesting things, place the turkey into the pan. Then blanket it thoroughly with the same conglomeration—seeing that every part of the bird is thoroughly covered.

Next, cover the pan tightly. This is of prime importance, and much of the flavor of the finished dish will depend upon the care and thoroughness with which it is done. To make this clear, perhaps it would be just as well to reflect on the difference between this method of cooking, and the American method—and to realize the reason for this difference.

In the American method the skin of the bird is not covered, though it may be basted. A certain flavor is imparted to the flesh by the aromatic dressing customarily inserted. But in the French method the principal purpose of smothering the surface is to impart a flavor externally. Now then, we see at once that if the pan is not tightly covered, the aromatic vapors are permitted to escape, and are not forced to permeate the meat.

Cook for three or four hours. Then remove the entire mass from the pan. Strain the liquid from the seasoning through a fine sieve—and serve, pouring this gravy over the turkey. When cold, the gravy becomes a thick jelly and is delicious, too

Radio Road to Health

By Dr. S. W. Wynne

Dr. Shirley W. Wynne's weekly health article in Radio Guide is based on the authority of years of experience as Health Commissioner of New York, and as advisor to millions of radio listeners.

TO MOST of us today, drinking water is such a cheap commodity and so easily obtainable that we are totally unmindful of its blessings.

If we live in well regulated communities, all we need to do when thirsty is to turn on the tap and drink our fill. Sometimes we even forget to turn the tap off again, thereby showing our heedlessness to one of the greatest benefits to mankind.

Man is not likely to think of himself as an aquatic animal. Yet every cell in his body contains water. If this water were drawn off, man would be a shrivelled shell, for about 70 per cent of his entire body weight is composed of water. Thus, the instructions of health authorities that for our health's sake we should drink six to eight glasses of water a day, have a solid foundation of fact. This is especially true in hot weather when there is greater evaporation of water from the skin. The chemical processes involved in digestion and assimilation demand that there be a sufficient supply of water. For this reason, if you are never thirsty, force yourself to adopt a daily water-drinking program and follow it faithfully.

I repeat this advice and add the warning that the water must be pure. Impure water or water from an unknown source carries the danger of disease. Fortunately, the water of every large community today is watched and carefully regulated. But, in places remote from systematic supervision, the greatest care should be taken regarding drinking water and its source.

In the world of chemistry, water is described as H₂O. This means that chemically pure water contains two parts of hydrogen and one part of oxygen. Water composed solely of such pure and simple elements, how-

ever, does not exist outside the laboratory. The water which we drink has picked up other matter in the course of its journey on the earth. Even rainwater absorbs particles of dust from the atmosphere. The point we must surely determine is that these foreign substances do not include disease germs.

Typhoid, dysentery and cholera are the most deadly of the perils brought by impure water. There is a direct ratio between the absence of these diseases and the introduction of a pure water supply. Bad water also induces other digestive ills. It lowers the tone of the whole system. Babies are particularly prone to digestive disturbances. Whenever a city has installed a pure water supply, not only has the general death rate fallen off, but the infant mortality rate has been lowered markedly.

Those of you who live in large cities which are equipped with modern water purification plants, need not worry about the purity of your water supply. But many of you will take trips into the country during the warm weather. And to you I offer this advice:

Do not drink from undetermined sources. Do not take a drink from any spring you happen to pass. When in doubt, boil your drinking water. Boiling kills bacteria. If the boiled water tastes too flat, shake it up in a bottle. It will then taste better. But don't neglect to boil it. In this way you will avoid the danger of disease caused by drinking polluted water.

* * *

Every week Doctor Wynne will answer questions pertaining to health, sent to him by his radio listeners, as well as by readers of RADIO GUIDE. These questions will be answered here; they will not be answered by direct mail.

Doctor Wynne cannot prescribe in specific cases. He will, however, answer such general questions as will be of interest to all. Address YOUR health questions to Doctor Shirley W. Wynne, in care of RADIO GUIDE, 551 Fifth Avenue, New York, N. Y.

Here are some of the questions frequently asked Doctor Wynne, together with his answers:

Q. What is the principal danger of reducing far below the average weight?

A. The danger of tuberculosis. This disease stands first as a cause of death in adolescence and the early adult years. The development of this disease follows a general run-down condition.

Betty Barthell, CBS "Songstress of the South," observing the primary rule that water in quantity is necessary to good health

Underweight is a warning signal. An extremely thin body has less reserve strength and therefore less resistance to disease than has a well nourished body.

Q. At what age should a child first be vaccinated?
A. Every child should be vaccinated before he is one year old, and again in early school days.

Q. What are the symptoms of appendicitis?
A. The appendix is responsible for many of the ills referred to the abdomen. When chronically inflamed it gives rise to symptoms referable to the stomach. There is, in addition to pain in the right lower part of the abdomen, distress in the stomach. The appendix, whether acutely or chronically inflamed, never should be ignored. The use of purgatives is dangerous.

Q. Can drinking be blamed for any particular type of disease?

A. I assume that your question refers to the use of alcoholic beverages. The mucous lining of the stomach is a delicate membrane which suffers much from the abuse of imbibing alcoholic beverages, especially those known as "hard liquor," or from green or alcoholic beverages of an inferior quality. Those who drink hard liquor to excess are totally ruining their digestions and are likely to become excessively subject to the degenerative diseases of middle life and old age; they are in danger also of becoming chronic dyspeptics with an incurable disease and an increasing grouch. As a wise doctor once remarked to his class, "No man ever died happy with a disease located below the diaphragm."

BULLS and BONERS

One dollar is paid for each Bull and Boner published. Be sure to include hour, date and station over which heard.

Master of Ceremonies:—"I'd rather hear Louise sing than eat, anytime."—Mrs. J. Saeger Myers, York, Pa. May 19; WJZ; 10:55 a. m.

Hours to Come

Service is the function to which this department is devoted. Listeners, radio executives and sponsors may read here important items of coming events—may keep informed about programs to come.

HELEN MENKEN, who made a hit with the CBS Big Show, has been engaged for a steady spot there by Producer David Freedman. Warner Brothers have signed Johnny Green for a short which will feature his own compositions, if CBS is willing. Wilson Myers, hot colored bass player will join the Spirits of Rhythm. A series of eight transcriptions by Frank Novak and the original cast of "The Wizard of Oz" will be broadcast by a Southern and Southwest network soon. Ben Alley, who is now commercial for both CBS and NBC, is auditioning for a manufacturer of wearing apparel. Jerry Cooper, who opened on NBC with a 51-station hookup, proved so popular with Southern listeners that he has been offered a Kentucky colonelship by Governor Ruby Laffoon when he plays Louisville. Irene Taylor is in a jam. She has had offers from two Mid-West band-leaders, both of whom are her close friends, and she is wondering which she must offend. Paul Sabin goes into a Monmouth Beach, N. J., night spot June 15, with a CBS wire. and speaking of CBS, there are several musical shows which will be put on at resort spots during the summer by CBS talent which will be heard and judged by that network for permanent network places next fall. MCA has booked Bob Grant into a New York hotel when he winds up at the Mounds Club in St. Louis in September. Maxine Marlowe's Cheramy sponsor will pay the line charges for the thirteen cities outside New York, where her broadcasts have been piped, when she makes vaude appearances there. Gertie (Rise of the Goldbergs) Berg is working day

and night converting one and a half years of her script into a scenario which has two movie concerns feuding. Ilomay Bailey and her husband, Lee Sims, are dickering with a network sponsor after their engagement at the Michigan in Detroit which was extended two weeks. Jeannie Lang gets a laxative program before the end of the summer. Reggie Childs has signed for the seasons of 1935-36 at the Roosevelt. All records will be broken when the Country Gentlemen return to the Vallee show as guest artists on June 7. It will mark their tenth guest appearance. Paul Whiteman will listen to aspiring singers on July 1, seeking a 12-voice mixed choir. Vincent Lopez will sign a lad named Fred Lowry whose whistle is a take-off on John Charles Thomas. Lennie Hayton has asked for a leave of absence from Terraplane and Ipana so he can go to the coast on July 12, and direct the musical sequences for Bing Crosby's picture. If he can't get away, it will be the first time Crosby has made a picture that hasn't included Hayton. Roger Wolfe Kahn has a flock of stars in which a cigar sponsor is interested. He has Evelyn Poe, sister of "Boob-a-doop" Bonnie Poe, and Joan Blaine, who was with Rubinoff for a short time. Who is the busiest man in New York? Ben Pollack. Look at this: He is featured (or will be featured) in two New York spots—the New Yorker and the Casino de Paris—concurrently (to quote an inspired press agent). But at the same time he will broadcast over WEAF, WJZ, WABC, WOR, WNEW, WMCA. Harry Horlick's brother is in Europe buying original scores for Harry's Gypsy programs.

The Child's Hour

By Nila Mack

Shy and imaginative children are here discussed in intimate detail by the noted authority on child behaviorism.

THE careless, shy child is a double problem for parent or teacher. We have him in great numbers in radio dramatics. He represents a difficult but common combination.

His mind does not absorb impressions easily, and carelessness in children is usually a sign of a brain busy with other thoughts. The shy child builds up defense mechanisms, a resisting veneer sometimes called just "orneryness" or "cussedness" that is impervious to reason. If he is to be drawn from his shell, a lot of studying and sympathetic understanding are necessary.

The imaginative child, whose flights of fancy carry him on the wings of imagination to the far corners of the world, is not particularly sensitive to his immediate surroundings. The neatness of his clothes and his personal appearance mean nothing to him. His room can be in utter disorder, but the disorder will not register with him. Mentally he is scaling the heights of Mt. Everest or plunging through some dismal spot in darkest Africa, with lions and wild elephants threatening every step of his progress.

How could a child, engrossed with hand-to-hand encounters with wild beasts, have time to worry about the conditions of his room or the black smudge on his face? Don't make any mistake about the realism of these flights of fancy, these day-dreams. They are real to the kiddies.

No amount of talking to, about such mundane and commonplace things as a disorderly room, will make the slightest impression on the child's mind. The child will appear to be absorbing every word you utter, and to be in perfect accord with you; but your words haven't registered.

The next day, or even sooner, he will repeat the things with which you have found fault, and to save his life he can't tell you why he did it. I'll tell you why, without becoming technical. That portion of the mind which controls his actions has not been touched. Emotionally he has been miles away. So in talking to him you really have had a nice talk to yourself.

If by casual conversation one can find out from the child where he travels in his day-dreams, the problem becomes simplified. Use the hero of his adventures as the pattern you would like him to emulate. Endow the hero with the attributes of cleanliness and orderliness. This method will reach the subconscious mind because it talks his language. It will have the desired effect.

Scoldings are useless. Punishment is worse. The tongue lashing goes in one ear and out the other, and the spanking only encourages opportunity for self-pity.

In the radio studio slovenliness cannot be tolerated. It is reflected in the performance on the air and gives a bad impression to the unseen audience. It is evidenced in pronunciation of words even before it shows in other things. We have everything from "Brooklynese" and "Cockney", down to universal vulgarities, that must be corrected. Sometimes it is necessary to make a game of the corrective measures. At other times resort is made to an incentive in the form of an award. An ice cream soda works wonders. But remember, if you offer prizes for a job well done, a penalty need not be the complement for an error. The loss of the award usually is penalty enough.

Again where cases are stubborn, a heroic

pattern may be created to accomplish the purpose. One of our most trying radio actors was a boy with a wealth of natural talent, with a shyness and reticence that seemed insurmountable. His feelings could be hurt by the slightest correction. He had drawn into himself like a turtle in its shell, and despite these handicaps he had a fine natural aptitude for the theater, though discernible only in rare flashes. It was necessary to use a combination of games and awards to draw him out of his shell. His language, too, was sloppy.

I discovered quite accidentally that his preference for stories ran to murder mysteries, with the hero usually the loud-mouthed, back-slapping, show-off type who has been glorified in the literature of Broadway. We cast the boy in several parallel juvenile roles in the children's hours. Eventually he lost all his shyness and was an entirely different person. He slipped into the character like an old trouser. It was so far removed from any of his natural tendencies and personal conduct that it was like a "Dr. Jekyll and Mr. Hyde" transformation. Little by little his cloak of shyness was worn thin, and he developed into one of the most natural children on our staff.

The play-acting gave him an opportunity to burst from his shell and develop his natural aptitude for playing character parts, out of which his own natural self was born.

His carelessness of speech soon was remedied by contact with other children who were very careful of their pronunciation. We awarded his early attempts at self-correction with a chocolate bar or soda when the rehearsals were over. The children themselves applied the necessary pressure. There's an unspoken rule in our stock company about such words as "cruel"—(we sound the "e")—"jewel"—(nary a "juul" is worn here.) and woe be unto the careless fellow who happens to say "ma-untun" when he means a nice round "o" "mountain". I don't have to speak about it. At least five others in the cast will interrupt with "Oh-ho—hold it." And the correction is made.

Your Grouch Box

ARE YOU completely satisfied with radio in every detail? If so, you are alone in your contentment—because studio executives, sponsors and artists all are analyzing, criticizing and striving to improve the quality of radio entertainment. Why not help them?

If you have a pet peeve—a radio grouch—here's your chance to get it off your chest and into "Your Grouch Box", where it may help to rid the air of some annoyance.

Don't worry about the form of your letter or the nature of your complaint. Don't worry, either, about whether your grouch is constructively or destructively expressed. A knock to an individual or to a program, may turn out to be a boost and a blessing to the industry—if it rids the air of annoying features.

Here's another music lover who hates to hear the works of Old Masters set to jazz by new maestros.

Dear Editor: Radio grouch? Indeed!—Having

Correct occupation for the shy child, according to Miss Mack, is to make a game of his day-dreaming. This youngster shows that he profits immeasurably by the play regime

these "bands" desecrate the fine music of the old masters! I heard Whiteman jazz Tannhauser, Liebestraum and The Swan, three of my favorites, and I have murder in my heart.

I heard a California band, lauded to the sky by Capt. Dobbsie, literally chop Melody in F into little bits. It is enough to make the angels weep! I will not listen to either band any more. No music lover, no real musician, could commit such a crime.

Bandleaders should stick to their own kind; goodness knows there is enough sensational music floating around.

There, I feel better!

Milwaukee, Wis.

IRMA FELDMAN

This thoughtful arraignment of two

irritating practices is set out by the pastor of a Lutheran church:

Dear Editor: Accept my thanks for this opportunity to voice some grouches publicly.

I turn to another program when the announcer says: "Listen for an important announcement at the close of this program".

Why not now?

Moreover, it peevs me when the announcer advertises some commodity, spells it all out very carefully, then adds "Let me repeat" and goes all over it again.

Greensboro, N. C.

REV. E. A. SHENK

Address your grouches to the Editor, Your Grouch Box, RADIO GUIDE, 1145 Harrison St., San Francisco, Calif.

Flashes of Best Fun

Joe Penner: You said it! He commutes with the spirits.

Monk: Not commutes! Communicates with the spirits.

Joe: No sir! He commutes with the spirits!

Monk: What do you mean?

Joe: He drives a beer truck!

—Bakers' Broadcast

Ed Wynn: The car really gave an outstanding performance, Graham.

McNamee: How was that, Chief?

Ed: Well, he stepped down on the accelerator, and now the car's out standing in front of the police station.

—Fire Chief Program

Uncle Obadiah: They had a debate last Wednesday night at the Odd Fellers' Hall. For and ag'in war. Ed Stoolpuddle said he was uncertain, 'cause "Every time he looked at his pa's medals and swords he was fer it—but when he saw his wooden leg he was ag'in it."

—The Hoosier Philosopher

Chester: Say, Mr. Edwards—do you know what is the last word in airplanes?

Len: No. What is it?

Chester: "Jump!"

—Grennaniens Variety Show

Gene: But your wife is thrifty?

Bill: Yes, she's thrifty all right. She went into de grocery today and she ast de price of eggs. The grocer said, "Fohty cents a dozen, . . . cracked ones fifteen cents a dozen".

Gene: What did she say?

Bill: She said, "Crack me a dozen"!

—Sinclair Minstrels

Daisy: Here's a good book for you, Bozo, "Little Women".

Bozo: Say, I'll need dat. I always did like to read about midgets.

—Hoofinghams

Professor: Isadore, why is it that your essay on milk is only half a page while the others wrote eight or nine pages?

Izzy: Teacher, I wrote about condensed milk.

—Kaltenmeyer's Kindergarten

Dan: You must remember, you took him for better or for worse.

Aunt: Yeah, I took him for better or for worse, but he's a whole lot worse than I took him for.

—Lazy Dan

Marge: What system of bridge do you play?

Jane Ace: The cumbersome system.

—Easy Aces

Jesse Block: Why do you keep walking around me like that?

Eve Sully: I saw a doctor last week and he said I should keep walking around the block.

—Block and Sully

Gene: Say, Mac, does your brother call himself a butcher?

Mac: Sho he do.

Gene: Well, I bought some sausage from him last week and they were filled with meat at one end and bread crumbs at the other.

Mac: Well, you know, in dese times it's pretty hard to make both ends meet!

—Sinclair Minstrels

The Voice of the Listener

One For Sponsors

Dear VOL: Jersey City, N. J.
I notice from time to time, in the radio scribes' writeups in many of the New York dailies, criticism concerning too much "commercialism" in certain programs.

