NILES:

Let that chant remind you that Luckies are the digarette

of finer tobaccos. With independent tobacco experts --

buyers, auctioneers, warehousemen -- with men who know

tobacco best - it's Luckies two to one.

learning. On the first page of the book we see the

beautiful picture of six scholars who were chosen at

random from our student body here tonight to take

exeminations for top degrees and \$95 in prizes. But before

we get to the lesson on page 2, we want you to make friends

and influence each other --- So dip deep into that apple

pie and dunk for those cherries in that lemonade. Leap

lightly with laughing toesies and cut a dingaroo through

yonder posies -- pick a pal and swing a gal - chuck your

trance and come on yes dance!

NILES:

Here's Dean Niles with a big topic of conversation ...

Yes, Professor, it is a big topic. All cigarettes talk about it. In fact, it's what smoking is all about ...

tobacco! But when it comes to talking about tobacco, there's one cigarette that can say that its tobacco has made it the total favorite of America's independent tobacco experts. No cigarette could say more about finer

tobacco and greater enjoyment in smoking.

HIESTAND:

It's the greater enjoyment that comes only from ripe, mellow tobaccos which are milder - naturally low in nicotine content. Yes, folks, Luckies' finer tobaccos mean less nicotine. Authoritative laboratory tests reveal that, for more than two years, the nicotine content of Luckies has been twelve per cent less than the average of the four other leading brands - less than any one of them.

NILES:

You see, smokers, each year Lucky Strike analyzes tobaccos before purchase. So our buyers at the auctions have scientific facts to help them select the tobaccos that are "Sold American". If you've been looking for a cigarette of finer tobaccos, with a naturally lower nicotine content - a cigarette of proven mildness - take this tip... Smoke the smoke tobacco experts smoke. Next time ask for Lucky Strike.

KYSER:

Chillun, you be that old favorite song of ours...
"Friendship"... Keep, here's Dean Niles to talk about friendship ... in a cigarette.

NILES:

Yes, folks, a really friendly cigarette is a mighty important thing today ... more important than ever before because most of us are smoking more than we used to. Now Luckies get along well with proper millions of smokers, and you'll see a picture of the biggest reason-why on a whole lot of magazine back covers this month ... Yes, a picture of the kind of beautiful mellow golden tobacco Lucky Strike buys. And, smokers, that tobacco is just as good as it looks. For Luckies' finer selected tobaccos are milder - naturally low in nicotine content. Authoritative tests reveal that, for over two years, Luckies have averaged less nicotine than any other leading brand.

HIESTAND:

You see, smokers, Lucky Strike analyzes tobaccos before purchase. So our buyers' skill and knowledge are backed by scientific facts, when they bid at the auctions. As a result, they can select tobaccos which are riper, mellower, and milder -- naturally low in nicotine. So if you're smoking more today, think this over: Luckies are the cigarette of finer, friendlier tobaccos ... tobaccos naturally low in nicotine. For proven mildness - mildness that means something - ask for Lucky Strike, Remember, with men who know tobacco best, it's Luckies 2 to 14

- Excitement runs high waiting for the sales to begin. VOICE #3: Listen ... the warehouseman calls out the price of the opening bid ...
- Here's some mighty pretty tobacco start 'er at 22. VOICE: (CHANT OF AUCTIONEER AND FADE - HOLD B.G. - ALSO CROWD NOISE B.G.)
- The auctioneer asks for #22 a hundred pounds for this fine, NARRATOR: ripe leaf ... Yes, and gets the bid - 22 from Company A. But right off the bat a leaf dealer makes it 23 dollars ... 23' ... 23 ... and a buyer for a foreign company signals 24 ... 24 dollars bid. (COMMERCIAL CONT'D)

NARRATOR (Cont 'd)

But who'll get it - is a toss-up. There are over a dozen buyers on the line, each competing with the others. They do it by Signals, swift and sure. The auctioneer's quick eyes never miss ... There goes a signal from Lucky Strike, making it 25 - 25 dollars bid. But Company B raises it to 26 ... Then Lucky Strike 27 ... say, this is a fight...

The auctioneer looks at the buyer for Company B ... He's taking a second there but he signals 28 - 28 ... Another buyer bids it up to 29 - will he get it? Hold on ... that American Tobacco Company buyer signals again and the auctioneer steps up his chant to 30 - 30-he looks around at every buyer - but there are no more signs - no more bids 30 - 30 - it's going to Lucky Strike - listen - (CHANT UP AND SOLD APERICAN)

HIESTAND:

There you see how tobacco is bought - right out in the open market ... in open competition ... where everyone can see which company buys what tobacco, and the price they pay. Independent tobacco experts agree that Luckies buy the finer tobaccos and records show that Luckies consistently pay higher prices to get those finer tobaccos. For instance, in the opening week of the tobacco auctions at Kinston, North Carolina, The American Tobacco Company - which makes Luckies - paid 58% more than the average market price for the tobacco it bought there. No wonder, that with people who actually go to the auctions ... with independent buyers, auctioneers and warehousemen ... with men who know tobacco best, it's Luckies 2 to 11

Chillun, every time I buy a magazine at a newstand, I get downright homesick for dear old North Carolina ....

