

## OUR MISS BROOKS LOG & OPENING LINES

*The following tome is still a work in progress. So far, only the opening lines of programs that are available for listening have been added. When completed it will also contain the first lines of all of the so-called "missing" shows and some background information on the production and cast. In the mean time, feel free to contact Gary Hart ([gehart@yahoo.com](mailto:gehart@yahoo.com)) with any questions, comments or suggestions.*

All dates and first lines have been verified by original scripts from the KNX Script Collection, housed in the Thousand Oaks Library, Thousand Oaks California.

None of the scripts are titled, nor did the writers or producers officially name any of the episodes. All of the show names have emanated from various collectors over the years. Some are based on oft-repeated phrases (e.g. An American Tragedy or Male Superiority), others refer to particular plot twists (Radio Bombay), brief general descriptions (Mr. Conklin's Carelessness code), something mentioned at the beginning of the program (The Weighing Machine), etc. Because multiple sources are involved, many programs have several alternate titles. The most common have been listed below in bold uppercase letters and others as aka (also known as), in standard text.

The numbering system in this document refers to episode, not script numbers. There were two sets of script numbers. The first eight shows, which had been prerecorded for broadcast as a summer replacement series are numbered one through eight. Beginning with the first show sponsored by Colgate (October 3, 1948), script numbers re start at number one and carry on for the rest of the run. There were no other changes. This offers evidence that the first live broadcast was on October 3, and that the first two shows aired in the regular series (September 19, and 26,) were transcriptions.

Our Miss Brooks often reused scripts, usually altered in detail, but on several occasions reproduced verbatim. Reproduced is the key word. All shows were original performances, done before a live audience. CBS did not broadcast "re-runs" of past programs during the regular sequence of a series. However after production had ended on June 17, 1956, the network did air repeats of shows from 1949 through 1952. Beginning with what seems to be a three-week test run in October of 1956 and then as part of the regular Sunday schedule from January 6, to June 30, 1957. Notices about CBS radio programming replaced original Colgate ads and these in turn were likely substituted with local advertisements by affiliate stations. At least two examples of the "sustained" versions are available.

Many of these shows were also edited of all references to sponsorship and aired under the auspices of the Armed Forces Radio and Television Network, with their own announcements inserted in lieu of commercials. It is surprising how many of the shows still available for listening (usually heavily edited) come from this source. And at the same time, given the following quote: "In it's hey-day the show was broadcast live from Hollywood at 3:30 to play in the East at 6:30 then did a live repeat for the West four and a half hours later." (John Dunning On the Air p 529) it is even more shocking how few complete originals have survived.

Sustained

The Script is similar to the one later used on August 21, 1949. Maureen Gammill plays Mrs. Conklin in this version

Our Miss Brooks is an English teacher at Madison High School. She can tell you everything you need to know about the present and past subjunctive, but she's not at all sure about the future, that is her romantic future with biology teacher Phillip Boynton. Like most men of science, Mr. Boynton is quite modest and reticent, especially when it comes to women. Well this of course is in reality, but in the dreams of Connie Brooks he's sometimes quite another fellow. Listen

**Note:** Often the 1955 program "An American Tragedy" is listed in this slot see April 3, 1955 for first lines of that show.

259 **PHOTO FEUD**  
Heavily edited. No commercials open and close cropped.

For some time now, our Miss Brooks and Miss Daisy Enright, both English teachers at Madison High, have competed for the affections of Mr. Boynton, Madison's Biology instructor. Their rivalry may be compared to the spectacle of two fine boxers skillfully sparring for an opening, or two master chess players carefully planning each move, or two great generals planning attack and counter-attack.

October 24, 1954  
260 **STRETCH IS IN LOVE AGAIN**  
aka Stretch Has a Crush on Judy Brill  
AFRS Same script as 22, October 1950.

Well, quite a few romances have started between faculty members teaching at the same school. But for our Miss Brooks, who teaches English at Madison High School, romance is a problem.