I deem this criticism rather unjust on their part, because, after all, were it not for the sponsors of these programs where would we listeners be today? Certainly not at the radio receiver. When a sponsor expends many thousands of dollars, in placing programs on the air, he most certainly is at least entitled to inject some little sketch into the program. Also a few minutes of talking on the announcer's part, relative to the merits of the certain soap, coffee or whatever it be, should not be subject to unjust criticism. Most listeners will admit that the few minutes taken up with what some of the scribes call "commercial ballyhoo" is to be looked upon as something the sponsors are actually entitled to. Were this not a fact, then "How," I ask the scribes, "would folks know what the sponsors sold?" Also, "How could a sponsor continue to keep furnishing listeners with first rate entertainment, if commercialism were not injected in order to stimulate sales?" We will all admit that the "presentations" are not on equal par with what the sponsors offer the listeners. John S. Deibert

Lovely Singing Lady

Dear VOL: Lake Placid, Fla.
If people really want a program of educational value both musical and literary, they should listen to The Singing Lady and get real beauty and quiet charm. I have heard tell not only quaint and charming Mother Goose stories, but on national holidays, true historical stories of Lincoln, Washington and other great men of our nation. She has given stories on the childhood lives of great composers. The most beautiful program I ever listened to was her story of the childhood of Dr. Frederick Stock. Why not praise the good programs like we hear by The Singing Lady and leave off criticisms of the poorer ones. There are many fine programs on the air that require a great deal of study and talent to produce. Margaret Hunsaker

Just Re Prince

Dear VOL: Blackwell, Okla.
I quite agree with Leona Palmer in her estimation of "The Poet Prince". Too much cannot be said in his praise. Here in the midwest we were able to hear him about three times a week. Now the time is given over to Gene and Glenn. That is going from the sublime to the ridiculous. Those in authority say they cater to the majority. What discriminating taste the majority must have. I am whole-heartedly in favor of The Prince gaining his deserved rightful place in the realm of song. Eda Parrish

Radio's Golden Rule

Dear VOL: St. Johns, Quebec, Can.
I am tired of reading what these people that criticize almost every program on the radio, have to say. I like to see an outstanding artist get credit for his or her work but why pick on the ones that are not so good? After all, they are trying their best. There are a good many programs that I don't like but after all it's not very hard to turn the dial to another station. But these people who don't like this artist and are very bored by that orchestra have probably never played an instrument, done any singing or told a funny story in all their lives. They burn me up. I think the programs of today cover everyone's taste. SO WHY NOT LIVE AND LET LIVE? Kenneth L. Campbell

Kenneth L. Campbell probably never played an instrument, done any singing or told a funny story in all their lives. They burn me up. I think the programs of today cover everyone's taste. SO WHY NOT LIVE AND LET LIVE? Kenneth L. Campbell

This department is solely for the use of the readers as a place in which to voice opinions and exchange views about radio. You are at liberty to speak freely so LET'S GET TOGETHER AND TALK THINGS OVER. Address your letters to VOL editor, care of RADIO GUIDE, 423 Plymouth Court, Chicago, Ill. You are urged to send in your photograph when writing but failure to include a picture will not bar your letter from publication. RADIO GUIDE assumes no responsibility for returning your photograph but will be as careful as possible in handling it. Whenever it is possible, letters are used in the order of their receipt

Cents-ible Comment

Dear VOL: Rochester, Minn.
They say "Jimmy Had A Nickel." Evidently so, when you hear Red Nichols and his Pennies blowing to the foreground. You cease to be a pessimist and begin to think Jimmy must be a pretty good guy when he gives listeners such a nickel's worth. He has the "waltz kings" doing fox trots when he starts blowing "them bugles." But the competition is doing hand springs. Be careful with those other phonies. We accept only "Red Nichols." Margarita Griggs

Makes Anthony Adverse

Dear VOL: Greenville, S. C.
I read your department with interest each week and enjoy it immensely. In your popularity ballot, of the first four stars, three are comedians. Is not that extraordinary or is the radio public simply comedy-minded? For example, Joe Penner, the most popular of the radio stars, has polled nearly 100 times the vote cast for Lawrence Tibbett, and about 150 times that for Edgar Guest. The question is: Is the comedy of Penner on a par with the real art of Tibbett or Guest? My prediction is that the real artists will continue to attract the average radio fan when he is disgusted with the silly chuckling of Penner and other comedians. Your popularity ballot shows the average radio fan to be sub-par on things intellectual. I would like to hear the opinions of other readers. If the male and female vote and the votes of the various professions and vocations could be segregated, just what effect would it have on the standings? Jack Anthony

Jack Anthony

It's Only Acri-Money

Dear VOL: Coshocton, Ohio
I am a real listener to both Ben Bernie and Walter Winchell. Both of these entertainers, to my mind, seem more like human beings than other artists. To my estimation I think Winchell should save one of his orchids for himself occasionally, because he certainly deserves it. Many people like to blame him for nosing into others' business, but I think that sort of program is very interesting and is justified. As for Ben Bernie, he himself makes his program and not altogether his orchestra. If more of this type of joking, which Winchell and Bernie exchange on their programs, was carried out between radio entertainers it would interest more people in other programs. I understand the friction between Bernie and Winchell is merely to be funny and that they are the best of friends. Edgar R. Clark

Organic Matter

Dear VOL: Effingham, Ill.
Why do radio stations pick on organ melody quarter hours for their advertising "shorts"? Does organ music soothe the irritated listener? National advertisers sandwich their "blurbs" between lengthy periods of usually high class entertainment. But, it seems, when a station has advertising of a more or less local nature, it groups it all for a fifteen-minute broadcast and tantalizes the listener with a few measures of organ music between. If RADIO GUIDE is to be truly a guide, it must avoid misleading program listings. You credited KMOX with organ melodies at 5:45 o'clock Saturday afternoon May 5. The "melodies" consisted of two-minute periods of advertising broken by ten-second periods of organ music. If you must list such programs, label them as "for the most part advertising." R. L. Mahon

A Mother's Opinion

Dear VOL: Newark, N. J.
I am grateful to think there is one magazine in radio where a reader can voice an opinion. I am sincere about my views for I have given this subject careful thought. I have read the six instalments of "What Rudy Did Not Tell" by his former secretary and I truly believe that this little wife of Rudy's will pay and pay all through life for her mis-step. I sometimes wonder if Rudy's wife had been this writer's sister or beloved friend, if this account of past shadow would have been printed. I think not. Are the lives of these writers without sin that they can sit in judgment upon some other parents' daughter who was 3,000 miles away from those that loved her well enough to protect her? And is it honorable for these writers to sift the good from a girl's life and print only the dirt? Our Heavenly Father says none are perfect, no not one, and again we read where He says "when the world forsakes you I will take you up." I have seen a great many mother's eyes fill with tears of sympathy for Mrs. Vallee because of the cruel punishment the public press has been giving her. For these mothers, all true mothers, can see in the worn face of Mrs. Vallee, a picture of their carefree daughters, out fighting life in this world of today. And they are wondering if they, someday, will have to face what Fay's mother and father are facing—disgrace. Just A Mother

Short Lived Music

Dear VOL: White River Junction, Vt.
I entirely agree with Max Kimberly that the songs of today are all he claims them to be. I like the tunes but the words are meaningless and silly. It is a notable fact that there has been no song composed within the last two or three years that has retained its popularity longer than one month. Time was when you felt proud of having learned the words and tune of a song but nowadays I believe the majority of listeners just listen to the music. I never tire of hillbilly, Spanish or Hawaiian music. I think Morton Downey has a swell voice. Miss Frances Falzarano

Frances Falzarano
Miss Frances Falzarano

That's Why They Trail

Dear VOL: Washington, D. C.
Your contest on radio personalities and programs is rather illuminating. Rubbish, it seems, forges to the front while class trails. Under the conditions I couldn't really fill out the vote in RADIO GUIDE. My selections would be considered far fetched by the "wise guys" among your readers. "Among the Stars" Joe Penner, with his infantile humor, has a commanding lead with Eddie Cantor of the punning, forced humor, close, and Will Rogers, of the original homespun humor, and Jack Pearl trail. Gertrude Niesen, torch singer of the husky, throaty type, leads a real singer like Jessica Dragonette. Bing Crosby, crooning baritone, and Rudy Vallee, who sings through his nose, lead Lawrence Tibbett. Among the tenors, your readers select Lanny Ross and Frank Parker and neglect real tenors like Richard Crooks and Nino Martini, a musical find. Wayne King, among the orchestras, Guy Lombardo and Ben Bernie lead the procession while the New York Philharmonic, Walter Damrosch's orchestra and the Boston Symphony trail far in the rear of such noise makers as Isham Jones, Cumberland Ridge Runners and Cab Calloway. Samuel Saloman

The Case Of Cantor

Dear VOL: Long Beach, N. Y.
I am a regular reader of RADIO GUIDE and think it the finest publication of its kind but you must admit it is rather disgruntling to a fan to find her favorite star receiving nothing but adverse criticism. I don't blame RADIO GUIDE for the uncomplimentary things printed about him as they, I know, are perfectly fair and would like to publish both sides of the story but the readers, at least those who have taken the trouble to write in, don't seem to think Eddie Cantor has anything commendable about him. I consider Eddie Cantor one of the kindest, most generous, and finest men both on the air and most assuredly off. He slaves over every program in his effort to please the largest number of listeners. Though he has tried to "Take the Broadway Out of Radio Gags" (quoted from a short article appearing some time ago in RADIO GUIDE) the out of town people seem to be complaining the most. Lucille Berler

A Brief Tribute

Dear VOL: New York, N. Y.
The programs I like best are the hillbillies, Pappy, Zeke, Ezra and Elton, for the pretty songs they sing to us and the way that they know how to sing them. If those boys could just get the breaks some of their critics get. Bing Crosby is also a very good singer. I listened to him one recent Monday night and then Tuesday morning Ezra sang a song and the boys all joined in. I asked myself: "Who could I pick for the best?" You could tie them but you can't beat them for their songs. After all they are brothers; to us they are U. S. A. boys and I do hope they get a good break. When the program is over they say, "We'll be seein' you" and I say, "God be with you 'till we hear you again." Mrs. G. Matzen

Public News-ance

Dear VOL: Corning, N. Y.
Here is another word of dissent against the Press-Radio bulletins—that is the greatest farce yet put over the public's head. Saying "it is given as a contribution to public service", is ridiculous. When news was a real "Public Service" was when we had real news, not that hours old and stale. The news given is so stupid that you do not get enough even to want to see a paper. Often when a story was given in an interesting manner, I was more anxious to see the papers than I am now. I wish more people would wake up to this fact and let the Radio Commission know it does not approve of having the news stopped entirely as it at present is. May I insert a word of praise to the wonderful service, and manner in which the "Columbia News Service" was conducted. J. M. T.

An Old Radio Custom

Dear VOL: Minneapolis, Minn.
I've been harboring a favorite grouch for a long time and I'm confident that others are irritated by the same nuisance. I'm speaking about the shuffling in of various advertisements every ten minutes on some hour program. This is a common procedure on a popular morning musical program broadcast over a local station. Is it necessary, I ask you, to spoil a perfectly lovely program, The Breakfast Club, by interrupting with dry sales talk? Of course I realize that advertising is what most radio programs depend on but it's queer that some time cannot be found instead of ruining a program. I'm 14 years old and have been a radio fan since the days of crystal sets. Evelyn Keehn

Manhattan's Madman

Another Thrilling Detective Story in the Series, "CALLING ALL CARS"—Actual Crimes Portraying Radio as the Defender of Law.

By Stuart Palmer

Francis—"Two Gun"—Crowley, from a photograph taken shortly before his battle with an army of police

The building at 303 West 90th Street, where Crowley was cornered by a cordon of 800 policemen summoned by short wave radio calls

in a rat hole—they had gone hunting for sparrows and stumbled upon a tiger in its lair!

And now Francis Crowley, the most-wanted man in the history of the New York police, had been forced to show himself.

Crowley, cop-killer and lady-killer, strange anomaly of human nature who was a teetotaler and frequented speakeasies, who preferred gun-smoke to cigaret smoke—"Two-Gun Frank" Crowley—was holed up in this rat-nest!

He was here, in one of fate's strange jokes, because twenty years before, an Austrian serving girl lost her job in a Long Island mansion through being too friendly with a city detective named John Flood; plain-clothes man assigned to guard the family jewels during a reception. The young woman, friendless and alone in a strange country, died in giving birth to an unwanted,

iously out of the door by two husky veterans—who were surprised to receive a volley of hot lead flung at them as he picked himself from the sidewalk. Both were hit, but neither badly hurt.

All the same, Detective George Schaedel was assigned to round up the embryo bad-man. Schaedel trailed him to the nineteenth floor of a Lexington Avenue skyscraper, where the pint-sized quarry suddenly stepped from behind a pillar with a pistol in either hand, put three bullets in Schaedel's chest, and calmly walked away.

The detective did not die—and the boy who never had been able to learn reading or writing in his six years in the first grade, continued by some uncanny knack to make himself scarce whenever police sought him, but still to move with apparent freedom among the gay spots of the uptown section. By this time he

had given up all pretense of working at his supposed trade of steamfitter's helper.

It was in an uptown speakeasy that Crowley met "Rudy" Durringer, a truck driver from Ossining who had just been fired from his job and who had stolen his boss's limousine in revenge. Durringer had spent most of his life within sight of the gray walls of Sing Sing, but they had taught him no lesson. He was a big, stupid man weighing almost 250 pounds, and hating hard work with every ounce of his body and soul.

In his stolen car Durringer was quite a big shot among the boys of uptown New York. He gravitated quite naturally into the companionship of Francis Crowley, who insisted upon being called "Two-Gun Frank" and who impressed the dim-witted Durringer as

THE sharp brrring of a doorbell sounded suddenly in the silent hall and summoned a wild and startled killer from his lair!

With a gat in either hand, the most hunted man in the history of New York's police plunged into the hallway and peered down the dimly lit stairs to see the trap that was being layed for him. It was too bad about that doorbell. A newspaper photographer who had had one too many came stumbling up the steps of the building at 303 West 90th Street, and pressed his thumb against the bell marked Apartment 10—Fifth Floor.

Half an hour before, when Detectives Dominick Caso and Bill Mara had come idling down the street trying to look like casual strollers, they had found a card stuck above that bell. The card read "Murray and Red—don't ring, Helen and I have gone to the store, back shortly . . ."

The man who rang the bell had been supposed to meet a reporter across the street.

When the shrill buzz of his ring echoed through that top floor rear apartment, Detectives Dominick Caso and Bill Mara were crouching on the stairs halfway down to the fourth floor, disguised as plumbers. They had received a tip that in this building they might get a lead as to the whereabouts of one Helen Walsh, wanted for questioning in regard to the city's newest murder case. The name "Helen" on the card in the foyer had given the two fly-cops a clue worth following . . .

Mara had stuck the card in his pocket, as possible future evidence. It was the worst mistake he could have made. If the card had been on the bell where it belonged, "Red" would never have rung—and Francis Crowley would not have rushed out on the fifth floor landing with a gun in each hand!

He would not have rushed forth, that hunted boy of not quite twenty years, with his weazened face and slight, almost girlish figure, to look into the faces of the two detectives who crouched halfway down the top flight of stairs. He had come to see who rang the bell downstairs, but he looked full at the detectives, and the afternoon sun pouring through the doorway from behind him made an unearthly halo of his wild head of hair.

There was just that glimpse—and then he slammed the door behind him. The tense and startled detectives had spent half the afternoon laying a trap for a woman supposed to be in the building somewhere, a woman reputed to be friendly with Crowley! They had been laying a fly-trap and now found that they had set it

fatherless child. That child was Francis Crowley, unclaimed by his father and finally given a home by a well-meaning woman who also loaned him her name. For he had none of his own.

Francis Crowley grew up in bitter hatred of the "cops". When he was fourteen, in February of 1925, he happened to witness a misunderstanding between John Crowley, his foster-brother, and the cop on the beat—one Patrolman Morris Harlow. Harlow died instantly, and Crowley fell mortally wounded. That day Francis Crowley swore that he'd spend the rest of his life getting even.

He spent most of the following six years in becoming involved in trouble. No less than sixteen times he was on the police blotter for crimes such as pilferage passing phoney money, automobile stealing, petty theft, and so forth. The cops of the uptown neighborhood called him "the Runt" and declared that if there was any devilry going on, Crowley was at the bottom of it. Yet somehow the boy always got free, receiving discharges and suspended sentences even when caught red-handed with stolen goods. He looked so boyish, people said.

It was not until February of 1930 that Francis Crowley stepped over the line which marks the killer from the thief. Crowley bragged to some hoodlum friends that he could get away with crashing an American Legion dance in the Bronx and picking up the Legionnaires' girls. At the dance he was tossed ignomin-

Helen Walsh, eye-witness to the most daring of Crowley's crimes—and instrument of the radio-police who gave him chase

a dashing and admirable figure. Crowley, on the other hand, admired Durringer for his bulk alone—the one quality which he felt himself lacking.

The two lads set out on a round of the ten-cents-a-dance places which infest Harlem, the Bronx, and even Broadway today. It was at the Primrose Dance Palace in the Bronx that Rudy Durringer met plump, pretty Virginia Brannen, a little girl from Maine who was trying to make her way as a hostess.

Crowley also succeeded in picking a peach from the garden of love—at ten cents a pick. Her name was Billie Dunn, and she was at the moment having a gay vacation since she was on parole from a reformatory.

On the evening of the 27th of April, 1931, Durringer, Crowley, Billie Dunn and (Continued on Page 35)

For Solving RADIO GUIDE'S

NAME-the-STARS Contest!

SET No. 8

NAME OF THIS
RADIO STAR IS: _____

NAME OF THIS
RADIO STAR IS: _____

THE RULES:

WHO IS ELIGIBLE? This contest is open to everyone except employees of Radio Guide and their families. It is FREE.

WHAT TO DO? Name the Radio Stars represented by the cartoon pictures appearing each week in Radio Guide. Two pictures will appear in each consecutive issue. There are thirty pictures in all—representing thirty radio stars. All stars used in this contest will be those whose names appear in the pages of Radio Guide.

WHERE TO SEND? Hold all pictures until you have the complete series. Then send them to "Name-the-Stars Contest," Radio Guide, 423 Plymouth Court, Chicago. With your entry send a short letter of 20 words or less giving your name and address and telling

which of the 30 stars you like best and why. All entries must be in by midnight fifteen days after the date of issue containing the last set of pictures.

THE JUDGES: \$5,000 in cash prizes will be paid by Radio Guide to the persons who send in the best answers in accordance with these rules. A Committee of Judges will be appointed by Radio Guide and its decision in all matters will be final. In case of ties duplicate awards will be paid.

NO HARD WORK! This contest is presented solely for your entertainment. Just test your skill. You do not have to solicit subscriptions or do any other work. You do not even have to buy Radio Guide. You may copy or trace the pictures. Radio Guide may be examined free at our offices, at libraries or at Radio Stations.

440 BIG CASH PRIZES!

- 1st Prize \$1,000
- 2nd Prize 500
- 3rd Prize 250
- Next 2 Prizes \$100 each 200
- Next 5 Prizes \$50 each 250
- Next 20 Prizes \$25 each 500
- Next 50 Prizes \$10 each 500
- Next 360 Prizes \$5 each 1,800

440 PRIZES TOTALING \$5,000

NOTICE!

MUSIC IN THE AIR

By Carleton Smith

TWO symphony orchestras playing twice daily at the 1934 Century of Progress offer substantial proof that advertisers believe the public wants good music. At least, Swift and Company and the Ford Motor Company are giving us the chance to show our appreciation and interest when we go to the Fair. If the response is what they expect it to be, both organizations intend to sponsor symphonic concerts on the air next season.

The Detroit Symphony starts a twelve-week series June 16th, which may be extended. The Chicago Symphony begins July 1 and plays for a ten-week period. Both symphonies will play four hours daily and all concerts are free to the public.

Opinions differ as to whether the standard symphonies or orchestrated medleys, whether Wagner or Victor Herbert, Brahms or Lehar, should claim precedence. The programs, therefore, are largely tentative. Presenting concerts to a cross-section of America at a large exposition for an extended period offers the opportunity to study public taste and to judge more accurately what is wanted than can be done in almost any other way. The audience that will come to these concerts is not identical with that which pays to attend the Stadium Concerts in New York or the Dell Concerts in Philadelphia. It comes to visit a carnival and drops in on the concerts as on any other exhibit.

Judging from arrangements now made, the music is to be "featured" rather than the conductors or soloists. Victor Kolar, assistant to Ossip Gabrilowitch in Detroit, is to direct the Detroit Symphony, and Eric de Lamarter is to conduct the Chicago Symphony in the absence of Frederick Stock. With all due credit to them for their musicianship and self-sacrificing service, second conductors never have overwhelming popular appeal. Perhaps guest conductors will be arranged for shortly.

Sustaining Broadcasts

(Time Given Is CDT)

This experimental laboratory is to be extended to the radio audience, or at least to that part of it which writes letters. Columbia announces a tentative broadcast schedule for the Detroit Symphony, beginning June 16th as follows: Saturdays, 8:30 to 9:30 p.m.; Sundays, 2 to 3 p.m.; Tuesdays, 3 to 4 p.m.; and Thursdays, 3 to 4 p.m. Mr. Victor Kolar has expressed his desire to know your tastes and especially, after the broadcasts begin, to know

of your reactions to the programs. His address is Ford Exhibit, A Century of Progress, Chicago.

NBC already is broadcasting the Palmer Clark Jazz Symphony from the Swift Pavilion (4 to 4:30 p.m.) every day except Sunday. They have set aside the period, 4:30 to 5:30 p.m. daily except Sunday, on the blue network, when the Chicago Symphony starts in July.

It would be courteous as well as wise if the conductors arrange their programs so as to fit whole compositions into the broadcast time. Otherwise, we will be breaking in on the middle of a symphony or faded out just before its climax. Nothing is more annoying.

Fall Season

Plans for the fall season include a good share of music you like. Activity in advertising agencies and network offices leads to the conclusion that the next is certain to be the busiest season so far. Almost every minute of available time on both networks has either been sold or is under option.