NILES:

And I know why, folks, it's because of those pictures of Luckies' tobacco on magazine back covers. Really, that Lucky Strike tobacco is enough to make any southerner homesick. For it's some of the finest looking leaf this country ever grew. And, folks, it's just as good as it looks. It's ripe and mellow and, very important in these days of increased smoking, Luckies' tobacco is milder - naturally low in nicotine. Authoritative tests reveal that, for over two years, Luckies have averaged less nicotine than any other leading brand.

HIESTAND: You see, smokers, Lucky Strike analyzes tobaccos before purchase. So we have the help of science in selecting the finer, friendlier tobaccos ... tobaccos that are not only ripe and mellow, but milder, naturally low in nicotine. If you're smoking more today, think this over: Luckies are a cigarette of proven mildness - mildness that means something. So smoke the smoke tobacco experts smoke.

for both of 'em.

NILES: I sure have, Professor. And I'm going to demonstrate.

Here's the way that first expression might be used:

"Luckies are made of finer tobaccos."

VOICE: <u>Says</u> who?

NILES: Says America's independent tobacco experts. They're the one group of men in all the world best qualified to say which cigarette gets the finer tobaccos at the auctions - and they smoke Luckies 2 to 1.

VOICE: So what?

NILES: So take a tip from these experts. You get real smoking enjoyment in Luckies - the greater enjoyment that comes only from ripe, mellow tobaccos which are milder - naturally low in nicotine content. Yes, folks, Luckies' finer tobaccos mean less nicotine. Authoritative laboratory tests reveal that, for more than two years, the nicotine content of Luckies has been twelve per cent less than the average of the four other leading brands -- less than any one of them.

HIESTAND: You see, smokers - each year Lucky Strike analyzes tobaccos before purchase. So our buyers at the auctions are scientifically guided in their selections. If you've been looking for a cigarette of finer tobaccos, with a naturally lower nicotine content - a cigarette of proven mildness - take this tip ... Smoke the smoke tobacco experts smoke.

NARRATOR: This warehouse is big as an armory - with countless skylights- through which the sunshine streams down on row after row of baskets of tobacco. Each basket contains tobacco of a certain grade and quality. They're to be sold basket by basket for the highest price they'll bring. The competition is fierce. There stands the auctioneer who chants each sale - opposite him the buyers - all around, excited groups of farmers who raised this tobacco. The warchouseman's about to call out the price of the opening bid on another basket...Listen ....

VOICE:

Here's some mighty pretty tobacco, boys - start 'er at 23.

NARRATOR:

The auctioneer asks for 23 dollars a hundred pounds and gets the bid from Company A. In a split second Company B ups it to 24 - 24 dollars bid - 24 - 24. A leaf dealer bids 25 - 25. Over a dozen buyers are in there eager to bid, each competing with all the others. They do their bidding by silent signals - a wink, a nod, a jerk of the hat. It's faster then shouting out the prices.

The Lucky Strike buyer just upped the price - it's at 27 now, 27 dollars bid. But the buyer for Company B raises it to 28. And a foreign company bids 29 - 29 - 29....

Then Lucky Strike - 30 - 30. The auctioneer looks around at the other buyers but they're not doing any signalling now. There are no more bids -- it's going to Lucky Strike-Listen --

24 dollars bid - 24 - 24 - a leaf-dealer bids 25 - 25! (FADE OUT SOUNDS)

NILES:

Folks, that leaf-dealer, in all probability, was an independent tobacco buyer - buying for his own account. And say, you've got to know tobacco to make a living that way! As a well-known independent tobacco buyer, Mr. Reuben G. Fleming, of Middleburg, North Carolina, said recently:

MAN:

I've invested about \$200,000 of my own money in tobacco. And a penny mistake per pound of tobacco would cost me a lot of money. So I've got to know tobacco. I see Luckies buy the most desirable types, so it's natural for me to smoke Luckies. They've been my cigarette for 13 years now.

