FIBBER MCGEE AND MOLLY MARCH 30, 1948

WILCOX:

There's only one really modern way to keep your furniture and woodwork brightly polished and protected, and that's with the new Johnson's Cream Wax. You see, Johnson's Cream Wax, unlike old-fashioned polishes, does not contain one single drop of oil. This amazing polish is a combination of highly effective dry cleaning ingredients and fine wax. In one application Johnson's Cream Wax cleans off all fingerprints and smudges and leaves the surface gleaming and glowing with a bright and shining lister. Once you have polished your furniture and woodwork with Jchnson's Cieam Wax, you can keep them clean and glowing with nothing more than an occasional light dusting There's no doubt about it. Once you have tried this modern wax polish, you'll never go back to old-fashioned, dust-catching, sticky oil again. Johnson's Cream Wax is the solution for furniture polishing problems. Try it. See how simple it is to bring out the beauty of your home! KINGS MEN: "Look on the bright side

(CLEARS THROAT) Molly, I've been thinking. Dearie - I know it. You do?

I do. I know all the signs. You've lit your cigar four times with a burnt match; you've been reading the morning paper upside down, and twice, when a fly lit on your bald spot, you've reached up and scratched the lampshade. My gosh, I thought you were just settin' there darning socks.

After all these years, I can darn socks from memory. Just hand me a needle and a thread and a hole and the rest is automatic. Well - let's have it.

Eh? Let's have what?

Your decision.

Well, I decided that we - (PAUSE) How did you know I'd come to a decision?

I know the signs for that, too. You brushed the ashes off your vest, uncrossed your legs and cleared your "throat.

McGee - 3/30/48 CLOSING COMMERCIAL

WILCOX:

Rain or shine, hot or cold, every day in the year your kitchen linoleum should be wearing a coat. It should be wearing a gleaming, shining coat of Johnson's Self Polishing Glo-Coat. Glo-Coat adds beauty to kitchen linoleum, and makes it look its glowing best...the whole room becomes a more cheerful place to work, because linoleum colors sparkle with an extra luster. The new Glo-Coat now shines nearly twice as bright as before, and believe me, that extra lustre is important in the room where you homemakers spend most of your time. It's so easy to make a kitchen bright and shining with Johnson's Glo-Coat. You merely apply and let dry. There's no rubbing or buffing. And that protective film of wax can be kept spotlessly clean by an occasional wipe or two with a damp cloth. Yes, friends, for shining beauty, for protection, for ease in cleaning ... your linoleum should be wearing a coat of Johnson's Self Polishing Glo-Coat. It really brings out the beauty of your home.