More sponsors than ever before are considering serious music as a vehicle with which to attract listeners. Talent is being discovered and developed for these programs. There are deserving vocalists in many studios today who, because they sing for less, will be heard on sponsored programs, instead of "names."

The radio, unless my guess is wrong, will develop more and more of its own artists rather than seek them in the concert hall or the opera stage. For some time to come, a "personal" appearance will be necessary to establish a reputation among the musically-minded. Not every one will trust the microphone alone in passing judgments. But in time that may disappear.

"Carmen"

THE Palmolive Theater made no mistake in presenting "Carmen." The cutting and arrangement of the familiar airs were judicious. The voices of James Melton and Gladys Swarthout were well chosen for the roles of Don Jose and Carmen. And Bizet's opera, despite its original failure, is a masterpiece, in every respect deserving its great popularity.

Other tuneful and familiar operas would be worth the effort expended in putting them on, if the proper voices are secured. "Faust," "Martha," "Romeo and Juliet," "Manon," "Pagliacci," "Traviata," "Rigoletto" even "Aida" and "Il Trovatore" (Continued on Page 33)

The COVER Girl

ROSEMARY LANE, the girl on the cover, is the possessor of the delightful, lovely voice heard with Fred Waring on the Ford program, broadcast over CBS network stations on Sundays and Thursdays at 8:30 p. m. CDT. She opened her larkspur blue eyes on this world of storm and strife some nineteen years ago in a sedate home at Indianola, Iowa.

At an early age, as the biographers put it, she started her musical career in a serious way, following in the footsteps of two illustrious older sisters, Leota and Lola, who established the Lane dynasty, although they were all born "Mullican," according to the birth certificates.

About the only thing this charming little lady took seriously was her music. She started out to become a concert pianist, but the development of an unusually warm sympathetic voice side-tracked that ambition when she settled down to study voice culture and music at Simpson College in her home town.

Music had an attraction for the child at a very early age. It is reported that

she thought nothing of practicing six or eight hours a day on the grand piano which was one of the first gifts her successful sisters sent to her.

Her parents decided that outdoor exercising was necessary and, following an early inclination to seek high spots in apple trees in the family orchard, Rosemary insisted upon taking her exercises on horizontal bars, flying rings and—of all things—a trapeze! Before long the back yard looked like an aerial gymnast's dream of heaven.

With her younger sister following Rosemary's lead, they put on a sister act in a juvenile sports world that carried off most of the medals for swimming, fancy diving and other athletic endeavors in the Camp Fire Girls' annual meets at Boone, Iowa.

Fred Waring discovered his latest star in a music publishing house in New York while she was running over some popular numbers, and immediately induced her to join his orchestra as a solo guest star when his Pennsylvanians were playing on the Old Gold Hour. She has been guest star with him ever since.

Blubbering Through

By Ted "Blubber" Bergman

"Blubber" Bergman, photographed at the moment he suffered a vexing frustration, the loss of some of his clothes. He appears unconcerned

was oversized? I wanted to play music. But my father wanted me to play baseball! How I envied those kids whose mothers made them stay in and practice, while I was forbidden to stop playing baseball! I asked for a violin. My father bought me a catcher's mitt. I said I wanted to play. He said: "Play ball!" So I played ball and got frustrated.

He didn't want a Babe Rubinoff in the family, he wanted a Babe Ruth! Well, I never quite got over this set-back to my childish dreams. But I did try to interest myself in something else.

The superintendent of the apartment house in which we lived was a cockney Englishman. Soon I found myself hanging around all afternoon, listening to his talk. That Englishman's conversation fascinated me. I used to sit, enraptured, literally, watching him swallow one aitch after another—the way the Eskimos are said to swallow live fish. I thought: "Next to being the greatest violinist in the world, I'd like to be able to talk like this man!"

Taking great pains, I began to practice. When my father wasn't looking, I would sneak away from the baseball field, get the Englishman talking—then sit and listen and watch. I'd hold my mouth the way he did. After a while I could make the same sounds—and eventually I managed to imitate him perfectly. And then he moved away—another frustration!

A Swede took his place. He tried so hard to speak English, that, to help him, I used my cockney accent on him. He told me he couldn't speak Russian! Well, there was only one thing to do. To have someone to talk to, while the other kids were playing baseball, I learned to speak like my Swedish friend. And, then—once again my fate caught up with me. For no sooner had I mastered his dialect and learned how to converse with him intelligently, than my family ups and moves. I've always suspected that my father wanted to move me nearer to the baseball field, so that he could watch me doing my daily hour of practicing.

But by now I had the idea of languages. Wouldn't it be fine, I thought, if I could learn a lot of languages and maybe become a professor! Then nobody would expect me to play baseball, and I'd have lots of time to practice on the violin.

Quickly, I set about laying the foundations for my career as a professor—which in turn would lay the foundations for my career as a bull fighter. Can I help it if that sounds like the House-that-Jack-built? First thing I did was to study at the feet of the local Confucius, a gentle Chinese who could talkee and washee

at the same time. Soon we were singing to each other in pidgin English, and I had dreams of a chair in Oriental Languages. But my Cantonese went home to China to turn bandit.

Frustrated again, but still determined, I started on the Italian iceman. By now I was becoming adept at acquiring accents. This was just as well, because prohibition came, and my Italian stopped peddling ice and began selling the stuff it is put into. So I resumed my study of languages with another tutor, a German butcher, whose accent was so thick you could hardly cut it with his own cleaver. And, of course, the inevitable happened; no sooner had I absorbed his "achs" and "Voss is losses?" than he remembered he had a cousin in Milwaukee and moved there.

Years passed. I came to radio. Meanwhile, I had learned to my intense pain that colleges aren't interested in the languages I had been learning; for me at least, all the professors' doors had "No Help Wanted" signs on them. I thought that in a radio studio, perhaps I'd be able to get some dramatic parts; you know, roles that would let me pour forth the sadness of my frustrated soul. Also I thought that perhaps they'd let me hang around the studio and listen to the bull fiddle.

Almost at once they discovered my accents. By this time I had a mere 22 of them, which I could control at will. At first I was delighted. Perhaps they were going to make some sort of language professor of me? No! Well, then, a character actor? No! Instead I had to play the clown, always jesting—though I was frustrated with a broken heart. The degradation of it all!

And, then—suddenly—the whole picture changed! Like a message from heaven came that little eight-inch violin, and the IDEA! Let my neighbors complain! I have cast off the shackles—I am taking lessons. Until I become proficient, I'll continue as a mere jester on the Rubinoff show over NBC, as "Blubber" over a New York station twice weekly, and as seventeen or eighteen different characters over CBS with "The Big Show" each Monday night. But then—

Suddenly I will appear before a startled world. The book says that in 20 easy lessons I will gain complete mastery of the violin. Then—to see the amazement of Broadway, the chagrin on the face of Rubinoff! My name will be in lights: "Blubber Bergmanoff and his Bull Fiddle." People who scoffed at the bulky body which hides my musical soul will be aghast when I appear—because—I will be the only violinist in the world big enough to tuck a bull fiddle under his chin! Frustration—farewell!

NOW: Radio's FIRST Understudy

THE show must go on!" Is radio taking over all the good old traditions of the stage? Since the Eton Boys have provided themselves with radio's first understudy—in the person of Arthur Herbert, ex-army corporal and Broadway singer—listeners are wondering if the good old stage drama of the understudy who jumped to stardom when the star skipped a performance, may not be repeated in real life some night—this time over the air.

Of course, every stage star has an understudy—an actor or actress letter-perfect in the lines of the featured player, and ready at a moment's notice to jump into the part in case the principal should suffer illness or accident. For on the stage the show must indeed go on—if it does not, another show cannot be put on—at a minute's notice, and so save the day (or night).

In radio, until this new day of Arthur Herbert dawned, the situation was entirely different. In the past, on those rare occasions when a star's illness has prevented him from performing, there always have been half a dozen different forms of entertainment available in the studio. No one considered understudies.

Now this has been changed—and not the Eton Boys themselves, but their sponsor, was responsible for the introduction of the understudy system to the air. The enforced cancellation of three commercial programs, including their own, led them to this step. The mishap occurred a few weeks ago. Just before the boys were scheduled to go on the air, Earl Smith, their tenor, was stricken suddenly with malaria.

There was no time to change the arrangements and orchestrations to eliminate his part, so this particular show just simply *couldn't* go on. It, and two others following closely on its heels, were cancelled. Thousands of listeners were disappointed.

The Eton Boys' sponsor was alarmed and distressed. Such a thing must never happen again! The boys must provide themselves with an understudy. And for this understudy musical arrangements must be made, so that if any one of the Etonians should be unable to sing, the

new vocalist and the new part could be slipped smoothly into place, without hitch or delay.

So Arthur Herbert was engaged. Herbert attends every rehearsal, is present at every broadcast. But so far he has not been called upon to do anything more than to earn his salary.

Arthur Herbert, whose picture shows him to be happy over his newest assignment, that of understudy to the Eton Boys

Of course, he has hopes that all the Eton Boys remain in the best of health. But if one should—well, say miss a train, it would be all right with him. For he likes to sing, especially to a wide audience such as the Eton Boys enjoy.

For that matter, Arthur could put on an entire one-man show if the whole outfit stayed away! Besides singing tenor, he could play piano, guitar, saxophone and drums! While a freshman at Wisconsin University, he quit to join the army. After the war he was detailed to Central American duty; later, when stationed at Washington, he had an opportunity to study at the Army Music School.

When he came to New York following honorable discharge, he made an immediate success as a singer, appearing in "Greenwich Village Follies," "Tangerine," "Funny Face" and "Whoop-pee." Following this came extensive radio work.

BECAUSE I'm big, no one pities me. I want the world to call me "Bergman, that genius of sweet music." Instead, people call me "Blubber." I yearn to play gently through life on the sonorous strings of a bull fiddle. Fate forces me to blubber through. I tell people—they laugh. They look at my 200-pound bulk and say "boloney." I listen to my soul and say "frustration." Frustration! That horrid word describes my life. I have been frustrated as a wrestler. I have been frustrated as an actor. I have been frustrated as a boxing and gymnasium instructor. Even as a sea-going deck-hand I was frustrated. Man and boy, I have been stuck up by life. But at last—I have life by the tail!

I am taking violin lessons! What if I do practice on an eight-inch violin? What if my friends laugh at me? What if Rubinoff did say: "Taddy, my frandt, you'll never beink a genius like I'M?" I don't care—for at last I know the meaning of it all! Inspiration came to me when I stood with my little eight-inch fiddle almost lost under my chin. Like a flash, I said to myself: "Ted, you are the BIGGEST violinist in the world! You are the only man who can ever—" But wait. I'm getting ahead of my story. First let me tell you how my life was one series of frustrations after another—then when I come to the end, you will realize how great is the triumph ahead of me!

It all started when I was a little boy. What if I

Babe Ruth Prize Winner

Oh boy, oh boy, oh boy—hot dog! That was about all Arthur Hennessy, seven years old, of 113 Nelson street, Jersey City, N. J., (pic- tured above) could say when a RADIO GUIDE representative asked him how it felt to win the grand prize in the Babe Ruth-Quaker Puffed Rice and Puffed Wheat weekly baseball contest. For little Arthur wrote the best last line for the limerick submitted by thousands of boys and girls last week, and won a week's trip to Chicago with a parent as Babe Ruth's guest. There are 1001 prizes offered each week, with the grand prize being a week's trip to either New York or Chicago, with Babe Ruth in person as host. A hundred fielders' gloves and 900 autographed baseballs are offered each week. Babe Ruth broad- casts Mondays, Wednesdays and Fridays at 7:45 p. m. CDT over the NBC blue network.

EX-LAX—THE CHOCOLATED LAXATIVE

\$3000 Life Protection for Only \$1 Down

No obligation—No medical examination
Free Inspection—Ages 1 to 75!
Send No Money!

Just send you name, age, address, and name of your beneficiary to Home Mutual Association, Dept. M-105, Phoenix, Arizona. Certificate providing up to \$3000 at death, made out in your name, will be mailed to you ABSOLUTELY FREE. Then, if you wish this amazing, low-cost protection, simply send \$1, which will put your certificate in force for 45 days. Thereafter, as low as 2c A DAY! One of the oldest Associations in Arizona. No unpaid claims! No agents. Write today.

BIG PAY IN BROADCASTING

FLOYD GIBBONS
Famous Radio Broadcaster

IT ISN'T necessary to be a "star" to make good money in Broadcasting. There are hundreds of people in Broadcasting work who are practically unknown—yet they easily make \$3000 to \$5000 a year, while, of course, the "stars" often make \$25,000 to \$50,000 a year. If you have talent—if you have a good speaking voice, can sing, act, write, direct or sell—then here is an amazing new method of practical training developed by Floyd Gibbons, that fits you—right in your own home in your spare time—for the job you want. Millions of dollars paid to trained talent every year. Men and women unknown today will be the high salaried Graham MacNamees, Olive Palmers and Floyd Gibbons of tomorrow. The Floyd Gibbons School will train you in the technique of Broadcasting so that you, too, may qualify for one of the big paying Broadcasting jobs open to men and women of talent and training. Our FREE book, "How to Find Your Place in Broadcasting" gives full particulars regarding our Course. It tells you how to prepare for a good position in Broadcasting—how you can turn your hidden talents into money, without giving up your present job or making a single sacrifice of any kind. You learn at home in your spare time. Send coupon at once for free book.

Floyd Gibbons School of Broadcasting
2000-14th St., N.W., Dept. 4F30 Washington, D.C.
Without obligation send me your free booklet "How to Find Your Place in Broadcasting" and full particulars of your home study Course.

CASH for Your Old STAMPS
Dig around the house. Somewhere in your garret, cellar, trunks, there is money buried—money in the form of stamps. True, some stamps are worthless—but again some are valuable. Write us what you have, or better yet send the stamps to us for FREE examination. Do it now—Today. Having bought stamps for many years from all parts of the world we enjoy the finest reputation for fair dealing and honest appraisals. We pay the highest prices for stamps of all kinds, accumulations, collections, old letters, etc.
And if you're interested in stamp collecting you should know about our wonderful "on approval" service. Get our famous illustrated booklet "Building Successful Collections," sent prepaid for 10c together with 15 different genuine worthwhile 19th Century stamps. Illustrated price lists and trial selection of stamps "on approval." Write for it today. You will enjoy it. Dept. 117.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. © 1931 C. M. Co.

DuCILLE MUSIC PUBLISHER 1061 Intervale Avenue, New York

\$1 PAYS FOR \$3000 LIFE POLICY

Even if you are past 55 — and without Medical Examination!

Guaranty Union Life Insurance Co., a licensed insurance company, is offering a new life insurance policy without medical examination to men, women and children from 10 to 75 years of age, for only \$1.00.

This new policy pays up to \$1500 for death from any cause; up to \$3000 for accidental death as specified. It is offered exclusively by this strong, licensed insurance company, which maintains a guarantee reserve fund with the State of California, as required by the State Insurance Laws, and which is the largest life insurance company of its kind in the State, having over 35,000 policy holders, who carry more than \$50,000,000.00 life insurance.

SEND NO MONEY—Just your name, age, name of beneficiary, and a policy, fully made out in your name will be sent to you for 10 days free inspection. NO AGENT WILL CALL. If you decide to keep it, send only \$1 to pay for your policy for at least 45 days... then only about 3c a day. If not, you owe nothing. OFFER LIMITED. So write today without obligation.

Accept 10-Day FREE Inspection Offer

GUARANTY UNION LIFE INSURANCE CO. Dept. B-43- 204 S. Hamilton Drive, Beverly Hills, Cal.

The RADIO MASTER 4 Radio Instruments in 1. POST PAID. MASTERS Radio Reception.

THOUSANDS of Radio Owners give the Radio Master credit for the fine tone and quality reception they now have. Try it at our risk on a Money Back Guarantee free trial basis.

THIS NEW RADIO INVENTION combines the achievements of four tried and tested Radio Instruments into one compact and simplified unit. It performs the functions of the following 4 radio instruments: 1—Compensating Filter for less static and better tone; 2—Wave Interceptor for sharper tuning and less interference; 3—Antenna Volume Control synchronizes and tunes the aerial to the radio; 4—Aerial Eliminator where aerial is impractical or imperfect, no aerial necessary.

The RADIO MASTER is placed between the set and aerial and can be adapted to any type of radio set, with any kind of aerial, or without aerial, when aerial eliminator principle of the RADIO MASTER is used. Approved by leading radio laboratories, quickly adjustable to improve reception. Once attached to a radio, no one will want to be without it.

GET THE RADIO MASTER TODAY! MONEY BACK GUARANTEE—Dealers Write

MASTER LABORATORIES, Brooklyn, N. Y. 30-Y Main Street.

Send \$1.00 today for the RADIO MASTER, or pay postman C. O. D. Try it for three days—notice improvement. If not satisfied, return and money refunded at once.

GOITRE NOT A DISEASE

Milwaukee, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A.A. Rock, Dept. 696, Box 737 Milwaukee, Wis., a prominent goitre specialist for over 30 years has perfected a different method of treatment which has proven highly successful. He is opposed to needless operations. Dr. Rock has published a copyrighted book at his own expense which tells about goitre and this treatment. He will send this book free to anyone interested. Write him today.

STUDEBAKER with Joey Nash
CHAMPIONS

WLW
Thursday—9 p. m.
Central Standard Time

You'll have **BARRELS OF FUN** when you learn to play this easy as A-B-C way

SUPPOSE suddenly you found you could play easily on your favorite musical instrument! Think of the fun you would have—how much in demand you would be! Do you know that now you can do this in a surprisingly short time? Thousands who never played music until a few months ago are getting thrills of enjoyment from a talent they never knew they had. By this simple new short-cut method you can actually begin to play any popular instrument without knowing one note from another! The secret of the U. S. School of Music system is simplicity. The lessons come to you by mail. They consist of complete printed instructions, simple diagrammatic pictures, and all the music you need. No grinding routine. Study when you feel like it—at home. In an almost unbelievably short time you find that you are actually playing! Jazz, musical comedy hits, movie theme-songs, even classics—you play them all—as easily as you now whistle or sing them!

FREE PROOF
If social popularity and increased income appeal to you—send today for FREE Demonstration Lesson with illustrated book describing

LEARN TO PLAY BY NOTE
Piano Violin
Guitar Saxophone
Organ Ukulele
Tenor Banjo
Hawaiian Guitar
Piano Accordion
Or Any Other Instrument

the now famous U. S. School of Music "print-and-picture" method of learning. Just mail the coupon. Then judge for yourself when you receive free lesson and descriptive material. U. S. School of Music, 4336 Brunswick Bldg., N. Y. C.

U. S. SCHOOL OF MUSIC
4336 Brunswick Bldg., New York City
Send me your amazing free book, "How You Can Master Music in Your Own Home," with inspiring message by Dr. Frank Crane; also Free Demonstration Lesson. This does not put me under any obligation.

Foreign Reception
NOISY?
ALL-WAVE SETS
Need this Special
ANTENNA

Now you can get the fascinating short-wave programs from more foreign stations as free from noise as domestic programs. RCA engineers, leaders in long distance radio communication, have perfected an all-wave antenna system that gives much greater signal pick-up than an ordinary antenna. Specially designed to free short-wave reception from interference from autos, motors, and other man-made static. Insures greater volume with less noise. Improves standard broadcast reception. Price \$7.00. Ask your dealer or service engineer today to make a *Certified Installation*.