HIESTAND:

Smokers, Mr. Fleming is typical of the vast majority of independent tobacco experts - experts not connected with any cigarette company. Sworn records show that among these independent warehousemen, buyers, and auctioneers, Lucky Strike has twice as many exclusive smokers as have all other cigarettes combined. And remember - Luckies! finer tobaccos are naturally milder - naturally lower in nicotine content. Authoritative tests reveal that, for over two years, Luckies have averaged less nicotine than any other leading brand. So, for a cigarette of finer tobaccos with a naturally lower nicotine content - a cigarette of proven mildness - smoke the smoke tobacco experts smoke. Next time ask for Lucky Strike.

the greater enjoyment you get from tobaccos that are ripe
and mellow, yet milder - naturally lower in nicotine
what you find the work to tobacco
content ... That's interest For, as independent tobacco
experts will tell you, Luckies are made of finer tobaccos.

And Luckies' finer tobaccos are naturally milder -naturally lower in nicotine content. Here's the proof ...

Authoritative laboratory tests reveal that, for more than
two years, the nicotine content of Luckies has been twelve
per cent less than the average of the four other leading
brands -- less than any one of them.

Hierand

You see, each year Lucky Strike analyzes tohaccos before purchase. So our buyers at the auctions have scientific facts to help them in buying tobaccos that are not only ripe and mellow but milder -- low in nicotine. So, for greater smoking enjoyment -- for proven mildness -- smoke the smoke tobacco experts smoke. Remember - with men who know tobacco best, it's Luckies 2 to 1:

KYSER: --- Well, I didn't mean to upset you fellows ---- and I

the first question.

ADD FIRST QUESTION ROUND

# (QUESTION ROUND 1)

- 1. Let's get into the boxing ring and name a few songs I hope you'll be saved by the bell. Jack Haynes of Milwaukee says the first time

  Max Schmeling fought Joe Louis the "know-it-alls" shook their heads

  and said "He's a fool to get in the ring with Joe, but (PLAY). Maxie

  surprised everybody and won. Joe said "He really hit me, but all

  I ask is (PLAY) In the first round of the return bout fight, Joe let

  him have it, and Maxie sang (PLAY).
- 2. The second question deals with the name "Ken" and if you ken, Evelyn Fontayne of Los Angeles wants you to name two announcers, a magazine and a comedian from the following list: Ken Niles, Ken Murray, Ken, Ken Carpenter, Kissing Ken.
- 3. Here's a well-known orchestra theme song and Bobby Bronson of Wilson, N.C. wants to see if you savvy as to whose it is (PLAY). Which of these two play violin, Jan Garber, Jan Savitt, Jan Rubini, Jan Pierce, Jan-u-ary?

- 4. We have shown before that names of most all furniture and house-hold furnishings have another meaning. Tenight we are going over to a window in the room and from that point of view Eleanor Thompson of Chicago wants you to explain the meaning of the following statements. "I don't know why she prefers him look at that bay window with a wide sash around it His past is shady he's really a pane and he doesn't carry much weight, but love is blind, so I guess it's curtains for me.
- 5. Let's name this good old song for Frank Becher of New York (PLAY). Now can you distinguish between any three of these: stumble, fumble, grumble, tumble, bumble, humble, jumble, mumble, rumble seat and swiss on rye.
- 6. Betty Parker of Endicott, Nebraska, points out that many songs are distinctly associated with certain people. Here are three sturdy, stout tunes that are associated with singing ladies who are "ditto".

  "God Bless America", "Some of These Days" and "Old Rocking Chair".

7. Here's a number I know you'll recognize right away. (PLAY)
Now Don Allen of Fort Wayne, Ind., says that's the orchestra theme song
of either Jimmy James, Jimmy Joy, or Johnny Johnson? Which do you
think?

8. It's time for another musical arithmetic class and our tune tonight is "Sweet Adeline". Here are the words, and Mrs. F.W. Allen of Des Moines, Iowa, wants you to sing them. Somewhere along the line I'll give you some numbers to add - add them out loud but by all means keep singing. All right let's go. (PLAY)

9. This coming Saturday, the foot-ball season really gets under way and in addition to the California-Michigan game, Miss.-Florida, and Minn.-Washington U games, Columbus Chio is the scene of a clash between Chio State and (PLAY). They are known as the panthers and they played here in the Rose Bowl. Did Ohio State win the Big Ten Championship last year?

