ANNCR:

Out of all the different kinds of cigarettes on the market today,
there is only one brand that earns so much loyalty from so many
people. That brand, of course, is Camel....the most popular
cigarette of all. You don't find Camel smokers switching from
one fancy brand to another, searching for....well, fads, fancy
stuff, who knows? The smokers who make Camels No. 1 today
in the U.S.A. know from common sense that the best tobacco
makes the best smoke; ~~and~~ they know from experience that the
Camel blend of costly tobaccos has never been equalled. That's
why Camels give you such rich tobacco flavor....such easy-going
mildness. This cigarette never lets you down....always tastes
good and rich, completely satisfying and ^{wonderfully} pleasurable mild. Why
don't you try America's real cigarette...the brand that stays out
front, year after year. Have a real cigarette...have a Camel!