RCA
WORLD WIDE
ANTENNA SYSTEM

Lighten Your Hair Without Peroxide to ANY shade you desire SAFELY in 5 to 15 min. Careful, fastidious women avoid the use of peroxide because peroxide makes hair brittle. Lechler's Instantaneous Hair Lightener requires NO peroxide. Used as a paste, it cannot streak. Eliminates "straw" look. Beneficial to permanent waves and bleached hair. Lightens blonde hair grown dark. This is the only preparation that also lightens the scalp. No more dark roots. Used over 20 years by famous beauties, stage and screen stars and children. Harmless, Guaranteed. Mailed complete with brush for application. **FREE 24-page booklet "The Art of Lightening Hair Without Peroxide" Free with your first order.** FRANK F. LECHLER Hair Beauty Specialist 569A, W. 181st St., New York, N. Y.

NEW PROGRAMS; CHANGES

(Central Daylight Time Shown)

Sunday, June 3
"Oregon on Parade" and "Variety Workshop," two features which have created enthusiastic audiences in their respective localities of Portland, Oregon, and Buffalo, New York, have become CBS-WABC Sunday features. "Variety Workshop," which originates in the studios of Station WKBW, Buffalo, can be heard from 3 to 3:30 p. m. and "Oregon on Parade" will come from the KOIN studios in Portland, from 3:30 to 4 p. m.
Dr. Israel Goldstein, President of the Jewish National Fund, will deliver an address on behalf of Palestine Flower Day over a CBS-WABC network today, from 4 to 4:15 p. m.

Gala premiere of "Voice of Columbia" with George Jessel as master-of-ceremonies, seven all star acts and five prominent orchestra conductors—all will perform in the first of a new weekly revue, to be presented over a CBS-WABC network each Sunday, from 7 to 8 p. m. Talent includes Gertrude Niesen, Sylvia Froos, Mary Eastman, Nick Lucas, Beale Street Boys, Fats Waller and a forty-five piece symphony orchestra.

The adventures of a woman and her daughter who suddenly inherit a million and a half dollars will be presented in a series of broadcasts entitled "Mrs. Montague's Millions" commencing tonight. This broadcast will be heard over an NBC-WJZ network at 9:15 p. m. Gertrude Coghlan will play the part of mother and daughter.

Helen Hayes, stage and screen celebrity, will be the Hall of Fame guest tonight. She will be presented in a dramatic sketch at 9:30 p. m. over an NBC-WEAF network

- 11:30 CDT—p.m.—CST 10:30**
KYW—Vincent Lopez' Orchestra; (12 Mid. CDT) Seymour Simons' Orchestra; (12:30 A.M. CDT) Clyde Lucas' Orchestra
WBBM—Jack Russell's Orchestra; (12 Mid. CDT) Carl Hoffmayr's Orchestra; (12:30 A.M. CDT) Ray O'Hara's Orchestra; (1:15 A.M. CDT) Henry Busse's Orchestra; (1:45 A.M. CDT) Earl Hines' Orchestra
WCFL—Leo Terry, organ recital
WENR—Dance Orchestra; (12 Mid. CDT) National Barn Dance; (1 A.M. CDT) Jules Alberti's Orchestra; (1:15 A.M. CDT) Henry Busses' Orchestra; (1:45 A.M. CDT) Earl Hines' Orchestra
WGES—Polish Variety Hour
WGN—Charlie Agnew's Orchestra; (11:50 P.M. CDT) Earl Burnnett's Orchestra; (12:10 A.M. CDT) Seymour Simons' Orchestra; Ted Weems' Orchestra; Bernie Cummins' Orchestra; Earl Burnnett's Orchestra; Charlie Agnew's Orchestra; Emil Thaviu's Orchestra
WIND—Trio; (11:45 P.M. CDT) Gus Arnheim's Orchestra; (12 Mid. CDT) Dick Ede's Orchestra; (12:30 A.M. CDT) Midnight Salon

Monday, June 4
The University of Nebraska Commencement Exercises will be broadcast today at 11:30 a. m. over an NBC-WJZ network. The Commencement Address will be given by Owen D. Young, and the invocation, by Chaplain Chancellor E. Guy Cutshall. Music will be furnished by the Lincoln Symphony orchestra.

Tuesday, June 5
Effective tonight the Palmer House Promenade changes its time and network. The new time is 8:30 p. m. over an NBC-WEAF network. Ray Perkins continues as master of ceremonies, assisted by Harold Stokes' orchestra and guests.

The American Premiere of the Russian Ballet "Red Poppy" will be broadcast tonight. The presentation consists of an NBC Symphony performance from Gliere's manuscript with Frank Black conducting. This will be Part 1; the concluding broadcast will be heard next Tuesday, June 12. Both of these performances will be heard over an NBC-WJZ network at 9 p. m.

Wednesday, June 6
A condensed version of "The Drunkard," famous temperance play first produced by P. T. Barnum, circus man in New York in 1843, will be heard over a CBS network tonight from 10 to 10:30 o'clock by the cast which is now presenting a successful revival of the play in New York City.

Thursday, June 7
The 38th annual play for the United States Open Golf Championship will be described by Ted Husing in a series of seven broadcasts over WABC-CBS Thursday, Friday and Saturday, June 7, 8 and 9, from the Merion Cricket Club at Ardmore, Pa. The CBS broadcast schedule for the tournament follows:
Thursday, June 7, 12 to 12:05 p.m. and 4:45 to 5 p.m.; Friday, June 8, 12 to 12:05 p.m. and 5:30 to 5:45 p.m.; Saturday, June 9, 12 to 12:05 p.m. and 2 to 2:10 and 5:15 to 5:30 p.m.

Friday, June 8
Ogden Mills, former Secretary of the Treasury, will be the guest speaker in the weekly series of Intercollegiate Council programs. Mr. Mills will be heard this evening at 6:15 o'clock over an NBC-WJZ network.
Countess Olga Albani, soprano, will begin her second Summer series as guest artist on the Cities Service Concert tonight. She will be abetted by the Cities Service quartet, Frank Banta and Milton Rettenberg, piano duo, and Rosario Bourdon's orchestra. The Cities Service Concert is presented over an NBC-WEAF network at 7 p. m.

Tune in
WLS or WLW
9:30 P.M. CDT
Sponsored by ALKA SELTZER

A rollicking program of old time singing, dancing and homespun fun. Over 40 Radio Artists including the Cumberland Ridge Runners, Linda Parker, Skyland Scotty, Maple City Four, Spareribs, Tom and Don, Lulu Belle, Hoosier Hot Shots, Uncle Ezra, Louise Massey and the Westerners brought to you direct from WLS, Chicago, every Saturday night over 24 NBC stations coast to coast.

BUDDY, ZEB AND OTTO ARE LATEST WJJD ACQUISITION

WJJD, in the past few weeks, has presented some new voices on the air and now you see what they look like. *Buddy, Zeb and Otto*, known to you as "Three Boys with Their Fiddle, Guitar and Trumpet," are perhaps the most versatile act on radio today. Their fund of arrangements, from novelty to semi-classic, is limitless. Clowning or serious, they are class personified. When doing strictly instrumental selections they harmonize so perfectly one believes he is listening to an augmented orchestra. But their ability to harmonize on the air does not end there.

The picture above shows Zeb and Buddy anxiously cultivating and preserving the lone six-inch hair that adorns the pate of Otto, Me Tu. If you look closely at the photograph, however, you will note the contemplative mien of Buddy who, it seems would like to wield the shears on the defenseless hair. (Note to Otto: beware that guy Buddy). Buddy, Zeb and Otto are heard frequently throughout the day on WJJD programs. You will like them.

EDDIE LOFTIS, one of Chicago's pioneer radio performers, is an addition to the WJJD staff. We need say little about Eddie who is well-known to all of you.

A NEW SINGER

The good old summer-time is productive of a new radio personality. But *Gretchen Lee* overcame the inhibitions of WJJD program men by her ability and receives her debut immediately, instead of being saved till Fall. Gretchen was discovered, so to speak, by *Fred Beck*, station organist, when she visited the new Beck studios in the Wulitzer Building. Gretchen came not as a singer but as an accomplished pianist. Her brother, however, had been trying to convert her into a singer since she was five years old.

Gretchen Lee

When informed there was no vacancy for a pianist, Gretchen admitted she had sung some in her home town of DeKalb, Ill. She was speedily auditioned and signed by Beck to appear with him on his Tuesday and Friday programs at 8 p. m. Miss Lee will not be eighteen until June 20. Her voice has a peculiar throatiness that will hold you and with experience she bids fair to climb the heights of radio.

DRAMATIZED HORSE RACES

Buell Patterson is the sports announcer who is handling the new feature of WJJD. He dramatizes the featured races taking place at the major tracks of the country. For further information consult RADIO GUIDE.

265 METERS

PLUMS AND PRUNES

By Evans Plummer

WHILE radio editors the country over are burning up because they were scooped on the news that *Amos 'n' Andy*, after years and years on the air, were about to take an eight weeks' leave from the Pepsodent program and that "*Bring 'Em Back Alive*" *Frank Buck* would fill in, you may be interested in HOW the story broke. At least it is some satisfaction to us, among those scooped, to tell that.

It seems that *Movie Columnist Jesse Krueger*, of a Chicago evening newspaper, was keeping his nightly vigil at the College Inn, a vigil that is so permanent that uninformed people have the strange idea that Jesse is the manager of the joint. But anyway, there he sat when in walked explorer *Buck*.

"I guess I'll be sticking around Chicago awhile this summer," he greeted the columnist. "I've just been signed by Pepsodent to work on the *Amos 'n' Andy* time."

"So?" said *Krueger*, and realizing that you can't put something on the air where something else is, he was wondering what about the blackface team and the mystery of it all when in walked *Charlie "Andy" Correll*.

"Well," drawled *Andy*, "we've finally succeeded in getting over our request for a vacation. We asked for eight weeks, and we got it!"

And so the story broke . . . but as we go to press, the beautiful portals of the National Broadcasting Company remain as silent as the Sphinx . . . They still won't talk for publication!

THE SAME columnist, *Mr. Krueger*, seems to have precipitated the singing of a hymn of hate by one *Harry Richman* for a violinist-ribber by the name of *Eddie Cantor* . . . Something about *Eddie* having said, it is alleged, that *Richman* introduced him into a crooked gambling game at a charity bazaar which cost the comedian \$5,000 . . . And, now, *Harry* wants to sue a whole newspaper chain—instead of *Cantor*, whom he should, if *Cantor* really slandered him.

Anyway, who ever expected a charity bazaar game to be on the up-and-up? And what's a paltry five grandolas to a big-hearted guy like *Cantor* who, according to his programs, lavishes currency all over *Ida* and his five daughters?

Author Downey

MORTON DOWNEY, whose opening for a limited engagement at Chicago's *Chez Paree*, brought one of the greatest ovations from the dine and dance crowds yet witnessed in the Windy City, has turned author. His impressions of the World's Fair, printed in a morning newspaper, were the work of a finished reporter, and the literary form was excellent, according to *Harry Steele*, the demon RADIO GUIDE writer, who comments:

"It all goes to show that being a newspaper and magazine butcher on the *New Haven* and *Harford* left its early impressions on *Mort*. Authors should always begin at the bottom and work upsy like *Downey*."

But seriously, *Mort's* doing all right in Chicago, and his only worries are *Barbara* and the two little tots at home who are ailing with whooping cough. The tenor's rumored resumption of the *Downey-Wons-Renard* program—with a sponsor—is delayed for the moment, however, as the advertiser is having money trouble.

Plums and—

PLUMS are awarded to WLS for the splendid *Alka Seltzer* stunt program fed to NBC last Saturday night when the Century of Progress opening was covered from the sky. For the first time a singer, *Grace Wilson*, vocalized in an airplane to piano accompaniment (by *John Brown*) from the ground. The synchronization was perfect . . . and plums also to the plane operator, who, when he noticed the WLS transmitter accidentally go off the air for a minute, switched his receiver to another station so that the stunt, so far

as the network was concerned, would not be ruined.

And here's a basket of the juicy fruit to old old friend, *Singin' Sam* (and the charming new missus) who launched his return to the air last Monday night with "*Lazy Moon*." And now that *Sam's* back on the air once a week, all we want is more of him—which we'll get come July and August when the *Prager* beer schedule enlarges to twice a week.

More plums, and this time to *Richard Himber* and his "championship" *Studebaker* programs starring *Joey Nash*. You know, of course, that the day changes to Tuesday on June 5?

And now a few wrinkled prunes . . . to the stations of Chicago and networks for throwing mud all over one another's coverage of the Union Stockyards holocaust. They work together grand in a crisis, but at the end, when everyone's done a real job, they all begin fighting over the "bone"—who was first, who did it best, etc . . . Plums to all for their good work, and prunes for their selfish afterthoughts.

More prunes to the networks, and the local stations in particular, for their lengthy patter selling ballrooms, restaurants and cabarets during the music pickups from these spots. Instead of convincing prospective dancers and diners by means of music, these pickup points are now ruining the best form of testimonial—good music—with their boring announcements.

Inside Pickups

WLS IS MAKING rain-producing experiments, and you may be hearing a radio broadcast of their progress before long. Again WLS lives up to its name—the most important station between the Alleghenies and the Rockies to the farmer . . . *Carnation Contented* show's survey reveals the Brahms' lullaby leading all other cradle songs by 10,000 votes, and *Mme. Amelita Galli-Curci* will sing it for you on that program on June 18 . . . The PAYOFF: Remember *Downey's* and *Novis'* "battle of the tenors"? Well, last week in New York, *Schlitz* auditioned a show with FOUR (count 'em) tenors in it! We like radio editor *Yank Taylor's* clever comment—"Schlitz has renewed for thirteen weeks' auditions" . . . Then there's another brew, *Blue Ribbon*, for whom *Ben Bernie* will celebrate the beginning of his fourth year next Tuesday, June 5, with a lot of Hollywood stars on hand for the beer and skittles . . . By the way, the Old Maestro's film, "Shoot the Works," will be released June 29 . . . *Irene Beasley* stars in her own program idea beginning July 15 with an eight-week contract over NBC for *Fitch* . . . Congratulations are in order for the predicted bundle of joy who has arrived at the home of the *Bubb Pickards* and has been named *Marian Arlette* after her mother who is doing nicely . . . *Wendell Hall*, veteran star of the air who was married ten years ago with the pioneering WEAf network carrying the ceremony, will observe his tenth anniversary over NBC this Sunday, June 3, at 6:45 p. m. CDT . . . *Dottie Martin*, ex-NBC Chicago hostess who made good in the film tests, has been taken under the wings of *Jack Benny* and *Mary Livingstone* who've taken *Dottie* to California with them for their air and picture work . . . *Montague Love* did such a beautiful rendition of "Eagin" at the NBC studios the other day that he had the whole force of vice-presidents asking to hear more . . . and *Taylor Holmes*, who isn't such a bad actor himself, is showing his wares to a warm CBS client, while his daughter is going in for radio singing.

Found: One Trio

TRIOS to the right of us, trios to the left of us, and trios front and center. We asked for 'em, and we got 'em.

But among the most promising, which with little grooming will knock your ears off, are the three lasses from Oregon, Ill. No, we won't tell their names—but wait till you and *Admiral Mike Porter* hear them.

That hat's as good as won.

"Lena" Comes of Age

GREAT reputations are common in radio; but now the comic team of Gene and Glenn is trying to make itself two reputations. "Lena," their popular impersonation, comes of age in the process. How? Witness:

It seems that broadcasters all agree that radio has attracted two audiences. One is made up of the daytime listeners. The other consists of the set-owners who tune in after twilight. Thus in radio it is undoubtedly true that one half of the listening world never knows what the other half hears.

That is why Gene and Glenn, who have received so many thousands of fan letters from the day-time audience, have been entirely unknown to the listeners of the night.

Their attempt to conquer this second world of radio broadcasting began on April 23, when they opened with a commercial program now being heard every night except Saturday and Sunday over an NBC-WEAF network.

Will the homey humor that has made their first reputation please this new group of listeners sufficiently to build for them a second? The boys are full of hope and modest confidence.

"We think we have an excellent chance," they say. Though realizing fully that these two clock separated worlds of radio often vary as greatly in taste as they do in time. Gene and Glenn believe that their act has a wide enough appeal to put them over again. "We have tried to give simple comedy situations and simple characters," they state.

"We believe the radio listener likes homey things and things that are easy to understand. We do not believe that a production is good, or clever, merely by virtue of being complicated or elaborate. Our characters, as before, will have their troubles and their laughs, even as you and I. If we can make our situations real and funny and interesting, I think we don't need to worry about the night-time fans."

Perhaps to those same night-time fans, a brief introduction of these boys they have recently met might be in order

Well back in the dark ages of wireless transmission there were two radio teams that delighted the tuners-in of WLS in Chicago. One was Ford and Glenn, and the other Jack and Gene. Then fate, and the different ambitions of the four men, began to shape their futures. Singularly enough, both teams moved to Cincinnati at

about the same time.

Jack, of the Jack and Gene team, had the bad luck to contract a throat infection which eliminated him. So his buddy, Gene, teamed up with Ford and Glenn. Time passed, and Ford decided that he had enough money to fulfill a lifelong ambition; he went west, to the sun-kissed slopes of a fruit ranch in California.

And so came into being the team of Gene and Glenn, by a process of combination and elimination. They've stuck together. Their real names are Gene Francis Carroll and Glenn Rowell, both natives of Illinois.

They went to Cleveland shortly after their Cincinnati experiences and there, over WTAM, they experienced their first foretaste of the wealth of popularity that was to come. It was then that they started to develop the characters "Jake" and "Lena."

These two parts are both played by Gene. Glenn acts as straight man, plays the piano, sings and does whatever else is necessary.

Heretofore they have played only to morning audiences, first at WTAM and later over NBC networks as The Early Birds.

Their most famous character is "Lena," who is "Jake's" girl friend. She came into being in this fashion: One night at WTAM Glenn was kidding "Jake" about his girl. Gene is known by his broad Dutch dialect. "Oh, you mean my girl, Lena," said "Jake," picking the name out of the thin air. And then, assuming a falsetto voice, he pretended to usher "Lena" into the studio where she was quickly introduced.

There is no question about how the afternoon audiences liked her. The boys hope that the night owls like them just as much and that the variation in taste will not, after all, be as great as that in time.

They expect, too, that their fan mail will surely provide an interesting test.

Gene and Glenn, Gene Francis Carroll and Glenn Rowell as they might be found any morning preparing their popular program

RADIO HAPPENINGS at the CAPITAL

WASHINGTON, D. C.—After a reign of seven turbulent years as the supreme monarch over an art and industry that has developed with almost reckless abandon, the Federal Radio Commission soon will be consigned to the scrap-heap of defunct government agencies. Its functions will be turned over to a new, bigger and more important agency—the Federal Communications Commission—which will have regulatory control of telephones, telegraphs and cables along with radio.

The Radio Commission will wind up its tenure in anything but a blaze of glory, if pending legislation to create the new communications body completes the legislative gauntlet at the current session of Congress. It has been among the most criticized of all Federal agencies, and it is no secret that many legislators are fostering the new Commission because they feel that the existing agency has been inefficient. *Senator Dill*, of Washington, radio leader in Congress, repeatedly has taken the Commission to task for alleged incompetency.

In justice to the expiring Commission, it should be stated that it is not entirely to blame for all of the mistakes it allegedly has made. Radio almost from the beginning has been a political football and the demands made upon individual com-

missioners for political favors by members of Congress and others influential in governmental affairs have been great. That has been because radio wave lengths are limited, with the demand far surpassing the supply.

But in its waning days, the Radio Commission has displayed a surprising degree of unrest—or perhaps it is merely nervousness. Two of its most recent actions, both directed at important newspapers which have criticized the Commission editorially, have provoked considerable discussion.

That a government agency can be so "thin-skinned" as to protest criticism in so formal a manner is regarded as little short of amazing. One of its actions was the adopting of a formal resolution calling upon the publisher of the *New York Herald Tribune* to produce evidence to support its editorial contention that radio is controlled by the administration.