(SOUND: SCHOOL BELL)

Well, that's the end of the opening round. Have you gentlemen Professor Kyser. As representatives of the Horror Men of KARLOFF: America, Incorporated, - we have reached a decision. You have --KYSER: Yes, we've decided that you must join our organization. LUGOSI: I must join the Horror Men of America - but why? KYSER: Because -- you're as horrible as we are. LORRE: I am? (PLEASED) thuk- Fin as horrible asyon are - What! I am KYSER: We think so. LUGOSI: And a lot of people feel the same way we do. KARLOFF: Well thanks fellas, but what makes you say that? KYSER: Why---er---your contestants--KARLOFF: You just killed two of them of -- didn't you? LORRE: Shucks, I never thought of it that way. KYSER: Well, here is the name of the one who is left - Read it LUGOSI: Professor. Oh, I'd like to----thank you --- Why it says here- that the KYSER: winner of the first round is none other than \_ AUDIENCE APPLAUSE Yes - that one escaped you but we'll get to him later -KARLOFF: won't we Peter? KYSER: Fifty-five bands from miles around played old-time tunes all night! "Arkaneas Travelor" - "Old Dan Tucker" - "Wabash Cannon Ball." Ton thousand people attended the jamboree! Where? Where but in my own home town of Rocky Mount, North Carolina, celebratin' the Opening Day of the tobacco auctions.

(MUSIC AND CROWD UP AND FADE)

NILES: And, folks, here's that great sports announcer, Knox Manning, to prove to you that a tobacco auction can be just as exciting as a Rose Bowl game.

(MUSIC OUT - KEEP CROWD UNDER)

MANNING: Howdy, folks. Let's stop into one of Rocky Mount's eleven big tobacco warshouses and see what's what. (CROWD NOISE UP AND DOWN) Say, it's a big building - more floor space than a football field - and it's jam-packed with farmers, crowded in between the rows and rows of beautiful Bright tobacco. This tobacco is to be sold basket by basket, for each contains a certain grade and quality. And the price depends on the way the buyers value it. They bid in competition you know - cigarette companies, foreign companies, and leaf dealers. That's where the hogins! And right now the warehouseman's going to start things going by calling out the opening bid on the first basket of tobacco. Listen.

VOICE #1: Mighty fine tobacco boys - start 'er at 22.

VOICE #2: (SHOUTS SLIGHTLY OFF MIKE) 22!

(CHANT OF AUCTIONEER AND FADE - HOLD B.G.)

MANNING: Did you hear that bid of 22 - 22 dollars a hundred pounds?

That bid was shouted out by one of the leaf-dealers,

standing down at the end of the line. Most of the bidding
is done by signals - quicker than shouts. The

auctioneer's eyes move constantly from buyer to buyer as
he chants each bid. Those bids are going higher - higher.

The price is up to 25 now - 25 dollars - 25 - 25.

Oh - oh - there's a signal from the Lucky Strike buyer,

making it 26 - 26- 26. But Company B bids 27 --

VOICE #2: (SLIGHTLY OFF MIKE) 28!

MANNING: That leaf dealer again - he sure wants this leaf - 28 - 28.

This is hot bidding. Now that foreign company bids 29 - 29 - 29. Are they going to get it? No, here's Lucky Strike upping it to 30 - 30 dollars bid. The auctioneer's giving all the other buyers a chance to up that bid if they want to. But no more signals. It's going to Lucky Strike at 30. Listen.

(CHANT UP AND END SOLD AMERICAN)

HIESTAND: There you see how tobacco is bought - right out in the open market... in open competition... where every one can see which company buys what tobacco, and the price they pay. Independent tobacco experts agree that Luckies buy the finer tobaccos and records show that Luckies consistently pay higher prices to get those finer tobaccos. For instance, at Rocky Mount, North Carolina, from the opening of the tobacco auctions until last Friday, the American Tobacco Company - which makes Luckies - has paid 56% more than the average market price for the tobacco it bought there. No wonder, that with independent experts who watch these sales... with independent buyers, auctioneers and warehousemen... with men who know tobacco best, it's Luckies 2 to 11

  - (3) Ukelele Ike is not the name of a song.

NILES:

A leaf dealer like that - buying for his own account - may purchase no more than 20 or 25 baskets of tobacco out of 2,000 or more sold in a single day at auctions. But as one well-known independent tobacco buyer, Fred L. Evans of Danville, Virginia, told us recently:

VOICE:

I may buy only a few baskets but I watch every sale that's made. It's my business to know just who's buying what tobacco. And I've seen the kind of fine tobaccos Luckies buy. That's why I've smoked Luckies for 13 years now.

HIESTAND:

Smokers, sworn records show that among independent tobacco experts like Mr. Evans - buyers, auctioneers and warehousemen - Lucky Strike has twice as many exclusive smokers as have all other cigarettes combined. And remember - Luckies' finer tobaccos mean less nicotine. Authoritative tests roveal that, for over two years, Luckies have averaged less nicotine than any other leading brand. So, for a cigarette of finer tobaccos with a naturally lower nicotine content - a cigarette of proven mildness - smoke the smoke tobacco experts smoke. Next time ask for Lucky Strike.