Its second action involving a newspaper was that of informing Station WGN, Chicago, owned by the *Chicago Tribune*, which has criticized the Commission editorially for allegedly "playing politics" that a complaint had been made against the use of "profanity" in one of its broadcasts. The Commission has thrown sta-

tions off the air in the past upon proof that obscene, profane and indecent language has been used.

In the Chicago Tribune case it developed that the speaker during the particular program in which it was charged profanity had been broadcast was Rep. James M. Beck, Pennsylvania Republican. True, he criticized the "New Deal" in his address, with particular emphasis on the NRA, but his prepared address failed to reveal use of any language that reasonably would be construed as profanity.

The Commission, in its letter to the station, said the complaint was made by an individual in Chicago and that it was following the usual procedure in asking for an explanation. In some quarters it was felt that the action was taken as a "retaliatory measure" because of the stinging criticisms of the Commission in recent articles written for the Tribune by its Washington correspondent, *Arthur Sears Henning*.

It was the resolution involving the *New York Herald-Tribune*, however, that caused the greatest stir. The resolution pointed out that that newspaper, on May 12, published an editorial in which it stated:

"The radio, controlled by the adminis-

tration through its licensing power, was made the spokesman of the New Deal and largely restricted to government propaganda."

Since the radio law specifically prohibits any censorship by the Commission, the Commission's resolution called upon *Ogden Mills Reid*, publisher, "to furnish the Commission any facts or material, including the names of parties furnishing the same, which would support, or tend to support, the statements made in the editorial column of said newspaper."

Raps Radio's Fidelity

REPEATING the charge of a recent magazine writer that radio "coats the tongue of music" because of the inferior quality of its reproduction, *Stuart Ballantine*, well-known New York radio engineer, hurls the added charge that little progress has been made in the technical improvement of broadcasting the last five years. His charge, and a technical discussion of what can be done about it, appears in the *Proceeding of the Institute of Radio Engineers* for May.

Radio transmission and reception today, he says in effect, is far from the high fidelity that is technically possible. The feeling that it is "good enough" is

(Continued on Page 33)

BEHIND THE SCENES IN THE LOCAL STUDIOS

By Harry Steele

JUST about the time you reach the mood for extolling the value of age, along comes a chap like Eddie Duchin to prove that at 25 the summit is not out of reach.

On the crest of international popularity

the brilliant pianist stands a bit out of breath from having literally been whisked to the top. But his mind is clear and unaffected by success, which will doubtless act to help maintain his poise and leadership.

When you stop to compare Duchin with many other musicians, particularly a few of the more talented pianists, you begin to acquire the opinion that success is less a matter of skill than management. Duchin seems to have the knack, not alone of how to play, but what to play. On the other hand there have been countless examples of able piano players who have flashed across the picture and faded from sight because of inability to sense public taste, or downright stubbornness about yielding to it.

Although he has been in Chicago but a few days, Duchin's popularity is already as assured in the middle west as it is accomplished in the east. His sort of appeal is universal and geography affects it not a whit.

Little need to recount his stirring story of a life diverted from purely utilitarian activity to one of entertainment. He is a potential chemist turned alchemist, transmuting the dross of current music into the pure gold of harmony; a predestined dabbler in medicines whose current prescriptions will cure more ills than all the nostrums ever devised.

Long life to his gifted fingers and his sound judgment.

AMONG THE progressive steps of W. B. Bauer, managing director of the Lawyers' Legislative League heard over WJJD and other stations, is the formation of a

group of two hundred lawyers which are at the disposal of the administration to advocate President Roosevelt's policies and explain them to the public. They are available to the public for meetings or the radio and may be engaged by calling Mr. Bauer, Dearborn 2525, or addressing him at 77 W. Washington St.

NORM SHERR (WBBM) is temporarily hors-de-piano, as a result of getting two fingers caught, and badly lacerated, in a "chain" hook-up. And it was always our assumption that the Wrigley building had more modern equipment than that.

A SPECIAL program comprising a full half hour of music from the pen of Frank Furlett and played by his orchestra with vocal choruses by Harry Kirsch, will be broadcast from Kirsch's Town Club this Thursday, May 31, at midnight over Station WEDC.

The pathological angles of bank robbery may or may not be the motive for a talk to be given over WIND, Monday, 9:15 p. m., by Dr. P. H. Weeks, Indiana State Penitentiary physician, on the subject of that type of criminal.

For purposes of brevity, KYW's Mary Madoc dropped the original form of her Welsh name, Apamadoc. (Or perhaps she was afraid she might be mixed up with the Civil War battle of that name). The "Ap" in Welsh names is equivalent to the "von," "de" and "O" in nomenclature of other nations.

LOVE of the land must be truly primal. No greater devotee of sailing that Steve Trumbull (World's Fair publicity) ever stepped a mast. Next to his family his boat was his pride and he would as soon have deserted one as the other. Steve probably would far rather man his ship than stage a machine gun battle but ave, boom and spar. Trumbull has become

one of the landed gentry. His eventual contribution to the world's goods will be the limes for your side-cars and an occasional avocado, all from Florida acreage, lately acquired. But recently it became nip and tuck between the plantation and the boat—Steve was nipped so he tuck the boat and traded it for six wagon loads of fertilizer and if a piece of his heart went with the trim little vessel—well, surely you can understand.

So afraid of being labelled "high-hat" is Gene Arnold, that he breaks an age-old precedent by permitting members of his Monday night minstrel staff to address him by his first name. Since the first minstrel show, "bones" and "tambos" have addressed the middle-man as "Mr. Interlocutor." But the lad who put the Gene in genial is so afraid of cultivating formality in the program that he abandons customs.

Many were called but only Frank Baker (divorced by fire from WAAF) was chosen in a recent audition by Manager Jay A. Jones of the Edgewater Beach hotel. He will announce events at the popular north side hotel via WBBM and CBS.

If you were mildly surprised recently at Attilio Baggio's repetition of "O Solo Mio" on a WGN program, you can blame it upon the voluminous requests received for the encore. The applause-mail test, infallible in radio, reveals it his most popular selection although it runs but slightly ahead of "Ave Maria" in the listeners' favor.

Ducks and Etudes

Bludgeoning through the accumulata of a week, in search of an inspiration, it is difficult to evade the prevailing message in correspondence anent radio programs.

It is apparent that we have growing up in this country a group whose culture has the gloss of veneer, newly applied on baser material. It is their wont to prate of symphony orchestras the while they affect a great disdain for Joe Penner.

Seemingly a limited glossary of musical terms, rolled unctiously off the tongue, constitutes their "Shibboleth" and the ability to mouth them marks them of the tribe. And as they chatter blithely of arpeggios, vibrato and the like, they harbor a secret conviction that andante is the daughter of the Italian poet. But Joe Penner and his standing in the RADIO GUIDE Star of Stars contest prompts them to deplore the taste of all but them. Fiddlesticks.

Joe Penner is to radio all that Charles Chaplin is to the movies. He is the perennial nitwit (in his radio role), the hapless buffoon, slightly daft and put upon by one and all, yet trying to smile and jest his way around life's obstacles as though to mask his mental confusion. His underdog characterization, deftly presented and beautifully appealing, charms the truly understanding.

Only a person who thoroughly understood and truly loved music could appreciate his art, or shall the premise be reversed to say that only those who have an appreciation of Penner's art have the capacity for a genuine conception of music.

Perhaps these self appointed critics accept his execrable and frayed-edge lines as the true symbol of his skill. Which is to be hoped because if their perception is that shallow it bears out the contention that their knowledge of the classics in music is slightly superficial.

The much publicized improved recording system developed in conjunction with telephone company engineers had its most recent test in the Froman-Ross-Hayton programs launched recently by WGN. The combination hiss and static which made the discs so palpably synthetic is missing entirely from the new type and listeners who did not hear the introduction or the sign-off of the two programs must have believed they were hearing a direct studio presentation.

Asthma kept her awake nights

TELLS HOW SHE GOT RELIEF

"I had Asthma bad for five years. I tried many things without success. Then I began taking Nacor. Now I am feeling fine. I have told lots of people who suffered from Asthma and they found it a success also. I am thankful to Nacor for my good health."

Mrs. Maddalena Rosignoli,
4221 McClellan Avenue,
Detroit, Mich.

FREE—Do you suffer the tortures of Asthma or Bronchial cough? For years, Nacor has given blessed comfort to thousands. Relieves discomfort—lets one breathe freely again. Not an ordinary medicine. Write for booklet of helpful information and letters from happy users, **FREE**—no obligation. Nacor Medicine Co., 404 State Life Bldg., Indianapolis, Indiana.

ALONG THE AIRIALTO

(Continued from Page 5)

who is to be one of the members of the comic's radio "stock company."

Rosaline Greene enacts the role of the "talking" Mary Lou in both the Show Boat and Maria's Matinee programs.

SEVERAL AGENCIES have looked at and listened to Earl Oxford, who appeared in the movie, "Riptide" . . . Lawrence Tibbett and Richard Crooks will take their regular summer vacation from the microphones, but the sponsors have decided to stay on the air. On June 4, began an entire new show. Talent at this writing has not been selected . . . the sponsors of the Red Davis sketches used the fan mail received last season in making a survey to find out whether they were interested enough in the program for them to bring it back next fall. Those who replied were unanimous in their opinion, so on October 1, Red will return to the airwaves with many more stations added.

Harry Salter will add Joyce Whitfield, a Columbia, Missouri girl, to his Campus Choir . . . Frances Langford leaves New York on Friday for a vacation at her home in Tampa. She returns on June 11, the day upon which the Colgate "House Party" becomes a Monday feature instead of a Saturday show over NBC.

Helen Hayes Show

WHEN Helen Hayes made her appearance on a recent Hall of Fame show she gave an original radio drama written by the newspaper-actor-producer Peter Dixon, who in other words is radio's Jack-of-all-trades. Pete is also the writer and producer of the CBS Bobby Benson kiddie shows . . . May 29 marked Ed Wynn's last broadcast of the season and the eleventh of June will ring down the curtain on the Walter Dawson programs for his auto sponsor . . . David Freedman will bring

Eddie Duchin

MUSIC IN THE AIR

(Continued from Page 14)
are possibilities for adaptation on this hour.

A popular radio accompanist is working on an operetta with only one tune. "It's not a gag", he says. "The theme of the single tune will be developed and arranged to fit the story. It might be monotonous but I think rhythm and harmonic treatment will take care of that."

That's right! One tune is quite enough for an operetta.

"The Red Poppy"

TRAVELERS returning from Moscow have told us the story of the Soviet ballet, the "Red Poppy." At first, many objected to this art-work as communistic propaganda, and some critics described it as mediocre. But the power of the Chinese story persisted, and its melodic music pleased the Russian ear. No one can say today that the two-act ballet continues only as a *succes commande*.

Through the ingenuity of *Frank Black*, we are to hear the American premiere of the "Red Poppy" Tuesday evenings, June 5th and 12th (NBC at 9 p. m. CDT). Mr. Black will conduct from the hand-copied manuscript of *Reinhold Moritzovitch Gliere*, which was secured after considerable difficulty from the Soviet authorities, due to the restriction on the export of music from that country. The NBC Symphony Orchestra will be augmented to 100 pieces for these special broadcasts.

Mme. Frances Alda

Frances Alda was one of the most disputed characters ever to sing on the Metropolitan opera stage. As the wife of the General-Manager, *Giulio Gatti-Casazza*, numerous intrigues were connected with her name, to which gossip fastened many explosive tales.

Since her retirement to the radio (Tuesdays, NBC at 5 p. m. CDT), she has been writing her version of this checkered past. When the autobiography is finally published, many opera singers and their

friends will descend on the book-sellers for a copy. No doubt Mme. Alda can tell plenty. "Will she?" is the question every one is asking.

In the meantime she is planning for the radio debut of a young Italian-American girl, who she believes has one of the greatest soprano voices today.

Mme. Alda as a youngster came from New Zealand to visit some friends in London. There she met *Marcel Journet*, who after hearing her sing, sent his photograph with the inscription: "Within a year you will sing Marguerite to my Mephistopheles!"

Just eighteen months afterwards she was called to London from Paris to substitute for *Nellie Melba* in "Faust." Journet was the Mephistopheles.

The young Italian singer, however, will never be able to follow her patroness's career in opera. She was crippled by infantile paralysis when a baby, and walks with difficulty. Mme. Alda hopes to have her sing concerts, and over the radio

The Singing Lady

"HE brought Mozart to mining camps and Wagner to the Wilderness," was said of *Walter Damrosch* when he conducted his "barnstorming" tours of the country years ago. Today, Damrosch is still reaching those same communities with his broadcast concerts.

But not all of his admirers know how he came first to know music and finally be a conductor. And many of the smaller generation will make their first acquaintance with his name and the details of his life as a child next Friday (June 1, NBC at 4:30 p. m. CDT).

At that time *Irene Wicker*, as "The Singing Lady," will present the story of the child, Walter, as one of her regular Friday night series, "Child Lives of the Great." On these programs musical figures predominate among the great, and she has told earlier of the lives of Haydn,

Mozart, Beethoven, and other composers, as well as contemporary celebrities.

Miss Wicker says that children seem to find music more interesting when they know the personalities that produce it. She is certainly correct, for in this respect, even sixty-year olds and octogenarians are still children.

Assisted by *Allan Grant*, who improvises on strains of their own music, or music that has influenced them, or music that has become associated with them, "The Singing Lady" dramatizes the events surrounding their first contact with music and their first expressions of it. She does this in the language of children, with naturalness and consummate mastery.

Her creations are works of art. They touch a sympathetic chord in every sensitive adult as they take him back to days long since gone. With Miss Wicker, we all become children again.

Her dramatizations, entertaining as they are, have deeper implication than mere story-telling. By "painless" education, they extend the realm of appreciation and culture in America.

Sibelius Concert

ALL TOO short will be the portion of the Sibelius concert we hear from the Queen's Hall, London (NBC, Monday, June 4th, at 2:40 p.m. CDT). A portion of a symphony and a song sung by Miss *Helmi Liukkonen* will fill the twenty minutes that we will hear. *Georg Schneevoigt*, noted French musician, conducts the concert by the Finnish National Orchestra now visiting London. The English, probably more than any other people, are devoted to the works of Sibelius. Their great critic, *Ernest Newman*, con-

siders him "the greatest living symphonist." It is unfortunate, when we hear so little of his music, that we can not have the full concert re-broadcast.

Giuseppe Bentonelli

THE Streets of Paris Ball in Chicago's Century of Progress was the scene for the American debut of a new operatic tenor, *Giuseppe Bentonelli*. The young man, an American—Joe Benton, by name—possesses one of the rare lyric tenor voices of the day. It has a timbre all its own, of smooth, dark glory, and he sings with taste. His sympathy glows through an ease and abandon that are contagious.

Mr. Bentonelli broadcast an impromptu aria on the radio recently, but he will be heard again next season from the Chicago Civic Opera. At the moment he might be best described as the answer to an opera impresario's dream.

Broadcast Notes

(Time Shown Is Central Daylight)

Yascha Davidoff, American basso just returned from many years in Russia, sings "All Things Apart" by Rachmaninoff; Tchaikowsky's "Where Dancing Was Loudest"; "Sweet Song of Long Ago"; and Sachs' "The Three Riders." (Thurs. May 31, NBC, at 2 p. m.)

Josef Lhevinne broadcasts an all-Chopin program (May 31, NBC at 9:30 p. m.) and an all-Liszt program (NBC, June 7, at 9:30 p.m.)

An "Ave Maria," arranged to the Intermezzo from Mascagni's opera "Cavalleria Rusticana," the ever-popular "L'Amour Tourjour L'Amour" by Friml and "Siboney" by Lecuona are *Jessica Dragonette's* solos on the Cities Service Concert (NBC, Friday, June 1, at 7 p.m.)

The famous Mexican Typica Orchestra takes you to Old Mexico every Sunday morning (NBC, at 9:30).

Happenings at the Capital

(Continued from Page 31)

described as "an attitude of *laissez faire* that has been eagerly espoused by receiver manufacturers and broadcasters alike during the present economic depression." Mr. Ballantine calls it "a demoralizing period that has not encouraged the exercise of a critical judgment of performance either by engineers and manufacturers or by the public."

Not only have technical improvements been overlooked during the period of "red ink," he charges, but the public taste has been further dulled by exposure to the quite inferior performance of the smaller types of sets—midgets and submidgets—which its reduced pocketbook has obliged it to buy.

"Radio receivers," he adds, "still sound about the same today as they did five years ago and a lot of the more recent types a great deal worse. The majority of these improvements have contributed to operating convenience and reduction of cost but have not greatly enhanced the aesthetic value of the receiver as a musical instrument."

New high quality technical standards, insuring tonal fidelity, are urged by the writer. Demonstrations of high quality receivers to many non-technical persons during the last two years, he says, have indicated a high degree of interest and satisfaction. This indicates, he believes, that "an avid public acceptance can therefore be confidently predicted" if the right kind of equipment is placed on the market.

The first anti-radio-propaganda pact has been concluded between Austria, Switzerland and Czechoslovakia. The signatories promised to avoid all transmissions likely to harm the susceptibilities of their respective populations.

EXCEEDING either New York, Chicago or Los Angeles, which lead the Unit-

ed States and the rest of the world in the number of their broadcasting stations, the city of Shanghai has 35 broadcasters. Twenty-nine of these broadcast in Chinese, and the National Government has been troubled with a real problem in allocating wave lengths to the stations to preclude interference.

Broadcasters to Meet

The men who make the radio kilocycles hum—the broadcasters—will foregather this fall in Cincinnati to tackle the problems confronting the industry and devise ways and means of improving radio's service to the listeners.

Having virtually doubled its membership in the last year, the National Association of Broadcasters anticipates an attendance of some 500 of the nation's 600 stations at its next convention, to be held there September 16, 17, 18 and 19. Aside from the usual topics relating to program development, the broadcasters this year are faced with an enormous task of re-adjusting their operations in conformity with changes wrought by the National Recovery Act.

Radio's perennial battle over music performing rights again will come into the open during the convention. At its convention last year the broadcasters retained the law firm of *Newton D. Baker*, former Secretary of War, to handle all matters incident to its copyright conflict with the *American Society of Composers, Authors and Publishers*, to which stations this year paid about \$2,000,000 in royalties.

Although a suit to dissolve the Society as an alleged illegal combination now is pending, and many conferences have been held in an effort to reach an agreement, little headway has been made during the last year in the copyright conflict.

BANDSTAND AND BATON: Moving Day

ONE OF THOSE big movements in dance orchestras, so popular on the west coast, will take place again this week. Before the smoke has cleared, fans will find that every major orchestra will have changed places. *Kay Kyser* will take his singing ensemble and orchestra into the Miramar hotel, San Francisco, and *Happy Felton* will replace Kay at the Bal Tabarin, in the same city. West coast NBC wires will broadcast music by both of these maestros. *Ted Fiorito* begins a ten weeks' road trip, and *Gus Arnheim* moves into the vacated Coconut Grove, Los Angeles. From this spot, Arnheim's airings will be NBC rather than CBS, as before.

RUMORS CONTINUE to fly as to the location of *Hal Kemp* during the summer. Hal was first destined to open the Lincoln Tavern, road-house just outside of Chicago and across from the Dells. However, the owner decided he couldn't face the competition of *Eddie Duchin* at the Dells and will not open the Tavern this year. Next Kemp was to take over the Rainbow Gardens, closed for redecoration. However, *Carl Hoffmayr* has been signed to re-open that spot June 9, the day after *Harry Sosnik* returns to the Edgewater Beach. Now it is said that Kemp may be

back in the Blackhawk, where he made good for over a year lately. His fans seem determined to have him spend the World's Fair season in Chicago, and his broadcasts will be NBC once again.

Carol Lofner has moved into the St. Francis hotel, San Francisco. He opened there May 29, and will take charge of the coast-to-coast Columbia networks formerly supervised by Arnheim. This will be Lofner's first nation-wide chain broadcast, and critics are expecting the former partner of *Phil Harris* to go over big.

CHARLIE AGNEW is back in the Stevens, Chicago, with WGN airings, and will remain during the Fair. . . . *Anson Weeks* is drawing them to the Aragon ballroom almost as well as *Wayne King* did, which is something for a maestro who is making his first bow to Chicago audiences. . . . *Jan Garber* walks out of the Trianon for the summer shortly but will remain on his Monday night commercial, no matter where his wanderings may take him. Garber will play at Catalina Island later in the summer, and will be back in Chicago in September.

Joey Nash, celebrated warbler with Dick Himber's Studebaker Champions,

has signed his third commercial in three weeks, and starts vocalizing for a California prune-grower (Plummer, please note) for twenty-six weeks beginning in September.

DON BIGELOW is one of the few, the only one called to mind off hand, among the maestros whose featured instrument is the piccolo. . . . Bigelow also has a washboard in his band, played on with thimbles for rhumbas and tangos. . . . *Harold Stern* is now heard from the re-decorated Montclair roof in New York, via the same old NBC pickups. . . . *Eddie Duchin* motored all the way to Chicago with his entire orchestra for their engagement at the Dells. . . . *Vincent Lopez* has signed *Fred Lowry*, whistler, with his band and Lowry will be heard on all of Lopez' broadcasts from now on. He will be remembered by listeners of station WFAA, Dallas, Texas, where he was featured.

AL KAVELIN has assumed the Columbia wires from the Hotel Lexington, in New York. Kavelin is managed by a board of twelve directors. . . . *Vic Irwin*, formerly on NBC with the *Betty Boop* program, which he originated, has opened at the Longue Vue, Hastings-on-the-Hudson, with an NBC wire. . . . *Roger Wolfe Kahn* comes back to the networks after a long absence from the swanky Claremont on Riverside Drive. As vocalists, he will have *Evelyn Poe*, *Joan Blaine*, *Vincent Calendo*, and the three *Marshalls*, trio.

PAUL WHITEMAN's opening date at the Hotel Biltmore, New York, will be June 2. He will again have an NBC wire. This time, Whiteman is playing in the new "Moonlit Terrace," a room construct-

ed particularly for Whiteman by the hotel's management, at a reported cost of \$50,000. . . . *Don Bestor* will be filmed this summer even though his contract at the Pennsylvania will not allow him to make the trip to the west coast. Don will make several shorts during the furlough of four weeks from his present NBC commercial with *Jack Benny*.

CHATTER FROM Cincinnati reveals that *Noble Sissle* recently concluded a one-night stand in the Castle Farm. . . . *Jimmie Joy* will begin a week's work at Coney Island June 9, and *Paul Pendarvis* moves out of the Netherland Plaza for the Lowry, St. Paul.

DICK MESSNER is heard over the Yankee network now from the Tent Club, Norembege Park, Massachusetts, just outside of Boston. . . . *Little Jack Little* has discontinued his affiliations with Columbia and is booked through MCA at present. . . . *Bob Grant* will have an NBC wire from a New York hotel shortly. . . . *Ozzie Nelson's* present CBS pick-ups are from Pittsburgh, where he is barnstorming. His Sunday commercials on the duck show are piped from various cities on his tour.

GUY LOMBARDO's crowds at his recent engagement in the Greystone Ballroom, Cincinnati, failed to come up to those drawn by Jan Garber, when Garber one-nighted at the same spot last fall. Perhaps the hot weather was responsible, perhaps not. At any rate, Garber will play for two nights at the Castle Farm, just outside of Cincy, this week, and these results should really show whether the "Napoleon of the Violin" has become first in the minds of fans of the Ohio metropolis.

Sportcasts of the Week

SCHEDULE OF EVENTS

(Time Shown is Central Daylight)

TUESDAY, June 5: 10 p.m., wrestling, WGBF (630 kc.). THURSDAY, June 7: 12 noon and 4:45 p.m., National Open Golf, CBS-WABC network. 9:15 p.m., wrestling, CKCL (580 kc.), WFBE (1200 kc.). FRIDAY, June 8: 12 noon and 5:30 p.m., National Open Golf, CBS-WABC network. SATURDAY, June 9: 12 noon, 2 and 5:15 p.m., National Open Golf, CBS-WABC network; 3 p.m., Belmont Stakes, CBS-WABC network.

TED HUSING, Columbia's ace sports commentator, faces a busy schedule in his airing of the *National Open Golf Tourney* at Merion Cricket Club at Ardmore, Pa., June 7, 8 and 9. With 150 of the country's best golfers teeing off on the opening day and about 60 of these continuing play through Saturday, Husing's series of seven broadcasts will be crammed full of particulars for interested golf bugs. From a point overlooking the eighteenth green, where he will park in wait for latest scores, will come a pair of broadcasts on Thursday at 12 noon and 4:45 p. m. CDT, two on Friday at 12 noon and 5:30 p. m., and the final 36 holes will be covered by a trio of hook-ups at 12 noon, 2 and 5:15 p. m.

These CBS-WABC sports attractions are certainly making a hit with the American public.

ONCE AGAIN, on June 9, the country's leading three-year-old thoroughbreds will line up at the post, this time with the \$50,000 added purse of the Belmont Stakes dangling as the reward to the winner. It will be the 66th running of this mile and one-half feature for horses of Derby age, and equine enthusiasts who earlier this year saw their choices finishing in game stretch bids behind the leaders, will have their hopes renewed by the extra pair of furlongs. *Thomas Bryan George*, turf expert, will again be at the mike over a CBS-WABC chain at 3 p. m. CDT, and our mass of dialside turf followers will be sure to receive the same spicy reports dished out in his previous assignments of the 1934 season, the *Derby* and *Preakness*.

THERE'S NOTHING amateurish about *Maxie Baer's* part in "Taxi," the skit being presented three times a week over NBC with the heavyweight challenger in the leading role. The bruising Californian certainly handles his lines okay and his backers are hoping he can do as well with his dukes in the Madison Square Garden's Long Island Bowl, June 14. . . . *Bernard Darwin's* airing of the British Amateur final between *W. Lawson Little* and *James Wallace* made the second time

his voice was heard rebroadcast from Britain. Bernard, the grandson of the famous scientist, also handled the Walker Cup matches and is prominent in England as an expert on the links game. . . . We wonder when amateur tennis will take its fling at the mike. The pro sport has been fast jumping into prominence and a broadcast of a few of the Davis Cup matches with talks by the stars would do much to bolster the non-commissioned sport. . . . They say that one thing these dugout interviews of the baseball stars are boosting is the attendance on Ladies Day at various parks. The femmes listen to the quizzing of their favorites and then traipse out to the diamond to see them in action. . . . We hear where one of the football coaches, reading of coppers with radio sets, is thinking of equipping his quarterback with the works to make sure he won't call for a forward pass on his own ten-yard line. Not a bad idea, if the q.b. doesn't have his antenna or tubes knocked loose. . . . So far the only thing that has brought about a complete shut-out of broadcasting the ball games has been rain. One day last week all the National League games were drenched out, but that didn't stop Pat Flanagan and a few others who switched to the American League for their daily broadcast. That's one solution to the problem of anti-air baseball moguls.

DERBY DAY in "merrie" England arouses even more hullabaloo among followers of the kingly sport than our own Bluegrass classic, and once again NBC and CBS will pick up the British Broadcasting Company's account of the *Epsom Derby* on Wednesday, June 6. Since the spectators are allowed to enter the infield, it is easy to picture a crowd of several hundred thousand shrieking fans and hundreds of odd layers, who are kept busy at all times. All this and the mile and a half grind between Europe's highly pointed three-year-old fillies and colts, will be brought to a universal audience by *R. C. Lyle*, English turf specialist, who was heard earlier this year in the airing of the *Grand National Steeplechase* from Aintree.

Having its inception in 1780 the Derby ranks as one of the oldest turf epics on the books and each anniversary of its running is rightfully celebrated as a holiday throughout the British Empire.

Lyle's tale should prove quite listenable, even though American dialers will have to kick off the covers quite early to tune their entertainment in at 7:45 a. m. CDT over either the CBS-WABC or the NBC-WEAF networks.

UNDER the BUGABOO

(Continued from Page 7)

"necking" him. He believes that a cut while shaving always brings him a check that day. He uses a straight razor with the reckless abandon of a man who has no regard for his life.

The father of the Radio Cuckoos, Ray Knight, whimsically announces that he has no superstition other than sleeping on a park bench. That always gives him a cold.

Ladders are avoided by most of the theater gentry as if they were pestilences; but Groucho Marx never passes one up. He wouldn't walk under it for the world, but he insists upon climbing a couple of rungs of every ladder that he sees.

Crowded elevators scare the life out of Paul Whiteman. Once he was the last man to enter an elevator. Immediately after the gate was closed behind him, it dropped six stories. At NBC you will always find Paul getting out of an empty elevator.

Three on a match, whistling in the studios, and walking under ladders are things that never are countenanced by performers, and are likely to break up a program at any time.

Here are the superstitious aversions of some of the headliners today:

Gus Van—A black cat anywhere and anytime.

Phil Harris—Out of bed on the left side.

Ben Bernie—Winchell.

Arlene Jackson—Hats on beds.

Ray Heatherton—Being knocked down by a hearse.

Henri Deering—Three on a match.

B. A. Rolfe—Whistling in the dressing room.

Robert Simmons—Sitting on a table.

Phil Baker—A crawling beetle is always a bad sign.

Fred Allen—A fall on the ice is bad luck and is sure to bring a bad break.

Frank Black—Ladders, I shun them like poison ivy.

Joe Penner—I really don't want anyone to buy that duck, just for good luck.

Connie Boswell—A braided lock of hair must be curled around my left ear—or I

won't broadcast.

Ethel Shutta—No spilt powder, please!

Paul Whiteman—Dropping a musical instrument gives me the jitters.

Ramona—A lost ear-ring makes me uneasy until I find it. If I don't find the missing one, I throw the other away.

Sharlie—A cranky collar button is a good sign for me. It often means a new contract.

Charles Winninger—A slip in rehearsal always means a good show.

Eddie Cantor—If Rubinoﬀ comes in with a hair cut, I'm scared to death of that night's show.

Harry (Bottle) McNaughton—Spilling the salt is good luck for me.

Walter Damrosch—Thirteen is my lucky number.

Carolyn Rich—A phone call before eight in the morning always means money.

Buddy Rogers—A team of white horses on the 13th is a good omen of the first water.

Tamara—An itching left palm indicates money.

Frances Langford—If I see a cross-eyed boy on the way to the studio, I'm sure to meet an old friend.

Martha Mears—A run in my hose means flowers.

Peggy Healy—Dropping a valise is bad luck, indeed.

Ray Perkins—If I fall down on the way to the train it means a rumpled temper.

Shirley Howard—Kissing before going out of the house is always bad luck.

Leo Reisman—A cricket in the house is wonderful luck.

Graham McNamee—A slip of the tongue in a program usually follows a too careful reading of the script. I carry a favorite lighter to ward off bad luck.

Mary McCoy—Dropping my purse on the street brings me a happy day.

Milton J. Cross—It's better luck for me if I stand during a program.

Phil Duey—Coffee before ten in the morning brings me a day of worries.

Frank Luther—Spilt sugar is my nemesis. I overcome this hoodoo by carrying a piece in my pocket.

CALLING ALL CARS—MANHATTAN'S MADMAN

(Continued from Page 13)

Virginia Brannen joined some casual acquaintances in a final round of the up-town speakeasies. At three in the morning they still were going strong, with the exception of Billie, who "couldn't take it" on account of her abstinence while in the reformatory. She had been sent home in a taxi . . .

The couple in the front seat of Durringer's stolen car were a Miss Mildred Moore and a Mr. Robert LeClair, and in the back seat Virginia Brannen sat enfolded in the arms of both Crowley and Rudy Durringer.

At six in the morning the party stopped for breakfast, and bought two more bottles of liquor. Then they started north for Durringer's home at Ossining. He thought that he ought to return the car which he had borrowed from his employer, "or there might be trouble!"

According to the story they told later, the couple in the front seat weren't paying much attention to what went on behind them. Added to the intoxication of liquor was the fiery impulse of romantic and forbidden love—for Miss Moore recently had run away from a perfectly good husband for the sake of the dapper Mr. LeClair.

Crowley wasn't drinking. He never touched tobacco, liquor or even coffee in any form—pitifully enough, because he thought that they might stunt his growth!

At nineteen years and eleven months, Francis Crowley stood five feet and one inch tall. Durringer, who had smoked since childhood, and who was soaked in whiskey, was nearly six feet.

As the car sped northward in the early morning through the vastness of the Bronx, Durringer and the fair Virginia had an argument. Durringer said later that she demurred about marrying him, "or something like that!"

Anyway, Rudy Durringer was no man to trifle with. He took a deep breath and then leaned toward his diminutive gunman friend. "You always carry a rod, don't you kid? Lemme see it."

There was nothing that Crowley would rather do than display his arsenal. He handed Rudy a .38 from his shoulder holster. Rudy gripped the top of Virginia Brannen's dress. "So you won't, eh babe?"

Before she could answer, he had pressed the gun against her side and pulled the trigger. The girl slumped brokenly in her seat . . . and the car went on.

Crowley was pretty sore about that, Durringer confessed later. Not at killing the Brannen girl, who was known as a "teaser", but because Rudy hadn't aimed the gun toward the back of the seat!

"That slug mighta gone right through her and hit me!" protested Francis Crowley.

The two in the front seat, no doubt feeling a little out of place in the light of recent developments, insisted upon being taken home, after which Rudy and Crowley drove merrily away with their silent passenger.

Pretty, plump Virginia Brannen never would receive ten cents for another of her dancing embraces. She was found by a butcher's boy later that morning, where her body had been tossed over a stone wall of a seminary near Yonkers.

It took Bronx detectives only a few hours to connect fat Rudy Durringer with the dead Brannen girl, for they had been seen together that night in a dozen different dance and drinking places. Their companion was described as a tight-lip-

ped, boyish youth with wild eyes and loose blonde hair—a dead ringer for Francis Crowley, who was still wanted for both the American Legion and the Schaedel shootings.

The radio alarm went out—pick up Rudolph Durringer and Francis Crowley! Their descriptions, furnished by dance hall hostesses, was added. To clinch the thing, it was shortly announced over the air that the bullets found next to Virginia Brannen's spine bore rifling marks exactly similar to the bullets taken from Detective Schaedel's chest, in the hospital! Thus the police knew that diminutive Francis Crowley was definitely involved in the shooting which had preceded the last ride of Virginia Brannen.

The word went out over the air, to

sent seven slugs into the looming blue-clad figure.

Then, while the rookie cop looked on amazed and horror stricken from a distance, Crowley jerked the service .38 from his victim's holster and emptied that, also, into its owner's body—a last final gesture of derision to the uniform he hated!

The car roared away down Black Shirt Lane, and all too tardily Patrolman Yodice drew his own gun and fired several wild shots. But it was too late for him to help Frederick Hirsch, honor cop and father of two small children. Crowley, the "runt killer," had disappeared into the night, bearing with him a girl.

Again the radio came into play, for it was in response to a police broadcast that a radio car succeeded in picking up a

telling Billie Dunn, the sweetheart he had picked up in the ten-cents-a-dance hall, that she might as well move out of her apartment because he wanted to move in—with a new girl!

For a day or so Billie, who was of an easy-going type, put up with having Crowley, his new flame Helen Walsh, and Durringer all camped out in her apartment at 303 West 90th Street. But she didn't like Durringer much, he was too fat and stupid. She didn't want to be his girl, and Crowley had a girl he liked better.

So finally Billie Dunn moved out, leaving the strange threesome parked in the furnished flat. She went regularly to her "job" as dancing hostess at the Primrose. What is more to the point, she had a great deal to say to her fellow "hostesses"

about the deal she had received from her former sweetie. "He brought home a Brooklyn baby who thinks she looks like Swanson," said Billie. "But she's too dumb to wash her own nighties."

The word got around. One of the girls at the hall was a "stoolie" for a Bronx detective. She was using the money to send her little brother through reform school, or some similar charitable enterprise. Naturally, she passed on the tip about Billie's apartment at 303 West 90th Street, saying only that Helen Walsh had been seen there. Which was the reason that Dominick Caso and Bill Mara cracked down on the apartment house on that afternoon of May 7th.

The same tip, telephoned to a New York afternoon newspaper, had resulted in the making of the appointment with the reporter and photographer by Billie Dunn—though she no longer lived in the place! Billie Dunn had sold out to the press, impelled by the green-eyed monster of jealousy.

Yet somehow, weakening at the last moment, she had tried to steer them away from the outlaws who had cast her out, and had placed the note intended to put an end to the avalanche her loose tongue had started.

Placing it, she had crept away silently, hiding herself in the shadows of downtown Chinatown, where she was found a week later.

These were the tragic events leading up to the greatest manhunt which New York City ever saw—a sordid, crude history of petty theft, illicit lovemaking, bragging, liquor, stolen cars and "good time" sweethearts . . .

No wonder Detective Caso dashed madly down the stairs when he glimpsed the face of the mad bandit! He nabbed the photographer in the hallway. The man tried to explain that he had come here because a reporter friend had caught wind of the same rumor which had reached the

(Continued on Page 36)

Big "Rudy" Durringer (with hands manacled) shown as he pointed out to detectives the thicket near Yonkers, New York, where he threw the body of Virginia Brannen and (insert) a photograph of his victim taken shortly before her tragic end

every police car over an area of three hundred square miles . . . "Pick up Francis Crowley and Rudolph Durringer!"

Out in the desolate stretches of North Merrick, a rural section of Nassau County, Long Island, yet still within the limits of Manhattan, Patrolman Frederick Hirsch heard the alarm, as did Albert Yodice, a rookie cop whom he was breaking in. The two left the station on a hunt for a car supposedly carrying stolen auto tires. Late on that evening of May 5, as they beat their weary way back along a dark and dismal stretch of road known as Black Shirt Lane, Hirsch noticed a Ford touring car, without parking lights, pulled up at one side of the road.

"You wait here," said Hirsch. "I'll have a look at that car."

He flashed his light up on the surprised and indignant couple who sat in the car, and then returned to his partner.

"Just a little quiet necking," he explained. "I told 'em to get a move on."

The two cops had taken a few steps along the road when suddenly Hirsch stopped short. "Say! That muddy-haired kid in the car fits the description of Crowley, the guy who's wanted for that Brannen shooting in the Bronx. There couldn't be two with mugs like that . . ."

He turned suddenly and went back to the car, placing his foot on the running board.

"Just a minute, buddy," said Hirsch, jovially. "Let me see your license."

"Certainly, officer," said Francis Crowley. He pronounced it "soitenly". Then, instead of reaching for his inner jacket pocket, his hand flew to his armpit. He

single thread. Crowley's companion of the night had been a Brooklyn girl of sixteen—a pretty, somewhat ingenuous girl of fairly good family, named Helen Walsh. That much was established from connecting various links in the chain, some furnished by Harlem dance halls where she formerly played hostess, and others from her own frightened parents.

For Helen Walsh did not return that night, either to the dance halls or her own home. Her name was added to the police alarm broadcast—but it was because of fear for her own safety. Helen Walsh previously had brought Crowley to her own home, had introduced him to her family. She thought him a "wild kid" but a nice boy for all that. And now she was riding with him in a stolen car, riding God knew where . . .

Riding with a man whose hands were twice red with murder, and she the only living witness to his darkest deeds! Helen Walsh was the only person in the world whose testimony at that time could send Crowley to the chair. He would realize that fact, police and district attorneys pointed out, and her chances of living to see another day were not one in ten.

If Francis Crowley felt that the presence of the pretty, loving girl of sixteen would impede his chances for a safe getaway, he would not hesitate a second in emptying his guns into her young body. He would wipe her out as he might brush a fly from his nose.

That's what they were saying about Crowley at the time the radio-guided manhunt was at its height. And at that exact time Francis Crowley calmly was

Liberal Rewards for True Mystery Stories

of crime mysteries in which radio served the law. Writers, Police Officers, Detectives and any one else in possession of authentic cases, are especially invited to earn these rewards. Radio must be a prominent element in the detection and apprehension of the criminals. Photographs, names of principals, dates and places must be bonafide.

Address all letters to Editor, RADIO GUIDE, 551 Fifth Avenue, New York, New York.

CALLING ALL CARS—MANHATTAN'S MADMAN

(Continued from Page 35)

detectives. Helen Walsh was supposed to be in the building—Helen Walsh, the youngest and best-looking gun-moll of all time.

Gun-molls make good copy, especially when they are in reality "gun-dolls". The photographer and one Murray, a reporter, had been assigned to the job of following up the tip, with hopes of getting a story and some photographs out of Helen Walsh. But Murray had not been able to sober up, and so the photographer, "Red," trying to cover the story alone, had blundered his way into the affair!

It was for these two newspapermen that the note had been left—a strangely misleading note, as it turned out later.

But while Dominick Caso argued with the photographer, his Irish partner chose to take the bull by the horns. There was no use in gum-shoeing any longer. There was no need to pose as firemen, future tenants, or plumbers in order to get through the building. He slipped out of his overalls and drew his service gun. Then he beat upon the doorway of apartment 10.

"Come on out, Crowley," he yelled. "We've got you cornered . . ."

The only answer was a fusillade of bullets which tore through the thick oak door even as Bill Mara side-stepped. Seven shots—then seven more—ripped through the panelling of the door and crashed against the opposite wall. The killer had emptied two guns, blindly.

"Go to hell!" yelled Francis Crowley hoarsely. "There's three of us, and we've got ammunition enough for a week. Come and get me!"

Another, deeper voice joined with his shouted paen of defiance, and the detective knew that Fat Durringer, dim-witted accomplice of the daredevil Crowley, was with him. He also heard the quick scream of a girl, suddenly cut off . . . The rat hole was full!

Mara got to the bottom of the stairs in nothing flat, and flung himself to the telephone. He gasped the magic words Spring 3-100 . . . and thirty seconds later the radio of every police car on Manhattan Island and the Bronx thrilled to a "32" alarm.

Thrilling Call to Arms

That is the code signal which, when heard over a short-wave set, means that the police are involved in a matter of such importance that all other calls and all other chases are forgotten.

Once in a blue-moon comes a "32" alarm "Calling all cars" . . . when a Lindbergh baby is stolen, when a Dillinger runs amok in an Indiana jail—but when it comes, the men who daily risk life and limb in New York City's radio cars know what to do.

Even before the crisp voice of the announcer down in the attic dome at Center Street had died away, there arose all over the city a shuddering, wailing scream like the cry of countless weird birds of prey gathering for the kill.

All over Manhattan and the Bronx, rising in one shrill and terrible unison above the diminished cacophony of the city, the sirens of the speeding radio cars chimed in the battle cry of death. The hunt was on!

Roaring down Riverside Drive against traffic, zooming up Broadway from Times Square and across 125th Street where dapper sepien shieks scampered to get out of the way, the radio cars of the city converged like several hundred eagles upon a single uncovered nest of rats.

Four minutes from the time when bullets first traced their erratic and twisted design of death upon the door of the apartment in West 90th Street, there were more than 800 policemen joined in a cast-iron circle around the entire block, cutting off the faintest hope of escape for those prisoned within!

Never before was such an exhibition given of the speed with which radio has endowed our police protectors. In less time than it would take the average citizen to put on his hat and coat, 800 of the

"finest" had been brought together to make war upon one of society's avowed enemies.

Speedily the number mounted to more than a thousand as the reserves were called out to handle the crowd, as the emergency squads were rushed to the scene, and as the special departmental sharpshooters were summoned and issued rifles and Thompson sub-machine guns.

In answer to that "32" radio alarm, even Commissioner Mulrooney himself sped to the scene, as did Police Chief Quirk of Yonkers, Captain King of Nassau Headquarters, Inspectors Bruckman and Sullivan, and a dozen other brass-hats of the police department. This was the first time of all times that a police commissioner rushed to a chase on a radio summons!

The Ring of Death

Never was there such a radio alarm, not even on that memorable hour in Los Angeles when Hickman, the boyish kidnapper, took the ransom money and gave to the father of Marian Parker the dismembered body of his little girl. Seven emergency squads filled the street, together with two fire trucks, four hospital ambulances, and two hundred radio cars which were drawn in an outer barricade to make certain that no one passed the police lines going in or out!

A mob of more than ten thousand people milled in the neighboring streets, drawn by the crackle of gunfire which rang from the windows of the besieged apartment. The crowd was constantly increased as police hustled tenants from near-by buildings to safety.

Bullets hummed through the streets of New York as never had been seen anywhere apart from a field of battle—even in the worst days of the Wild and Woolly West.

The Battle of the Boy Bandit was on! The history of all crime records no such fracas. But the police of New York wanted Francis Crowley worse than they ever had wanted anyone before. They were after his satellite Durringer, too. But big fat Rudy Durringer was only a murderer and petty auto thief. Crowley, nineteen-year-old, hundred-pound boy was a sworn cop-killer!

No more time was wasted in challenging. The Battle of West Ninetieth Street was begun as cops swarmed onto the roofs of adjoining buildings and sent a torrent of hot lead into the barricaded apartment. Others fired upward from the street, with rifles, service revolvers, and sub-machine guns.

On the roof, directly over the apartment, Detective Bill Mara chopped furiously with a borrowed fire-axe, hoping for a chance to drop tear gas bombs upon the bandit trio, who were returning as good as they got and making both street and hallway a death-ridden trap.

Commissioner Mulrooney himself stood

on the stairway, directing the fire of his rifle squad who were raking the apartment through the thin plaster walls. But a hail of death thrust them back again and again. The fire from within never paused, and the police knew that pretty Helen Walsh, sixteen-year-old gun-doll, was reloading the guns of the two mad desperados.

Modern Molly Pitcher

All this took place in the days when the only tear-gas equipment which the police had was in the form of "pine-apples"—gas-bombs resembling the playthings of Mr. Capone, except that they sprayed weep-gas instead of scrap metal.

On the roof over the beleaguered trio, Detective Mara finally had succeeded in chopping a hole so that he could see into the room below. He caught a glimpse of Helen Walsh, kneeling behind a barricade of furniture and hastily reloading gun after gun from the scattered arsenal spread out before her.

Mara caught a fleeting glimpse of Crowley, who was running back and forth from one room to another, thus confusing the police in the hall as to his location.

But Mara had no time for shooting and besides the detective made too good a target as he loomed against the sky. Detective Byrnes of Headquarters had by this time produced a basket full of gas-bombs. Mara dumped the whole affair into the hole in the roof, and then dragged a damp mattress over the hole and sat upon it.

"We'll smoke 'em out!" was the cry.

But Francis Crowley, the little runt with the Napoleon complex, was having the greatest hour of his warped and twisted life. While Helen Walsh cowered, and Fat Durringer whined and begged to surrender, Crowley dashed about the gas-filled room like a monkey, snatching up the bombs and hurling them out of the windows—back at the police who had sent them!

Johnny Broderick, tough-guy of the Broadway squad, was by this time leading the attack on the oaken door of the apartment. He broke his ankle kicking in a panel of the door, and then had to withdraw as a tremendous burst of fire came through the panel. But now the police could fire directly into the apartment hallway, and the bandits were unable to dash from room to room as they had been doing, to escape the volleys of the detectives' fire. They were holed up in one bedroom.

Through the hole in the door Johnny Broderick, standing on his broken ankle, threw an armful of gas bombs. One of them came flying back, to explode almost in the face of Commissioner Mulrooney, and the general of the police army saw the rest of the fracas through a mist of tears.

The battle dragged on, with more than two thousand rounds of ammunition fired by police. Streets outside were fairly littered with exploded shells, and still the

shooting continued.

Detective Bill Mara, pushing his mattress on the roof in order to drop more gas bombs, caught a glimpse of Crowley firing from a window in the room below. Mara drew first blood with a bullet which raked the desperado's thigh. As Crowley turned, guns blazing, Mara fired again, and by a strange coincidence his second shot raked the other thigh of the gunman.

There was no further sign of Durringer. The story was given out later that he had been struck on the forehead by a flying gas bomb, and knocked unconscious. As a matter of fact, the big, fat man had gone to pieces from sheer funk. Never noted for stamina, he was a man whose deeds of daring consisted only of auto theft and the killing of a girl who lay trustingly in his arms, Fat Durringer collapsed in a trembling heap on the floor.

Helen Walsh was in a queer daze of love and terror—the strain of the two hours of dodging bullets and waiting for the touch of death, mercifully had acted upon her as an opiate. She reloaded guns and between times amused herself by writing farewell notes to her family and "to whom it may concern," some of them dictated by her killer sweetheart, during lulls in the battle—while she lay barricaded beneath a bed.

One "death note" began: "I was born on the 31st. She (Helen) was born on the 13th. I guess it was Fate that made us meet."

"When I die put a lily in my hand and the boys will know how they'll look. Underneath my coat will lie a weary heart that wouldn't harm anybody. (I)

"I had nothing else to do, that's why I went around bumping off cops. It's a new sensation of its own. Take a tip from me and never let a copper . . . They will tell you they love you, but as soon as you turn your back they'll club you and say 'What the hell!'"

"Now that my death is near, as a couple of bulls are at the door and saying 'Come here.' I am behind the door with three .38s. One belongs to my friend who put on weight so quick in North Merrick —" (a sardonic and whimsical reference to the murder of Patrolman Hirsch through what gangsters like to call "lead poisoning").

Devoted Henchmen

That was Crowley's message, put down on scraps of paper by Helen Walsh and not by him—because in six years at school he never had learned to write. She whiled away the long hours while the police poured lead and tear gas at them, by composing the following:

"I had a good time while it lasted . . . the boys were great to me, they even washed my pajamas. If I die, powder my nose, manicure my nails, make my face look pretty and put a lily in my hand. signed, Helen Walsh . . . P.S. Everybody happy, and how!"

But there was only one end to the fantastic battle between a thousand cops and a lone midget killer with his two accomplices who were both sick unto death of the struggle. Once more Crowley appeared at a window and emptied a gun into the crowd of police, without any appreciable damage. Then he hurled the gun after the bullets. It was Patrolman Hirsch's gun, as identified later.

Mulrooney and Inspector O'Brien were leading a crew of cops, with fire-axes, who had gotten down part of the wall of the second bedroom in the besieged apartment.

Johnny Broderick yelled to Crowley to surrender. The answer was a "Hell, no!" and a blast of gunfire. But fire from a sawed-off shotgun tore into the door behind which Crowley was crouching, and he received another slight wound. Crowley wasn't used to seeing his own blood flow.

"Surrender or we'll have to kill you!" yelled the cops. There was a long pause, and then came Crowley's voice—"We surrender."

The first man into the bedroom was Commissioner Mulrooney, and he knew

OFF THE BRASS STANDARD

(Continued from Page 7)

for he is the outstanding example of the conductor who has anticipated the pulse beats of a nation and has continued changing his medium of expression, from the early days when he introduced the symphonic treatment of popular songs, to the present. It was Whiteman who began the work of switching tastes toward softer music and more interesting and intelligent arrangements.

Rudy Vallee, with his soft style of singing, influenced immeasurably every form of radio music—orchestral, solo vocal and ensemble singing. His singing created that same previously discussed feeling of restfulness and repose, and he has been an all-important cog in the transition in taste from loudness to beauty.

One who deserves great credit for anticipating present-day musical needs is Wayne King. Orchestally speaking, he

probably is the best and most successful of what we might term "The School of Today." He uses no vocalist, presenting his soothing waltzes purely instrumentally. The fact that he has won numerous popularity contests recently is tribute not only to his ability, but also to the fact that the public has been educated unconsciously to a point where it appreciates beauty in music.

What Rudy Vallee did with his singing and Wayne King with his waltzes, Fred Waring achieved with his Glee Club. His thoughtful arrangements of melodious glee club numbers struck home, and showed the radio listeners another medium of expressing musical beauty.

The future holds much for radio music. Melodies will be more beautiful, arrangements more thoughtful and interesting and playing less blatant and more restful.

(Continued on Page 37)

Short Wave Carnival

WORLD SHORT WAVE TIME TABLE

(Continued from Page 4)

the broadcast of the English Derby from Epsom Downs on Wednesday, June 6. Perhaps the most famous horse-race in the world, the Derby is a national institution with the English. Hundreds of thousands of Britishers—ranging in class and appearance from the costermonger "pearly kings" with their button-bedewed attire, to nobility and even royalty—throng to this picturesque event.

American and Canadian long-wave listeners can hear a British racing expert give a narrative description of the Derby over the CBS-WABC network. This broadcast comes through on the morning of Wednesday, June 6—from 8:45 to 9:15 a. m. CDT. NBC also will furnish a Derby rebroadcast, picking it up direct from England. Columbia will use the RCA Communications System. But short-wave fans have a much wider choice, insofar as hours of broadcast are concerned. They can tune in the British Broadcasting Corporation's station GSE (25.28 meters) at any time from 6:15 a. m. to 12:45 p. m. CDT.

A ship's bell is the center of an unusual religious ceremony in historic Canterbury Cathedral on Saturday, June 9. The Bri-

tish navy will present the bell of the battle cruiser H.M.S. *Canterbury*, to the cathedral. The proceedings will be short-waved to this country by the BBC for NBC rebroadcast from 8:40 to 9:30 a. m. CDT.

The actual note of the bell thus will be thrown across the ocean upon which it has sailed. The Rt.-Hon. Sir Bolton M. Eyres-Monsell, G.B.E., First Lord of the Admiralty, will make the presentation of the bell on behalf of the British Navy, and the Rev. Hewlett Johnson, Dean of Canterbury, will accept it for the clergy of the famous old church.

The program will open with music by the Royal Marine Band, after which the presentation will be made and Admiral Percy Royds, retired, will strike "six bells". Religious services will follow, then the British national anthem and a blessing from Dean Johnson will end the ceremony.

This program will originate from the BBC station GSE on 25.28 meters. Short-wave listeners will be able to get it direct, until 12:45 p. m. CDT.

A condensation of the principal short-wave relay stations of the world appears on this page.

MANHATTAN'S MADMAN

(Continued from Page 36)

that death walked close beside him. On his heels were Johnny Broderick, Caso, Mara, Byrne and Barry—the cops who had led the fight against the gunmen and who had earned the honor of taking the prisoner. But it was Broderick who first laid hands on Francis Crowley—the same Broderick who recently was demoted and sent out on a "bicycle beat" among the goats of Long Island as a punishment for "shoving around citizens who didn't need shoving around," as one Broadway columnist put it.

Police Scent Trap

The Commissioner suggested that the prisoners be stripped before being taken away. It was a good idea, as things turned out, for when the dumpy figure of the killer stood pasty white and naked before the detectives, they found a gun strapped to his leg and another tied low on his abdomen. He had planned a little surprise for the cops who tried to take him away in the "wagon." He bragged of this later.

It was then that Crowley suffered an accident or two, as he was "jostled" by the detectives and coppers who hemmed him in: The men who had walked a beat with Patrolman Fred Hirsch hardly could be expected to treat his murderer with kid gloves.

Crowley went out of the apartment house on a stretcher. Fat Rudy Durringer shambled down the stairs shackled to two detectives, obviously delighted that it was all over. And then Helen Walsh was dragged, wild and screaming, past a battery of newspaper and movietone cameras, in the clutch of the law. Sweet sixteen—

Never for a moment was there any doubt about what would follow. Durringer confessed to the murder of Virginia Brannen with a surprising alacrity, even being so obliging as to guide officers to the spot where he had tossed the body over the fence. Helen Walsh confessed—to having accompanied Francis Crowley on a mad and hectic honeymoon which followed the necking party and the shooting of the officer who recognized the killer from his radio description.

Francis Crowley confessed—with great gusto and many details—to complicity in the killing of Virginia Brannen, to half a dozen holdups, a bank robbery, the murder of Hirsch, and anything else he could call to mind. But no confession was needed. The testimony of the girl whom he had led on a mad flight from justice was the state's chief witness against him when his case came to trial. What really convicted him was the mute evidence of Pa-

trolman Fred Hirsch's revolver, which was part of the seven-gun arsenal in the apartment.

Jesting At Death

Behind the grim gray walls of Sing Sing Prison, Francis "Two-Gun Frank" Crowley walked resolutely to the electric chair on the evening of January 21st, 1932—with a greeting for a guard he had known in another cell-block, and a jest about "the hot-squat."

Fat Rudolph Durringer, as befitted a minor character in the sordid drama of blood and love, already had paid the price, a month earlier, for the brutal killing of pretty Virginia Brannen.

Helen Walsh, freed by the police after they were convinced of her essential innocence and her lack of realization, was given a home and a new name by a family living far from the narrow streets of uptown New York, the scene of her little crowded hour of fear-haunted infatuation. She had no last message for the man who walked that night down the long corridor, through the little green door, and calmly seated himself in the chair.

"Let 'er go!" said Francis Crowley on that chair. He received three shocks of 200 volts each, and was pronounced dead at 11:07 p. m.

He had wanted a lily in his hand, and as an epitaph the words: "Underneath my coat will lie a weary heart that wouldn't harm anybody."

He was given a swift prison autopsy, and an unmarked grave within the walls of Sing Sing Prison.

Bullet gouges bitten deeply into the brick walls on the rear of the building on West Ninetieth Street, stand today as his only monument.

In Next Week's Issue of RADIO GUIDE:

"Snatching the Snatchers"

another thrilling and absorbing story of the use of radio in bringing criminals to justice—the desperate and deadly operations of a kidnap ring that struck in the dark and gave the country a bad case of jitters.

Meters	Megs	Station	Location	(CENTRAL DAYLIGHT TIME) Time

REVIEWING RADIO

(Continued from Page 5)

air, but before this can be done, employers must provide the funds. The meeting recalled the distressing fact that for every dance band at work in New York alone, a thousand individual musicians are out of jobs.

The audience CAN be fooled—as proved by Fred Waring last week, who revealed a strange bit of psychology.

If you are listening to a dramatic sketch and a "prop" phone rings, it won't startle

you at all. Even if your own phone rings at the right moment, the chances are you won't answer it, but will believe it is in the act.

Last Friday, *Rosemary Lane* and *Tom Waring* were singing a song, and Fred Waring buzzed a telephone bell as part of the effects.

Coming unexpectedly during a song, instead of a sketch, it so completely fooled the audience that hundreds of telephone subscribers rushed to answer what they thought were calls on their own phones. They wrote in to tell Waring about it.

PHIL BAKER'S TWO GREAT LOVES

(Continued from Page 3)

piano-keyed instruments. He was more sure of himself. Bernie liked his playing. Out of that second audition the team of Bernie and Baker was born. They opened at the Winter Garden in 1925.

Already the star seemed within reach. Those were epic years in the theatrical world. Phil saw his "gang," Cantor, Jessel, Lou Holtz, Frank Fay, Ben Bernie and himself, flash into the bright lights up and down Manhattan. The team of Bernie and Baker already was earning \$150 for a week's engagement at the New York Palace theater, mecca of all vaudevillians.

But there were still difficulties. Phil's shyness now proved a real handicap. Ben was a comedian as well as a violinist. Dialogue found its way into the act. But Phil learned that he could not talk. He was forced to become mere "feeder" for Ben's gags. What was worse, he found he could not listen to Ben's gags without laughing. Time and time again, to his utter chagrin, his laughter threatened to spoil the act.

But it was the war which really split the team of Bernie and Baker. Phil joined the Navy and learned to talk. "I never had the nerve to speak a line on the stage until I put on a uniform," he admitted later. "But now, well—even Beetle can't keep me quiet!"

After the war there was some idea of continuing the partnership. But Ben Bernie had caught the band fever and soon took the way that has made him the one and only "Ole Maestro." Phil concentrated wholly on vaudeville.

And in vaudeville he found himself. He found he could not only sing and perform miracles on his accordion, but could talk as well. He had everything his profession demanded. He became a headliner. He doubled with Morton Downey and Bert Lahr. Morris Gest featured him on his Century Roof, on the same bills with Eddie Dooley and Ed Wynn. He played a record run of twelve weeks at the Palace. He was worth \$5,000 a week in the big vaudeville and motion picture houses. He was headlined in Flo Ziegfeld's Midnight Frolic. Almost, it seemed, the shining star was in his hand.

Almost, but not quite. Not until he married Vivian Vernon did the miracle seem to Phil Baker complete. In her eager, questioning eyes was the magic that wrought it.

They returned from their European honeymoon. To Phil, all of life lay rich with promise before them. It seemed but natural to him that the anticipation should still shine forth from Vivian's eyes. She had an offer from Hollywood. That meant long separation. But Vivian was young and beautiful and talented. And both of them must, after all, follow their secondary star. So he let her go, and returned to his work at the Midnight Frolic.

But applause and admiration were now even less than enough. Every day he wrote Vivian how lonely he was. Finally, when word came that she felt ill, he dropped the show, took the Twentieth Century Limited to Chicago, there boarded an airplane chartered in advance by wire, and flew to Hollywood. He watched over his wife's recovery, and brought her back to New York with him. Vivian there entered the Follies. She found friends. She was busy and seemingly content. The miracle held.

Phil surveyed the world triumphantly from a lofty, rose-enclosed peak. He was at the top of his profession. He was starred in musical comedy; Greenwich Village Follies. The Passing Show. He was in love with his wife. What if, now and then, her eager eyes seemed to look beyond him, ready, waiting . . . A man in love finds it easy to discount such little things.

Vivian seemed restless. In his anxiety Phil sent her to Shawnee-on-the-Delaware for a two weeks' rest. On the evening of her return, he dined with her mother.

The telephone rang. "It's Vivian, Phil." Even the thrill he felt at the sound of her voice could not conceal that it was strange, unfamiliar. "Phil, I can't see you until after the show. You'll wait, won't you, dear?"

Of course he would wait. That was little enough to do for Vivian. But that strange huskiness in her voice! Nameless fears arose within him. They prompted him to trace the telephone call. The Commodore Hotel. Perhaps, he thought, Vivian's ill. I should be with her.

He found Vivian worse than ill. She lay prone on the floor in a cluttered and disordered room.

Damning Evidence

"Some of the girls were up," she explained, her eyes avoiding his. "Yes, we did have a few cocktails . . ."

He stood looking at her, incredulous. It was obvious enough what had been going on in that room!

"Why, Phil," the girl whimpered, "what makes you look at me so strangely? Surely you don't object to my seeing the girls now and then!"

No, he couldn't object to that. He tried not to see the telltale disorder in the room. He tried to put out of his mind a sudden memory of ugly rumor: A Spaniard, people had hinted. Very handsome. He and Vivian had been seen together often. His faith battled for her, battled to preserve intact this lovely thing that was between them. He bent and picked his wife up in his arms. He smoothed her radiant hair, kissed away the terror in her eyes. From behind her long lashes they looked out at him, no longer frightened, but curious, secret.

Something was spoiled. Try as he would to ignore the fact, the perfection of his marriage had been broken. Empty were the new triumphs that awaited him. Artists and Models, Music Box Review. Gay the music of his accordion. Bright the smile he gave his audience. And all the while doubt gnawed at his heart.

Vivian saw much of "the girls" in the days that followed. That seemed, on the surface, logical enough. She always had been a great favorite with her fellow show girls in the Follies. She gave a luncheon for them once. It was at the Maison Arthur. Here were assembled the talented, the glorified, the pick of that picked group of young American beauty, the girls of the Follies. They are said to have worn on this occasion jewels to a combined value exceeding half a million dollars.

But Vivian saw "the girls" much too often. Struggle with doubt as he would, Phil could not but wonder about that Spaniard. A romantic fellow, with a neatly groomed, pointed beard, according to rumor. Phil had forbidden Vivian to see

him again. But had Vivian kept her promise?

He wondered about other men, too. There were plenty of rumors afloat for his bitter imaginings to feed upon. And Vivian spent more and more time away from him, on mysterious jaunts with her girl friends. The eagerness in her eyes seemed so seldom, these days, to belong to him!

While she was out, Phil put in time as best he could: Cards with some men friends in his own apartment, one particular evening. But it was difficult to keep his mind on the cards. In spite of him, his thoughts wandered more and more often to the closed door of Vivian's own room, behind which stood her writing desk, with the little drawer she always kept locked.

He hated himself for the dark thoughts he was entertaining. But he hated even more the prospect of a future filled with suspicion, clouded by doubt. Suddenly he could endure it no longer. He rose from the card table, excused himself. In another room he obtained a small hammer. This hammer in hand, he entered his wife's room.

It was half dark in the room: On the dressing table, Vivian's toilet articles, a tiny photograph of himself, a mussed handkerchief giving out an elusive but familiar perfume—over the bed a crumpled dressing gown. But Phil did not allow himself to see these things. The hammer gripped tightly in his hand, he walked over to Vivian's writing desk.

Foolishly, he tugged at the little drawer—a vain gesture. He knew she kept it locked. The thought infuriated him. Locked drawers, locked hearts, sheltering secrets, raised doubt and misery to highest point. He seized its fragile handle in one hand. In the other he raised the little hammer.

What did the secret of that locked drawer reveal? Confirmation of all Phil Baker's worst fears—or dissipation forever of the myriad goading thoughts that gnawed his heart? Next week's issue of RADIO GUIDE will contain further gripping episodes in the Two Loves and in the professional life of this star of air and stage. Read it in the issue of the Week Ending June 16.

MR. FAIRFAX KNOWS THE ANSWERS

Mr. Arthur Fairfax, veteran of radio, who is personally acquainted with nearly every artist on the air, conducts this department of **RADIO GUIDE**. Questions not of general interest will be answered personally when accompanied by stamped, self-addressed envelope. Address inquiries to Mr. Fairfax, care of Radio Guide, 423 Plymouth Ct., Chicago, Ill.

M. A. H., Wharton, N. J.—Johnny Marvin is married, but there is no information available for publication about his wife. According to present schedules, he will continue broadcasting this summer.

J. Ogua, Orillia, Ont.—The brass section of Victor Young's orchestra on the new Chevrolet program consists of: Frank Durante and Sterlin Bose, trumpets, and Charlie Butterfield, trombone.

Kathlyn A., Elgin, Ill.—William Shelley, the original Old Ranger on the Death Valley Days program, is still heard frequently in NBC dramatic presentations.

Ann K., Aurora, Ill.—Irene Taylor is not broadcasting at present. She is on a vaudeville tour. It is rumored she will be heard from a World's Fair cafe during the summer.

B. J., Champaign, Ill.—None of the Mills Brothers have been replaced; they are still the original group.

Mrs. H. W. K., Lancaster, Pa.—Kate Smith is on tour at present and is not

broadcasting. She may be addressed at the Columbia Broadcasting System, 485 Madison Avenue, New York, N. Y.

Mrs. H. P., Croton on Hudson, N. Y.—The "Hello Marie" program was dropped some time ago from NBC schedules and there is no hint of its restoration at present.

Miss L. L., New York, N. Y.—Pat Kennedy is absent from radio for the time being, but his most recent sponsors have renewed his broadcasting schedule for Fall presentation. His birthday is June 12, at which time he will be thirty years old.

Miss A. L. G., Glendale, Calif.—We are very sorry, but it is impossible to furnish you the addresses of fan clubs because to do this efficiently would require a special department. The Voice of Experience is married.

Mrs. V. L. S., Hazleton, Pa.—An accordion trio is a novel section of Abe Lyman's orchestra, therefore the program is known as "Accordiana." Andre Baruch was born in Paris, France on August 20, 1906.

Mr. A. A., Rahway, N. J.—We have no record of Paul Douglas having been a newspaper reporter before he became a radio announcer. Norman Brokenshire is not broadcasting at present, but expects to be back on the air soon.

Mrs. A. E., Baltimore, Md.—The part of Mother Moran of "Today's Children" fame

is taken by Irna Phillips and the part of Lucy Moran is played by Lucy Gillman.

H. K., Ripley, W. Va.—All network programs stop when the President is on the air. Doubtless many independent stations continue their broadcasts, and it may have been a case such as this that your friend overheard.

K. S., Urbana, Ill.—Wayne King is of German descent. He has been married only once. A photograph of him can be obtained by sending twenty-five cents to the Music Corporation of America, 32 W. Randolph St., Chicago, Ill.

Miss M. M., Chicago, Ill.—Kate Smith had a birthday on May 2nd. She was twenty-five years old.

A. B. Wilner, Detroit, Mich.—Guy Lombardo was born in London, Ontario, Canada about 32 years ago. His wife's name is Lily Belle. They have no children.

Mrs. E. Kretschmar, St. Louis, Mo.—None of the characters of "Today's Children" take part in the sketch "One Man's Family." The first program originates in Chicago and the latter in San Francisco.

Ed F. Cahill, Dixon, Ill.—The members of the scorching harmonizers, the Sizzlers, are Bill Kearns, Johnny Russell, Paul Corder and Henry Lloyd.

Mrs. V. H. B., Covington, Ky.—When you come to the Fair this year, you can

perhaps obtain one of the precious tickets to the Sinclair Minstrels program and at that time watch Bill Childs do his stuff.

Mrs. F. L. S., Meridian, Miss.—You will find Ozzie Nelson's orchestra as one of the attractions on the Sunday night Bakers' Broadcast, which also features Joe Penner.

A. W., New York, N. Y.—You can obtain tickets for a broadcast of the program in which you are particularly interested by writing to its sponsor in care of the network studio in that city from which the program originates.

Miss J. R., Timken, Kans.—Rosaline Green is the speaking Mary Lou of the Show Boat hour. Lanny Ross now speaks for himself on the program. The part of Judy in the Judy and Jane sketches is taken by Margie Evans. Irene Wicker takes the part of Jane. Rudy Weidoeft is not on the air at present.

Miss A. Z., Aurora, Ill.—Mrs. Phillips Lord has always played the part of Lizzie Peters in the old sketch "Sunday Night at Seth Parkers." Phillips Lord has two daughters, Jean and Patricia. There are to be no women or children on his projected cruise.

Mr. E. D. T., Mt. Vernon, N. Y.—You can obtain tickets for the Joe Penner program by writing to the Bakers' Broadcast c/o the National Broadcasting Company, 30 Rockefeller Plaza, New York City.

LAST CHANCE TO VOTE FOR FAVORITE STARS

WITH this issue of RADIO GUIDE comes the last opportunity to vote in the Star of Stars election. Those of you who buy your copies as soon as they're on the news stands may strengthen the position of your favorites—if they're at the top; or by your belated votes you may help send a lagging star toward the top.

Who can tell what tomorrow may bring?

The tides of an election may turn within 24 hours, as many a politician has discovered. Likewise, the tide of RADIO GUIDE'S Star of Stars poll may change overnight as supporters of the less prominent candidates pour ballots into the tellers' offices. In this connection, three new stars, three new programs, four new orchestras and two new teams have entered the race and may climb to a commanding position as the vote draws to a finish.

This issue of RADIO GUIDE reaches the news stands Thursday, May 31, one day before the election closes. The distribution date gives voters one last opportunity to place their ballots in the mails with the assurance that each vote will be tabulated and credited to the star, orchestra, program and team of individual preference.

Already, at the time of making the latest tabulation, 374,194 votes have been cast. Another 100,000 votes could "upset the dope" and turn the tide of the election. Even this late date may reveal a surprising turn of events—and ballots.

Don't fail your favorites in this "zero" hour of the Star of Stars election. If this copy of RADIO GUIDE is in your hands on May 31, don't hesitate to cast a vote for the individual, program, orchestra and team which gives you the greatest degree of entertainment over the air.

A vote for a leader may help him to retain a giddy position on the heights, which is threatened by the approach of a newcomer; and a vote for a newcomer may help him soar aloft to tumble a top-notch from his footing on the crest of popularity hill.

So, don't forget to clip the ballot, cast your vote and get it in the mails before midnight, June 1. Thereafter, all voting ceases.

A ballot has been provided on this page, convenient in size for pasting on a one-cent postcard.

Stand by for the Star of Stars!

Here are all who have received sufficient votes to be listed among the leaders:

STANDING AMONG THE STARS:			
Joe Penner	79,052	Lawrence Tibbett	884
Bing Crosby	61,604	Donald Novis	876
Eddie Cantor	29,793	Smith Ballew	853
Jack Benny	28,728	Phillips Lord	846
Rudy Vallee	16,306	Elsie Hitz	822
Lanny Ross	9,962	Connie Boswell	817
Frank Parker	8,401	James Melton	779
Gertrude Niesen	7,782	Irma Glen	748
Ben Bernie	7,098	Little Jack Little	727
Jimmy Fidler	5,709	Cheerio	703
Will Rogers	4,094	Albert Spalding	694
Roy Shelly	3,553	Myrt (of Myrt and Marge)	692
Vera Van	3,531	Irene Beasley	682

Favorite Star's Official Ballot

1. My favorite radio performer is: _____
2. My favorite orchestra is: _____
3. My favorite program is: _____
4. My favorite radio team is: _____

There are _____ in my family; I own my own home _____; rent a house _____; rent an apartment _____ (number)

I own a car _____; I do not own a car _____; My radio is _____ years old and is a _____

I am checking the type of radio program that I like best. Popular Musical _____; Classical Musical _____; Comedy _____; News _____; Dramatic sketch _____; Lecture _____; Religious _____; or _____

MY NAME IS: _____
Mrs. _____
Miss _____
Mr. _____

I LIVE AT: _____ (Street and number) _____ (City and State)

Your vote will not be invalidated by failure to answer all the questions in this ballot. You need not repeat any answers to these questions. Mail your ballot to Star Election Tellers, care RADIO GUIDE, 423 Plymouth Court, Chicago, Ill. This convenient size will allow the ballot to be pasted on a one-cent postcard

LAWRENCE TIBBETT

As He Appears Under the
MIKEroscope

By Carleton Smith

THIRTY years ago a barefoot boy, all ears and legs, peddled newspapers and wanted to grow strong and husky to succeed his father as the Sheriff of Kern County, California. Today Lawrence Tibbett—no longer barefoot or gangling—is the highest paid singer on or off the air. He alone is eminently successful in the four fields, opera, concert, radio and the movies.

And today his dream is to bring music to all Americans and sing it so that they can understand it. He wants people to hear music and enjoy it, so that they will not think of it as a "thing apart" or as something to be giggled about.

Years ago, when the doctor sent him to the country because of weak lungs, it never entered his head that some day girls would be threatening to faint at his recitals if he didn't answer their letters. Nor did he have any such ideas when he was just a plain "gob", scrubbing the decks of a navy ship.

Almost since his seventh year—and the murder of his father, the Sheriff, by cattle thieves—Larry Tibbett has shifted for himself. He got the idea of becoming an actor from watching cowboys put on their own entertainment. He began helping in amateur theatricals. When the war came, he turned down the job of Y. M. C. A. entertainer to join the Naval Reserve, and the Armistice found him at Vladivostok, Russia.

He returned to do what odd jobs he could find—clerked in a newspaper advertising department, folded Sunday papers, and acted and sang occasionally for the fun of it. Borrowed money (for which he insured his life as collateral) and the advice of Rupert Hughes, brought young Larry to New York, leaving his wife and two-year-old twins in California.

Hiring a hall, he put on a recital—hoping a concert manager would hear him. All he gained was the second "t" on Tibbett—added through the mistake of a typesetter. All the concert-managers in New York made a mistake, too. They all missed hearing him.

His second attempt to crash the Metropolitan opera landed him a \$60-a-week contract—and his debut took place off-stage, in a duet as one of the monks in "Boris Godunoff"! Several seasons later the illness of the second baritone, whom he was understudying, brought him the chance to sing Ford to Antonio Scotti's "Falstaff".

Larry Tibbett sang desperately. He made a furious effort to force the audience to feel his presence on the stage. They did! They stopped the opera to recall him again and again to the stage. January 2, 1925, thus became Tibbett's red-letter day. But he didn't realize what had happened until an avalanche of reporters, photographers and newsreel men surrounded his room next morning, heating frantically at his door.

He was front-page news! And has been ever since. He is the only male singer except Caruso accorded the honor of opening a Met season; the creator of all the leading baritone personages in operas produced during the past ten years; the choice of officials to start off (along with Arcturus) the 1933 Century of Progress; first singer to win the American Academy's diction award; world-famous as the greatest American lyric artist!

Through all his success, he has remained humble before his art. Nor has he lost touch with his fellow men. He feels that his voice is meant to bring joy to others; believes all operas should be sung in English, made understandable and not ridiculous as many of them are. He wants smaller theaters, so that audiences can see what happens on the stage; thinks opera producers could learn from movies. Tibbett will spend the summer in Hollywood singing in "The Return of the Gaucho," his next film.

Larry beats time with his left foot while singing. He loves to discuss the philosophy of art and enjoys informal debates on any subject. Often he sings to his ten-month-old baby, Michael, who looks like his daddy and has a good pair of lungs himself.

LAWRENCE TIBBETT

RADIO GUIDE will place some celebrity Under the MIKEroscope every week. Save the picture on this page. There will be 52 in a full set. This is the eighth: You will get one picture a week for an entire year. To every person who sends to RADIO GUIDE a complete collection of 52, will be given an album containing the entire group of photographs as reproduced here; the photographic reproductions will be in fine finish.

Start saving your series now. And watch for another celebrity Under the MIKEroscope in RADIO GUIDE next week.

TED HUSING'S JINX

WILL Ted Husing's persistent rowing jinx beat him this season—for the fourth time?

Three times Ted has tried to tell the listeners all about the annual Poughkeepsie Regatta—the historic collegiate crew carnival staged on the Hudson. And thrice Ted has failed. It seems that a jinx sits on his coat-tails and steers poor Ted into disaster!

But Ted is game—and once again he'll try it this year, when the race probably will be held on Saturday, June 16. About six to eight crews are expected to row the course, including many big colleges in the East.

Ted tried to broadcast the regatta in '29, '30 and '31. There was no broadcast in '32 because of a conflict in time with the national

political conventions. But in each of the other years that little jinx coxswain thwarted him. Let Ted tell it.

"Everything seemed all set for our first attempt in '29," he says. "Columbia leased Commodore Cunningham's yacht, Maid Marion, but anticipated ease gave way before a rough river. And right at the start of the race, the Maid Marion crashed in a most unladylike manner into a stake boat. In '30, Columbia selected a cruiser much less cumbersome than a yacht. And when the big main event came on—some wiring broke in our short-wave transmitter! We used another cruiser in '31. It was a miserable day. A pelting rain and electrical storm made broadcasting dangerous. Then we learned that the storm and an electric train had distorted our signals!"
